His complexion is very light; has hair perfectly straight, and of a light or yellow color, which has lately been trimmed by a barber in good style; he has blue or gray eyes, is very slow and careless in his movements, and is rather slow in speech. The boy, unless closely examined, might be mistaken for a white boy, and he may possibly attempt to pass himself off as such.

The New Temperance Movement.—The Boston Journal says, the new temperance movement is now fairly inaugurated, under the name of the Massachusetts State Temperance Alliance. It is a regular State organization, and promises to accomplish more than any other policy which has been adopted for many years. Any person can become a member of the Alliance by paying one dollar into its treasury and subscribing to its pledge. All contributors to the million fund are also members of the Alliance. Dr. Charles Jowett has been appointed principal agent, and has already commenced his labors. He has within a few days obtained a large number of dollar members. The movement meets with general favor, and many thousands will undoubtedly unite with the organization.

We learn that it is proposed to start a monthly temperance journal, which will be edited by Dr. Jewett. The reputation of the Doctor as a writer, together with his thorough knowledge of the temperance cause from its very commencement, will ensure a great circulation for the paper.—He wields a strong pen, and his articles always have the true ring.

A number of other agents will be employed to lecture and obtain dollar members, and it is probbable the State will be thoroughly canvassed.

Shipwreck and Massacre of 330 Persons.—The New York Courrier des Etats Unis gives a long account of the loss of the ship St. Paul, and the massacre of three hundred and thirty persons on board, both sailors and passengers. The St. Paul belongs to Havre, and was making, at the time of her loss, a voyage from China to Australia, with a load of Chinese emigrants. It was at one of the numerous islands of the Louisaide Archipelago that the vessel was lost.

The wreck took place on the 11th of September, but the passengers escaped from this peril, and an English vessel was hailed. It was too small to carry away all the unfortunates, and 330 were left till word could be taken to Sydney, and another vessel sent to their relief. This relief expediton arrived at the place in December or January, and found that of the 330 individuals, but one, a Chinaman, had been saved, all the others having been massacred by the savages amid most frightful tortures. These are all the particulars given.

As the greater circle includes the lesser, so is human reason contained in the divine reason.

Patriotism consists not in praising dead patriots, but in adhering to their principles.

We injure ourselves more than our "enemies," by indulging hatred against them.

Obstinacy is folly, but endurance in right, is wisdom.

The truths of morals are as exact and certain as those of mathematics.

There are three things men should not waste—time, words, money.

It is folly to wait for the improvement of fools.

SPECIAL NOTICES.

SEWING MACHINES.

The Grover & Baker are always preferred, when coming in competition with any other machines.

Portsmouth, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. Allen & Paine.

Portsmouth, April 12, 1859.

We have seen one of Grover & Baker's $18 Sewing Machines used for the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair. We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

GALLERY, No. 33 Congress Street,

consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.

N. B.—I do not charge any more for **good** Pictures, than is paid every day for **poor** things.

HIP DISEASE.—The most that can be expected in this disease is to prolong life, with sickness or deformity of the hip joint. The PERUVIAN SYRUP will support the strength under the slow and painful ulceration, and will prevent the profuse discharge of matter, which, if opening externally, will almost certainly prove fatal.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

Poisonous Inoculation.—Persons who, by accident or otherwise, become inoculated with any malignant disorder, will find the **R. R. R.** Remedies prompt, quick and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or inoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Any Pain, Either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Health and Strength secured by the use of THE SPRING AND SUMMER MEDICINE,

Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate Dyspepsia, Costiveness, Complaints that main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and a torpid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Charles's London Cordial Gin.

The Original and Only London Gin Imported.

THIS GIN, Distilled in London, rom sound Barley, under the sole supervisione of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the very noble kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant and diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—None Others is Imported.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 37 Cornhill; S. E. Packer, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 87 Blackstone st.; R. LOCAL.

NEW SCHOOL HOUSES.

Some of our city school houses are excellent; while others are *very bad*. This kind of general average may satisfy some persons, who are neither teachers nor scholars, nor the parents of scholars in the bad school rooms.

But the child who gets a fever, or rheumatism, or consumption, in the cellar at Christian Shore, or in any other damp or unwholesome place where a school is kept, seems to have no more consolation in the premises than one human being can have in being assured that his misery is compensated by making many others happy at his expense. He may say, to be sure, "the city spent large sums for the Haven School and High School—but I don't see what good it will ever do me, if I die with this dreadful cold, brought on by sitting in a cellar."

To show that we do not talk without book, we copy a few lines from the School Report of District No. 1. The committee complain that the rooms used for Miss Dodge's and Mrs. Mullen's schools are not fit, and then quote as follows from a previous report:

"We call your attention," report the committee of 1857, "to the urgent necessity for more suitable rooms for both of our Primary Schools. That [then] occupied by Miss Miller is altogether unfit to be used as a school room, it being damp and unhealthy, water frequently coming in from the adjoining cellar. That occupied by Mrs. Mullen is also quite inadequate to the wants of her school, the story being low, and its dimensions every way too diminutive. The expense of preparing rooms suitable for these schools would be but trifling, in comparison with the loss of health and and life, endangered by the exposure of teachers and pupils to the unwholesome state of these rooms."

The committee of the second District say:

It gives great satisfaction in our district, that the city proposes to erect the long-desired new building in place of the outgrown, worn-out and, we hope soon to say, cast-off Cabot street school house. Many citizens subject themselves to the expense of a private school, rather than allow their children to attend school in so crowded, ill-ventilated, cold and cheerless a place, and justice calls for the removal of this nuisance, and the erection of a large, high-studded, well-ventilated building. We would suggest that it be built of wood, and warmed by stoves and not by furnaces.

INDEPENDENCE FOR NEW HAMPSHIRE.—The Manchester American says, the recent visit to Portsmouth of some of our prominent business men, in company with gentlemen heavily interested in all our State railroad communications, has brought this subject before us. We have the best seaport in the world virtually at our doors. Only ten miles of railroad would put Manchester in communication with it, and on a line with a new current of business which would vastly augment the value of the Concord and the roads connecting with it north.

Wharfage accommodations can be had to-day at Portsmouth, and the P. & O. Road extended to them at a very slight expense, where vessels of the largest tonnage can move up and discharge their cargoes.

We cannot resist the conviction that sooner or later this avenue to the trade and commercial wants of New Hampshire will be opened; how soon, perhaps, depends upon the action of our *very next Legislature*.

The interests of Manchester, and of every part of the State north and east of it, seem to be identical in this matter, and we are glad to learn the indications are very strong that the Concord Road will not be disposed to give the cold shoulder to any move in that direction.

We hope, now that the project is under consideration, that it will be pushed with that energy which distinguishes Manchester in any business enterprise, and that unfaltering sagacity which has characterized the managers of the Concord Railroad in all time past. Such an enterprise, we believe, would mark a most important era in the history of the State, and give an impetus to every branch of industrial interest, mechanical or agricultural, which would enable us to develope to the utmost our natural resources.

MERCANTILE LIBRARY ASSOCIATION.—At the annual election of the M. L. Association, held April 1st, the following officers were chosen for the ensuing year.

President, James C. Brown.
Vice President, Edward P. Kimball.
Secretary, James W. Tuckerman.
Treasurer, John S. Rand.
Directors, E. A. Stevens, D. W. Jones, A. M. Payson, C. C. Whittemore, Wm. H. Sise, G. T. Vaughan.
Trustee, Rev. Daniel Austin.

☞ F. H. Berick will preach at the Advent Chapel to-morrow three times.—Friends are invited.

MADAME LESDERNIER'S READINGS.—We are sure all who listened to Madame Lesdernier's exquisite reading on Thursday evening, will agree with us in saying that they passed a most agreeable hour.

This lady possesses the natural gift of a noble voice, which has been so highly cultivated that it becomes the medium by which we realize every flitting emotion of the poet's mind. She excels alike in tragedy and comedy. Nothing could exceed in pathos her rendering of "The Raven," or have been more irresistibly droll than her "Widow Bedott" or "Lost Heir."—Madame Lesdernier adds to the above a fine personal appearance and a rare combination of sweetness, grace and dignity of manner.

She is to read *this afternoon*, at the Temple, when and where we hope to see a large and fashionable audience.

THE SUBSCRIBER would gratefully acknowledge the receipt of $20.05 for the City Mission, as the result of Mr. Senter's readings at the Temple, on Fast Day evening.
N. MEDBERY.
Portsmouth, April 15, 1859.

☞ A delighted hearer of Mrs. Lesdernier's Readings on Thursday evening, informs us that her reading was of a superior order in every respect; being distinct, clear, easy and natural; displaying the passions without tearing them to tatters; and giving fullness to all without extravagance to any. Her vocal powers are remarkably fine.

☞ Rev. Dr. Peabody is to deliver a lecture on Sunday evening in the Stone Church, before the Young Men's Christian Association.

☞ In the Court of Common Pleas, at Exeter, Wednesday, 13th, the case called was that of Sanborn vs. Brown, an action against a sheriff, to recover timber that had been sold on another expectation at Plaistow. Verdict for plaintiff with $12 and interest.

On Thursday case of Graves vs. Patten was commenced.

On Friday morning, the action, Graves vs. Gatton, breach of contract alleged, suit being brought on a note payable in a wagon; was given to the jury, who on coming in at noon and not agreed, were sent back.

On trial, Young *vs* Bunker.

NEW YORK, April 15.—The Herald, referring to the latest Cuban expedition from this city, gives the following statement:

Don Jose Elias Hernandez, ex-member of the Cuban Junta, left three weeks ago with a small number of Cuban exiles, in an American schooner, with the avowed purpose of landing on the eastern coast of the island, and there raising the standard of revolt. None of the other members of the Junta have any participation in the plans of Hernandez. The Cubans here look upon the expedition as highly Quixotic, and certain to meet with a disastrous failure.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mf'g Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

Celebrated Family Machines,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE.

PRICE $50!

Machines from $50 to $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

☞ The Republican majority in Michigan at the judicial election last Monday was about 12,000. *At least* five-sixths of the counties went Republican—usually by increased majorities. The Republicans were warned that if they adopted a registry law they would run the risk of losing the State. They did adopt it however, and we see the result.

It is to the fineness and multiplicity of the blond tresses that they owe their silken softness.

FOREORDINATION.—An old man who believed that "what *was* to be *would* be," was one day going through a region invested by very savage Indians. As he would not go without a gun, some of his friends tantalized him by saying there was no danger of the Indians—that he would not die until his time had come, anyhow. "Yes, said the old fellow, "but suppose I was to meet an Indian, and *his* time had come; it wouldn't do, nohow, not to have my gun!"

ALCOHOL IN BREAD-MAKING.—It is estimated that the amount of proof-spirit produced that the bread annually consumed in London is 300,000 gallons. The spirit escapes in vapor during the process of baking. An attempt was made by a patent bread company in the English metropolis some twenty years since, to save the alcohol by condensing the steam in a separate chamber, but the spirit could not be saved. The bread baked proved most unpalatable, and the company failed.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 29, 1858.

PROFESSOR O. J. WOOD & Co.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to complain of my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. G. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood (Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and ubiversally beloved.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching, with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small: the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent more in proportion, and retails for $3.

HEAD'S, 14½ Market Street.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, and giving to all great well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents nightmare.

Only one dose taken at night, loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

Six teaspoonfuls of tea spoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Colic.

One dose often repeated is a sure cure for Cholera Morbus, and a preventive of Cholera.

Only one bottle is needed to drive out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all yellowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures Chronic Diarrhœa in its worst form, while Summer and Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to certify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Take a teaspoonful in the morning with the Invigorator, and a swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

IN SUNCOOK.

The Subscriber offers for sale the Cottage House and Barn, and about one-fourth of an acre of land, in Suncook Village, about one-fourth of a mile from Suncook Factory, on the road leading to Hooksett, recently occupied by Robins T. Hand, Esq., deceased. The house contains six rooms, and has recently been put in firstrate order. The Barn is nearly new, and there is a good well of water on the premises.

Being situated near the Suncook Factory and Village, the premises will be convenient for a person designing to keep boarders; or it would be a desirable location for a butcher, there being none in Suncook Village, or in Hooksett.

Apply to SILAS BURLINGAME, Esq., near the premises, or to the subscriber, at Portsmouth.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous disease who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicine sent all over the country, carefully concealed from scrutinizing inquiry.

Be particular in finding Dr. Hughes. Do not be lured from the right path; or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REMOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

F. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 d1y

Cure the Piles.

GAYETTY'S MEDICATED PAPER, for the Water Closet, should be used by all families, and by all persons either now afflicted, or likely to be afflicted by Piles. It is a grand curative and preventive, and a great luxury.

Indian Physician.
Dr. B. S. GOODWIN
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 3 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered from any place. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

MONDAY, APRIL 18, 1859.

AN IRISH-AMERICAN IN IRELAND.

An intelligent letter writer from County Clare, Ireland, gives the readers of the Pilot some valuable information from Ireland.

He says, very pertinently, "It may with truth be said of St. Patrick, as it was of the Saviour of the world, that a 'prophet is not without honor but in his own country.' I have been greatly disappointed at the manner in which the national festival was celebrated yesterday. Compare Dublin, Belfast, Cork or Limerick with New York, New Orleans, Boston or St. Louis, on St. Patrick's Day, and you will see how much more Irish we in America are than the Irish themselves, "*Hibernicis Hiberniores*." To be sure, in a religious point of view, Patrick's Day was observed like an ordinary Sunday; the faithful all attended Mass and refrained from servile work, but as a *general thing* there are no processions, no music, no military pomp or parade, nor is the shamrock generally worn by the people. In fact, the Irish people of the present day are no better, as far as national patriotism is concerned, than "West Britons," whose entire energies with their ancient reminiscences seem to be absorbed in the universal desire to make a living and to make money.

"The national school education, the strict surveillance exercised by the ubiquitous police, the pressure of the famine years, and the poor law regime, all of these have made them as different from what they were fifteen years ago as can be well imagined. There is some improvement visible in the residences, dress and implements of agriculture among the *farmer class*, but, in my opinion, the poor, that is the cottier or laboring class, are more degraded than ever all over the country.

* * * Better times are approaching, however; if Bright succeeds in wresting his vote by ballot, and reform in franchise and representation from an unwilling government, then Ireland may enjoy equal laws with England, and become contented and quiet, if not independent.

"There is one subject on which I would wish to say a word to the readers of the Pilot, and to all Irish-Americans, if I thought they would hear or heed me, and that is the utter absurdity of their attempting to excite the Irish people to anything like revolutionary movements. No; if 20,000 men were to land here to-morrow, equipped, armed and provisioned, I verily believe they would get no followers. How absurd, then, if not criminal, the notion to revolutionize the country through secret societies, and the use of a few thousand dollars, collected in the United States for that Quixotic design.—The clergy are almost to a man opposed to anything savoring of an American filibustering movement; the gentry and farmer class are opposed to such a movement, and would fight against it if attempted; and none but slim, aspiring young clerks on small salaries, and a class of wretched, barefooted, unemployed paupers, would look upon the much-talked-of "American invasion" as anything but the greatest curse could happen to Ireland, if it could take place. The Irish are thoroughly subdued and content with their political condition, and if they are, we in the States ought also to rest satisfied, and 'let them be.'"

☞ A colored convict in the Philadelphia penitentiary recently manufactured a banjo of novel materials. The reverberating portion is made of a tin pan, the stick part is made from a strip pulled from a bunk, the tail piece, to which the strings are secured, is made from the heel of a shoe, while the strings were cabbaged from the warp furnished the inventor for weaving purposes. The instrument works well, and it can be played with accuracy. It was taken from the maker because he kept twanging it during the whole night, and robbed his fellow convicts of sleep.

☞ Wild animals are sociable creatures. In a menagerie at Philadelphia an old lion, when without a companion, was quite uproarious, but a small black tiger having been put in his cage, he is decidedly amiable. An elephant is only rendered contented and quiet by giving him company, and accordingly a little dog is generally tied near him, and the pair live together in the most friendly manner.

LONDON BOOKSTORES.—The bookstores of London are generally not to be compared with ours. Such establishments as the Harpers, would set London booksellers crazy.

☞ Parley, of the Boston Journal, says, in writing from Washington, April 13:

A hundred guns came booming across the Potomac this afternoon from old Virginia's shore, where the Republican Association had gone to fire their salute, Mayor Berret having refused them permission to burn powder in the metropolis. Their guns were planted directly opposite to the White House, for the edification of the President.

This evening they are holding a meeting at Odd Fellows Hall, which is well filled, and I saw no symptoms of disorder. After music by the band, Frank Blair, that veteran Democrat, delivered an address. Major B. B. French then read the Declaration of Independence, in a clear and impressive manner, after which Mr. Goodloe of North Carolina commenced his address.

Mr. Buchanan has celebrated the anniversary by complimenting the "salutatory" of Gen. Bowman, to his visitors, and expressing his belief that *the Constitution* (newspaper) is a safe chart by which the Democratic barque can put into Charleston harbor in 1860, and come out fully rigged and manned for a victorious cruise.

THE WHALL CASE.—The Boston Pilot of this week, speaking of the decision in the school case, says, in closing an article under its "New York" head:—

"What is law? A scheme craftily devised to oppress the Catholics.

What will be the result of this? To make the Catholics hostile to the government, and ready to seek its overthrow."

The Traveller says a gold medal in the form of a cross, was sent from Alexandria, Va., for Master Whall, the punished boy of the Elliot School.

☞ The Portland Advertiser contains, under the appropriate head, the marriage of John Jackson to his late wife, Mrs. Florentine L. Jackson, at Dixfield, Me.

The parties in question were divorced at the last March term of the Supreme Judicial Court in Oxford County. The libel was filed by Jackson against his wife for the crime of adultery. A divorce was decreed. Thus a decree of the Supreme Court has so soon been annulled by a *Justice* of the Peace. The couplet is true this time, sure:

She's got a fool for a husband,
And he's got a fool for a wife.

A BLACK SICKLES, AND A BLACK KEY.—Among the four murderers who were hanged at Baltimore the other day, was one John Cyphus, alias Stevens. He was a colored man, about 30 years old. Cyphus was convicted of the murder of a negro named King, in Cider alley, near Rabony street. King and Cyphus' wife were on rather too intimate terms, which aroused the jealousy of the husband.—Meeting King one night last summer, at the above mentioned place, Cyphus assaulted him with a dirk knife, and murdered him on the spot.

Isn't "white man just as good as nigger?" Here is a precedent for Sickles and the Court at Washington.

☞ Probably the oldest person who voted at the last election was Capt. Joseph wood, a revolutionary pensioner living in West Lebanon, New Hampshire, who was ninety-nine years old the 8th day of last November; rode five miles, voted the Republican ticket all day, and rode home again at night, and was able to read his tickets without the help of glasses.

FAYAL HATS AND STRAW GOODS.—R. L. Harper, No. 38 Bromfield st., Boston, has just opened his beautiful stock of Fayal Hats and Straw Goods, comprising all the latest styles and most desirable patterns, in which ladies will find many novelties.—Mr. Harper is the only importer of Fayal Goods in this country, and purchasers will find at his store a great variety not to be found at any other place. See advertisement in to-day's paper.

☞ The jailor of the Ross county jail at Chillicothe, Ohio, went to a wedding on Tuesday evening, leaving only a servant girl to guard the building, when a man, disguised in a mask, gained entrance, and pointing a pistol at the girl, frightened her into giving up the keys of the cells, with which he proceed to liberate a man waiting trial for murder, and two other culprits.

☞ The Ladies' American Magazine for May has a sorrowful engraving of "The Captive," with fashion and pattern plates, &c.; and varied reading—of which one recommendation is, that it is printed on good-sized type, fit to be read. Henry White, publisher, New York—$2 per year.

ARRAIGNMENT OF LIQUOR SELLERS.—In the Boston Municipal Court, Thursday, nine keepers of low grog shops were arraigned under the nuisance act of the liquor law, three of whom, under a promise to give up the business, were let off with a fine of $15 each and costs.

POTTER'S CONFESSION.

The telegraph has given the main facts of the tragedy enacted at Lee, Me., on the 6th inst. Marshall Potter, who murdered and robbed his aged mother and two brothers, together with a young orphan, and then fired the dwelling to conceal his crime, was examined before a Coroner's jury on Monday, and made a full confession of his own accord. The following is the material portion of the confession:

"I am guilty! I came home about 10 o'clock on Wednesday night; my mother was up; she told me it was a fine time of night to come home. One of my brothers told me I had been over to Mr. Hanscom's, and carried a bottle of liquor with me; I told him I had not been there; he told me that I had; I told him I did not want any more stuff from him, or something to that amount. He told me then that if I did not keep still I should go out of doors; I told him I shouldn't go out. I went into the other part of the house and got a shingle maul, with which I took the lives of them all. I went in and struck Alexander with the shingle maul; hit him in the face and on the head, and struck Oliver several times on the head and face; neither of them struggled after I struck them. My mother came into the room and got hold of me. I swung round and struck her with the maul and she fell. She did not struggle. The house was on fire at that time. The candle was sitting on the woodbox, by the sid of the stove. I tipped it off the box into the box of shavings.—The shavings took fire, and I did not try to put the fire out. Then I made a clean sweep of all the rest in the house. I then left the house."

He subsequently admitted killing the boy, and then to searching the house and securing the money, $38 in all, with which he bought a bottle of liquor and started for New Brunswick.

Rev. Dr. Magoon, pastor of the First Baptist Church of Albany, last Sunday at the morning service, informed his congregation that he had *declined* to accept the call lately tended him (with a salary of $5000) by the First Baptist Church at San Francisco, California. He very frankly gave, in detail, the reasons that had actuated him in coming to this conclusion, and stated that it had been a great struggle in his mind as to his duty.

☞ Owing to the inclemency of the month of February, the planting season has been extended fifteen or twenty days longer than usual by the California farmers, and in consequence the amount of land cultivated has been augmented at least fifty per cent.

After whipping and coaxing had failed to induce a horse to move, the gentleman who was driving, or trying to, gave up.—Then a cartman went to him, saying, "If you please, sir, I'll make him go." The privilege was granted, and going up to the gutter, he took up a handful of mud and rubbed it upon the nose of the horse, whereupon the horse started without trouble. The cartman accounted for the affect, saying, "O, sir, it gives him a *new idea*.

HAS HE GONE?—The famous Seminole chief, Billy Bowlegs, or as he was more politely called, William Cruikshanks, died last month. Suspicions are entertained that he was poisoned. So say the papers. Billy in his day was the theme of many items—and was as famous in his way, as Sickles is in his.

FROM UTAH.—*Leavenworth, April* 15. The Utah mail of the 15th ult. has arrived.

The mormons at Provo were indignant because the troops were stationed there during the session of the Court, and there were rumors of a threatened collision, but no actual demonstration. Gov. Cumming had been sent for.

Salt Lake city was invested with an organized banditti. Some had been arrested.

☞ Mr. A. Barr of Springfield, Erie county, Pa., in attempting to halter a colt last week, had his hand entangled in the strap and was dragged nearly a mile, sustaining such injuries that he died soon after.

CLEVELAND, April 15.—Bushnell has been found guilty in the U. S. District Court, of rescuing the negro John, at Oberlin. Sentence has not been pronounced. This is the first of the Oberlin rescue indictments tried.

☞ Ninety-nine liberated slaves and over thirty free negroes are about to embark at Baltimore for Liberia. There are also forty slaves at the McDonough estate at New Orleans, who will sail for the African Republic.

Does this razor take hold well? inquired a darkey, shaving a gentleman from the country. Yes, replied the customer, with tears in his eyes; it takes hold first-rate, but it don't let go worth a cent.

☞ Washington Irving attained his seventy-sixth year on the 3d inst. His neighbors indicated their remembrance by offerings of flowers, and by visits and greeting.

A LITTLE MISTAKE THAT LADIES MAKE.—Cant words and slang phrases sound badly enough from the mouths of men, but from the lips of women they are indeed disgusting.

God gives riches to asses, to whom he cannot give anything else.—*Luther.*

SPECIAL NOTICES.

SEWING MACHINES.

The Grover & Baker are always preferred, when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never know a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

GALLERY, No. 33 Congress Street,

consisting of CASES—fancy and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.

HIP DISEASE.—The most that can be expected in this disease is to prolong life, with stiffness or deformity of the hip joint. The PERUVIAN SYRUP will support the strength under the slow and painful ulceration, and will prevent the profuse discharge of matter, which, if opening externally, will almost certainly prove fatal.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) the effects of a celebrated Parisian artist—Monsieur Heavtontitorumenos.

Health and Strength secured by the use of

THE SPRING AND SUMMER MEDICINE,

Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Fistulency, Loss of Appetite, and a torpid or diseased Liver, a disordered Stomach, or bad Blood, to whom all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 88 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Orders addressed to J. O. LANGLEY, or GEO. C. GOODWIN & CO., BOSTON.

Here's Health for the Million!!

Clarke's Sherry Wine Bitters,

Composed of Rock Rose, Wintergreen, Yellow Dock Root, Sarsaparilla, Wild Cherry, Prickly Ash, Poplar Bark, Mandrake, &c.

They operate on the three main organs of the system, the Blood, Liver and the Kidneys, curing Jaundice, Loss of Appetite, Dyspepsia, Asthma, &c., &c. For Asthma it is particularly successful. Annexed are extracts from a few of the many certificates of astonishing cures, now in the hands of the proprietor.

J. W. ADAMS, Essex street, Melrose, Ms. says: "Dr. Clarke's Sherry Wine Bitters have cured me of Weakness, Loss of Appetite, and unhealthy state of the Stomach, and they are the best Bitters before the public."

NANCY JENKINS of Sharon, Mass., was cured of Asthma of nine years' standing.

CHARLES BENTON, of Providence, says "they cured me of General Debility, and I gained eight pounds of flesh in two months."

A Diploma was awarded them by the Mass. Charitable Mechanics' Association, 1856. Judges—Drs. A. A. Hayes, A. A. Gould, J. H. Blake, W. A. Brewer, Boston.

Mechanics, Farmers, Clergymen and Public Men, all feel at some seasons of the year, the need of a gentle, natural Tonic, and no medicine can be better adapted for their purpose.

Buy this, and try it, if you wish to live to a good old age, and enjoy all the comforts of a life of perfect health.

Try them; all ye lovers of good Bitters and good health and you will find them a cheap, effectual and pleasant remedy. The largest Bottle, the lowest price, and the best medicine in the world; and sold everywhere for the low price of 25 Cents for a Pint Bottle. 38 cts. 1 qt; 75 cents 2 qts; and only $1,25 for 4 qts.

POEMS BY ALBERT LAIGHTON.

A book of poems, with this modest title, has just been laid on our table, with the author's regards, which are most heartily reciprocated.

The book is dedicated to Rev. Dr. Peabody; and contains Mr. Laighton's Poem on Beauty, which was delivered before the literary societies at Bowdoin College last August; with The Missing Ships, Songs at Midnight, The Birth of Light, My Native River, Ballad of Ruth Blay,—and forty other pieces, all of them gems, and many of uncommon richness in poetic merit and beauty of soul.

The volume is got up in neat style by Brown, Taggard & Chase, Boston, and is for sale by Messrs. Foster, Shores, and Harvey, Portsmouth.

It should command a ready and extensive sale, especially in this city, and among the Sons of Portsmouth abroad, as well as in the great republic of letters, where the author is already held in deserved high esteem, for fugitive pieces; and where he will increase in honor as he becomes better known.

Of this little yet great book, the last North American Review has the following mention:

Mr. Laighton, whose poems, as they have appeared singly in the journals of the day, have won the warmest praises from many readers, comes now before the public with his first volume, which contains, with many smaller pieces, a poem, entitled "Beauty," delivered before the United Literary Societies of Bowdoin College at the last Commencement. The pieces in this volume are, it seems to us, of singular excellence. They, first of all, impress us as the unforced, inevitable outflow of a true poetic nature, in harmony with all things beautiful, susceptible of the higher and more subtile significance of the outward world, and ever open to the breathings of the incorruptible spirit which pervades and hallows the visible universe.—Then they are smooth and harmonious in rhythm; choice and polished, yet without conceit or mannerism, in diction; rich and glowing in imagery; and lofty while unexaggerated, in sentiment. They are at the farthest possible remove from the audacity which, in our day, so often counterfeits the poet's mission by tricks of legerdemain with incongruous fancies and halting anapests, and which plays the traitor to the same mission with not a few who are capable of better things. Mr. Laighton holds out not a single bait for that clap-trap applause, which is censure and shame. His poems appeal only to the refined and delicate appreciation of those in sympathy with the beautiful, true and good. That they will fully sustain the kind yet searching ordeal of their judgment, we confidently anticipate.

Messrs. Editors:—On Friday afternoon about twenty-five of our citizens had the pleasure of witnessing at our City Farm, a trial of the Clipper Plough. As the season for turning up the soil is is fast approaching it may not be amiss, through the columns of the Chronicle, to let our farming community know that the best article that we have seen in use is the Clipper Plough, manufactured in *this city* by Messrs. J. B. Wiggin & Co., on Green street. Those who are about purchasing a new Machine would do well to call at the City Farm, and see its operations, drawn by one of the handsomest teams in this vicinity. M.

☞ The last lecture of Mr. Long's course on the Fine Arts, will be given at Hanover Street Chapel on Tuesday evening, at quarter before eight.

The subject is, the five great masters of Painting—Da Vinci, Michael Angelo, Raphael, Titian and Correggio.

☞ All the new Music published, may be had or ordered as soon as issued, at the store of Charles C. Harvey—who is agent for the enterprising and extensive music establishment of Russell & Tolman, Boston. Among their list is the "Song of the Skylark," by J. E. Carpenter, music by L. Glover—a beautiful composition; "When years shall have wasted," from Verdi's Aroldo; with an excellent variety of vocal and piano pieces.

☞ We learn that Messrs. Joseph and A. J. Whidden have purchased the extensive Farm of Ezra Young, Esq., on Sodom Road, and purpose establishing a new Milk Route in this city. It will be seen by their advertisement, that names may be left, or milk procured, at the store of H. F. Gerrish, Daniel St.

☞ Among the things we should have desired our up-country railroad friends not to observe, on their visit here the other day, is our City Hall—ha! ha! So when, standing near the North Church, we pointed to the old hulk, per request, we didn't correct our friend's mistake, when he praised the Rockingham Bank for its beauty. When shall Portsmouth have a City Building worthy to stand up along side of the Church, Bank, and Custom House?

☞ At their rehearsal, Friday evening, the Old Folks' Choir adjourned to their regular monthly meeting, on the first Sunday evening in May, at Exchange Hall.

☞ We understand the New Hampshire Conference of the Methodist Episcopal Church will be held in this city during the first week of May.

FROM JAMAICA.—Advices from Jamaica represent the recent outbreak at Westmoreland to be the commencement of a fierce war of color and race on the island. [Nonsense.]

The British war steamer Styx returned to Kingston on the 19th, from a fruitless search for the missing boat of the wrecked steamer Jasseur. Little doubt was entertained of the loss of the boat, with her crew of thirty men.

THE MORMONS.—It is reported that Mr. Kimball, eldest son of Heber C., and Joseph Young, son of Brigham, have apostatized, and are about leaving for the States with their first wives, leaving their "spirituals" behind. At least five thousand apostate Mormons will leave for California early in the spring.—*Boston Journal.*

☞ Rev. Mr. Muzzey, of the Pleasant street Unitarian Society, Newburyport, has received a purse of $300 from friends in his society.

☞ The Cleveland Plaindealer, a Democratic organ, having read the returns from Connecticut, exclaims, "Farewell old Nutmeg!"

☞ Col. Forney is represented to be in favor of a ticket, for 1860, with the names of Douglas and Hickman on it. Whether it is to be a democratic ticket, is not stated.

A young lady being asked why she did not attend a party to which she had been invited, replied: "I forgot all about the party, and ate onions for breakfast."

☞ Joshua Converse of Lowell, has been appointed agent of the Salmon Falls Manufacturing Company.

☞ Report says that Bennett of the N. Y. Herald is soon to be appointed Minister to France.

☞ A Hebrew friend informs us that this evening is the Jewish feast of the Passover.

An Albany paper thinks that it is woman and not her wrongs, that ought to be redressed.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

VIOLETS.

BY ALBERT LAIGHTON.

I found violets to-day!
In the budding wildwood,
Where I roamed in childhood,
Where the velvet mosses spring,
Where the robins build and sing,
There the blue-eyed darlings lay.

As I plucked them one by one,
How their pure touch thrilled me!
How their sweet breath filled me
With a vision of that time,
In the summer's golden prime,
When all things beneath the sun

Seem to speak the joy they know.
Tuneful streams were flowing,
Scented winds were blowing,!
In the fields wild roses blushed;
To the meadows, clover flushed,
I could see the mowers go.

Surely, said I, soul of mine,
Full of restless yearning,
With thy fond hopes burning,
If there sleep flowers of spring
Such a sweet foreknowledge bring,
Then mayst dream thy dreams divine.

PORTSMOUTH, N. H., April, 1859.

From the N. H. Gazette.

The Union Democrat all Right on the Goose Question.

We take the following extract from the leading article in the Union Democrat of this week:

During the late session of Congress, and just long enough before our election to paralise our efforts and blast our hopes, men recognized as Democrats, promulgated the heresy that Congress is bound to *protect* slavery in the territories, even against the will of the people. It is a popular idea that the Democrats of the North yield to every demand the South may make. We have yielded nothing to the South. We have intended to come square up to the letter and spirit of the constitution, but we have not been asked to go a step beyond, and shall not go if we are. We agree that the South has an equal right in the territories, and that this equality includes the right to take into territories whatever is deemed to be property in the States, and to hold it as such, subject to local laws, which must themselves be subject to judicial review before the Supreme Court of the United States. But we shall never agree that it is the business or the duty of Congress to interfere with the local institutions of States or Territories. We stand in good faith by the doctrine of popular sovereignty; and the Democratic party will not yield an inch to any invasion of that doctrine by the Abolitionists of the North or the extremists of the South. It is impossible that the views of Senator Brown, who claims that Congress shall intervene in behalf of slavery, can ever be incorporated into the creed of a national party.

That's the talk. That doctrine we have earnestly advocated ever since the New York Day Book, Charleston Mercury, Washington Union, and James Buchanan first broached the cursed heresy of slavery protection. We also agree with the Union Democrat that Lecompton is a totally dead issue, and we further believe that its advocates are as politically dead, at least, for the present, as so many coffin-nails. But let that pass.

Our dealings are with the living, and the living question of the day is this: Shall the Democratic party remain faithful to its pledges, or shall it prove false? Shall it adhere to the doctrine of non-intervention and popular sovereignty, or shall it, at the beck of Southern autocrats and Northern Cow Boys, adopt the undemocratic and unconstitutional policy of slavery-extension and slavery protection, regardless of the will of the people concerned? No cowardice, no dodging, no trickery can keep down the discussion of the question, so vital to the interests, the very existence of the National Democratic party. It may as well be discussed now. Democratic editors, politicians, and all who speak for the party, may as well see to it now, that they embrace the right side of the question, and fearlessly and earnestly defend the faith that is in them. The people have passed upon it. The man who sanctions this invasion of the cardinal doctrine of popular sovereignty, digs his political grave, and if he does not degrade his social position, it will be because he has already reached the lowest deep of social debasement.

Now, Bro. Campbell, how stands the President whose every act you are ready to vindicate—how stands he upon the question? Is he with Douglas and Pugh, and the faithful Democracy of the North and West? or with Davis and Brown, and the fire-eating, slavery-propaganda of the ultra South?—Where are his "right bower," Bigler of Pa., & that Senatorial dunder-head, Bright, the *Burke* of Indiana? Where are the Dunites of Illinois, and the government-supported organs? What sort of popular sovereignty doctrine do the Washington Union, New York Herald, Democratic Standard and the other accredited organs of the Administration advocate? What says, with scarcely an exception, every newspaper edited or owned by office-holders, or sustained by executive patronage? They are a unit in favor of stultifying the Democratic party upon the popular sovereignty question. They vie with each other, and altogether surpass the Black Republican journals, in abusing, ridiculing and condemning the principle of popular, or as they choose to style it, "squatter sovereignty." They are, to-day, using the same arguments, the same invective, and applying the same epithets to the principle of non-intervention which we have been accustomed to hear from the Abolitionists ever since the passage of the Compromise of 1850.—Indeed, a thousand proofs of apostacy to the party faith may be adduced against him whose duty it was to sustain and not to destroy the party which had trusted him. But the old gentleman has gone the length of his tether; his capacity for mischief is pretty well exhausted; one year from the fourth of next March, he will vacate the White House in favor of a younger, and, we trust, a better man. Till then we shall diligently seek consolation in those passages of Scripture which bid us grin and bear it, and, like old Job, try hard to preserve a commendable patience in the midst of manifold afflictions.

Since the decease of Mr. Center at Brunswick, Me. caused by the explosion of a fluid lamp, recently, the Telegraph states that many people in that village have given up entirely burning fluid, and gone back to oil for lamps to be carried about the house.

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. This evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press.

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

I believe notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the benefits of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, attended with the effects of yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodox Church at Brookfield, Mass. He is a gentleman of great influence and universally believed. WM. DYER.

Brookfield, Jan. 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public. These Gums are those of the most mild or bad matter from the system, repeated is a sure cure for supplying a healthy flow of bile, **Cholera Morbus,** invigorating the stomach, causing food to digest well, **purifying the blood,** giving tone and health to the whole machinery. Only one dose taken before retiring, prevents **nightmare.** Only one dose taken at night, loosens the bowels gently, and cures **costiveness.** One dose taken after each meal will cure **Dyspepsia.** One dose of two teaspoonfuls will always relieve **Sick Headache.** Only one dose immediately relieves **Colic.** All who use it are giving their unanimous testimony in its favor.

Cholera. Only one bottle is needed to throw out of the system the effects of medicine after a long sickness. One bottle taken for **Jaundice** removes all sallowness or unnatural color from the skin. One dose taken a short time before eating gives vigor to the appetite and makes the food digest well. One dose, often repeated, cures **Chronic Diarrhœa** in its worst form, while **Summer** and **Bowel Complaints** yield almost to the first dose. A few bottles will cure **Dropsy** by exciting the absorbents. We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

Take it in connection with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insiduous inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last years of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be turned to the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This rule of conduct can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superiority in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

LECTURE ON THE LIQUOR LAW.

On Thursday evening Mr. Ticknor lectured at the Town Hall, Claremont, upon the subject of the prohibitory liquor law. The large hall was well filled with citizens, who listened very attentively for an hour and three quarters to the delivery of a carefully prepared address favorable to the immediate repeal of what is called as the Maine Law. Mr. Ticknor went at length into his reasons for desiring the repeal of the law, the most important of which was that more evil than good had been, and would continue to be the result of its operation. The Eagle says his arguments were generally logical, truthful and well put, and were well received, however much some who listened to them might disagree with him in opinion as to the expediency of repealing the law at this time. The law was asked for by a very large number of the citizens of the State, who believed that the principle of prohibition was best calculated to advocate the great and good cause of temperance.

Others, who honestly entertained a different opinion, were willing to yield their preference and try it for the sake of the cause, hoping at the same time that it would accomplish all, and more than all, that its most enthusiastic supporters claimed it would. The law has now been in force nearly four years, and has worked well, wherever the people have enforced it in its true spirit, but in other places, where the people were indifferent to the cause of temperance, where it has been violated with impunity, it has operated the same as any other law upon the subject would—it has been a dead letter.

No law can be enforced without the good will of the people to do it. Where bad rum is preferred to abstinence and good order, no law upon the subject would be of any great use. If the law has not worked well, the fault is not with the law itself so much as with the people to whom it is given.

There was much in the lecture of Mr. Ticknor, remarks the Eagle, to which we could give a hearty approval, but at the same time, we cannot divest ourself of the opinion that his sentiments with regard to the repeal of the law are premature, or of the feeling that the same address would have sounded much better out of the mouth of some other person than one particularly charged with the enforcement of it. While we have seen occasion to find fault, in some instances, with the peculiar manner in which attempts have been made to enforce the law, we have always believed it to be as good as any other of its kind, and should be unwilling that it be repealed until some better plan shall be suggested and matured. It would have been a gratification to many who heard Mr. Ticknor's address, if he had proposed some law to take the place of the present one, and without which it seemed to us his case was not fully made out.

☞ A law was passed at the recent session of the Maine Legislature, which provides that any attorney-at-law who neglects or refuses to pay over monies belonging to his client for ten days after demand, shall be deemed guilty of a breach of duty as an attorney—that such attorney shall be held to answer before the Supreme Court, on a rule allowing five days' previous notice, and if adjudged delinquent, and the attorney neglects or refuses to perform the decree of the Court in the premises, he shall be committed for contempt of court till he shall perform such decree, or be otherwise discharged according to law, and the Court shall order his name to be stricken from the roll of attorneys and counsellors-at-law in said Court.

☞ According to the Washington correspondent of the New York Express, after the adjournment of the last Congress, the Speaker, Mr. Orr of South Carolina, was requested by a friend to give him his views on the political future. Mr. Orr replied without hesitation—"In my opinion, the opposition will organize the next House of Representatives, and, if they select a conservative, national candidate, will also elect the next President."

☞ The New York Spirit of the Times states that Mr. A. Colt of that city struck and broke forty bottles in succession, thrown into the air by another party. The weapon was a "Colt's ducking gun, revolving cylinder."

SCIENTIFIC AND MECHANICAL.

MANUFACTURE OF SHAWLS, VELVETS, MUSLINS.

The higher class of printed goods at the present day comprises barege shawls, printed velvets, printed flannels, and the more costly varieties of printed muslins. Great artistic skill is shown in devising the designs, mechanical skill in preparing the blocks, chemical skill in selecting the colors, and manipulative skill in printing. All the cheaper printed cottons are now printed by the cylinder process. The pattern is engraved on the surface of a copper cylinder; and by an admirable adjustment of mechanism this cylinder feeds itself with color, draws in the cloth to be printed, and effects the printing. Every color requires a separate cylinder; so that for the more complicated patterns the cylinder machine is a very fine example of engineering, irrespective of the beautiful chemical results which it aids in producing.—But for the more costly and delicate goods, such as the shawls and velvets above noticed, the original block method is still adhered to. In this method each color has a block for itself, on which a certain portion of the pattern is cut or engraved; and the blocks are used singly and by hand, each printing as much as its size and color will permit. Where the whole design is but a repetition of one small pattern, the whole surface of the cloth is printed by a succession of application of the same two or three blocks; but where a large shawl for example, displays a design which is *not* merely a repetition of small bits of pattern, the number of blocks often becomes multiplied in an extraordinary degree. One of the exquisite barege shawls, recently produced, is said to have required five hundred carved blocks to produce it; every one of which represents a different part of the device—either in color or in pattern—from any of the others. It is the mode of wearing that gives to these shawls the title of barege; the material may be silk or wool, or a mixture of two, or a mixture of either one with cotton.

MANUFACTURE OF FANCY SOAPS.

The fancy soaps of commerce are of every color and shade, and the same lumps or balls are frequently variegated, flowered, mottled, and marbleized. This marbling or flowering renders it much more attractive, and adds greatly to its saleableness. In marbling the soap, cinnabar is mostly used, which is prepared by mixing it with oil. It is then poured upon the soap in stripes, and raked under entirely to the bottom with what is termed a crutch. It is first stirred in straight lines, then across, and lastly in circles, which leaves the streaks in a serpentine form. To marble soap, a sort of net made of packthread is sometimes used, the meshes of the net being about one-half an inch across.

Fancy soaps are either cut into small bars or cakes, or moulded and pressed into oval, circular, or irregular forms, to suit the fancy of the manufacturer. To accomplish this, a variety of implements are made use of, but none perhaps as much as the press. This press is very simple in its construction, and is generally operated by a lever. It consists of a platform, in which is fixed a box into which the cake of soap is forced by the follower which is operated by the lever. The bottom of this box is provided with a die upon which is engraved letters or words, or any device whatever, and the end of the follower may be provided with a die of similar construction, so that letters or figures can be pressed upon either side at one and the same operation. In this way, any image whatever may be formed upon the tablets of soap, and which sometimes increases their market value.

☞ Concerning the lamentable eagerness manifested to obtain the disgusting and brutal details of the Sickles trial, the Newburyport Herald asks,

"What does it foretell, but a tendency to the commission of the very offences that occasioned this trial?"

And yet in the same article the writer says,

"Nobody for a moment has had the least idea that Sickles would ever be punished for murder. It would be the grossest outrage that ever humanity suffered, to hang a man under such circumstances; and if sentenced, the interposition of executive clemency would stay proceedings.

☞ A young man named Patrick McLaughlin, imprisoned for highway robbery, committed suicide by hanging in the Rhode Island State Prison on Wednesday night.

OVERTASKING SCHOLARS.

In an article on schools, the Exeter News Letter remarks:—

The early tasking of the mind to the extent of its powers, enfeebles the bodies of children, and disposes them to nervous affections.

Some children are easily excited to mental effort by a system of rewards and praise, and such are most likely to be overestimated both by parents and teachers. The old caution, "Drive not a free horse to death," seems to be forgotten or disregarded in these cases. The more they do, the greater are the requisitions made. They are coaxed and flattered and exhibited, till the intellect by excessive labor is exhausted of its strength and seriously injured for life.

Girls are more frequently injured by early mental excitement, than boys. The reasons are obvious: they are more confined to the house, they are constitutionally more quick in sensibility, and more active in imagination. More caution, therefore, should be used, lest girls be unduly excited to mental effort. But boys do not entirely escape the sad effects of such misdirected pains. We cannot wait for the slow pace of years to unfold their faculties, but they must be urged on with railroad speed, in order, as soon as possible, to prepare them for the business of life. The consequence is that many enter the stirring scenes of our free country with constitutions impaired, and without that sound wisdom and discretion which can be attained only by the patient culture of the intellectual and moral powers in a state of more advanced maturity.

Henry K. Oliver, Mayor of Lawrence, and Superintendent of the Schools of that city, in submitting his annual report, expresses the following opinion on a subject which is attracting much attention among educators at the present time, viz: the amount of study required of pupils:

"I have compared opinions with many of our best educators; and I find no difference in the general conviction that we are crowding too many studies into our schools, and are overtasking the intellect, while the continued neglect of all physical culture, renders it more difficult to accomplish what is prescribed. Since High Schools came into vogue, this propensity has been increasingly favored, and the programme of studies laid down in some of them reminds one of some elaborate college course, while he cannot but see that the brief period of time allotted for its expected accomplishment, is wholly inadequate thereto. * * The whole thing is just a glittering and impracticable ostentation, which in the very attempting insures shallow superficiality, and banishes every idea of thorough attainment. * *

Mr. Oliver states that in the Lawrence High School, Mathematics, Algebra, Geometry and Trigonometry have been reduced about one-third, and yet without any sacrifice of valuable matter. The improvement in the classes is obvious, and the whole influence of the reduction has proved beneficial. Furthermore, circumstances indicate that a further reduction and simplification are expedient.

☞ California papers contain long details of the launch of the United States steamer Toucey, on the 3d of March, at Mare Island Navy Yard. The event excited much interest, as being the first steamer launched on the Pacific coast.—"The Commodore's daughter, Miss Mary Cunningham, dashed the bottle against the figure head, and named her the *Toucey!*" But this seems not to have been the *only* bottle about there—for the papers say the Commodore gave all hands the day, and it was celebrated by an immense collation for a thousand men, subscribed by the officers of the yard, at which was punch by the hogshead, and meat, bread and butter by the cartload.

Isaiah Hanscom, Esq., is Constructor at that Yard—and the workmen engaged in his department presented him with a valuable gold chronometer watch, with suitable inscription, and very complimentary resolutions.

☞ There has been some dog-poisoning at Manchester; and a court of enquiry has been held by the mayor. A writer in the American says, very significantly—

It may fairly be inferred that no dog-poisoner can hold office under the present government. But *is a dog better than a man?* It is well known that there are many persons in this city who carry on with the utmost impunity the business of poisoning men. They do this not by alcohol alone, but by a long list of more deadly poisons, including even this terrible strychnine.

☞ On Saturday, a man with a ticket for St. Louis, got on the cars of the Bellefontain road at Crestline, Ind., who had immediately before been bleeding at the lungs. At Galion an effort was made to persuade him to go to a hotel, but he obstinately refused to leave the cars, although the blood was leaving his lungs so fast as to almost suffocate him, and shortly after he was discovered to be dead, having died without a struggle.

AN ELEGANT DENTAL ESTABLISHMENT.—If our readers would obtain an idea of the great extent of business in the dental profession, in this city, we advise them to visit the extensive rooms Drs. Cummings & Flagg, No. 25 Tremont street, embracing seven apartments devoted expressly to dental practice. Having just refitted and refurnished their rooms, they now present the most elegant and tasteful appearance, surpassing in extent, comfort and convenience, any similar establishment in the country. The beautiful specimens of artificial teeth, single, whole sets, and parts of sets, attract special attention, and challenge the admiration, not more of the general observer than than the strictly scientific, who can fully appreciate their perfect accuracy and beauty. We have often seen commendatory notice of their work, but have never observed the least exaggeration, and not one statement in reference to its excellence which we would not cheerfully endorse, from personal knowledge. The Medals and Diplomas awarded at various times, alone place them at the head of their profession; but to appreciate the skill and superior workmanship of the very gentlemanly conductors of this extensive establisment, the public should call and examine for themselves. We are sure that as their work challenges the admiration all, so their dental operations are most scientific and skillful.—*Boston Traveler.*

THE JEWISH PASSOVER commenced Monday, and continues eight days. During its continuance, their only food will be unleavened bread, which, for this occasion, is usually baked in thin slices, hard, white and brittle, and in taste similar to a common cracker. The first two and last two days of the Passover are held as holy days by all faithful Israelites.

☞ The legislature of Massachusetts have passed a law regulating the sale of milk, the last section of which is:

No person shall offer for sale in this Commonwealth milk produced from cows fed upon the refuse of breweries or distilleries, or any other substance which may be deleterious to the quality of the milk, under a penalty of ten dollars for each offense.

☞ Walter Bassett, the U. S. marine who made a desperate assault with a knife, on the morning of the 2d inst, on Abby Nelson, and officers Ellison and Cowdry, during the time of the burning of the Suffolk Mills, Boston, was tried on three indictments, convicted on each, and sentenced to fifteen months hard labor in the House of Correction.

HYDROPHOBIA.—On Sunday, the 6th of March, a lad in Blackstone, named Thomas Quinuass, aged 15 years, was bitten by a dog supposed to be rabid. The wounds were cauterized, and no inconvenience was experienced from them till Wednesday last, when they became painful, and the boy steadily grew worse till Sunday, to which time our information reaches. The case had then assumed all the characteristics of hydrophobia. Another person, a gentleman who has a family, and several dogs, was bitten by the same dog.—*Worcester Spy.*

We learn that the boy died Sunday.—The man who was bitten has not as yet manifested any symptoms of the dreadful disease.—*Boston Journal.*

SPECIAL NOTICES.

SEWING MACHINES.

The Grover & Baker are always preferred when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of Capes and Ragians, we unhesitatingly recommend the Grover & Baker, as far superior to all others.
ALLEN & FARRY.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair. We could as easily dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividends in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never have a Grover & Baker to be discarded or found wanting.
FRANK W. MILLER.

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

GALLERY, No. 33 Congress Street,

consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.
A. GREGORY.

N. B.—I do not charge any more for good Pictures, than is paid every day for **poor** things.

HIP DISEASE.—The most that can be expected in this disease is to prolong life, with stiffness or deformity of the hip joint. The PERUVIAN SYRUP will support the strength under the slow and painful ulceration, and will prevent the profuse discharge of matter, which, if opening externally, will almost certainly prove fatal.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiorumenos.

"Buy me and I'll do you good."

Health and Strength secured by the use of

THE SPRING AND SUMMER MEDICINE,

Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and kidneys, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Breast, Flatulency, Loss of Appetite, and a torpid or diseased Liver, a disordered stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 50 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and is one of the most valuable restoratives of the very able kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption some relief from these distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travelers exposed to changes of water and air.

For sale in cases containing seventy-five gallons, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. F. Tucker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. POISONOUS INOCULATIONS.—Persons who, by accident or otherwise, become inoculated with any malignant disorder, will find the **R. R. R.** Remedies prompt, quick and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe torture for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysm in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

☞ The last lecture of Mr. Long's course on the Fine Arts, will be given at Hanover Street Chapel, this (Tuesday) evening, at quarter before eight.

The subject is, the five great masters of Painting—Da Vinci, Michael Angelo, Raphael, Titian and Correggio.

GOOD SPORT.—A sportsman in Greenland, killed in Great Bay, on Saturday afternoon, three Wild Geese at one shot, and disabled a fourth, but owing to the roughness of the water, this last could not be followed and was lost. Wild geese and a variety of ducks have been very abundant in the Bay the present spring, and the "gunners" have had fine sport. X.

☞ We are indebted to Phillips, Sampson & Co., (probably to the attention of the junior member of the firm,) for a work just published by them, on "Mothers and Infants"—translated from the French of Dr. Al. Donne.

It is a very valuable and practical book, worthy the attention not only of mothers and nurses, but of physicians and philanthropists. It contains many suggestions exactly such as are most needful for the mother who, wishing to do the best possible thing for her child's health, is yet in doubt how she ought to manage. The engravings, of the different kinds of milk, add much both to the cost of the book and to its value.

SONG BOOK.—Ditson & Co., the great music publishers of Boston, have sent us a copy of 100 Songs of Ireland, music and words. This is a book of genuine Irish airs, known the world over, with the original words. The same publishers also furnish the Home Melodist, a collection of songs and ballads for the voice only. Their Catalogue of Sheet Music and Music Books is a book of 300 pages.—The taste that cannot be suited there, must be *hyper*-fastidious.

WASHINGTON, April 17.—The Navy Department to-day received despatches from Vera cruz, but the information in regard to Mexican affairs is not later than that published by the Tennessee. The screw steamer Brooklyn had arrived there in eight days from Aspinwall.

The President has received a letter from Commissioner Bowlin, acquainting him with the result of the Paraguay expedition, and confirmatory of the newspaper accounts.

THE "ECHO" SLAVE CASE.—The U. S. Circuit Court, Judge Wayne presiding, met at Charleston on the 7th of April, and the Court charged the Grand Jury in reference to the case of the Slave brig Echo. The witnesses were called, and after some time in deliberation, two bills of indictment were found, one against the sixteen prisoners now in jail, and the other against the *one sent to Africa on board the Niagara!* This finding of the Grand Jury, says the *Mercury*, will raise the question of availability in the law in a case as marked and decided as could well occur.

MEXICO.—*Washington, April* 16.—New Orleans papers of the 11th contain details of Mexican news by the Tennessee. The Liberal army, 13,000 strong, nearly surrounded the city of Mexico, and had succeeded in cutting off supplies, provisions and water. A capitulation is expected to take place soon, if not, a great battle is anticipated, both armies being reinforced. The Liberals are confident of success. The whole country is in a deplorable condition.

MINISTER FORSYTH.—Mr. John Forsyth, in declining a complimentary dinner, tendered to him at Columbus, Ga., says the government had no Mexican policy, and, while tacitly approving his course in Mexico, superseded him quietly. He is very severe on the administration.

Recent accounts, from a reliable source, state that the United States steam sloop Brooklyn, recently built at the Brooklyn Navy Yard, is so extremely top heavy that an entire reconstruction of her rigging must take place before she can be calculated on for regular squadron duty.—*Traveller.*

☞ The Portland police seized 700 gallons of liquor on Friday. This does not seem exactly like a dead letter.

Late dates from Jamaica say the missing boat of the steamer Jassour had been picked up and brought to Kingston. The men had been nineteen days in the boat, and were in a deplorable state. One had died of starvation, and the purser and doctor had both gone mad.

☞ During the past winter there have been forty-odd steamships plying between New York and European ports, and only two of them have been American.

The House of Commons divided on the Reform Bill—291 for the second reading, 330 for Russell's resolution. Majority against the government, 39.

Lord Derby, in the House of Lords, said the Cabinet were considering what course to adopt. He had an interview with the Queen, but nothing definite was resolved upon, and he would announce their determination on the 4th. A resignation is generally anticipated.

The second Irish sedition trial at Tralee resulted in the conviction of the prisoner, and a sentence of ten years' penal servitude.

Here's Health for the Million!!
Clarke's Sherry Wine Bitters,
Composed of Rock Rose, Wintergreen, Yellow Dock Root, Sarsaparilla, Wild Cherry, Prickly Ash, Poplar Bark, Mandrake, &c.

They operate on the three main organs of the system, the Blood, Liver and the Kidneys, curing Jaundice, Loss of Appetite, Dyspepsia, Asthma, &c., &c. For Asthma it is particularly successful. Annexed are extracts from a few of the many certificates of astonishing cures, now in the hands of the proprietor.

J. W. ADAMS, Essex street, Melrose, Ms. says: "Dr. Clarke's Sherry Wine Bitters have cured me of Weakness, Loss of Appetite, and unhealthy state of the Stomach, and they are the best Bitters before the public."

NANCY JENNINGS of Sharon, Mass., was cured of Asthma of nine years' standing.

CHARLES BIXBYOK, of Providence, says "they cured me of General Debility, and I gained eight pounds of flesh in two months."

A Diploma was awarded them by the Mass. Charitable Mechanics' Association, 1856. Judges—Drs. A. A. Hayes, A. A. Gould, J. H. Blake, W. A. Brewer, Boston.

Mechanics, Farmers, Clergymen and Public Men, all feel at some seasons of the year, the need of a gentle Tonic, and no medicine can be better adapted for their purpose.

The Wheeler & Wilson

Medal Family Sewing Machine.
A NEW STYLE MACHINE,
PRICE $50.
This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—
1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

THE GROVER & BAKER
SEWING MACHINE CO.,
NO. 18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their
Celebrated Family Machines,
with all the recent improvements, have reduced their prices, and offer for sale
A NEW STYLE MACHINE.
PRICE $50!
Machines from $50 to $125.
HEMMERS, $5 EXTRA.
It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!
Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

CULTIVATION OF COTTON.

Capt. Thomas E. Oliver, of Newcastle, stated to us this week that in his younger days he made several voyages to the West Indies. At that time there was no cotton raised in the United States, and it was a scarce article at home. His bed sack he used to fill with cotton, for which he paid two shillings a pound, and nothing was more acceptable at home or turned to better account than his bed filling. He has lived to see a trade then unknown become the staple of the country, although he is now but little over eighty.

The English (says the Boston Bulletin) have recently turned their attention towards cotton cultivation in Western Africa. An experiment was made in its culture last year, and two hundred and fifty thousand pounds, which was said to be equal to the best Georgia cotton, was received into the English market. Probably it is this success which induced a shipment in March, from Liverpool, of upwards of fifteen thousand dollars worth of machinery and requisite materials to enable efforts to be made further in the interior of Western Africa, establish new cotton stations, and prosecute the matter with still more vigor. The cotton supply association of Manchester is also making an effort in this direction, and is calling forth the energy of the people and the government of Liberia, by offering prizes and medals for successful cultivation of cotton. Doubtless cotton would thrive in Africa under proper care. The soil is prolific, the seasons well marked, and the natives are said to be willing to engage in producing it Steam upon the navigable rivers, and good roads will, of course, materially assist in developing the resources of this comparatively unknown country, and open at least a portion of it, to legitimate commerce.

"RAMBLES ABOUT PORTSMOUTH."

This book is now printed, making an octavo volume of 376 pages, (about one-quarter more than promised in the prospectus,) and embracing eighty three Rambles. It will be published by the close of the present month.

If any who have received subscription papers have not yet returned them, or sent their names to this office, it should be attended to forthwith to secure copies at the subscription price, $1.50. After supplying subscribers, should any copies remain they will be sold at $1,75.

MUNICIPAL.

In the Board of Aldermen, Thursday evening: *Sidewalks.*—E. M. Brown, State street, and C. J. Colcord, Market street, granted to relay. J. Nutter Water st. petition to relay referred.

Street Commissioner reported repairs needed at Creek Bridge, and on sewers in Cabot, Summer (across lots), and Hanover streets. Referred.

School Committee, Dist. No. 2, reported repairs needed on the several school houses and rooms.—Referred.

HEREFORD CATTLE.—In Sept. 1855, at the auction sale of Dowley's stock in Brattleborough Vt. Mr. Lee, of Templeton, Mass. paid $180 for the Hereford bull calf Hero. At the same sale an older bull of the same breed sold for $400, and has since sold for $800. The Boston Cultivator, says,—"As full-bloods of this breed are not readily attainable in this part of the country, some farmers may be disposed to try a half or three-fourths blood, which, if a judicious selection is made, will doubtless make an improvement on the common stock, and serve to encourage the trial of full-bloods."

It will be recollected that we gave notice a few weeks since that Mr. James Thompson, of this city, had a cow of the Hereford breed with a fine male calf. Not being able to dispose of the calf for raising, it went to the butcher, and a handsomer display of veal has rarely been seen in our market. The animal was so perfect in symmetry that such disposition is a matter of regret to those who wish to see the breed of cattle improved.

DEFENCE OF THE BIBLE IN COMMON SCHOOLS. Messrs. TICKNOR & FIELDS of Boston have published in a handsome pamphlet of 43 pages, the "Argument of Henry F. Durant Esq., in the Eliot School Case," being a "Defence of the use of the Bible in the public schools." The recent attempt of certain of the catholic clergy in Boston to inaugurate a movement which should result in expelling the English Bible from the Common Schools has aroused to earnest vigilance the public mind as to the subtile purposes of the Romish Church in this country. The able argument of Mr. Durant in the Eliot School Case in defence of the use of the Bible as the text-book of morality and piety in the common schools should and will have an extensive circulation. The pamphlet may be obtained at the book stores.

MASSACHUSETTS STATISTICS.—According to the Massachusetts State Register for 1859, of 1,324 settled clergymen named in the issue of the previous year, only 965 remain over the same parishes now. The number has increased to 1,373. Lawyers have increased from 1,121 to 1,142; physicians from 1,547 to 1,648. Twenty-six newspapers and periodicals have been stopped, and twenty-nine started, making the present number 243.

ALMOST AN ALARM.—The dwelling house No. 6 Russell street, narrowly escaped a conflagration arising from locomotive sparks on Saturday last. The fire was subdued, however, by the presence of mind of the inmates without alarm.

We understand that Congress has raised the salary of B. F. Chandler, Esq. Civil Engineer at our Navy Yard, from $1500 to $1800, commencing in July next. This is a fitting and just commentary on the recent effort made to remove him from the Yard.

PHOTOGRAPHIC CURIOSITIES.—Mr. Amadio, of London, whose portrait of Charles Dickens, no larger than a pin's point, was lately noticed, (in the papers,) has produced a view of Westminster Bridge, with the Houses of Parliament and Westminster Abbey, within a space not larger than the eye of a worsted needle. Also, a portrait of a youth, which is only just larger than a needle's point, but when magnified is as perfect as any conceivable likeness.

THE GREAT WONDER
Of The Nineteenth Century.
PROFESSOR WOOD'S
HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and known to nearly every one here and adjoining towns. Any one you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1855.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 30 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,
Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving a healthy tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Billious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and cures **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose often repeated, cures **Chronic Diarrhœa** in its worst form, while **Summer** and **Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever** and all Fevers of a **Bilious type.** It opens the pores, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

ONE DOLLAR PER BOTTLE.

House and Land for Sale.

IN SUNCOOK.

The Subscriber offers for sale the Cottage House and Barn, and about one-fourth of an acre of land, in Suncook Village, about one-fourth of a mile from Suncook Factory, on the road leading to Hooksett, recently occupied by Tobias T. Rand, Esq., deceased. The house contains six rooms, and has recently been put in fastrate order. The Barn is nearly new, and there is a good well of water on the premises.

Being situated near the Suncook Factory and Village, the premises will be convenient for a person designing to keep boarders; or it would be a desirable location for a butcher, there being none in Suncook Village, or in Hooksett.

Apply to SILAS BURLINGAME, Esq., near the premises, or to the subscriber, at Portsmouth.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insiduous inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year or his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as cured.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

The genuine medicines only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REMEDIES, LADIES' PILLS. These pills are unrivalled in efficacy and superiority for regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicine.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is to be had.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 dly

INTEMPERANCE IN GLOUCESTER. — The Gloucester Telegraph, on Saturday, moved by the murder of B. F. Brougham, bar tender of the Empire saloon, who was beaten to death last week, by three persons who called at his place for drink, gives a melancholy statement of intemperance in that town, from which we judge that more liquor is openly sold and drank there than in any other town of the county. The Telegraph says:

"It is a matter of surprise to us that we have escaped so long from any very serious results. Where in certain localities the intoxicating draught can be obtained in almost every store; where the sale of it is carried on in almost every private boarding house occupied by the foreign population; where almost all classes—men, women and even children—indulge to their heart's content, we repeat that we consider it a matter of surprise that we have escaped so long from any very serious results. But one of the effects is now upon us. We have had a human being murdered within a stone's throw of Front street, in the open day! It may, perhaps, not prove to be wilful, premeditated murder, but it is murder, nevertheless. And it is done by the instigation of this love of drink which is so openly encouraged by almost every one. We say openly encouraged; and we mean what we say.

"We say that opinion has always sustained rum-selling in our midst, and that it will always flourish till public opinion becomes changed. How to effect a sudden change we do not profess to know, unless it is done by a few more tragedies like the one which has lately occurred. But we do know that a beginning can be made towards a reform if the right step is taken, and if our prominent business men would take a stand and refuse to place their property under the control of persons who make an habitual use of intoxicating drinks; and if men who hold high stations in our community by virtue of wealth and office, would refuse to lease their premises for the sale of intoxicating drinks, then, and not till then, you may create a public sentiment strong enough to dry up these pests of society."

TWO SWORDS.—At the meeting of the Massachusetts Historical Society, says the Boston Courier, a deeply interesting scene took place. It has long been known to the friends and visitors of the late Mr. Prescott, that two swords were suspended, with their points crossed, in token of amity, over the main window of his library, which was also his principal reception room. One of these swords was worn by his grandfather, Col. Prescott, at the battle of Bunker Hill, and the other by Capt. Linzee, the grandfather of Mrs. Prescott, who on that day commanded the British sloop-of-war Falcon, which was playing with her guns upon the little redoubt which our countrymen had raised.

It was a remarkable fact that these two swords, which the owners on that day would have been ready to sheathe in each other's breasts if the chances of war had brought them together, should have come by the accident of marriage into the possession of one household, and by their peaceful juxta-position, been turned into a symbol of that union and harmony which every lover of his race must hope will ever prevail between these two nations which on the 17th of June, 1775, stood opposed in deadly fight. This remarkable embellishment to his library furnished a theme of discourse to Mr. Prescott, which his graceful and playful genius often turned to the happiest account. By his will, he devised his grandfather's sword to the Massachusetts Historical Society; and Mrs. Prescott and the surviving representatives of the late Capt. Linzee gave his sword to the same society. The formal presentation of both weapons was made by William H. Gardiner, one of the executors of Mr. Prescott's will.

Prince Napoleon is charged with having conspired with officers attached to the French army at Rome, to overthrow the Pope. Probably he wished to bring Italian matters to a crisis, and thought that that could be best done by giving to his Holiness decided notice that his time was up, and that he'd better look sharp, and convert his three crowns into good Roman *scudi*. The Italians will always be a miserable race until they shall have pitched the Pope, the whole college of cardinals, and the regiments of priests who prey upon them like vermin, into the Yellow Tiber, the storied Arno, and the classic Eridanus.—*Traveller.*

☞ The chair occupied by the President of the Harrisburg Convention, on Wednesday, was that in which John Hancock sat when the Declaration of Independence was adopted on the 6th of July, 1776.

WEDNESDAY, APRIL 20, 1859.

PENSIONS FOR OLD SOLDIERS.

Numerous applications for pensions, and letters of inquiry, having been forwarded to the U. S. Pension office, at Washington, under the supposition that the bill proposing to grant pensions to the soldiers of the war of 1812 with Great Britain, and the Indian wars of that and also of former periods, had become a law; the Commissioner has issued a circular stating that said bill *did not become a law*—and as application is frequently made for the official estimate of the number of persons who would probably be embraced within the provisions of that bill, and the amount of money that would be required to pay pensions under it, the Commissioner deemed it best to append to the circular the official report to the Secretary of the Interior, containing said estimate, as a reply to all such inquiries.

From this circular, which we get from Mr. Hoyt, pension agent in this city, we perceive the Old Soldier's Pension Bill, if it had passed, would have swamped the Treasury for years to come. There would probably be 184,000 pensioners, who would receive $8,000,000 per annum, on account of the war of 1812. And the circular closes with the following items of expense, by way of *improvement*, as the old sermons used to say:

1. The amount it would be necessary to appropriate at the present session would be about $29,750,710.

2. That the average sum annually requisite thereafter would be about $8,800,000 for ten years.

3. That the aggregate sum necessary to extinguish all claims that may be preferred under the bill will not be less than $103,000,000.

4. That the increase in the clerical force of the office will be about double the present number, and the expense of such increase, including contingencies and the compensation of agents for paying pensions, about $335,000 per annum.

SETTLEMENT OF THE PARAGUAY DIFFICULTY.—The President publishes a letter from Mr. Commissioner Jas. B. Bowlin, addressed to himself, giving a full and interesting account of the settlement of the Paraguay difficulties, and congratulating the President and the country upon the "glorious consummation of a troublesome measure" of Mr. Buchanan's administration. He describes also some portions and peculiarities of the country.

By the settlement, a new treaty is claimed to have been made, and a convention authorized to settle the Company's claim; $10,000 to be paid to the family of the sailor killed on the Waterwitch; our government to receive a satisfactory letter of regrets and apology for this affair, and for the treatment of the government agents; and to have full permission to explore the rivers. Mr. Bowlin states that the rivers communicating with Paraguay and surrounding it, have no rivals on the face of the globe. Mr. Bowlin's modesty will not, he says, allow him to record the little speech made to him by Lopez at the conclusion of the treaty.

☞ The Providence Journal says the "mysterious" disease prevailing at Orange, Ct., is undoubtedly diptheria. It prevailed at Albany last autumn, and has appeared in several places in New England. It is not a new disease. A book in relation to it was published in New York more than seventy years ago. It is the same disease that caused the death of George Washington.—For several years past it has prevailed extensively, as an epidemic, in England and France, and the probability that it may prevail here has attracted considerable attention to it. In a report of the Registrar General of England, it is stated that the specific cause of diptheria is the offensive odor from privy vaults.

☞ A German periodical says, that of twenty deaths of men between the ages of eighteen and twenty-five, one-half originated in the waste of the constitution by smoking. The same periodical says, Tobacco burns out the blood, the teeth, the eyes, the brains.

☞ The Newburyport Herald says a son of Samuel Short, residing at the lower part of the city, came to his death one day last week, in consequence of swallowing a percussion cap.

☞ Rev. Thomas H. Jones, a Methodist preacher, formerly of Salem, has just returned from Canada, whither he fled on the passage of the fugitive slave law. He was forty-three years a slave in the South.

☞ Anson G. Chester, the editor of the Syracuse Journal, has been lecturing lately on "Educated Fools." They are plenty.

AMERICAN BOOKS IN JAPAN. — In a letter published in the N. H. Patriot, dated Whampoa, near Canton, and written by some one on board of one of the three steam frigates, Powhattan, Minnesota, and Mississippi, the writer speaks of the pleasure afforded him in meeting his countrymen in that distant quarter of the globe, where he found, not exactly an old schoolmate, but one who had been to the same schoolmaster, viz. Henry Jackson, who taught in both New Hampshire and Maine.

The writer speaks of visiting Nagashi, a city in Japan. The Governor requested the Commodore to designate some one on board his ship competent to instruct a class of young men, his interpreters, in the English language, arithmetic, geography, grammar, &c. The post was offered to the writer, who gladly accepted it, and for two months he daily instructed nine pupils. He says,—

"At first I was somewhat embarrassed from the want of suitable books; it was not long, however, before an English gentleman from Shanghai came up, who had purchased a quantity of American books at auction, in Shanghai, which, when he knew my labors, he kindly offered me. I took them to my school, and among them what should turn up but a dozen arithmetics printed the last year in Portland, and whose title page bore the name of HENRY JACKSON as their author. Thenceforth I taught the young Japanese interpreters from Master Jackson's "*Fundamental Arithmetic*," fourth edition. I gave a copy to each scholar; and also one to the Lieut. Governor. Thus by a most singular providence, I instructed the Japanese in the arithmetic made by him who taught me arithmetic in the old white school house in my earliest boyhood days; and Master Jackson's Arithmetic is the first ever introduced and studied in Japan!"

Mr. Jackson kept school in Portsmouth, several years.

PIKE'S PEAK GOLD MINES.—A letter from Lawrence, Kansas, April 3d, says:

"The rush to the mines continues unabated. I regret to see it, as it is now too early to travel over the plains, and much suffering must inevitably follow. In a few weeks a trip to the mines will be one of pleasure."

Another account says that a majority of the citizens in the eastern or older parts of Kansas, are offering to sell their farms and improvements at about half price, in order to raise money enough to go to the gold mines.

A letter from St. Louis gives some idea of the gold region. The following is an extract:—

"Everybody's going to Pike's Peak, and his neighbor's going with him. This boat (War Eagle) is crammed full; state rooms, forward deck and stern cabin. So also are the other boats now loading; so were all that left yesterday, and so will those be that leave to-morrow—loaded down to the guards with the Peakers and their *plunder*. Horses, oxen, cows, mules, wagons, shovels, picks, washers, camp kettles, hand carts, carpet bags and camping tools, labelled, marked and shipped for all the points on the Upper Missouri, Kansas, Nebraska, Platte River, and Pike's Peak. Independence, Kansas City and 11 *north*. (This last is so plainly Leavenworth, the most inveterate deck lubber can't make anything else of it.")

PROBABLE MURDER.—In Portland, as we learn from the Advertiser, on Sunday afternoon Policeman Chas. L. York attempted to arrest a young man on Munjoy Hill, by the name of Francis Conroy, on a charge of breaking into a house on Saturday night, and stealing. The father and mother of of Conroy made an attack on York, and to defend himself he was obliged to let the young man go. Young Conroy immediately commenced throwing stones at the officer, one of which hit him on the side of the head, giving him a serious wound. Mr. York, with the aid of another of the police, succeeded in taking the elder Conroy to the watch-house, when York was obliged to be taken home,—and probably cannot live.—The father and mother were taken in custody, and the assailant was arrested in Yarmouth and lodged in jail. He is a mere youth, not more than 15 years of age, but is rather a desperate character.

NEW YORK, April 18.—*Illness of Bishop Doane.*—Bishop Doane, of New Jersey, is seriously ill at Burlington, and fears are entertained that he may not recover.

Violation of Sewing Machine Injunction. Mr. B. Stout, of the firm of Stout & Co., of Philadelphia, was arrested by the U. S. Marshal, and held to bail to-day in $5000 for violating the injunction recently granted in favor of the Wheeler & Wilson, and Grover & Baker Sewing Machine Companies.

Resignation of F. A. Tallmadge.—Hon. F. A. Tallmadge, General Superintendent of Police, to-day resigned his position, and the Commissioners of Police accepted it at once. It is expected that either ex-Chief of Police Matsell, or Deputy Superintendent Carpenter, will receive the appointment.

PROVIDENCE, April 18.—The St. John's Encampment of Knights Templars have decided to leave Providence on the 13th of May for Richmond, Va., via Philadelphia, Baltimore and Washington. In Richmond they will be the guests of the Richmond Commandery No. 2.

REMARKABLE STATEMENT—A COLORED SERVANT OF GEN. WASHINGTON.—We are indebted to T. S. McFarland, Esq., of Wabana, O., for the following highly interesting facts, which are also substantiated by another gentleman of the same place. —*Cincinnati Gazette.*

Eds. Gazette:—There is living in Concord Township, Champaign county, O., a remarkable colored gentleman, named Richard Stanhope, now in his one hundred and twelfth year. He is very active, both in body and mind, for a man of his years. His head is as white as wool, and with the exception of a slight defect in his hearing, he retains to a surprising degree the use of all his mental and physical faculties. He was born the first day of March, 1748, in Fredericksburg, Virginia, and is beyond doubt, one of Gen. Washington's servants, as he has in his possession a certificate, in Washington's own hand-writing. He was with his master in several of the battles of the Revolution, and shows honorable scars received in the bloody conflicts of that day. He was also with the army in the last war with Great Britain, at the time of Hull's surrender. He was at the time of the surrender driving a team, and when ordered to drive to a certain point, positively said he would not, but unhitched his saddle-horse and made his way back to this county. He is now living with his third wife, who is eighty years old. He is the father of twenty-eight children, most of whom are living. Mr. Stanhope has been a citizen of Champaign county for 48 years; and has always sustained the character of an honest man and good citizen. He has been a member of the Baptist church for eighty-eight years.

T. S. McFARLAND.

Urbana, O., March 14, 1859.

Here then, appears another colored man, a "colored gentleman," an honest man, a good citizen, a baptist christian for 88 years. Had *he*, (O Judge Taney,) no rights which a white man was bound to respect, when he was fighting that the white man might secure and enjoy his own? Was this (O Judge T.) the *unanimous* opinion of all the civilized world at *that* time? according to the historical falsehood on which you ground your opinion! Did Gen. Washington believe such trash as this? No. Did Jefferson or Franklin believe it? No, no. Did you ever believe it yourself, (most learned Judge,) before you was called upon to do such a dirty job? We suppose not;—but necessity was laid upon you to do something judicially, for slavery—so you began by falsifying history, and ended with a most lame and impotent conclusion. Peace to your ashes.

The Journal of Commerce thinks man should congratulate himself that he is only called upon to pay for bonnets, not to select them.

The Portland Transcript thinks he has more reason to congratulate himself that he does not have to *wear* them.

☞ Two sensible Boston gentlemen, who dislike going up and down stairs, are erecting one-story houses, forty feet square. Four elegant rooms on a floor will be achieved.

Read the following extract from a letter from J. E. Goodwin, Esq., of West Milton, N. H., dated July 24th, 1858:

"Its value as a fertilizer, in this vicinity, has been proved, and with the most satisfactory results. I planted potatoes May 1st, without, and about May 20th with Poudrette, (same variety) and the latter's now (July 24th) quite as large and apparently manure ripe than the former."—* * * In every instance that has come to my knowledge, where it has been used, it has given full satisfaction."

SPECIAL NOTICES.

SEWING MACHINES.

The Grover & Baker are always preferred when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to others.
ALLEN & FAIRE.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's new Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without costing out of order, or requiring the least repair. We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividends in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never know a Grover & Baker to be discarded or found wanting.
FRANK W. MILLER.

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately the STOCK in my

GALLERY, No. 33 Congress Street,

consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.
A. GREGORY.

N. B.—I do not charge any more for good Pictures, than is paid every day for **poor** ones.

TYPHOID FEVER.—Every one who knows anything of this fever, knows that the period of convalescence is extremely long, if indeed the health be ever perfectly re-established. In such cases, the PERUVIAN SYRUP supplies a want long felt by the profession, and has restored invalids to health in a remarkably rapid manner, when all the usual tonic remedies had failed.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY, in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Henvtontiorum nos.

"Buy me and I'll do you good,"

Health and Strength secured by the use of

THE SPRING AND SUMMER MEDICINE

Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly on the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course and run through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, the main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Pain in the Heart, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, an inactive or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Orders addressed to J. O. LANGLEY, or GEO. C. GOODWIN & CO., BOSTON.

Charles's London Cordial Gin

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with the juice of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from all other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., &c., and a weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the great medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers and for invalids of every clime.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE GENUINE IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Parker & Co., 21 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; E. Smith & Co., 20 Exchange st.; Gilbert, Abbott & Co., 78 Broad st.; Leland & Snow, 24 Elm st. and elsewhere. In Portland, Me., of H. H. Hay & Co., G. W. Atwell, and C. C. Mitchell & Son.

LOCAL.

NEW TYPE.—Our readers will perceive that the type on which the Chronicle has been printed, has in part disappeared, and that the new, used for the first time this morning, supplies its place, with an improved aspect.

So should it be, with the passing and the coming generations; where the elder must diminish and disappear, and the younger come up and come forward, to take the places, emulate the good example, and excel the good deeds of their ancestry.

Phelps & Dalton, of Boston, are the founders who furnish our new type, and they are indeed worthy successors of Mr. Dickinson, to whose memory printing and type founding owe a great deal of honor.—There is no better "letter" than the Dickinson Foundry turns out — and no more prompt and attentive agent to forward goods, than S. R. Niles, Advertising Agent, Boston, through whom we are supplied.

Our "reading matter" type alone is renewed this morning—in a day or two our advertisements will be newly dressed also.

We will simply observe, what is apparent to all, that the more our business thrives, the oftener will these improvements be needed. For our liberal and ever-increasing patronage we return sincere thanks; and we shall endeavor to improve our paper accordingly, in every respect.

☞ The New Hampshire Conference of Ministers of the Methodist Episcopal Church, will meet in this city on the 4th day of May, and continue in session about a week, including the Sabbath, when most of the pulpits here, of all denominations, will be supplied by Methodist preachers.

There will probably be about 125 ministers present; Bishop Janes will preside.—The committee of the conference will meet on Monday evening, May 2.

PISCATAQUA BATH.—At the annual meeting, held a few days since, the old board of officers were re-elected:

President, A. R. Hatch.
Sec. and Treas., J. H. Foster.
Directors, R. O. Treadwell, J. B. Parrott, L. W. Brewster.

This is one of the most important institutions, and every man and boy (who knows how to behave) should have a key. It is almost the only convenient place left where swimming can be learned or enjoyed. If it were appreciated and patronized as it should be, it would need to be enlarged at once.

COURT OF COMMON PLEAS.

The Exeter News Letter furnishes the following report.

Geo. D. Brown & Rhoda J. Brown, his wife vs. John W. F. Hobbs.

Action of Trespass.—The Plaintiff's declaration alleged that the Deft. at Boston, on third day of January, A. D. 1857, made an assault with great force and violence upon the said Rhoda, * * * intending to force, debauch and earnally know the said Rhoda, whereby the feelings of the Plfs. were greatly outraged, and their peace of mind destroyed, against the peace—and to the damage of the Plfs., in them of $5000. The Jury returned a verdict for the Plaintiff, assessing damages in the sum of $1,633 33.

The Juries which came in on Monday, were discharged on Monday afternoon, and the court having but few cases undisposed of to be tried by the Court, and none for trial by Jury, adjourned on Tuesday.

☞ Ship Fortitude, of this city, before reported ashore on the Mosquito Coast, at or near Cape Gracios a Dios, was sold at public auction, on the 31st ult., for the sum of six hundred and forty-one dollars. She was put up at twenty dollars, and rose by dollar bids into this unprecedented price.—All were astonished, even the purchasers; vessels laying where she does, or in that neighborhood, usually bring from twenty to fifty dollars. She was stripped by the brig Josephus, of Baltimore. She is bilged, and the owners of the cargo (250 M. feet of mahogany) have the right to cut her up to get the cargo out of her.

☞ We should have mentioned, yesterday, that the work on "Mothers and Infants," and also the musical publications from Ditson & Co., reached us through *J. H. Foster*, who has them for sale at his bookstore.

Some of the northern papers have made much talk about the establishment of slavery in New Mexico, where some slave laws have recently been enacted. They seem to forget that by the Dred Scott decision slavery is considered by the general government to be a legal institution—on every inch of national territory. The only way to render the territories free is to make States of them, and the faster that is done the better.—*Newburyport Herald.*

OBSTRCTING THE MAIL.—*New York, April 19.*—Warrants were yesterday sued out for the arrest of a number of the order of Ancient Hibernians, on a charge of having wantonly obstructed the U. S. mail for the Fast, on Saturday afternoon, the 16th. It appears that a procession of these Ancients had spread across the junction of Broadway with Union Square, and refused to open a passage for the U. S. express wagon containing the mail bags for New England, although frequently requested by the driver to let him pass. Far from being moved by these remonstrances and entreaties, an assault was made on the wagon and those in charge of it by the infuriated mob.

FROM KANSAS.—*Leavenworth, April 18* The first overland express left this city for Denver City with the mail. Its departure was witnessed by a large concourse of people. Two coaches of this line will leave here daily hereafter. Some small parcels of gold dust were received here.

Gov. Medary leaves here to-day for Ohio.

An Englishman would live twenty years in a house and not know his neighbors; a Frenchman would know all of them in twenty-four hours. Let the sociable Frenchman be planted among the tatooed Islanders of the South Sea, and in two years he would be found tattooed; put an Englishman in the same position, and he would be king of the island in that time.—*Kossuth's Lectures in Edinburg.*

The Wheeler & Wilson

Medal Family Sewing Machine.
A NEW STYLE MACHINE,
PRICE $50.
This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.
The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.
They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.
Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.
Among their undoubted advantages are—
1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;

THE GROVER & BAKER SEWING MACHINE CO.,
NO. 18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their
Celebrated Family Machines,
with all the recent improvements, have reduced their prices, and offer for sale
A NEW STYLE MACHINE.
PRICE $50!
Machines from $50 to $125.
HEMMERS, $5 EXTRA.
It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!
Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?
TESTIMONIALS.
Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."
Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."
Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."
Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

WHY THUS LONGING?

Why thus longing, thus forever sighing
For the far-off, unattained and dim,
While the beautiful, all around thee lying,
Offers up its low perpetual hymn.

Wouldst thou listen to its gentle teaching,
All thy restless yearning it would still;
Leaf and flower and lake bee are preaching
Thine own sphere, though humble, first to fill.

Poor indeed thou must be, if around thee
Thou no ray of hope or joy canst throw;
If no silken cord of love hath bound thee
To some little world, through weal and woe.

If no dear eyes thy fond love can brighten,
No fond voice can answer to thine own,
If no brother's sorrow thou canst lighten
By daily sympathy and gentle tone.

Not by deeds that win thee crowds' applause,
Not by works that give thee world-renown,
Not by martyrdom, or vaunted crosses,
Canst thou win and wear the immortal crown.

Daily effort, though unloved and lonely,
Every day a rich reward will give;
Thou shalt find, by hearty striving only
And truly loving, thou canst truly live.

EXTRAORDINARY BIRTHS.—Referring to the remarkable birth of four children at Brighton, the other day, the Independence Belge observes:—"We can give examples of fecundity still more extraordinary.—Maria Anna Ellen, the wife of a poor weaver, at Nutercherfield, has had thirty-two children in eleven confinements; twenty-eight of these children are still living;—twenty-six were boys. Anna Ellen has nourished them all. She had three infants at her last confinement, but two of them died. The husband of Anna Ellen is a twin; she was born at the same time with three others, making herself the fourth. The mother of Anna Ellen had thirty-eight children, and died in giving birth to two sets of twins. The greatest number known to have been born at one confinement appears to have been six, all boys; they were still-born. The wife who was delivered of them has been married a second time, and has already brought into the world forty-five children."

A CURIOUS CHAIR.—Hon. Frederick Smyth of Manchester, while attending the United States Fair, of which he is one of the Executive Committee, last fall, received a singular present from R. A. Williams of Richmond—a chair made from the spontaneous growth of broom straw, by Calvin Street, a slave belonging to Williams. It took a premium of $5 at the Fair, and is a marvel as the exhibition of negro ingenuity uncultivated. Strength and durability are its great characteristics, and the slave must have got his ideas of them from nature and art. There is nothing about it but straw, and that so curiously woven together that the chair will last, if nothing befalls it, till the "crack of doom." The rockers are six inches wide, with six spokes netted into the three saw-horse shaped supporters that hold up the bottom, and twenty-four triangles are woven into the back, broad branches reaching out, down, back, for arms. The chair suggests mathematics, banyan trees, broom corn and negro mechanism, and is a curiosity.

Mr. Smyth, after his return, sent the slave $10 as a present.—*Mirror.*

COMET POETRY.—A smart little boy in Albany is author of the following:

The moon was sitting in a cloud,
Full fledged in golden light,
A hatching out the little stars,
The chickens of the night.

But out of all that brilliant brood
Produced by Luna pale,
There was but one poor little chick
That could produce a tail.

THE GREAT WONDER
Of The Nineteenth Century
PROFESSOR WOOD'S
HAIR RESTORATIVE.
Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superiority of his hair restorative. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:
BATH, ME., Jan. 20, 1858.
PROFESSOR O. J. WOOD & CO.:
GENTLEMEN—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; as it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.
Thus much I feel bound in justice I owe you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of this letter, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.
BALTIMORE, Jan. 25, 1858.
WOOD'S HAIR RESTORATIVE.
Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.
FINLEY JOHNSON.
The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.
Brookfield, Jan 12, 1858.
Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.
Yours truly, J. K. BRAGG.
The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!
PREPARED BY DR. SANFORD,
Compounded Entirely from GUMS.
IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public. These Gums remove from the system all morbid or bad matter from the system, supplying the place of it with a healthy flow of bile, invigorating the stomach, and a preventive of Cholera.
Cholera Morbus, Diarrhœa in its worst form, while Summer and Bowel Complaints yield almost to the first dose.
A few bottles will cure Dropsy in its worst form, exciting the absorbents.
We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.
Only one dose taken after each meal will cure Dyspepsia.
One dose of two tea spoonfuls will always relieve Sick Headache.
Only one dose immediately relieves Colic.
All who use it are giving their unanimous testimony in its favor.
Mix water in the mouth with the Invigorator, and swallow both together.
PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,
KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REMOVATING PILLS. These pills are unrivalled in efficacy and extent. Write in regular for all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some specious and fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston, where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.
P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 dly

BATTLE OF LEXINGTON.—Tuesday was the anniversary of the Battle of Lexington—the opening incident of the Revolutionary war. As appropriate to the occasion, we copy the following from the Historical Mag.

First gun fired by an American at the Battle of Lexington.—The first American who discharged his gun on the day of the battle of Lexington was Ebenezer Lock, who died at Deering, N. H., about 50 years ago. He resided at Lexington in 1775.—The British regulars, at the order of Major Pitsairn, having fired at a few "rebels" on the green in front of the meeting-house, killing some and wounding others, it was a signal for war. "The citizens," writes one, "might be seen coming from all directions, in the roads, over fields, and through the woods—each with his gun in his hand, his powder-horn hung to his side, and his pocket provided with bullets. Among the number was Ebenezer Lock. The British had posted a reserve of infantry a mile off in the direction of Boston. This was in the neighborhood of Mr. Lock, who, instead of hastening to join the party at the green, placed himself in an open cellar, at a convenient distance for doing execution. A portion of the reserve was standing on a bridge, and Mr. Lock commenced firing at them.—There was no other American in sight. He worked valiantly for some minutes, bringing down one of the enemy at nearly every shot.

"Up to this time not a shot had been fired elsewhere by the rebels. The British, greatly disturbed at losing so many men by the random firing of an unseen enemy, were not long in discovering the man in the cellar, and discharged a volley of balls, which lodged on the walls opposite. Mr. Lock within, remaining unhurt, continued to load and fire with the precision of a finished marksman. He was driven to such close quarters, however, by the British on the right and left, that he was compelled to retreat. He had just one bullet left, and there was now but one way to escape, and that was through an orchard, and not one moment was to be lost; he levelled his gun at the man close by, and shot him through the heart. The bullets whistled about him. Lock reached the brink of a hill, dropped his gun, and throwing himself upon the ground, tumbled downwards, rolling as if mortally wounded. In this way he escaped unhurt. At the close of the war he removed to New Hampshire, where he lived till his death, twenty years after. He lived in seclusion and died in peace."

THE STORY OF A PARDON.—An exchange says that 'Gov. Banks of Mass., has not pardoned a man in the State Prison this year.' *Mirabile dictu.* But has he pardoned one *out* of it? If not, is it owing to his stern sense of duty, or to his insensibility? It is a wrong thing—to defeat the ends of justice by releasing from merited punishment so many unalterable rogues, who live by preying upon the vital interests of society. And yet, such is woman! these rogues are the very class of men who seem most successfully to win the affections of the fairest, most faithful, most indefatigable of the other sex. As wives, as sisters, they will besiege the door step of a state executive to secure the pardon of an erring relative, until all patience is exhausted, all means of resistance to their heart rending appeals worn out. We know of an instance in point, which may be worth recording in this connection.

An arrant scoundrel was once sentenced for some years to the State Prison, for a fraud wholly without the shadow of an extenuation. His wife's petition for clemency was indignantly rejected; but, day and night that woman haunted the gubernatorial path, like the tearful ghost of beauty in despair! She uttered no murmur and no prayer; but she had a lovely, modest, Madonna-like face; and, turn his eyes wherever he would, his excellency caught sight of its speechless eloquence, bathed in grief and filled with such a look of inexpressible anguish that its mute pleadings almost drove him insane. The woman refused all sustenance, and scorned all consolation, all contributions, all pity, all menace, all overtures, all fear. She wanted nothing but her husband's liberty. Upon his release or her own death in seeking for it, she was immovably determined. Of course she conquered. The Governor was utterly unable to withstand such an assault upon the tenderness that laid beseechingly at the bottom of his better nature; and when his wife and daughter, stirred up into active sympathy with this spectre of fidelity, added their tears to her own, he signed the pardon with a sigh at the act of humanity.

The convict was released at noon.—The fond wife rushed frantically to the arms she had, by her unselfish sacrifices, freed from the manacles they deserved.—The same night the convict was arrested for beating his wife almost to death in a fit of brutal intoxication! Some people said he was mad, and some only said he ought to be; but when the poor woman finally recovered, it was to become the inmate of a lunatic asylum. There she died; and fortunately, she was never cognizant of the fact that the being she idolized abandoned her, the moment she entered the doors of the institution to which his cruelty had consigned her, for the attractions of another female; and, strange retribution! this latter subsequently murdered *him* to indulge in a guilty passion with a man whom, of all others in the world he most detested!—*N. Y Sunday Times.*

THURSDAY, APRIL 21, 1859.

THE SLAVE TRADE LEGALIZED.—The Echo prisoners on trial at Charleston, S. C., were acquitted on Saturday. The evidence for the prosecution was closed on Thursday last. No testimony for the defence was offered, nor any cross-examination of witnesses for the Government. It was proved by the testimony of Lieut. Carpenter, Coxswain Monahan and Capt. Maffit, of the United States brig Dolphin, and by other parties, that the negroes on board the Echo were found in a very distressed and suffering condition; that Capt. Townsend was a native of Newport, R. I.; that the condition of the vessel, when captured, was extremely filthy, and that the charts found in possession of the captain had marked upon them, in pencil, a continuous line from the coast of Africa to the point of her capture. Of course the trial was all sham. The law pronouncing the slave trade piracy is a nullity at the South, says the Atlas. And at the South is where it will readily thrive.

The passage of the fugitive law of 1850—of the repeal of the Missouri restriction—the election of Buchanan and Breckinridge—and the Dred Scott opinion of Judge Taney—all these things tend the same way. Slavery is all wrong. Give it an inch, and it takes an ell.

A recent convention of the Democracy in Texas adopted the following resolutions:

Resolved, That the Democratic is the only national party to which the South can look for protection while in the Union; and that, so long as that party continues to uphold the Constitution and rights of the South, it should command the support of all Southern men.

Resolved, That we are opposed to all compromises, and if our rights under the Constitution cannot be maintained by the Democratic party, we should maintain them as Southerners, as Texans, "peaceably if we can, forcibly if we must."

Resolved, That our delegates to the Convention be requested to inquire into the expediency of obtaining negro laborers, suited to our climate and products, from some foreign country, and to recommend measures by which the importation can be carried on under the supervision and protection of the State.

Here are the three cardinal points in the new doctrine—that the slave trade must be revived; that the Democratic party must do it; that the Democratic party will obey the laws, respect the constitution, and stay in the Union so long as that party can control the government and use it for the benefit of slavery, and no longer. All this is said by the Texan Democracy. That of New Hampshire it hardly prepared to go this length, tho' the Democratic Standard may do something in that line, perhaps.

☞ Some cruel experiments have lately been made in Paris to test the endurance of horses. It appears that a horse will live on water alone five and twenty days; seventeen days without eating or drinking; only five days if fed but unwatered; ten days if fed and insufficiently watered. A horse kept without water for three days drank one hundred and four pounds of water in three minutes. It was found, too, that a horse taken immediately from "feed" and kept in the active exercise of the "squadron school," completely digested its "feed" in three hours, in the same time in the "conscript's school" its food was two-thirds digested; and if keep perfectly quiet in the stable, its digestion was scarcely commenced in three hours.

A CHIEF JUSTICE IN WHITE GLOVES. Chief Justice Robinson opened Court at Toronto last Monday, and said to the Grand Jury, that it gave him great pleasure to announce that instead of the usual calendar of criminal indictments, the Sheriff had that morning presented him with a pair of white gloves, signifying, according to an old English custom, that there were no prisoners to be brought before the present Assizes. His lordship said he did not recollect an occasion on which it was his pleasing duty to receive a pair of white gloves, instead of the usual indictments, since the year 1808—now 51 years ago.

☞ The Anti-Tobacco Tract Depository, Fitchburg, Mass., has just issued six new Anti-Tobacco Tracts for Youth, which were "written expressly for Youth in schools and elsewhere. They assail a vice which has a sad prevalence; a vice from which our youth must be rescued or ruined. They are enriched with letters from distinguished men, which must do good."

☞ Hawthorne, the novelist, is in Rome, and is said to be engaged on some new work, the subject of which is not even known by his wife.

☞ A home missionary writes the Boston Congregationalist some of his experience of preaching in the West. He says:

"Imagine, for instance, a huge *rat* coming out from a hole in the desk floor, and running up to my feet, so that I have to kick at him and frighten him away. Think of this same rat taking a circuit of the front of the desk floor, and being caught sight of by a little dog, who starts for him, just loses his game in the hole, and sets up a bark, right in the midst of the sermon, and just too far away to be reached by my foot! Imagine a woman jumping up, just as you are becoming interested in your topic, and shouting, *Amen! Amen!* in the most obstreperous manner possible!"

☞ When Dr. Lyman Beecher was instructing a class of Theological students, and one of them put to him the question—"What if an atheist should say that there is as much proof of the existence of several Gods as there is of the existence of one?" he replied—"Don't enter into an argument with him, for quite likely you might fail to convince him, but tell him that if his theory is true, and there are more Gods than one, *so much the worse for* HIM!"

☞ The Superintendent of the Virginia State Penitentiary, at Richmond, refused to receive a prisoner sent there by the United States Court, because Uncle Sam owes a bill for similar accommodation in the institution over which he presides, which he has neglected or refused to pay. The abused old gentleman must be low in credit when he cannot be trusted for accommodation in a State Prison!

☞ The Newport, N. H. Republican gives an account of the celebration of the one hundredth birthday of Mrs. Amy Spaulding of East Washington, which took place on the 30th of March. A large number of relatives and friends assembled at the Baptist Church, where an eloquent and instructive sermon was preached by one of her grandsons, Rev. Willard Spaulding of Newburyport. Remarks were also made by citizens. Mrs. S. was born in Windham, Conn., famous for the "Battle of the Frogs," which took place on her farm the year before her birth. She has lived in Sullivan county eighty years.

☞ The Washington Union has passed into the hands of another proprietor, George W. Bowman, and has become the *Constitution*. The first number contains a statement of the policy of the paper. It is to be a thoroughly Democatic organ, and is to advocate only such principles as the *whole party* can claim for common property. The editor upholds the the administration of Mr. Buchonnan, which he believes has done *nothing* to forfeit the confidence of the National Democracy.

ONE WEEK LATER FROM EUROPE.

HALIFAX, April 20.—Steamship Arabia, from Liverpool 9th inst., arrived this forenoon.

Cotton was slightly lower on the inferior qualities, but the market closed firm.

Breadstuffs dull. Provisions firm.

The English ministry had decided to dissolve Parliament, in view of their defeat on the Reform question. No date had, however been fixed for carrying their resolve into effect when the Arabia sailed.

The £7,000,000 India Loan Bill had been finally passed.

The Continental advices are very warlike and threatening.

The latest advices from Vienna say that a crisis is at hand.

Great bodies of Austrian troops are on the move for Italy.

There is also great activity in the French military preparations.

The Paris Bourse was much depressed, and the Rentes had declined nearly one per cent. in the last two days.

Ship Grey Oak, from London for New York, had been abandoned at sea. Her crew were picked up and taken to Liverpool by steamer City of Washington.

We are not disposed to take a very despairing or dark view of life, but, from a perusal of the Sickles trial, and conversation with people regarding the moral condition of Washington, we should deem that, were one to stand at some high spiritual elevation, that city would appear as black as Swedenborg's hells that he saw yonder.—*Boston Sat. Eve. Gaz.*

NICARAGUA MATTERS. — *Washington, April* 19.—Secretary Cass has expressed to the Nicaragua Minister his approval of the Cass-Yrissari treaty, but the President rejects it. His objection lies against what is known as the additional article, which article as amended by Nicaragua provides that the United States will do all in their power to enforce their neutrality laws, and for the prevention of any armed expedition into Nicaragua.

ST. LOUIS, April 19.—We have San Francisco dates of the 28th ult.

The bill to divide the State had passed the House, as had also a bill calling a convention of delegates from California, Oregon, Washington and Arizona, to consider a plan for the construction of the Pacific Railroad.

POUDRETTE AND GUANO.
J. F. SHORES, JR., No. 1 CONGRESS BLOCK, Is now prepared to supply all demands for the
Lodi Manuf'g Co's Poudrette,
To those who have used the article in former years, it can only be said that it is full as good, if not a little better, than it has been. To those who have not used it, we would say "try it,"—in almost every place where it is used, the universal decision is, "it is the best thing we ever saw to give an early start to the crops." Read the following extract from a letter from J. E. Goodwin, Esq., of West Milton, N. H., dated July 24th, 1858:
"Its value as a fertilizer, in this vicinity, has been proved; and with the most satisfactory results. I planted potatoes May 1st, without, and about May 20th with Poudrette, (same variety) and the latter is now (July 24th) quite as large and apparently nearer ripe than the former."—* * * in every instance that has come to my knowledge, where it has been used, it has given full satisfaction."
Also for sale
GENUINE PERUVIAN GUANO.

SPECIAL NOTICES.

SEWING MACHINES.
The Grover & Baker are always preferred, when coming in competition with any other machines.
PORTSMOUTH, April 12, 1859.
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.
PORTSMOUTH, April 12, 1859.
We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair. We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, which it always affords the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.
FRANK W. MILLER.

ONLY A FEW WORDS
Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my
GALLERY, No. 33 Congress Street,
consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.
A. GREGORY.
N. B.—I do not charge any more for **good** Pictures, than is paid every day for **poor** things.

TYPHOID FEVER.—Every one who knows anything of this fever, knows that the period of convalescence is extremely long, if indeed the health be ever perfectly re-established.—In such cases, the PERUVIAN SYRUP supplies a want long felt by the profession, and has restored invalids to health in a remarkably rapid manner, when all the usual tonic remedies had failed.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at
SALEN'S DAGUERREAN GALLERY,
in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.
N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiturmenus.

"Buy me and I'll do you good."
Health and Strength secured by the use of THE SPRING AND SUMMER MEDICINE,
Dr. Langley's Root & Herb Bitters.
Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and a torpid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.
More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.
Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.
Orders addressed to J. O. LANGLEY, or GEO. C. GOODWIN & CO., Boston.

To the Citizens of New Hampshire.
Charles's London Cordial Gin.
THE ORIGINAL AND ONLY LONDON GIN IMPORTED.
THIS GIN, Distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.
It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.
Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing complaints which frequently attend their delicate organization.
Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."
It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.
For sale in quarts at seventy-five cents, and in pints thirty-seven cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.
May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st; M. Cummings, 157 Blackstone st; Smith & Co., 20 Exchange st.; Gilbert, Abbott & Co., 78 Broad st.; Deland & Snow, 34 Elm st. and other. In Portland, Me., of H. H. Hay & Co., C. W. Atwell, and C. C. POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the **R. R. R.** Remedies prompt, quick and efficacious. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indisposition or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.
For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.
R. R. R. Office, 162 Fulton street, New York.
N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

LECTURES ON THE FINE ARTS.

The concluding Lecture of the course on Beauty and the Fine Arts, by S. P. Long, of this city, was delivered at Hanover Street Chapel, on Tuesday evening. The subject was, The five Great Masters of Painting; and this lecture was one of the most interesting and useful of the course, and must have required a vast amount of study and labor in the preparation. It certainly contained fact and fancy sufficient for two good lectures.

Previous to commencing his lecture, Mr. Long, in a few neat remarks, tendered his acknowledgements and thanks for all assistance rendered in carrying through this course; to the small but highly-appreciative audience who had attended to; to Mr. J. M. Lord for accommodations and courtesies in his beautiful Chapel; to the press—ever ready, he said, to labor for the spread of intelligence and information—and to those friends, at whose earnest solicitation only, the lectures had been given in this city, even though many of them *had not attended!*

We have already given our opinion of these lectures, but we cannot let this opportunity pass, without again expressing our most unqualified approval of them, in every respect, and the unbounded and unprecedented delight with which we have listened to each and every one of them. From the time of the first lecture, on Beauty, at the Temple, which was so elegantly illustrated by Mr. Long's superb gallery of Statuary, we were impatient to hear the whole course; and have longed for each succeeding lecture, as does a hungry man for a feast—the only drawback to our entire enjoyment being the small number attending them, in comparison to their merit and value. We have rarely if ever before, been so entire'y satisfied with any lecture or course—and the knowledge that this lecture was the last, was a matter of much regret, we dare say, to the entire audience as well as ourselves. We fear we shall not soon hear the like again.

At the close of Mr. Long's lecture, Rev. Dr. Peabody arose, and after expressing his warmest approval and heartiest commendation of the course, just concluded, suggested that the audience express in some manner, their approbation of the same; and moved that for this purpose the meeting be organized by the election of Rev. Daniel Austin to preside, and Capt. Wm. L. Dwight as Secretary,—which was accordingly done. Mr. Joseph H. Foster then offered the following resolutions, which were unanimously adopted with the most most manifest pleasure by those who had been so highly edified by Mr. Long:

Resolved, That we desire to express to Mr. Long our high estimation of the value of the course of lectures which he has just concluded; embracing, as it has, instruction on the essential points requisite for an appreciative knowledge of art—with enlightened criticism of the various artists and schools of design; all made interesting by a style equally clear, instructive and entertaining; illustrated by a collection of drawings and engravings never surpassed in this vicsnity; and indicating a high order of attainments in classical and elegant literature, no less than in the fine arts.

Resolved, That the Secretary of this meeting be requested to communicate a copy of these resolutions to Mr. Long, and cause it to be published in the papers of this city.

We deeply regret, both on account of the people, and the talented and learned lecturer, that so few of our citizens have manifested interest in this admirable course. It is rarely indeed that such opportunities for obtaining information on Art are offered, especially out of the largest cities; and it must have been a disinterested love for Art, and the desire to popularize information concerning it, which impelled Mr. Long to bring out this series of lectures.

We have devoted considerable space to this matter—but not half so much as we would like to, could we do anything like justice to the subject. We regard this as one of the most valuable courses of lectures we have had for many years—and would commend them to any lyceum or literary society abroad.

We hope also to hear at least the lecture on Beauty again in this city,—and we feel sure that if our intelligent, lecture-attending citizens could form a correct idea of its character and general interest, there is no hall in the city which would contain the audience. F.

☞ We have already spoken a word of Albert Laighton's book of Poems—and a word *of* it is a word *for* it, of course. But we only mentioned it as *a book*, among other books. Now we want to invite more specific attention to it as a local affair—a Portsmouth book; the work, eminently deserving such notice and success, of one of the most gifted and worthy of her sons.

Portsmouth has the honor of having several gentlemen of acknowledged poetic talent, to represent her in other cities—and no one of them has failed of receiving honor and reward abroad, and being gladly acknowledged at home. Shall we, the fellow townsmen of one of the most talented, as well as modest and retiring of all New Hampshire's bardic sons, be the last, or fail to be the first and most eager, to acknowledge and pay tribute to the worth of Laighton, who yet remains at home with us?—Forbid it, honor—forbid it, justice. If half the men and women in this city, who can well afford it, who have hung with delight o'er the delicious rhymings and lofty inspirations of A. L., and been made better by reading and loving his pure verse,—we say, if but half these who can well afford it, would purchase from one to ten copies,—though they would by no means cancel the obligation we are all under for his exquisite poems,—yet it would be *manifesting* an appreciation which we know is *felt* by all.—Portsmouth should consume at least one edition of this beautiful little book—which is one of the most acceptable gifts for a friend at home or abroad, aside from all interest of the kind we mention above. See to it, all ye who care one whit for literature, especially for our home literature, that this matter is not neglected—and at once do your mite to encourage one who has done much more for you. F.

☞ One day this week, at dinner time, a man was borne through the streets, helplessly drunk, carried on a common dray, and landed at his own home, which of course was surrounded by a crowd of boys and of men, some of whom were thoughtless enough to laugh at the sad spectacle; but others were shocked at the sight.—The wife of the victim, after caring for him as well as she could,—spoke, in agony and despair, almost in insanity, to the young men who still hung round, warning them against the use of that miserable stuff which had made her husband a sot and a fool.

And as the women raised the windows of neighboring houses, she warned them, in clear and ringing tones, of their own danger and that of their husbands and sons, unless their face was set against this evil practice of guzzling strong drink in any form,—and pointed them back to the murder of one of their own sex only a year ago, in dreadful illustration of her subject.

A bystander tells us, he never heard an appeal so touching.

WATCHMAN, WHAT OF THE NIGHT?—*Messrs. Editors*:—I wish you could see some sights that I see, as in the exercise of duty, I happened to look through a house window just before four o'clock in the morning, where I saw men playing cards at that hour.

You might have seen a man and wife, both drunk and both in the lock-up at one time; two boys for different offences; and one man who had been kindly cared for, two or three nights, by the watchman, trying to get him over his late debauch.

And I have heard and believe it true, that two watchmen on the night of the late fire, were not sober enough to be properly fit for duty, yet were on duty. I did not see this, but hear it from true men. What is the remedy? A WATCHER.

☞ We have devoted a great portion of our "Local" columns, this morning, to mention of two of our most talented, worthy and valuable citizens—appropriately named and honored together, being both earnest and devoted worshippers of The Beautiful. We do this, of course, unknown to either—and without reference to the success of Mr. Laighton's book—which we understand is progressing favorably. In fact, we do it for the cause of Beauty, and to gratify ourselves. F.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

THE GROVER & BAKER
SEWING MACHINE CO.,
NO. 18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their
Celebrated Family Machines,
with all the recent improvements, have reduced their prices, and offer for sale
A NEW STYLE MACHINE.
PRICE $50!
Machines from $50 to $125.
HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

EX-EMPEROR SOULOQUE.—A late Jamaica letter says:

"The redoubtable Souloque, who has honored us by making this island his home, is held in great veneration by the negroes here, with whom it is an unpardonable offence for any one to say aught against the fallen Majesty. He walked out once, but a troop of little dirty urchins of both sexes, soon gathered around him, and his sable Majesty fearing one of them might, with something more dangerous than a "bare bodkin" "his quietus make," soon made haste to get home, and never stirred out on foot again. It was given out when Souloque first arrived here that he was immensely rich, but it turns out to be all false. Not that whilst he tyrannized over his countrymen he did not misappropriate enough of the public revenues to make him, in his loss of power, still a man of wealth; but it appears that his Prime Minister was a rogue of more acuteness than his master. All the produce that the wily Prime Minister had orders to ship to Europe, the sale to be invested in his master's name, he took care to ship on his own behalf. He is now gone to Europe where he will live at ease upon the ill-gotten wealth which Souloque calculated to fall back upon."

BREAD BY WEIGHT.—A new bread law in Massachusetts contains these provisions:

A loaf of bread shall be two pounds in weight; and bread may be baked and sold in loaves, half, three-quarter and quarter loaves, but not otherwise, except in bread composed in chief part of rye or maize.

Small rolls and fancy bread weighing less than one-quarter of a pound each, may be baked and sold without regard to weight.

In every shop or place where bread is sold by retail, and in each front window thereof, there shall be conspicuously placed a card on which shall be legibly printed a list of the different kinds and qualities of loaves sold there, with the price of each per loaf, and half, three-quarter, and quarter loaf.

All bread, except small rolls and fancy bread of less than a quarter of a pound each, sold in any shop or place, shall be weighed in the presence of the buyer, and if found deficient in weight, bread shall be added to make up the weight required by law.

Any person who shall violate any of the provisions of this act shall forfeit for each offense the sum of ten dollars, to be recovered in an action of tort, to the use of the party suing therefor.

FEARFUL RETRIBUTION.—The jury of inquest at Gloucester, Mass., who have been examining the murder case of Brougham, killed by three Irishmen in a groggery, have returned the following verdict:

That Benjamin F. Brougham came to his death at a place called the Empire Saloon, in said Gloucester, at about twenty minutes past five o'clock, A. M., on the seventh day of April inst.; and that his death was occasioned by blows he received at said Empire Saloon, on Tuesday, the fifth day of April instant, between the hours of five and six o'clock, P. M., and that said blows were received in a fight, in which bottles, jugs, decanters and pitchers were used, between the said Brougham and three other persons, whose names the jury believe to be James Crawley, John Harney, and Jesse McCarty; and the jury further find that the said Empire Saloon, where said Brougham received the blows which caused his death, is a place where intoxicating liquors are unlawfully kept and sold, and that the immediate cause of the deadly fight was in consequence of the unlawful sale of intoxicating liquors.

SUDDEN DEATH.—On Friday night, during the exercises at the meeting of the tract society of the Methodist conference, in New Haven, Conn., Miss Sarah Curtiss was observed to fall suddenly insensible in her seat. It was supposed to be a mere fainting fit, and she was taken out by friends and carried to her residence in William street. Dr. Hooker, who was summoned, pronounced her attack apoplexy, and, notwithstanding the utmost efforts to relieve her, she died on Saturday.

The slaves of the United States are eminently a religious class—one in eight in their entire number is a communicant of some christian church, and probably a third part of all that have come to maturity and live where they can see a christian minister.—The Methodists claim 217,590; the Baptists 193,000; the Presbyterians 21,638; and other churches 10,000; making a total of 442,225 christian slaves—not only in the likeness but the children of God—in chains in this christian country.—*Newburyport Herald.*

EASTERN RAILROAD.—The Eastern Railroad Company have just placed on their road some new passenger cars, which are intended for the Portland trains. These cars are neatly ornamented with views of the towns through which this route passes, and they are finished in the best style of workmanship. More cars of the same style are in course of construction, and will be added to the rolling stock of the road in season for the summer travel.—*Boston Journal.*

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks strongly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy, as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here. Any further information I may be able to make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation; and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Billious Attacks are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents nightmare.

Only one dose taken at night, loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Colic.

One dose or two repeated, cures Chronic Diarrhœa in its worst form, while Summer and Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony to its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most invidable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics, have come under his care, and more than three-fourths of this number are described upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REMOVATING PILLS.

These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing perfect relief in a short time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by unskilled practitioners who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 d1y

PORTLAND MATTERS.—The Mayor says in his annual address:

The records of our Police Department still show that drunkenness continues to be the leading cause of commitment and crime. The arrests for this offense, as appears by the City Marshal's returns this year, having been 448 against 1081 last year.

I am happy to state that the number of tippling shops in our city has materially diminished the past year, under the salutary influences of our present Prohibitory Law. The beneficial effects of this law may also be seen in the diminution of crime in our city; the whole number of arrests this year being 1009 against 1517 last year, and for drunkenness, as above named, 583 less;—and the number of inmates in our almshouse the past municipal year has also been less than the last year. The average monthly number in 1857 and 1858 was 141, and in 1858 and 1859, 123. The out door aid has also been less, excepting fire-wood, and the whole expense of the poor house department has been $3,375.32 less than last year.

In all cases where evidence could be obtained deemed sufficient to convict for a violation of the law relating to tippling shops, prosecutions have been ordered. But it is very difficult to procure reliable evidence; and although there are still places where intoxicating liquors are sold in our city, yet it is done clandestinely and not openly as formerly.

With the mixed population that congregates in a commercial city, it is not surprising that persons should be found who for the "love of money" are alike heedless of local enactments, and of that higher Law of the Scriptures, that pronounces a woe upon him "that giveth his neighbor drink;" yet if the present act remains the law of our State, as I believe it will, we can, by firm, judicious, but persistent efforts close up those fountains of intemperance.

MOUNT VERNON.—It appears by an official statement that $158,333 have been received of the sum of $200,000 required to secure the title to Mount Vernon, $150,000 of which has been paid in a little more than three months. $41,000, with interest thereon, is yet to be provided for, being the fourth instalment, due February 22, 1862.

☞ The remains of John Hunter, the distinguished physiologist, which were discovered in the vaults of St. Martin's Church, London, on the 22d of last February, were recently re-interred in Westminster Abbey, on the north side of the nave, between Wilki and Ben Jonson, (the skull of the latter being freely handed about.)

CAT-ASTROPHE.—Capt. Brown, of the brig Elmira, just arrived at Portland from Cuba, when 24 hours out from Cardenas, about 40 miles S. E. Cape of Florida, saw something that looked like an animal in the water. He changed the course of his vessel so as to approach the object, which proved to be a small bale of goods, on which a cat was demurely seated. The cat jumped into the water, but he succeeded in securing the animal, and she is now in his possession. She appeared to be in good care, but had a ravenous appetite, and evidently relished the salt "junk" that was offered her.—*Advertiser.*

☞ The number of Jews in Oregon, most of whom are engaged in commercial pursuits, is large. In Portland they have a synagogue lately incorporated by the Legislature under the name of the "Congregation Beth-Israel," where religious worship is conducted after the custom of the German Israelites. A large proportion of them, however, are free-thinkers.

CURE FOR POTATO ROT.—Mr. Robert French of East Haverhill, N. H., states that the potato grown from seed that has been soaked one hour in blue vitriol water, will not rot. His recipe is "one-fourth of a pound of blue vitriol dissolved in three parts of water; cut the potatoes and soak them in the solution one hour, and then plant them. They will germinate readily, and their vines will not blast, nor their tubers rot." Try it in a small way.

☞ Godey for May, 1859, has, as a Fashion Plate, a perfect picture of the May Fashions; "Bird's Nesting," an excellent design, and a first class engraving; An Alphabet printed in colors, for marking handkerchiefs, very fashionable now.—Fifty-six engravings in this number. Sixteen full-length figures of fashions.

SMOKING BY BOYS.—There ought to be a sumptuary edict against smoking by brats under age. To see whiskerless, sallow, sulky boys, sucking at cigars or clay pipes, is nauseous to behold. They smoke away appetites, and what little brains they have, and grow up, or rather don't grow up, miserable little snobs, despised of man and contemned by woman.—*N. Y. Spirit of the Times.*

☞ President Pierce and wife had (March 24) been in Rome about a week, and expected to remain some weeks longer. Mrs. Pierce's health is much better.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, APRIL 22, 1859.

A HEALTHY POLITICAL INFLUENCE. The Boston Post says, in praising the New York Observer:—

It is not only a powerful organ of the religious denomination with which it sympathizes, but it exercises a healthy political influence, as it took and maintains a decided stand against the prevalent higher law fanaticism.

We remember something of a howl from many kennels, because some ministers ventured to express opinions and to act, on some political subjects,—and because religious papers sympathized in the movement.

But now, lo, the New York Observer, edited by clergymen, exerts a *healthy* political influence, instead of the clerical editors took and kept the ground that there is no law *higher* than the fugitive slave law!

If this be health, what could sickness be, unless it were to believe that all men were created equal.

But not to discuss this at length, it is now made plain that the howl went up, not because they used political influence,—but because they used it in favor of freedom and against slavery. We thought so before.

MR. GANGOOLY.—The Boston Transcript states that Mr. J. C. Gangooly, who has furnished several articles for its columns, is a native Brahmin of the highest caste, who has come to this country to pursue his studies, preparatory to entering upon a missionary career in Bengal.

Mr. Gangooly was educated to the priestly office; but at an early age he began to doubt the truth of the worship of the heathen god. Through the efforts of the Rev. C. H. A. Dall, a missionary of the American Unitarian Association at Calcutta, he became an earnest and enthusiastic christian believer, for which he has renounced home, friends, mother and caste, for among his own people he was looked upon as polluted. He is studying in a village in Norfolk county.

Mr. Gangooly, in a recent letter, alludes to the difference in which *fire* is regarded in America and India. When he first reached Boston, he was startled at the fires that occurred, and our mode of suppressing them. In India fire is worshipped for its amazing power. The following extract from his letter will be of novel interest to readers:

When a Hindoo house is on fire, it is generally believed as the visitation from *Brum-ho*, or god of fire. When a store is on fire, its master is known to have sold his goods at the wrong weight, or at a high price. At the alarm of fire, of course, our people go to see it quenched, and the women, under the weight of ignorance, sprinkle a pitcher of water on their own roof—a curious manifestation of precaution. After the putting out of the fire, or the ruin of the house by it, a priest Brahmin comes on the spot, and throws a piece of new cloth, some flowers and butter into the remaining fire, so as to appease the wrath of the god of fire. In the market places, the image of the god of fire is worshipped annually, at the expense of all the shop-keepers.

KEY AND SICKLES.—Speaking of the trial, the Newburyport Herald says:

At the outset we thought Mrs. Sickles a weak woman, and her husband a hasty man; the evidence shows that she was base and wicked, while he was slow to believe, and long delayed a work which we think the jury will justify his performing. Key and his paramour seem to have grown so reckless as to have sought little or no covering to their guilty connection, and the whole world must say that the punishment that sent one to an ignominious death and doomed the other to an ignominious life, was not greater than the offence demanded, whatever they may think of the propriety of an outraged husband taking the law into his own hands.

There seems to be no doubt left now that the *wife* was as base as the husband, and that the trio were all, morally, on a level with the celebrated Five Points, of which Sickles is the fit Representative.

☞ In Europe, the war cloud, notwithstanding the Peace Congress is soon to assemble, is growing darker and darker.—Austria, mistrusting the intentions of France, does not pause in her warlike preparations. The consequence of all this is that another decline takes place upon the Paris Bourse, while trade is greatly depressed. In England both cotton and consols were lower, and breadstuffs were without animation.

AN ACCIDENT.—Rev. A. G. Morton, pastor of the Christian church at Salisbury Point, was found lying on the ground on Tuesday morning, insensible, on the road leading from the village to the depot, with a deep cut on his head. He was faint, became dizzy and fell, striking upon some sharp rocks that were near, and remained insensible some hours, but is not dangerously injured.—*Newburyport Herald.*

THE OBERLIN SLAVE CASES.—Some months since two Kentuckians attempted to kidnap a colored boy in Lorrain county, Ohio, but they were prevented, and some thirty or forty of the rescuers, highly respectable citizens of Oberlin, were arraigned and bound over on their own recognizances. The trial of one of the number took place last week at Cleveland, and resulted in his conviction. The local papers say that the jury was packed, and that every man was a Buchanan democrat.

This case having been disposed of, the District Attorney called the name of James Langston as the next case, but the counsel for the defence said they were only ready to proceed with the case of Prof. Peck. The Attorney insisting upon Mr. Langston's case, the defence said they thought they could be ready by the time the new jury were ready to proceed, whereupon the Judge said that the same jury that had tried the first case would try all the cases. This ruling of the Judge was strenuously opposed by counsel for the defence, as a mockery of that justice which should prevail in every court. The Court announced that the ruling would be enforced, when the counsel for the defence refused to call any witnesses, or appear before such a jury, and insisted upon the canceling of the recognizances of the accused.

This being done, the Marshal was at a loss to know what to do with the company, and tried to get them to give their parole for their appearance; but after consultation they decided that they would give no bail, enter into no recognizance, and make no promises to the Court. Of course nothing could be done but lock them up, but the jailor refused to put them in cells, and furnished the whole party, twenty in number, a large room in his own house. Here, at last accounts, they were making themselves as comfortable as possible. In the evening, a reporter paid them a visit, and found Prof. Peck reading the Bible, which exercise was followed by singing and prayer. The reporter adds that "such an honorable, conscientious, intelligent and good looking set of 'criminals' was never confined in that jail before."

☞ In Newburyport, a few evenings since, the Herald says, in the Board of Aldermen there was much discussion upon agencies and licenses. One license, for a billiard saloon was objected to, because a bar for the sale of spirituous liquors was kept in the same room. This fact was stated by one of the Aldermen without equivocation, and yet Aldermen elected as temperance men voted to grant it. It is a very singular state of affairs, if the city authorities know that liquors are sold by the glass, to be drank on the premises, that they should allow the business to proceed, and even justify the proceedings by granting this billiard license for the same room.

As to liquor agencies, the Board voted to have but one agent, and the Mayor said he should nominate a person for agent on the first Monday in May next.

In the Police Court, there, same day, Walter C. Foster of Rowley, for an assault upon a woman, was fined $4 and costs;—taxed $10.78. His available effects consisted of a carpet bag, containing two village bottles of rum. Committed to jail.

Patrick May, successor to Richard May of Misery Row, who is now serving out his sentence at Ipswich, was convicted of selling rum. Fined $10 and costs, and 20 days in the House of Correction at Ipswich.

☞ In the U. S. Circuit Court, Boston, the verdict of the jury in the case of William Herbert, Richard Cartha, and Charles H. Stanley, three of the Junior mutineers, was *guilty of manslaughter*, as to each of the prisoners.

They were found guilty of manslaughter at a previous trial, in aiding in causing the death of the captain, and Plumer, the principal in that murder, stands convicted of murder in the first degree. The offence for which Stanley, Herbert and Cartha have just been tried, was killing or aiding in the murder of Smith, the second mate of the Junior.

☞ On Thursday, at Boston, in the U. S. Circuit Court, this morning, Cyrus W. Plumer, convicted of murder, and Richard Cartha, Charles H. Stanley and William Herbert, convicted of manslaughter, were brought up to receive the last sentence of the law.

Plummer is to be hung, on Friday, June 24.—The others to pay $1000 each, and three years in jail,—also to stay in jail till their fines are paid. This is the most the U. S. law allows.

The N. O. Bee is not at all afraid of a dissolution of the Union. It concludes, "that the deluxive idea of disunion is wholly unlikely to assume a practical character, at least in the existing phase of popular opinion. While cotton is sold at prices which enrich every planter, and negro labor increase in value, the advocates of dissolution are preaching sermons to the deaf."

They operate on the three main organs of the system, the Blood, Liver and the Kidneys, curing Jaundice, Loss of Appetite, Dyspepsia, Asthma, &c., &c. For Asthma it is particularly successful. Annexed are extracts from a few of the many certificates of astonishing cures, now in the hands of the proprietor:

J. W. ADAMS, Essex street, Melrose, Ms. says: "Dr. Clarke's Sherry Wine Bitters have cured me of Weakness, Loss of Appetite, and unhealthy state of the Stomach, and they are the best Bitters before the public."

NANCY JENNINGS of Sharon, Mass., was cured of Asthma of nine years' standing.

CHARLES BENTON, of Providence, says "they cured me of General Debility, and I gained eight pounds of flesh in two months."

A Diploma was awarded them by the Mass. Charitable Mechanics' Association, 1856. Judges—Drs. A. A. Hayes, A. A. Gould, J. H. Blake, W. A. Brewer, Boston.

Mechanics, Farmers, Clergymen and Public Men, all feel at some seasons of the year, the need of a gentle Tonic, and no medicine can be better adapted for their purpose.

Buy this, and try it, if you wish to live to a good old age, and enjoy all the comforts of a life of perfect health.

Try them; all ye lovers of good Bitters and good health and you will find them a cheap, effectual and pleasant remedy. The largest Bottle, the lowest price, and the best medicine in the world; and sold everywhere for the low price of 25 Cents for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $1,25 for 4 qts.

POUDRETTE AND GUANO.

J. F. SHORES, JR., No. 1 CONGRESS BLOCK, Is now prepared to supply all demands for the

Lodi Manuf'g Co's Poudrette.

To those who have used the article in former years, it can only be said that it is full as good, if not a little better, than it has been to those who have not used it, we would say "try it,"—in almost every place where it is used, the universal decision is, "it is the best thing we ever saw to give an early start to the crops." Read the following extract from a letter from J. E. Goodwin, Esq., of West Milton, N. H., dated July 24th, 1858:

"Its value as a fertilizer, in this vicinity, has been proved; and with the most satisfactory results. I planted potatoes May 1st, without, and about May 20th with Poudrette, (same variety) and the latter is now (July 24th) quite as large and apparently nearer ripe than the former."—☞ "I am in every instance that has come to my knowledge, where it has been used, it has given full satisfaction."

Also for sale
GENUINE PERUVIAN GUANO.

SPECIAL NOTICES.

SEWING MACHINES.

The Grover & Baker are always preferred, when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines operate in the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would so soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings, to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. We speak what we may be the experience with other Machines, we never know a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

GALLERY, No. 33 Congress Street,

consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.

A. GREGORY.

N. B.—I do not charge any more for **good** Pictures, than is paid every day for **poor** things.

TYPHOID FEVER.—☞ Every one who knows anything of this fever, knows that the period of convalescence is extremely long, if indeed the health be ever perfectly re-established.—In such cases, the PERUVIAN SYRUP supplies a want long felt by the profession, and has restored invalids to health in a remarkably rapid manner, when all the usual tonic remedies had failed.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUEREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontirumenos.

"Buy me and I'll do you good."

Health and Strength secured by the use of THE SPRING AND SUMMER MEDICINE,

Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is manifested—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and a torpid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. it is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., &c. The weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently alienate the affections of the fair.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind I ever saw."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers going to or returning from Europe.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and confectioners. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Market st; M. S. Toppan & Co., 1 Cornhill; S. K. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. Smith & Co., 20 Tremont st.; Gilbert, Abbott & Co., 78 Broad st.; Debolt & Snow, 24 Elm st. and other. In Portland, Me., of H. H. Hay & Co., C. W. Atwell, and C. C. Mitchell & Son.

POISONOUS INDUCTIVE—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the **R. R. R.** Remedies prompt, quick and efficient. Persons who are afflicted with Scrofula, Cancer, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident—We have hundreds in this city, drifting away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

W. B. PRESTON agent for Portsmouth.

LOCAL.

☞ A committee consisting of Mr. Samuel Rowe, John W. Fernald, and Walter Laskey, were appointed by the Mayor and Aldermen, to compile a correct account of births and deaths for the year ending March 31, 1859, agreeably to an act passed June Session 1858. This committee are attending to their duty,—and we hope shortly to publish the result of their labors.

We used to have, for many years, an annual Bill of Mortality, for Portsmouth, prepared by a physician,—and about 25 or 30 years ago, Dr. Goddard prepared a valuable Abstract of all the Bills of Mortality.

These bills of Mortality, embracing as they did, a great variety of curious and useful information, should have been kept up to this time; and the young reader will ask, Why were they not?

The answer is at once ludicrous and mortifying. It was because a *very economical* Board of Selectmen declined to pay the usual $5 bill for printing the Bill of Mortality.

By this penny wise policy, medical men here and elsewhere, lost one of the best means ever enjoyed, for a comparison of average longevity in different periods, in an old town where changes are comparatively few,—and the town saved five dollars!

POLICE COURT.—*April* 20.—Before Justice Odell—John Sullivan, a minor, plead guilty to the charge of being unlawfully drunk in Daniel street on the 19th. Sent to the House of Industry for 30 days; costs, $3.86.

☞ The presiding officer of the Methodist Conference to be held in this city, is to be Bishop Ames.

☞ We are indebted to the publishers of the Atlantic Monthly, Messrs. Phillips, Sampson & Co., Boston, for the May number of this excellent Magazine. A prime list of contents. The article on the Gymnasium alone, is worth a year's subscription. For sale by John H. Locke, at his new Periodical Depot, near the Franklin House, and by the other dealers.

ANOTHER PHASE OF THE WANDERER AFFAIR.—*Citizens of Telfair in Trouble—The Prosecutor Becomes Bail.*—We had a little episode to the Wanderer affair yesterday, which is worthy of note. Alexander Dopson, Wm. L. Rodgers, N. Handle, B. F. Hunter, and J. F. McRae, all citizens of Telfair county and in attendance on the U. S. Circuit Court as witnesses, the last mentioned being the U. S. Deputy Marshal, were arrested yesterday forenoon by Constables Jones and White, and committed to the jail of Chatham county. The arrests were made by virtue of warrants issued by Mr. Justice Russell, upon the affidavit of C. A. L. Lamar, Esq., alleging that the aforesaid parties, together with others unnamed, "did unlawfully and fraudulently steal, take, and carry away, from the county of Worth, Reuben, Charles, Cyrus, and other negro slaves, the property of deponent," &c., &c.

It appears that the parties named were the U. S. Deputy Marshall and his posse, who arrested the gang of Africans as they were passing across the country some weeks ago, the slaves named being American born, and taken along as teamsters, &c.—The Marshall, however, was willing to give them up as soon as their true *status* was ascertained, and they remained with the Africans at the request of the agent of their owner. Such we hear at least upon good authority.

The result of the case, yesterday, was both curious and amusing. The prisoners were brought, late in the afternoon, before Justices Russell, Staley, and Connell, and required to enter into bonds, in the sum of $1000 each, for their appearance before the next Superior Court of Worth county, then and there to answer to an indictment for larceny. As they were strangers in the place and without friends, the prosecutor, Mr. Lamar, volunteered and became surety on their bonds! They were then discharged from custody.—*Savannah, Ga., Republican, 16th.*

THE PARAGUAY FLEET.—Steamer Harriet Lane, of the Paraguay fleet, which arrived in New York, Wednesday night, April 20, left Montevideo, March 20.

U. S. frigate St. Lawrence sailed from Montevideo March 11. The entire squadron will be on their way home by the 1st of April. The Metacomet had been condemned as unseaworthy, and would remain at Montevideo till orders were received from Washington in regard to her.

Brigs Dolphin, Bainbridge and Perry will remain on the Brazil station, under command of Capt. Chas. Steadman. The storeship Release will remain on the station for a few months. The health of the officers and men of the squadron was good.

☞ Rev. Rufus W. Sawyer, of Winthrop, Me., has received and accepted a call from the Second Congregational church at Great Falls, to become their pastor.

☞ Rev. Jeremiah Blake has removed from Dracut, Mass., to Barnstead, where he has engaged as a stated supply.

☞ Some burglars the other night attempted to enter a dwelling house in Troy; selecting a bedroom window at the rear of the house as a point of operations, they awakened Mary Quaid, a servant girl sleeping there. She rose, took a wash-basin, went softly to the window, and as soon as the head of the first man appeared she struck it with the crockery, breaking both the head and the basin. The man screamed and Mary screamed—he from pain, she for the watch. The burglar escaped.

☞ The coolest thing from Pike's Peak that we have seen is the following from a letter, which is going the rounds of the press:

In Arrapahoe County there are from eight to twelve hundred poor devils, like myself, hunting gold, but not finding any. At present, we are preparing to skin the spring emigration, which is to be done by disposing of town sites and bad whisky.

☞ It is stated that Jenny Lind's fortune has been squandered, and that she is about to attempt to make another. She is advertised to sing in England.

☞ Steam fire engines are soon to be introduced at Lowell. They will be, ultimately, in every city that is able to buy or build one.

YOU HAD BETTER TRY
MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

The Wheeler & Wilson

Medal Family Sewing Machine.
A NEW STYLE MACHINE,
PRICE $50.
This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.
The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel; and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.
They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.
Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.
Among their undoubted advantages are—
1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

NO. 18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their
Celebrated Family Machines,
with all the recent improvements, have reduced their prices, and offer for sale
A NEW STYLE MACHINE.
PRICE $50:
Machines from $50 to $125.
HEMMERS, $5 EXTRA.
It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!
Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TOWN COURTS.

Our readers may remember that we had a short article on this subject, in a late paper. We are glad to see the following views on the same subject, presented by the Manchester American.

About ten years ago (says the American) our attention was called to the heavy expenses attending litigation under the Judiciary system existing in this State. Upon investigation, we ascertained that a large majority of those who had practical experience in our courts had deliberately come to the conclusion that it was better to suffer any loss, or abandon any claim however just, not exceeding $100, rather than bring a suit in the courts for its recovery. Instances occurred where the costs were twice the original claim, and in a majority of suits the party gaining the verdict was a loser in a pecuniary point of view from having been caught in "the meshes of the law."

In view of these facts, we published in the spring of 1850, a series of articles in favor of Town Courts, or a system by which a jury trial could be had before a Justice, without incurring the costs of the higher courts. The data was furnished us by a Goffstown farmer whose attention was called to the subject by examining the practical working of "Justice Trials" in Ohio and western New York, where he found that minor suits were settled in thirty days and at a cost not exceeding five or six dollars, while in New Hampshire a similar class of suits would often be delayed two years before the courts, and involve a cost of one or two hundred dollars. These views excited considerable attention at the time, in this and Rockingham counties. When the Constitutional Convention met, in October, 1850, this reform of the Judiciary system was proposed, and was received with favor by a large portion of the members. But nearly all of the legal profession strongly opposed the measure, and it was abandoned.

In 1855, when the remodeling of the Judiciary system came before the legislature, the plan of Town or District Courts was presented. A bill was drawn embodying the reforms in legal practice which are in successful operation in other States. The measure was generally popular, but the more conservative and experienced members were apprehensive that its practical working would prove a failure, and in lieu thereof the present system was adopted.

We are aware that there are difficulties in the practical operation of any system that can be devised. The present system is not satisfactory to the public for three important reasons:

First. Civil cases involving the ownership and use of property can by delay and by appeal be continued from court to court for several years, to the great loss and inconvenience of the litigants.

Secondly. The cost often becomes so enormous that an individual of limited means is obliged to let his case go by default—to abandon the suit from want of means to carry it on.

Thirdly. The tax-payers are subjected to an onerous burthen of taxation from the present system of long terms, delays of witnesses, and expense of juries. The county tax for Manchester alone the present year is $9,445. In every county of the State, the costs of the courts are a cause of complaint.

This question is one of general interest, and should be considered candidly and apart from any political or local bias. We saw during the winter in the Union Democrat some very sensible articles on the subject of judicial reform, and the advantages to be secured by a system which should simplify the practice of the New Hampshire courts, secure a speedy investigation, and diminish the present unnecessary costs of litigation. We are ready to heartily co-operate with any who will labor to bring about a change for the better in our Judiciary system.

A gentleman writes to the New York Times that "the confession of Mrs. Sickles, apparently written with a cool and almost heartless deliberation, was indeed the result of a long and severe effort at self-control. She had previously made *three* several attempts at its composition, and failed thro' the violence of her emotions." The same writer, whose statement the Times believes, says that the confession was surreptitiously copied as it lay on the table while the counsel were arguing for its admission by the Court.

Very poor gammon this.—No woman's heart ever conceived such stuff as this so called confession,—but it was evidently written, signed and witnessed, under duress,—and as evidently got up by the husband for his own purposes.—Its being in the hand writing of the wife only proves how completely she was in the power of Sickles, and how much she was afraid of him in her discovered guilt and shame. The document is worthy of Sickles,—exactly such a thing as he might be expected to write.

☞ Blind Tom is a little negro pianist, owned by one General Bethune, of Columbus, Georgia. At the conclusion of one of Arthur Napoleon's concerts, recently given in that city, the negro boy went upon the stage, and to the astonishment of the audience, and the members of the concert troop, played from memory Napoleon's fantasia on the Bohemian Girl, that had formed part of the programme.

Honesty, says Jerrold, without sharpness, in this world, is like a sword without edge or point—very well for show, but of no real use to the owner.

THE GREAT WONDER
Of The Nineteenth Century.
PROFESSOR WOOD'S
HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantee of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty five years. I am now sixty years old; my good wife is the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1856, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FRANCIS JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan. 19, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,
Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the diseases effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents nightmare.

Only one dose taken at night, loosens the bowels gently and cures costiveness.

One dose taken after each meal will cure dyspepsia.

One dose of two teaspoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Colic.

One dose will cure Cholera Morbus, and a preventive of Cholera.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures Chronic Diarrhœa in its worst form, while Dysentery and Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE SHILLING PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the truedescription of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which had been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B HUGHES UNIVERSAL FEMALE RENOVATING PILLS.

These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. They have been a specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spontaneous and fictitious names. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 dly

GAS AND SHADE TREES.—The mayor of Portland writes as follows on this subject:—

Portland, April 13, 1859.

DR. Samuel Baker—Dear Sir:—Yours of the 1st is at hand, and as it regards injury to shade trees from gas pipes, I would state that in one instance has occurred in our city where trees have been killed by gas, and that was owing to an accidental leak.

In some cities, to save expense, the pipes have been connected with cement in place of lead; and pipes so connected frequently leak. If gas pipes are carefully and properly laid, and connected with lead by careful workmen, the danger of injury to trees is very light. The pipes are laid from eight to twelve feet outside of the curb-stones; so that if a leak should occur, unless it was very serious, it would not reach the roots of the trees.

Coal gas is destructive both to trees and plants, but with due care there need be but little injury to trees in the streets from leakage.

Respectfully yours, J. JEWETT.

REPUBLICAN CELEBRATION OF JEFFERSON'S BIRTHDAY.—The Republicans of Boston and vicinity celebrated the birthday of Thomas Jefferson on Wednesday last by a grand festival at the Parker House, which was largely attended, and was in all respects a complete success. Ex-Gov. Boutwell presided, and made an excellent introductory speech. Speeches were also made by Hon. John P. Hale, Hon. Henry Wilson, Hon. Thomas Davis of Rhode Island, Hon. Carl Shurz of Wisconsin, Hon. J. S. C. Knowlton, Hon. John A. Andrew and others; and letters were read from W. H. Seward, Governor Banks, Hon. Abraham Lincoln of Illinois, Wm. C. Bryant, Hon. Preston King and others. We have only room for the brief speech of Hon. John P. Hale, as reported for the Boston Journal. He responded to the following toast:

The Declaration of Independence—No "passionate manifesto," no mass of "sounding and glittering generalities," but the solemn and sublime appeal of Philosophers, Patriots and Statesmen to History, to Posterity and to God.

Hon. John P. Hale of New Hampshire responded, and on rising was greeted with tumultuous cheering. He spoke substantially as follows:—

Mr. President and gentlemen—We have met here on this pleasant and agreeable occasion to honor the birthday of Thomas Jefferson, to remember his great and noble deeds, and to refresh our own patriotism by referring to his life and action. The question then arises, what did he do that we should thus honor him? What entitles his memory to this regard? His name has not been one under which most of us present have passed to places of honor or emolument, but it is because his name and fame, like the temple at Jerusalem, has been seized and held by those faithless to his principles and treacherous to his God. (Great applause.) In this respect he has been perhaps the most unfortunate of all our political lights, and if the Federal party entertained towards him such bitterness of sentiment as it was said to possess, surely today they would have their resentment more than gratified—they would have their revenge in full when they see the principles and political action of that party who now usurp his name. (Renewed cheers.)

Sir, his name and his fame belong to us; and if anything is our duty, it is to up and arm like the Crusaders of old, and take from the unbelievers in his doctrines the name they have usurped. To this should we devote ourselves, and this should be our aim. With God's help it shall be my persistent endeavor. I am here on this occasion because here the birthday of Jefferson is honored. For this I came to Boston this day, and I honor his name because he proclaimed the great rights which he enunciated in the name of a common and universal humanity—a humanity which is in all men; in all of us. He based those rights on nothing but humanity. I respect and honor him because he was a jealous man—jealous of the encroachments of a power which is something of an anomaly in a government like ours—jealous of the powers of the Supreme Court, believing as he did that if ever danger should threaten our country it would arise from its unlawful assumption of power.

Further, he honored him as the author of the glorious ordinance of 1787, a measure which was due to his untiring perseverance and devotion to what he conceived to be the right. In 1784 he endeavored to establish the ordinance, but he failed; in 1785 he again tried and again failed; in 1786 he failed once more, which only nerved him the stronger for his attempt in 1787, when he succeeded. (Applause.) Again he honored him because he believed and dared maintain and proclaim his reverence for a higher law. He said he trembled for his country when he remembered that God was just. These were his sentiments, these were his characteristics, and for these, as a Republican, the speaker honored his name and revered his memory.

Mr. Hale having, after the above very brief speech, taken his seat, loud cries of go on! go on! impelled him again to rise. He said he had not come to speak except what he had said, and with a further brief but eloquent eulogium upon the character of Jefferson, and our duty to revere his lessons, he again sat down amid continued cheering.

The editor of the Portland Argus found on Monday the defeated candidate for Mayor in the composing room of that paper busily "setting-up" the inaugural of his successful competitor, and criticising it as he went along. So philosophic a citizen should not spoil his contentment by going into office.—*N. Y. Tribune.*

SCIENTIFIC AND MECHANICAL.

CROWN OR WINDOW GLASS.

The name of crown glass is given to the best kind of glass used for making windows, and for like purposes. In its composition no lead or metallic oxide enters as a fluxing agent. A small quantity of manganese is frequently used, and sometimes also a minute portion of oxide of cobalt, but the object of these additions is, the correction of the faulty color in the glass, arising from the impurities in the sand and alkali. This kind is therefore much harder than flint glass, and would consequently be more difficult to fashion in any other form than of a plane surface.—When the materials are properly fused and refined, the operator takes it from the pot on the end of the tube, and blows it into form, when the side opposite the tube is flattened by pressure against a plane surface; then a small portion of melted glass is collected on the end of a punt and applied to the end of the flattened side, forming a union with it exactly opposite to the tube, which is then removed by wetting the glass near to to the point of union, leaving a circular hole in the glass about two inches in diameter. To continue the operation it must soon be heated again, when the operator dexterously twirls the punt in his hand, slowly at first, and then more and more quickly, when the glass yields to the centrifugal impulse, its diameter becomes greater and greater, the hole referred to expands proportionally, and when in this continued progression, the double portion opposite to the end of the rod and between the periphery of the glass and the orifice is diminished to an annulus or ring only a few inches wide, then, in an unaccountable manner, it instantly flies open and the glass is converted into a plane disc of fifty or sixty inches in diameter, having a uniform thickness throughout the plate with the exception of the spot where it is attached to the iron rod.

THE STRENGTH OF BOILERS.

It has long been a desideratum in the strength of boilers to determine some definite law by which the engineer could calculate the proportionate strength of internal flues. Ever since boilers became a necessary appendage to the steam engine, the principle acted upon has been that the internal cylindrical flues subjected to compression were absolutely stronger than the outer shell opposed to tension. These opinions have, in reality, had no foundation in practice, excepting from deductions drawn from occasional explosions, and the failure of vessels under severe pressure.—Hitherto, there has been nothing definite, or any known principle by which a calculation could be made of the diameter, thickness of plates, or length of flues corresponding with the strength of the boiler; and even in cases where explosions have taken place in collapse, the original cause has too frequently been mistaken for the debris's surrounding the rupture, and the force which has torn to pieces the scattered remnants of the outer shell. Numerous accidents of this kind have occurred, accompanied by serious loss of life; these have too frequently been caused by the collapse and the rupture of the internal flues, which, acting upon the interior of the boiler with an irresistible force, carries havoc and destruction before. The relative position and comparative value of these resisting forces have never as yet been clearly ascertained, in so far as respects the cause of rupture, and the anomalous condition in which many of these constructions are effected, have greatly retarded the application of science to improvements in the manufacture. There appears, in fact to be no rule in existence to attain uniformity of strength in all the parts of a steam boiler, where some of the parts are exposed to internal and some others to external pressure.

IMITATION MARBLE—NEW PROCESS.

An ingenious mode introduced for manufacturing artificial marble consists in applying the colors by means of a peculiar bath, used in place of the ordinary sized bath, long familiar in the manufacture of marble paper. The bath consists in a fibre of Dammara resin floated upon water, which may be broken up into any desired figures, by means of a rod or spatula, previously dipped into the desired colors. The article to be marbleized, which is generally a surface of slate, is, after being prepared with the ground color, immersed in the bath, then withdrawn, dried or baked in an oven, and then coated with a proper varnish, and again heated. Compared with the marbleized iron, these objects are better imitations of the stone, because the iron has to be covered with a glass to give it the stone surface, which frequently cracks.

An Italian method, just brought forward, for making plaster of Paris as hard as marble, and rendering it susceptible of a beautiful polish, is as follows. He places the plaster in a drum turning horizontally on its axis, and admits steam from a steam boiler; by this means the plaster is made to absorb in a short space of time the desired quantity of moisture, which can be regulated with the greatest precision. With plaster thus prepared, and which always preserves its pulverulent state, he fills suitable moulds, and submits the whole for a short time to the action of an hydraulic press. When taken out of the moulds, the articles are ready for use.

A SWINDLE.—A letter from Concord, to the Dover Enquirer, makes the following statements.

Sheriff Merrill, of Concord, seized liquors to the cost of $2500,—and 10 chests of tea, which had been obtained in New York, in the following manner: A man calling his name H. Locke, hailing from Concord, after a day or two's waiting for remittances, as he said, exhibited an earnest letter, to a firm of wholesale liquor dealers in N. Y., which he had just taken from the Post Office in that city, assuring him that some $2700 would reach him the next morning without fail, apologizing for two or three day's disappointment; and upon the strength of this, he bought the liquor and tea, paying over the $300 he had with him, and had them marked "*H. L., Concord, N. H.*," and had them started that evening for that city. The purchaser disappeared, and the dealers telegraphed to an agent of their's at Manchester, and he came to Concord, found the liquor and tea, but the man escaped while the liquor and tea were secured by the agent, and the rogue lost his $300 and his expenses to New York, and no one in Concord knows who the rogue is. This is *one* of the liquor transactions of the times.

Our State is full of such men going about selling vile liquor for Boston and New York dealers by samples. These agents receive high salaries for doing this business. Arrangements are making for prosecuting all such in this part of the State, and it is hoped the same will be done in your part of the State.

FATAL ACCIDENT IN SEABROOK.—On Tuesday afternoon last, Mr. Samuel Smith of Seabrook, N. H., came to his death under the following circumstances. While walking towards his domicil, he solicited a ride of a man who was driving a young horse; the driver seeing a drove of pigs ahead, informed Mr. Smith that he had better not get into his wagon, as he was afraid his horse would be troublesome, but not heeding the admonition, he entered the vehicle which drove nearly up to the pigs, when the horse turned short round, by which Mr. Smith was violently thrown against a stone wall, fracturing his skull in such a manner that he died in a few hours. He was about 78 years of age.—*Newburyport Herald.*

VIRGINIA CANNEL COAL.—A piece of Cannel coal from the Western Mining and Manufacturing Company's Mines, on Big Coal River, a tributary of the Great Kanawa, Boone, county, Virginia, was presented to the Boston Natural History Society, at its last meeting, by Joshua W. Richardson, of Boston. For purity, it is unsurpassed, and is in demand for the manufacture of coal oil, though it is excellent also as fuel. It is easily mined with the pick and wedge.

ROCHE'S SALOON, BOSTON.—Thursday evening, about 10 o'clock, a colored barber named George Broadhne, about 28 years old, while intoxicated, fell down a flight of stairs to the cellar, in the saloon of William Roche, at No. 94 Richmond street, striking on the head, and producing a large and dangerous contusion. His wound bled profusely, leaving a large pool of blood on the floor. He was removed to the Hospital.

William Roche, the proprietor of this saloon, is now on trial in the Police Court for manslaughter, in causing the death of ex-Purser Hunter, at this saloon. Hunter, it will be remembered, died from the effects of a severe wound on the head, which Roche alleged to have been caused by his falling down the steps while intoxicated.

☞ Rev. H. M. Dexter completed his tenth year as minister of the Pine street church, Boston, last Sunday. During that time he has made 3220 parochial visits, 830 visits to the sick; attended 129 funerals, and solemnized 114 marriages. The congregation has more than doubled. The members of the church have largely increased. The Manchester American says, Mr. Dexter lives six miles out of town, and drives a fast horse, and usually wears a very unministerial cap and coat. He is a good judge of gardening, ploughing and managing horses, and few can handle a cod-line with more facility. He is an editor of the Congregationalist.

POUDRETTE AND GUANO.

J. F. SHORES, JR., No. 1 CONGRESS BLOCK, Is now prepared to supply all demands for the

Lodi Manufg Co's Poudrette,

To those who have used the article in former years, it can only be said that it is full as good, if not a little better, than it has been. To those who have not used it, we would say "try it,"—in almost every place where it is used, the universal decision is, "it is the best thing we ever saw to give an early start to the crops." Read the following extract from a letter from J. E. Goodwin, Esq., of West Milton, N. H., dated July 24th, 1858:

"Its value as a fertilizer, in this vicinity, has been proved; and with the most satisfactory results. I planted potatoes May 1st, without, and about May 20th with Poudrette, (same variety) and the latter is now (July 24th) quite as large and apparently nearer ripe than the former."—* * * In every instance that has come to my knowledge, where it has been used, it has given full satisfaction."

Also for sale
GENUINE PERUVIAN GUANO.

SPECIAL NOTICES.

SEWING MACHINES.

The Grover & Baker are always preferred, when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's (old) Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair. We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

ALLEN & FAIRS.

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

GALLERY, No. 33 Congress Street,

consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP FOR CASH,—for a short time.

A. GREGORY.

N. B.—I do not charge any more for **good** Pictures, than is paid every day for **poor** things.

TYPHOID FEVER.—Every one who knows anything of this fever, knows that the period of convalescence is extremely long, if indeed the health be ever perfectly re-established.—In such cases, the PERUVIAN SYRUP supplies a want long felt by the profession, and has restored invalids to health in a remarkably rapid manner, when all the usual tonic remedies had failed.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

"Buy me and I'll do you good."

Health and Strength secured by the use of
THE SPRING AND SUMMER MEDICINE,

Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-spring of so many diseases; Jaundice in its worst forms, all Bilious diseases and Costiveness, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and a torpid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Orders addressed to J. O. LANGLEY, or GEO. C. GOODWIN & CO., Boston.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable medicinal properties of the vegetable, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic therapeutic.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, SPRING PAINS and DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints at fifty cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER is genuine.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. K. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 2 Blackstone st.; R. Smith & Co., 20 Exchange st.; Gilbert, Abbott & Co., 78 Broad st.; Deland & Snow, 24 Elm st. and other. In Portland, Me., of H. H. Hay & Co., C. W. Atwell, and C. C. Mitchell & Son.

POISONOUS INSECTICIDE.—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the **R. R. R.** Remedies, quick, safe and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe fortures for years, been suddenly restored to health by R. R. R. Remedies, in all cases of recent disease, that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

W. E PRESTON agent for Portsmouth.

LOCAL.

☞ Several days ago, a man with only one hand came into the editor's room of the Chronicle office, asking alms, to enable him to be a pedlar. He had a document purporting to be signed by the Selectmen of some town back in this State, we think Barnstead, certifying to his worthy character and needy condition; and on the same paper a note from a gentleman of this city, certifying some knowledge of him as a citizen of the place he named. Uncle Toby informed the crippled man that he had no goods for peddling, and no money to bestow—thinking from the man's appearance he was probably a free drinker, who would spend his money for that which is not bread.

We hear from the crippled man, since, that he called at a boot store in this city on the first day of his visit, and got measured for a pair of nice boots, telling the shopman that he was appointed liquor agent of his town by the selectmen, and that he was going to Mr. ———'s liquor store here to make arrangements. The boots were made, but he has not brought the money.

He went also to other places to beg, and in one place got a quarter of a dollar—probably elsewhere he got a number. But the donor of that quarter saw him twice afterwards, drunk, staggering about in State street.

The man, evidently, ought to be at home, on the poor farm of his own town. When here, he should be sent home as a vagrant pauper for his own town relief. He does not seem to be a very trusty liquor agent.

Another man, with two hands, called on two clergymen, and told two stories, one that he was the son of an episcopal clergyman, and the other that he was the son of a Methodist minister, with more contradictions, and pretence of sickness,—got a little money, and disappeared.

It is quite safe for every citizen here to question itinerant beggars very closely, and to bring their cases before the City Missionary or City Clerk and Overseers before giving money. Most of the strange beggars are impostors, and not a few of them are thieves, or drunkards.

WILLIAM CULLEN BRYANT. — *Messrs. Editors:*—In the N. H. Gazette of this week is an essay, long and learned, from our venerable fellow citizen, "Old South," all about Mr. Jefferson's birth-day, and the people who took part in the celebration thereof at Boston. Old South winds up his essay by a little poem against Jefferson, which he says was written by Wm. Cullen Bryant "in or about 1803."

I see, on reference to good authority, that Bryant was born Nov. 3, 1794—and consequently could not be more than nine years of age in 1803. Yet Bryant, as is well known, wrote verses for the papers before he was 10 years old, and therefore it is not incredible that he wrote this piece at 9 years.

It is, however, not a very strange thing that Wm. C. Bryant, the boy of 9 years, should take *one* view of Jefferson—and that Wm. C. Bryant, the man of 65 years, should take *another* view. He took his first view, doubtless, from the federal newspapers—the last, no doubt, from Jefferson's own works. A. B.

☞ The Rockingham Weekly Chronicle containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents, $1 per year, in advance.

☞ The special correspondent of the Philadelphia Ledger writes from Hong Kong, under date of Feb. 15, as follows:

"Have you yet heard in the United States of the promising trade that has already sprung up between Nagasiki (Japan) and Shanghae; No less than twenty vessels have visited the former port during the last four months, and exports seem much more abundant than was deemed possible. Vegetable wax, ginseng, lacquer ware, china, do., vegetable oil, hemp, rice, wax, silks, etc., are the principal articles, and upon many of these the most extravagant profits have been realized. Upon the *vegetable oil* in particular does money promise to be made. It is said to be abundant, very cheap, and answers for mixing paints as well as burning in lamps. Sheet copper also promises a large supply at an unheard of cost. The quantity of it already landed in Shanghae paid a profit of several hundred per cent. These things all considered, I very much fear that myself and every one else have hitherto very much underrated the internal resources of Japan, or rather the amount of exports that would be foud ready for our shipping. I would not pretend to say of how much value the commerce of Japan may prove to be to the world at large at a futuer day."

☞ Two canal boats, containing 72,000 bushels of coal, were swept into the crevasse near Lake Providence, last Saturday night and the crews, consisting of 30 men, all perished. So says a Memphis (Tenn.) dispatch.

FROM WASHINGTON.—*Washington, Apr. 21.*—The Constitution says that no Minister was ever treated with more kindness and consideration by his government than Mr. Forsyth, whose suspicions have converted this open and frank kindness into open hostility. It was obviously out of the question to send him back as Minister to the Liberal Government, simply because, whether rightfully or wrongfully, he is understood to have been the first foreign Minister to recognize anti-constitutional rebellion, and the usurped government of Zuloaga, for manifest reasons must have rendered him obnoxious to the constitutional party, and to the Liberal government of Juarez. This exposition sustains the recent statement made in the general newspaper dispatch.

It has been reported that Hon. George Taylor of New York would be appointed Commissioner of Patents, but it is understood that he declines the further use of his name in that connection, and it is probble that he will go abroad.

The commission for Com. Stewart, under the act of Congress creating him senior flag officer on the list of the Navy, was forwarded to him this morning by the Secretary of the Navy.

It is not true, as it has been generally reported, that orders have been issued to prevent the armed expedition, organized in New York and other cities, from entering the territory of Arizona.

FROM WESTERN MEXICO.—*St. Louis, April 21.*—Captain Mowry, bearer of dispatches for the American Consul at Guamas, passed through here yesterday, en route for Washington. He left Guaymas March 25, and reports the arrival of an express from Casola-in-Sinaloa, on the day previous, with news of an engagement at that place on the 14th of March, between Pesquinera and Col. Guanso, in which the latter was routed with the loss of 500 men. Pesquinera marched immediately for Mazatlan, which, being guarded by only a small force, would probably be taken without difficulty. Sonora and Sinaloa were in a constant state of revolution.

The Republican of this morning calls attention to a secret movement among emigrants at Pike's Peak for the organization of an expedition to take possession of the Mexican provinces of Sonora and Chihuahua. A consultation has already been held over this matter at St. Joseph, and probably at other points on the border, and prominent parties in this city are cognizant of the movement.

KANSAS CONVENTION. — *Leavenworth, April 21.*—Gov. Medary has issued a proclamation for the election of delegates to the Constitutional Convention which is to assemble at Wyandotte in June. County Conventions have been called throughout the Territory to perfect party organizations. Both parties will make make strenuous efforts to obtain the control of the Constitutional Convention. The official majority for a Convention is 3801.

FROM CALIFORNIA. — *New Orleans, April 21.*—The steamer Coatzacoalos has arrived here. She brings Minititlan dates of the 18th inst., and San Francisco dates of the 5th inst.

A ferry boat exploded at San Francisco on the 4th inst., by which six persons were killed and eighteen wounded.

Business dull at San Francisco, and the markets were overstocked.

KEROSENE OILS.—It will be seen by an advertisement in another column, that the Bostou Kerosene Oil Company are now prepared to answer all orders promptly.

MINISTERIAL. — We learn (says the Newburyport Herald) that Rev. Mr. Lascoll will shortly remove from Exeter to his residence in Amesbury, and will take the charge of the Union Evangelical Congregational Church, at Salisbury Point.—We are pleased to record this change, where an able minister is content to take a small church and a small salary.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

A NEW STYLE MACHINE.
PRICE $50!

Machines from $50 to $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

ELEGANT TREATMENT OF DELIRIUM TREMENS.—After making the patient fast on the floor, or in a tub, pour cold water upon his head and face, from a height of five feet, as *fast* as it can be done with a *quart* basin, having pails of water handed to the person pouring, as fast as he uses them.

The patient will struggle from *rage* and *fear* at *first*, but hold him fast, and he will choke and gulp, and soon become quiet, and beg to be released, then put him into a warm bed. He will soon fall into a quiet sleep.

Repeat the operation as often as it is necessary, accompanying it with anodynes and other appropriate remedies.

Braithwaite's Medical Journal, vol. 17, page 51, gives the above remedy; and it has recently been applied in this city, with success.

Dr. Pyper, an English army surgeon, used it on many soldiers, when they were furious; and saved them all. One hard case, when he recovered, was unconscious of what had passed—but said he dreamed he had been out in a pelting storm.

☞ The English have turned Oude into a regular Quaker country, levelling there nearly 800 forts, and seizing 378 cannon, and 97,500 arms of all kinds. What will the people do when the tigers come into their towns and villages, for breakfast, lunch, dinner and supper? There has been such a thing in India as a town being stormed by an army of tigers, and that within a century, too.

An old gengleman called at our office a few days since for a paper. He wanted one that "blackguarded the opposition."—We had none of our own which would answer the purpose, but we found no trouble, among our exchanges, in selecting a few which we felt safe in assuring him "contained nothing else" but blackguard language. He went away satisfied.—*Bath Times.*

☞ A man by the name of Robins, indicted for bigamy was tried at Raleigh, N. C., on Friday last and convicted. On Saturday he was branded with the letter B on the cheek, in open court—the brand leaving a mark that he will carry to his grave.

Willis Merritt's $400 horse was poisoned with corrosive sublimate the same night that he was used to drive Anson Burlingame from Waterbury to Naugatuck, Conn., to deliver a speech; and political malice is believed to have prompted the dastardly act.—*Boston Journal.*

☞ Mr. Bingham, the Norwalk (Conn.) schoolmaster, who is charged with attempting to poison his wife by giving her arsenic, has been indicted by the grand jury, and being unable to give bail in the sum of $5000, he has been sent to jail.

"Dan," said a little four year old, "give me ten cents to buy a monkey." "We have one monkey in the house now," said the elder brother. "Who is it, Dan?" said the little fellow. "You," was the reply.—"Then give me ten cents to buy the monkey some candy." His brother "shelled over" immediately.

"TIME IS MONEY"—which is probably the reason why people troubled with the "shorts," frequently desire more time on their notes.

ENCORE.—In an audience, where really good things are heard, those who enjoy and feel the most, are just those who feel least in the mood of noisy demonstrations; silence is said to be sometimes more eloquent than words, and certainly it may be far more so than hands and feet.—*Dwight's Musical Journal.*

☞ McFarland & Jenks, of Concord, have issued a very neat and convenient "Legislatative Handbook, for the year 1859." Every member of the legislature needs one.

It is a safe rule for an editor of a family paper to adopt, to publish nothing that he would be unwilling to place in the hands of his children, or that a gentleman cannot read without a blush in the presence of ladies.—*Bath Times.*

☞ Mr. Gilmore, formerly of the Salem Band, has formed a new band in Boston, of thirty-five brass and reed instruments.

The difference between the poor man and the rich is, that the poor man walks to get meat for his stomach, the the rich walks to get a stomach for his meat.

A farmer the other day, was told by his landlord that he was going to raise his rent. "Much obliged," said he; "for I find it impossible to *raise* it myself."

SIGNS.—It is a good sign to see a man wiping the perspiration from his face; it is a bad sign to see a fellow wiping his mouth as he comes out of a cellar.

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks clearly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-five, used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any one you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood | Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS,

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing the to get well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

One dose taken at night, loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve Sick Headache.

One dose immediately relieves Colic.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents Nightmare.

One dose taken at night, for a short time, cures Chronic Diarrhœa in its worst form, while Summer and Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and has been tested by thousands to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Persons treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with the sick and afflicted, from the sense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 d1y

☞ "It is a long road that has no turnpike," says the old proverb. Distilleries have paid a large profit for twenty years.—Some young men (says the Manchester American,) went from Hillsborough county to Boston and Medford and grew rich by the business. A dozen years ago several went from Belknap county to New York city, where they have made fortunes by the manufacture of liquors. But competition has grown up, and unsafe purchasers have multiplied so that last week there was a crash among the Boston distillers, and as one goes down Sudbury street he sees the chimneys without smoke, and a padlock upon the wide doors of the distilleries.—Among the failures we notice the name of John M. Barnard, formerly publisher of the Boston Herald.

We believe Mr. Barnard was the man who offered one thousand dollars premium for the best essay on rum making and drinking. But the literati found themselves unequal to the task, and the committee rejected all the essays.

AUTHORITY OF SCHOOL TEACHERS.—The teacher of a private school in North Brookfield was tried on Monday before Justice Hill, of Spencer, for excessive punishment of a scholar. The offender out of school hours, and away from the school grounds, hid the hat of one of his companions, who was compelled to return to school bare-headed. The punishment inflicted was not proved to be inordinate or malicious. The Justice Decided that the teacher of a private school, by implied consent of the parents, had the right to punish, and that the punishment in this case was proportioned to the offence. The teacher has won the highest regard among those by whom her services are best known. This decision is satisfactory, and a proper safeguard of school authority.—*Worc. Spy.*

The New York Sun, in announcing the latest news from Cuba, remarks:

"The Diario talks of hordes of men—Cubans, Americans and Frenchmen—being collected in the Island of St. Domingo and elsewhere, for a descent upon Cuba. It also says that an expedition of 300 men had left New York, in March, for the general rendezvous. It evidently talks without accurate information, but light will, perhaps, soon break upon a movement which has been well concealed."

American & Foreign Patents.
R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1837.
76 STATE, OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any other which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made ten TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his FAVOR, by the Commissioner of Patents.

MERCHANTS IN CONGRESS.

There should be more merchants elected to the Senatorial Legislature. Lawyers are sent there in large numbers, law and politics going very well together, though it can hardly be supposed that the lawyer is much benefitted by crossing with the politicians. Lawyers take to politics, as ducks to water, there being a tolerably close resemblance between politics and litigation. One reason why lawyers succeed in getting into Congress is because they are trained to talk, and people take it for granted that talking facility in discussion, is necessary in a member of Congress. This is a great mistake.

It has been objected to talking that it spoils conversation. The objection is not without force, but it applies much more strongly to public matters. Talking spoils legislation. It is because we have so many talkers, "tongues fellows," in Congress, that so many unwise things are done in that body, which, we are bound to believe, means well, but occasionally falls short of its intentions. The time that is devoted to talking is lost to action, and action is as useful to legislation as to oratory. We are not hostile to discussion, the necessity and uses of which we know and appreciate; but we do not believe that every measure that comes up should be treated as if it were a jury case.

Now, mercantile men, though they can talk as well as their neighbors, when there is any occasion for talking, are not in the abit of wasting words and time. The very nature of their pursuit trains them to deeds; if not to the manor born, they are to the manner educated, of acting. Reflection and action are their chief characteristics, two things the most desirable to make legislation what it should be. Business makes man familiar with great and various interests. No man can be a successful merchant without large facilities, or without deciding promptly. These merchants generally make good members of legislative bodies.

Some of the noblest men of the revolution, with John Hancock at their head, were merchants. Can we do better than imitate the revolutionary fathers? Had there been a score of merchants in the last House of Representatives, we should have heard nothing of an extra session of Congress, for their sense of order and habits of correct business would have prevented them from allowing Congress to adjourn without making the necessary appropriations for the Post Office and expenses of the country. Such neglect of duty as Congress was guilty of would have shocked all their ideas of fair dealing and rectitude, and their exertions would have been successful to the extent of having the country redeem the obligations upon which it had entered.—*Boston Commercial Bulletin.*

THE RUSH FOR KANSAS.—Accounts from the Missouri river informs us the rush of people for the gold mines is enormous.—The St. Louis Democrat in its river article, gives an account of the appearance of the river, that its banks from Kansas City to St. Joseph, seems like one enormous encampment of an army, or two hostile armies on two opposite shores. The numerous tents covering the ground are filled with human beings, and from them are constantly heard the sounds of revelry. The steamboat landing is still crowded with Pike's Peakers' wagons, of all styles and sizes, mules, oxen, and many other things that the ardent Pike's Peaker supposes to be necessary for the "overland journey."—There is no abatement of the crowd, the place of those departing are filled by new arrivals; it is so great that it astonishes even the old river-men, who have seen the great influx of emigrants in the past.

The Cincinnati Gazette says that *Weiss bier* is to some extent supplanting lager beer in that city. It has very much more carbonic acid, and so little alcohol that it is almost impossible to get drunk upon it.—This bier hails from Berlin.

Great guzzlers of beer, cider, or any other similar drink, are not very healthy, or very estimable, as a general rule. The needlessness of intoxicating drinks has been demonstrated by the experience of thousands, for the last thirty years.

☞ The American Unitarian Association, having received a fresh batch of idols from its missionary in India, the Quarterly Journal fears that it will soon "have a *pandemonium*, if receipts of this kind continue;" and wishes it "could as easily ship off some of the idols worshipped in *our* country."

☞ A young girl, 19 years old, was arrested at Detroit, on Saturday, dressed in male attire, who had run away from her home in Canada, with the intention of making her way to Pike's Peak. She had taken money from her father's desk for this purpose. She was entirely ignorant of the route, and supposed Pike's Peak was a short distance from Chicago. She was returned to her parents.

LABOR QUESTION IN THE SOUTH.—There are many signs that show that the question of free and slave labor is soon to be discussed generally through the border slave States.* At present, there is a scarcity of laborers in some parts of Virginia, especially in the cities; a writer in the Richmond Dispatch gives us his views on the subject, in the following manner:—

We live in a slave State, and cannot obtain a supply of *white labor*. And if we could, the effect of our employing such labor in the capital of a slave State, could not but be seriously injurious to the institution of slavery. Besides this, while white labor is certainly cheaper, much more efficient and under far more control than we can now exercise over our slaves, yet, by the introduction into our midst of large numbers of ignorant white laborers, endowed with all the rights and franchises of freemen, we should lose the strong conservative influence of slavery, and subject ourselves to the danger of agrarianism and mob violence which prevails to such an alarming extent in our Northern cities. In spite of all these evils, however, so far superior is white labor under moral restraint, that many of our citizens do now employ white labor, and many more would if they could get it.

In my opinion, our true policy is to open wide our doors to the free negroes of our State, and invite them to become competitors for the labor of our city. I am fully aware of the great prejudices which exist against this class of our population, and that our Hastings Court, yielding to this prejudice, has for many years refused to permit them to come into this city to reside. I am fully sensible, also, of the difficulty of removing the prejudice. But however well founded it may once have been, or may now be, I am entirely satisfied that it was the result of causes which do not operate with us. * * * *

Labor is in great demand, and profitable and constant employment is easily obtained. The vices incident to idleness and want would thus be restrained. They would by employment be brought into constant contact with the dominant race, and thus be elevated, restrained and improved. This result is universally observed in the country with slaves. Where the owners reside on their farms they are invariably more elevated and improved, and superior in every respect to slaves whose owners do not reside upon their farms. Again, by concentration in cities, they would be brought more immediately under the influence of religion than can be done when scattered through the country. In addition to all this, we have an efficient system of police, which has never existed in the country.

* A paper, claiming to be neutral, says: "It will be a discussion entirely among their own people, as it should be."

Now it certainly *will* not be discussed there alone, and it is difficult to see why it *should* be! What is there so sacred about negro slavery, that it cannot or ought not, to be discussed except by slave traders, drivers or breeders? We discuss the coolie trade, and the opium trade, and the rum trade; we discuss the pauper and corn laws of England; the priesthood and craft of Ireland and Italy, of London and Boston. But the question of free and slave labor must be confined to a black district forsooth. This kind of gag-law is rather behind the age.

We cannot see why outsiders may not discuss labor and laborers, black and white, bond and free, as well as discuss the private character of the Honorable Dan Sickles, who is to sue the Evening Post for libel, in taking a liberty so great.

LIGHTNING DURING A THUNDER STORM. The Concord (N. H.) Democrat states that on Thursday, the 13th inst., during a brisk snow storm, a vivid flash of lightning lighted up the leaden atmosphere, followed after a considerable interval by a peal of heavy, rattling thunder. The fluid took the wires leading to the telegraph office in Concord, and came upon the operator with an unceremonious flash and report as of a pistol, and with a heat which melted the wire in one of the magnets.

EXPENSE OF THE LOBBY.—The Boston Transcript gives the lobby bills which have been paid by the new town of Belmont, for engineering their charter through the legislature, the whole amounting to nine thousand dollars. The towns of Watertown and West Cambridge have also had large lobby bills in opposing Belmont.

This is rather a costly amusement, for all three towns; and to our view a useless and pernicious expenditure of money, on an object of no great importance either way.

☞ We are indebted to our old friend Geo. N. Carleton, Esq., late of this city, for the Memphis Morning Inquirer, which we observe contains his advertisements of house-furnishing goods, as usual. Success to him.

☞ Rev. Dr. Richards, recently deceased at Hanover, N. H., leaves manuscript sketches of nearly all the graduates of Dartmouth College.

☞ Punch says the very best sewing-machine a man can have is a wife; and that there is no makeshift in the world that can possibly replace it, either for love or money

Not long ago a man of low character and no ostensible vocation, managed to get in debt to some of the merchants in Rutland, Vt., and then ran away. The fact of his absconding being mentioned soon after, in the hearing of an Irishman who happened to know the delinquent party, Denis stated the case with great accuracy by exclaiming—"Faith, Sir, I'm thinking the loss of him will be an addition to the town!

Lodi Manuf'g Co's Poudrette,

To those who have used the article in former years, it can only be said that it is full as good, if not a little better, than it has been. To those who have not used it, we would say "try it."—In almost every place where it is used, the universal decision is, "it is the best thing we ever saw to give an early start to the crops." Read the following extract from a letter from J. E. Goodwin, Esq., of West Milton, N. H., dated July 24th, 1858:

"Its value as a fertilizer, in this vicinity, has been proved; and with the most satisfactory results. I planted potatoes May 1st, without, and about May 20th with Poudrette, (same variety) and the latter is now (July 24th) quite as large and apparently nearer ripe than the former."—* * * In every instance that has come to my knowledge, where it has been used, it has given full satisfaction."

SEWING MACHINES.

The Grover & Baker are always preferred, when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual other savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the supervision of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable medicinal properties of vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUM, GRAVEL, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, KIDNEYS and the BOWELS, NERVOUS DERILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate constitution.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of weather and cold.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. POISONOUS INNOCULATION.—Persons who, by accident or in the ordinary way, become innocu lated with any malignant disorder, will find the **R. R. R.** Remedies prompt, quick and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumat.c, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

LOCAL.

☞ Prof. W. Williams, of Boston, best known perhaps in this immediate vicinity as the author of the "Gloria" collection of church music, has recently held three Musical Conventions in this part of New Hampshire—at New Market, (under management of the County Association,) and at Exeter and Dover, where he had the entire arrangement of affairs. We have had the pleasure of attending on all, during a portion of the sessions—and have found Mr. Williams a skilful and energetic, yet courteous, and so uncommonly successful teacher and conductor of music, with a happy faculty of imparting his ideas and spirit to others. He is one of the best drill-masters we ever met—bringing out such pieces as the Hallelujah Chorus, God of Israel, &c., with exactness, by a chorus of mixed singers, having only a few hours for rehearsal.

These three Conventions have been well attended, and the musical people about here are beginning to appreciate the worth of such social gatherings. The Concerts, especially those at Dover, were very fine—the sacred music concert on Friday evening reminding us of the days of the Portsmouth Sacred Music Society.

It will be seen by his advertisement, that Mr. Williams is to hold a Convention in Portsmouth in May. Of course all those who really care anything for our home music, save to bicker about it, will encourage and aid the affair all in their power.—Besides our native performers, delegations of good musicians will be present from Dover, Exeter, New Market and all the adjacent towns—and, judging from Mr. W.'s success elsewhere, we feel safe in promising our musical readers a treat in the shape of Concerts, which we have not had equalled here, of the kind, for many a year.

FATAL ACCIDENT.—The Trains and Mails on the Eastern Railroad, Saturday, were thrown out of time by a fatal accident which happened to the freight train on Friday night, at Parker River, three miles south of Newburyport. The bridge there was burnt, probably by sparks from an engine of an evening train. And in the darkness of a stormy night, the freight train ran into this unseen danger, killing the engineer, and making a wreck of the train.

The engineer was George Perkins, of East Boston, who was temporarily on the train, in place of the regular engineer, Mr. Geo. Wildes of this city. Mr. Perkins was 25 years old, and married. John Page, fireman, jumped off, as directed by the engineer, and swam ashore. He thinks Mr. Perkins lost his life in trying to reverse his engine.

The bridge is about six hundred feet long, and sixteen feet from the water,—which is about ten feet deep at low tide. The engine and five cars were precipitated into the river. Four cars were loaded with ship-plank and the fifth was a milk car. About forty feet of the bridge is carried away. From appearances, the stringers, which are about eighteen inches thick, were burnt nearly to charcoal, and had been smouldering a number of hours.

The repairs on the bridge will doubtless be completed to-day. The baggage and mails have been ferried across on rafts. The body of the engineer has not been found.

PRICE OF NEWSPAPERS.—The Richmond Advocate says:—"The low price of $1.50 per annum for an ordinary-sized weekly newspaper, is the biggest absurdity in the business world of America." We think it is one of the *smallest* absurdities—so small that we always determined to have nothing to do with it. Four cents per copy is the lowest sum for which a Weekly paper ought to be furnished, and two cents for a Daily. We are constantly spending time and money to improve our sheet—and we believe in furnishing good articles, at fair prices. Our Weekly contains about as much reading matter as any paper in the vicinity, for the price—though it is hardly of "ordinary size"—and for the quality, we refer to our list of subscribers, which has been constanly increasing for the six or seven years since the paper was started.

Traders and mechanics are constantly cutting down their commodities below remunerating prices—thus starving themselves and getting the thanks of nobody. Better to be worthy of full hire, and so not have to plead poverty.

A NEW CITY.—A Manchester (N. H.) writer in the Boston Atlas gives the following item of News:—

The indications are that business is to take a lively turn. The Amoskeag Company are about to commence operations at Garvin's Falls, three miles below Concord, where there is a water power equal to that in this city. The company own an immense tract of land at that point which they have offered for sale repeatedly at less than cost, but no one has taken it, and now they are going to improve it. A stone dam will be erected and a canal dug on the Pembrooke (east) side of the river, where there is a beautiful site for a large town. The Concord Railroad passes along the west bank, and the Concord and Portsmouth along the east bank of the river, so that the railroad facilities are already established. As manufacturing is reviving, it is not improbably that a second Manchester may soon exist at that point.—They are under the necessity of improving it or else lose their charter, which has nearly expired.

The same writer says that there is a probability that a track will be laid from Manchester to Candia, on the Portsmouth & Concord Railway, the distance being nine miles over a flat sandy region. This would give Manchester direct connection with Portsmouth harbor.

Rockingham Couny Officers.

In the Court of Common Pleas, in session at Exeter, the votes given at the March election for county officers were declared on Tuesday as follows:—

PRICES GREATLY REDUCED.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

CAUSE OF CRIME.

Under the head, "Cause of the Murder," the Gloucester Telegraph thus speaks of the late death of Brougham, at the bar where he tended, a vile hole.

In a town as large as this, where there is an almost universal sale of intoxicating drinks, it cannot be expected that we shall escape from the inevitable effects which such an indiscriminate use always brings upon a community. We have in times past, advocated stringent measures to aid in the prohibition of the use and sale of such damnable articles in our midst, and attempts have time and again been made by a portion of our citizens to put a stop to their flow; but public opinion, which controls such matters more or less, has always sided with the guilty ones, and the result has always been that they would succeed in defeating the ends of justice. Under these circumstances the true friends of temperance have quietly awaited, knowing that there must eventually be some change—that it cannot always be as it has been; that some startling tragedy would be enacted that would arouse public sentiment to a proper sense of its duty. Whether the present case will produce this effect, remains to be seen.

It is a matter of surprise to us that we have escaped so long from any very serious results. Where in certain localities the intoxicating draught can be obtained in almost every store; where the sale of it is carried on in almost every private boarding house occupied by a foreign population; where almost all classes—men, women, and even children—indulge to their appetite's content, we repeat that we consider it as a matter of surprise that we have escaped so long from any very serious results. But one of the effects is now upon us. We have had a human being murdered within a stone's throw of Front street, in the open day! It may, perhaps, not prove to be wilful, premeditated murder, but it is murder, nevertheless. And it is done by the instigation of this love of drink which is so openly encouraged by almost every one. We say openly encouraged, and we mean what we say. It is encouraged by many who profess to be temperance men, and who talk as if they would do anything to prevent the use of intoxicating liquors; but when you point out to them the way in which they can exert an influence, they turn upon you and tell you they can do nothing, that it is not in their power to reach the evil. Perhaps it is not, individually, but much can be done by concerted action.

A Brave Boy.—The Bangor Union says that about noon, Tuesday, a son of Owen Tyler, seven years old, fell into the Kenduskeag, and was swiftly borne down the current. Among the crowd collected was William Belcher, a lad of about twelve years, poor in purse but rich in heart. He stood looking at the drowning boy a minutes, and then, exclaiming "It is a cold one, but I must go it!" plunged in. He quickly swam to the struggling lad, seized his arm with one hand, and kept himself above water with the other. In this manner they floated down the east channel of the stream to the wharf just back of A. McKinnon's clothing store, where they were taken out. The Tyler boy was senseless when rescued, and so remained for nearly two hours—Young Belcher was very much chilled.

☞ A registry law has passed the Legislature of New York. It is insufficient, but better than nothing. It will put a stop to a large amount of illegal voting, and unless the judges shall be elected by the same frauds and pronounce the act unconstitutional, in order to save their own places—a contingency not to be disregarded in an elective judiciary—it will be of great service. The Republicans and Americans in the Legislature voted almost unanimously for the law, and the Democrats to a man voted against it.

A Liberal Offer.—An opulent and public spirited citizen of Cambridge has proposed to purchase the church now occupied by the First Parish in that city, (Rev. Dr. Newell's) and secure the same to Harvard University for public celebrations, etc., upon very liberal terms. It is reported that the property has been estimated to be worth $35,000—that the gentleman above alluded to will purchase the church, and devote it to the uses of the College, if the Corporation pay a low rate of interest on the investment during the life-time of the purchaser—the College to receive the estate at the death of the owner.

Hayti.—Mr. James R. Redpath, well known as an anti-slavery writer of some celebrity, has recently been on a visit to Hayti, and is writing a series of articles for the New York Tribune, which give a most unfavorable account of the morals and the condition of the people of that country. It is certainly high time for some improvement on this state of things, if there is ever to be any hope of the elevation of the negro race, and the new government, it is to be hoped, will set about the work in earnest. Mr. Redpath's account of the low state of morals is truly deplorable. He says marriage is almost unknown.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guaranty of truth, the Dr. needs no encomiums, nor useless puffery from the press:

Bath, Me., Jan. 20, 1856.

Professor O. J. Wood & Co.:

Gentlemen:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Use what use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. Rayne.

Baltimore, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

Foxey Johnson.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. Wm. Dyer.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have found no other article with anything like the same pleasure or profit.

Yours truly, J. K. Bragg.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retailing for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD.

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public. These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, so much needed to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

One dose taken at night, loosens the bowels gently, and cures **constipation.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two tea spoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose every morning will cure **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Give a trial, and be convinced.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter addressed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. They act with specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless. They are got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 4ly

As the last steamer was leaving San Francisco for Panama, a little Dutch woman, bare-headed and in soiled clothes, came rushing down to the wharf, ran on board the boat and commenced hunting for her husband, who had taken all her money, bought a ticket for the States, and was about to desert her. At last, writes a reporter who witnessed the scene, she espied him among the crowd upon the deck—tiger-like she made a spring at him and snatched his watch and ticket from his pocket and secured them in her own. She then took him by the coat and commenced dragging him ashore. The crowd shouted and appeared to enjoy the scene vastly, occasionally cheering and encouraging her.—She succeeded finally in getting her husband off the boat, and clung to him until the steamer left, thus preventing his departure much against his will. The steamer once away, she seemed easy, and tranquilly took her way home, Hans following slowly behind.

MUD PIE AND TYPHUS FEVER.—A singular case was recently submitted to the Civil Tribunal of Paris. In May last a boy nine years of age, son of a workman, in playing, made a mud pie upon the staircase of the house, and the housekeeper, a woman named Caron, in a rage, plastered his face with the dirt. The little fellow wept, and was much agitated, shortly after felt ill, was subsequently attacked with typhus fever, and on the 8th of June died. His medical attendant certified that his malady and death had been mainly occasioned by the terror which he had felt at having had his face soiled, and his parents consequently brought an action against Madame Caron to obtain damages. On the part of the woman it was contended that what she had done to the child could not have caused his death. The tribunal, however, ordered her to pay two hundred francs.

PROSPECTS FOR FRUIT.—In New England the cold weather of this month is favorable for fruits. The apple, pear, and even the early plum, and peach buds are but slightly swelled. We may now, says the Manchester American, reckon them safe from the cold, and the Chester apple-growers say that the blossoming of the apple will be ample. But of late the fruit crop has suffered more from bugs and worms than from the climate. Last season the apple orchards were full of promise the first of June, but worms, curculio, &c., nearly destroyed the yield. Whatever can be done now by washing the trunks with alkalies, or sulphur and other preventives, should be attended to.

THE WHEAT CROP OF MARYLAND.—The Frederick, Md. Herald says:

"The wheat crop throughout the country is encouraging in the extreme. It is finer than it has been for years. A few days ago we took a drive through portions of Frederick and Montgomery counties, in this State, and Loudon county, Va. We did it the same everywhere—the grain looking healthy and vigorous, and so far advanced as to be almost sure of escaping the two of its deadly enemies, the fly and the rust."

PETER CARTWRIGHT.—Some queer stories are told of this pioneer preacher. At one time offended a certain Major ——, who was a fire eater, by the boldness of his preaching, and the first time they met the major flew into a desperate rage, and said if he thought he would fight an a duel he would challenge him.

"Major," said Cartwright, very calmly, "do you challange me I will accept."

"Well, sir," said he, "I do dare you to mortal combat."

"Very well, I'll fight you; and sir," said Cartwright, "according to the laws of honor, I suppose it is my right to choose the weapons with which we are to fight?"

"Certainly," said he.

"Well," said Cartwright, "then we'll go over into this lot, and get a couple of corn stalks; I think I can finish you with one."

But, oh, what a rage he got into. He clenched his fists and looked vengeance.—Said he:—

"If I thought I could whip you, I would smite you in a moment."

"Yes, yes, Major L——," said Cartwright, "but thank God, you can't whip me; and don't you attempt to strike me, for if you do, and the devil gets out of you into me, I shall give you the worst whipping you ever got in your life," and then walked away and left him.

Jim McGregor and Margaret Terrence, were tried at Derry, on charge of breaking open the store of Warren Richardson at Wilson's Crossing, and stealing goods to the amount of $26'5. Bound over in $500 each for appearance at the higher court in Rockingham county.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, APRIL 26, 1859.

☞ Thirty years ago, or thereabout, Admiral Coffin was on board the American ship Boston at the time that vessel took fire, while crossing the Atlantic. The Admiral was sick in his berth, suffering severely from gout, and refused to be moved.—John Parkinson, an Englishman, servant of Mr. Coffin, without more ado, seized the obstinate man in his arms and conveyed him on board the boat, by which act the life of the Admiral was preserved.

Grateful for this act, the Admiral sought to reward Mr. Parkinson, and finally purchased for him an estate in Brighton consisting of a house and forty-five acres of land, where he settled down, and resided, until his death a few years ago, occasionally receiving letters from the Admiral, in which he spoke of the estate as a gift. He also, at times sent him horses to improve the stock upon the farm, &c., &c.

The widow of Parkinson, with her children have lived there till now undisturbed. But a Mr. Otis claims to own it, and has leased it to one Livermore, who got lawyer Plummer to issue some writ of ejectment, whereby the widow and her children slept out of doors one night.

Friday evening some two hundred citizens assembled at the house, drove off the "keepers" who had been placed there by the hard process of law, reinstated the family, with their furniture, and assured them of their future protection. The affair is likely to give rise to some pretty lively litigation. The estate is valued at $25,000, a sum which lawyers will eat up in about three years.

JUDICIAL TYRANNY.—Miss Antoinette Turner, who was committed about a month since for contempt in New Haven, still lies in jail. The New Haven Palladium says that her counsel, Mr. Watrous, inquired of Judge Seymour on Wednesday, whether he kept Miss Turner in jail because he did not believe her when she declared, under oath, that she could not produce the child in whose behalf the writ of habeas corpus was served upon her? and the reply was that he did. Counsel then asked if the Judge would hear testimony as to the credibility of Miss Turner? and his honor positively refused. The Palladium testifies in very strong terms to the excellence of the character of the unfortunate prisoner, whose hope of relief must thus depend, not upon the law, but upon the temper of the Judge.

THEODORE PARKER.—At Music Hall, Boston, on Sunday, says the Traveller, extracts from a letter from Rev. Theodore Parker were read. The letter was dated at Santa Cruz, March 21, and though Mr. Parker did not directly describe the state of his health, he says, in describing the climate, that if the pure air there will not cure him, nothing else can.

He says the thermometer there stands at 76° above zero in the morning, 80° at noon, and 78° at sunset; and does not vary far from that at all at this season. He speaks of the air as so dry and clear that he can easily see Porto Rico from Santa Cruz, although it is 72 miles distant.

A portion of the letter was devoted to a description of the effects of emancipation at that island, and Mr. Parker thinks that the large decrease of the produce of sugar is not necessarily an indication of a decrease of industrial energy, but that it is to be regarded as rather favorable to the theory of the emancipationists than otherwise; and he explains this decrease by saying that it is caused by an increased attention to other pursuits, rather than a neglect of industrial interests.

SONS OF TEMPERANCE.—The progress of the order in Massachusetts has been far above the most sanguine anticipations.—Number of Divisions in the Commonwealth, 102. All except two are in good working order. Whole number of contributing members, 8450. More has been done during the last quarter for the cause outside the order, than ever before.

Number admitted during the quarter 2783, withdrawn 318, died 5. Whole number of lady visitors, 8063, of whom over 2000 have been admitted this quarter.

☞ A New York restaurant, which first introduced female waiters, has been obliged to give them up, because, "first, the crinoline impeded locomotion and occupied too much space, and second, because the young women had too many male cousins among their guests, to whom they gave too much attention, and forgot sometimes to give the right tickets, to the injury of the exchequer of the establishment."

☞ A smoker came very near destroying a meeting house in Gorham, Me., the other day; it was burnt considerably and saved with difficulty. The meeting house is receiving a new coat of paint, and an individual employed, with others, to do this work, after using a lighted pipe, neglected to put out the fire in it before returning it to the pocket of his overalls, and in this condition the overalls were placed in a closet of the meeting house, and without doubt the pipe in due time communicated the fire to the building.

☞ The Baltimore Sun says a young lady who attended the execution of the four murderers in that city, on the 8th inst., went home in the evening acting strangely, saying she was to be hung on Friday;—would partake of no food nor medicine. She gradually sank, expressing much gratitude at the thought of dying, as it would save her from hanging, and on Wednesday last she died.

☞ The Tehuantepec steamer for Panama reports that the Golden Age arrived at New Orleans, from San Francisco, April 5th, with 750 passengers, two millions and eighty-one thousand seven hundred and sixty-five dollars in treasure. The Uncle Sam had six hundred passengers, no treasure. The Orizaba, 26 days out from New York, had not arrived.

☞ A call appears at the South for a convention of Cuban juntas and all friends of the immediate acquisition of Cuba, to meet at Vicksburg, Miss., May 10th, the day after the Southern Convention, to adopt measures to obtain Cuba by "civil migration."

CANADIAN CENTS.—These coins, which have been lately thrown off at the British Mint, possess a remarkable peculiarity.—They are not only tokens of value, but also standards of weight and measure; 100 cents weigh exactly one pound, and one cent measures one inch.

☞ The Charleston Mercury says that the jury acquitted the men of the Echo slaver because they consider the foreign slave trade no more a crime than the domestic trade, and that further prosecutions at the South will be expensive and vain.

☞ The two Japanese ministers on their way to the United States, Nagai Genba and Twa Say Higo, in charge of Lieut. Habersham, are described as educated and accomplished gentlemen. They will come by way of San Francisco and Panama.

Isn't it about time for the fashionable shops to advertise Mantillas a la Sickles, and Sickles Bonnets? The Key style of costume is said to prevail already in the New York higher circles.—*Bath Times.*

☞ Patrick Donnelly, found wallowing in the mud of a street in St. Louis on Thursday, was sent to prison for fifty days. He was formerly a prosperous broker in that city, worth over $100,000.

Christ is a refiner's fire. We would like well enough to come and warm ourselves at this fire; but the business depends upon being thrown into it.—*World's Crisis.*

☞ The attempt of Lord Campbell, in the English Parliament, to revise the law governing jury trials, so that a majority may find a verdict in civil cases, has proved abortive. The proposition met with very little favor.

A person who recently returned from Washington, in reply to a question as to where he had been, replied, "I have been after an office, and got the refusal of it."

DIVIDEND.—The York Manufacturing Company has declared a dividend of 4 per cent. ($40 per share,) and the Manchester & Lawrence Railroad declared a dividend of four dollars per share.

We have had a great many trials of reapers and mowers, but we never before heard of anything like the trial of Sickles that is now going on.

☞ Extraordinary as it may appear, says an exchange, a piece of brown paper, folded and placed between the upper lip and gum, will stop bleeding at the nose. Try it.

California papers attempt to delude honest people with a story of a twenty-six pound lump of pure gold worth $8000, picked up by a miner at Burn's Creek, Mariposa Co.—*Post.*

☞ The wife of John Finn of West Stockbridge, died recently from a wound received from the discharge of a gun, which she was trying to smash, while in a fit of passion.

Nothing is further than earth from heaven. Nothing is nearer than heaven to earth.

WHAT NEXT?—A trader in Biddeford advertises "something new in Ladies' Corsets."

We ought not to judge of men's merits by their qualifications, but by the use that they make of them.

☞ Tom Sayers, the English fistic champion, accepts the Benicia Boy's challenge. Heenan had better "insist upon letting him alone."

☞ Scores of men who are found dead in their beds, or fall dead in the streets or elsewhere, are victims of tobacco.

MARRIED.

In Freedom, 12th ult., Mr Theodore Manson, of Portsmouth, to Miss Mary J. Lovering of F.

DIED.

In Greenland, April 19th, Mrs. Mary Norton aged 84, widow of the late Daniel Norton.

In Newburyport, April 23d, Mrs. Phebe, wife of Mr. John Dockham, aged 76.

☞ The funeral of Miss Clara L. Knowlton will take place this (Tuesday) afternoon, at 2 o'clock, from ST JOHN'S CHURCH.

PIKE'S PURE
OHIO CATAWBA BRANDY.
The undersigned have been duly appointed by the manufacturers in Cincinnati, Agents for the sale of PIKE'S SPLENDID CATAWBA BRANDY.
Pure Brandy has for a long time been a desideratum in our community, in cases of extreme Debility, Weak Lungs or Stomach, Nervousness, Dyspepsia, etc. So difficult has it been to procure anything like a pure article, unless at an enormous price, that it has often been dispensed with when actually necessary, on account of the expense, or the fear of obtaining an adulterated article.—These objections are now obviated by the introduction into our market of **Pike's Pure Catawba Brandy,** which recommends itself to the sanction of the State Assayer, for purity, as his certificate of analysis demonstrates.

INVALIDS,
and all others who require a perfectly reliable Brandy of choice and delicate flavor, can depend upon this with confidence as to its genuineness and beneficial effects in cases as above stated.

ASSAYERS OF PIKE'S PURE CATAWBA BRANDY.
From C. T. JACKSON, Mass. State Assayer.
No. 32 Summer St., Boston, Oct. 22, 1858.
I hereby certify that I have this day made a chemical analysis of a sample of S. N. PIKE & Co.'s Catawba Brandy, and that I have found no adulterating ingredients or improper substances in it. It is a PURE BRANDY spirit, with the usual coloring and saccharine matters belonging to brandy. I would recommend it for medicinal uses. CHARLES T. JACKSON, M. D.,
STATE ASSAYER.

We are prepared to furnish the above named Brandy, in original packages (by the case, (bottled) at the MANUFACTURER'S PRICES, and may also be obtained by city and town agents, at the Mass. State Agency, 159 Milk Street, Boston.

SPECIAL NOTICES.

SEWING MACHINES.
The Grover & Baker are always preferred, when coming in competition with any other machines.
PORTSMOUTH, April 12, 1859.
We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or laid aside.
FRANK W. MILLER.
PORTSMOUTH, April 12, 1859.
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

ONLY A FEW WORDS
Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my
GALLERY, No. 33 Congress Street,
consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP FOR CASH,—for a short time.
A. GREGORY.
N. B.—I do not charge any more for good Pictures, than is paid every day for poor things.

TYPHOID FEVER.—Every one who knows anything of this fever, knows that the period of convalescence is extremely long, if indeed the health be ever perfectly re-established.—In such cases, the PERUVIAN SYRUP supplies a want long felt by the profession, and has restored invalids to health in a remarkably rapid manner, when all the usual tonic remedies had failed.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at
SALEN'S DAGUERREAN GALLERY,
in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.
N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

"Buy me and I'll do you good."
Health and Strength secured by the use of
THE SPRING AND SUMMER MEDICINE,
Dr. Langley's Root & Herb Bitters.
Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, rouching the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and a torpid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.
More than 1,000,000 persons have been cured by this medicine. it is highly recommended by Physicians everywhere. Try it, and you will never regret it.
Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.
Orders addressed to J. O. LANGLEY, or GEO. C. GOODWIN & CO., Boston.

To the Citizens of New Hampshire.
Charles's London Cordial Gin.
THE ORIGINAL AND ONLY LONDON GIN IMPORTED.
THIS GIN, Distilled in London, from sound Barley, under the supervisance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable properties of the famous Hollands gin, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.
It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.
Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DERILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distresses and pains which frequently attend their delicate organization.
Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."
It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.
For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, Hoteliers and country merchants. Beware of imitations. Buy only CHARLES', —NONE OTHERS is IMPORTED.
May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; Davis & Co., 20 Exchange st.; Gilbert, Abbott & Co., 78 Broad st.; Jeland & Snow, 34 Elm st. and other. In Portland, Me., of R. H. Hay & Co., C. W. Atwell, and C. C. POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the R. R. R. Remedies prompt, quick and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in this city, drifting away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.
For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.
R. R. R. Office, 162 Fulton street, New York.
N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

LOCAL.

☞ We understand that one of our fellow citizens, Capt. Samuel Gardner, first officer of the unfortunate ship Gray Oak of Boston, was among those who were picked up at sea on the 28th ult. by the mail steamer City of Washington, and has arrived at Liverpool in safety.

☞ The body of George Perkins, the engineer who lost his life on Saturday morning, by the accident at Parker River Bridge, on the Eastern Railroad, was recovered Saturday afternoon. It was found in the water, between the fourth and fifth cars from the engine, where it was held by one of the legs of his pantaloons, which had been caught between the cars. There was no bruise, nor appearance of any injury upon the body, so that it seems his death was caused by drowning, rather than any blows received from the rubbish. He was not married.

It is said that the accident will not cost the company, in repairs to the bridge, engine and cars, over $2000.

ALEXANDER, THE GREAT DECAPITATED.—Under this caption, the humorous editor of the Dover Enquirer, says:

"The editor of the Portsmouth Gazette some months since informed his readers that his head had been taken from his shoulders and 'tumbled into the basket,' by orders of Mr. Buchanan. To most men the loss of such a necessary appendage would have been inconvenient, to say the least. 'Tis said that when the brains are out, the man is dead.' But this, after all, must be nothing but a poetical flourish.—The Gazette man shows that the loss of head and brains, is no very great loss to him; that he not only 'still lives,' but is altogether improved by the operation, being now able to tell a good deal of truth which would have been apt to choke him six months ago."

THE NICARAGUA TREATY.—*Washington, April* 21.—There is some misapprehension with regard to certain features of the Nicaragua treaty, now under consideration by the President. The treaty makes no provision for landing forces in Nicaragua to expel filibusters, but it provides that if persons or property of American citizens are in danger, the United States may land their forces there to protect them. And the United States have the right to transport across the transit route any number of troops or munitions of war. They are, however, not to be employed against the State of Central America with which Nicaragua is in amity.

☞ On the 30th ult., John Milton Crane, editor and proprietor of the Bonham (Texas) Independent, was shot and mortally wounded in the streets of that town, by Matthew Saddler, with whom he had quarrelled. He died in a few hours, in great agony. The murderer escaped arrest.

BALTIMORE, April 24.—The funeral of Rev. Dr. Johns took place from Emanuel Church this afternoon. A large number of the clergy were present. The funeral cortege was the largest ever seen in this city; thousands thronging the side-walks and hundreds following the funeral.

☞ The Charleston Courier says that vegetables of all kinds are unusually abundant and have ripened much earlier, this spring, than is common in that region.—Strawberries and blackberries may be had in market in considerable quantities, though at prices that give them a very silvery taste.

TO MARINERS.—*New London, April* 24. The Cornfield Point Light Boat, stationed near Saybrook in the Sound, broke from her moorings on Saturday evening during the heavy gale, and was with great difficulty brought to this city, where she now lies awaiting repairs.

☞ The Washington States says the pretended sale of the Union newspaper, now christened "The Constitution," is a mere juggle—the sleight of the thimble-rigger, by which the unpractised eye of the public is imposed upon.

IDEMNITY FROM PARAGUAY.—*Washington, April* 24.—A draft for $10,000 has been received at the State department as an idemnification to the family of the seaman who was killed on board the Water Witch in 1855, by a shot fired from a Paraguyan fort, when that steamer was on her way to explore the Parana river.

☞ New army orders have been issued positively forbidding suttlers to sell ardent spirits, and regulating the sales of other articles to soldiers so as to prevent their squandering their wages.

THE LIQUOR QUESTION.—It is stated that the decision of Judge Shaw in the Rockport liquor case, has been overruled by the full bench of judges. The case will probably be reported upon in a few days. *Gloucester Telegraph.*

☞ The Gloucester Advertiser says there is no room to doubt that two schooners, the Young America and Grace T. Powers, belonging to that port and engaged in the fisheries, have been lost with all on board.

OVERLAND MAIL.—*St. Louis, April* 28. The Overland Mail of April 1st has arrived. Sixty-nine pounds of silver, the product of the Arizona mines, were brought by the coach.

☞ James Adams, a noted pedestrian, undertook to walk four miles in thirty minutes, in New York, on Thursday evening, but he lost the match by one minute and forty seconds.

The hair of the negro is not wool, but a curled and twisted hair. The distinction between hair and wool is clearly revealed by the microscope.

☞ Dr. Twitchell believed that sudden deaths and tobacco, among men, were usually found together, and he sustained this opinion by an array of facts really conclusive.

Beware of dwelling on the number of your good qualities. It was King David's counting his subjects that deprived him of them.

☞ A trade sale of Books is to be held in Boston, during the first week of August next, similar to those held in New York and Philadelphia.

The income of Dr. Chapin's church in New York, from pew rents, is $17,000. He has a comfortable salary of $6000.

☞ A woman drank a small quantity of cheap liquor, purchased at a grocery in New York, and shortly after fell dead, on Thursday evening.

One of those humbug advertisers who offer everybody who possesses "a small capital of from $3 to $7" an opportunity to make their everlasting fortunes, says any person can *realize* from $5 to $10 per day," by addressing him. *Real lies* would be the more correct reading.

A man in Louisville threatened by a lady's vengeance, saved himself from cowhide by using calfskin. He ran away.

A man recently retired from business on a small cash capital, says he shall join the Episcopalians, for he keeps Lent more thoroughly than is consistent with communion with less particular denominations.—*Bath Times.*

UTAH MAIL.—*Leavenworth, April* 23.—Private advices from Washington state that the Utah mail has been reduced to a semi-monthly service.

Here's Health for the Million!!

Clarke's Sherry Wine Bitters,

Composed of Rock Rose, Wintergreen, Yellow Dock Root, Sarsaparilla, Wild Cherry, Prickly Ash, Poplar Bark, Mandrake, &c.

They operate on the three main organs of the system, the Blood, Liver and the Kidneys, curing Jaundice, Loss of Appetite, Dyspepsia, Asthma, &c., &c. For Asthma it is particularly successful: Annexed are extracts from a few of the many certificates of astonishing cures, now in the hands of the proprietor.

J. W. ADAMS, Essex street, Melrose, Ms. says: "Dr. Clarke's Sherry Wine Bitters have cured me of Weakness, Loss of Appetite, and unhealthy state of the Stomach, and they are the best Bitters before the public."

NANCY JENNINGS of Sharon, Mass., was cured of Asthma of nine years' standing.

CHARLES BENTON, of Providence, says "they cured me of General Debility, and I gained eight pounds of flesh in two months."

A Diploma was awarded them by the Mass. Charitable Mechanics' Association, 1856. Judges—Drs A. A. Hayes, A. A. Gould, J. H. Blake, W. A. Brewer, Boston.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

THE GROVER & BAKER
SEWING MACHINE CO.,

NO. 18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their

Celebrated Family Machines,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE,

PRICE $50:

Machines from $50 to $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

SCULPTURE.—Mr. French, the skilful sculptor has recently prepared, at his own suggestion, a model in plaster of a bust of Rev. Dr. Peabody, and a perfect likeness has been produced. Mr. F. has not means conveniently to complete the work in marble, and unless immediate measures are taken, it will be left to repose in plaster, in the hands of the artist. We would suggest the propriety of a subscription to preserve in an enduring form, a likeness which all love to contemplate—embodying benignity which cheers and warms the heart of the most humble in life, and power which fills the first position of the literary world.—We hope to see the work at once completed. For a sample of the skill of the artist we have only to refer to the beautifully executed, life-like bust of Rev. Dr. Burroughs, now to be seen at the store of Mr. J. F. Shores, jr.

TRIAL TRIP OF THE PEI-HO.—This new side-wheel steamer, which has just been completed for Mr. PAUL S. FORBES, of the firm of RUSSELL & Co. in China, made a final trial on Friday, preparatory to starting for her destination in China. The *Pei ho*, so named from one of the rivers in China, is considered one of the finest-modeled and most thoroughly-constructed steamers which has been built at this port. Her dimensions are as follows: Length, 220 feet; breadth, 32 feet; depth of hold, 16 feet—being about 1150 tons register.—The engines are a duplicate of those of the *Yankee-Kiang*, with the addition of blower-engines, which perfectly ventilate the fire-room, and at the same time, supply the necessary draft to the furnaces; they cost about $90,000, and the whole vessel about $165,000. She is supplied with water-tight bulkheads, which protect the ship in cases of marine accident. The steamer left the Morgan Iron Works about 9 o'clock A. M. and proceeded down the Bay, and some twenty miles outside of Sandy Hook, the engines working very satisfactorily and the steamer making about fifteen miles an hour, the engines making only 14 to 16 revolutions. She is expected to sail for China on Saturday, the 23d inst.—*N. Y. Paper.*

This new and elegant, as well as substantial steamer sails to-day, (23d) commanded by Capt. T. A. Harris, son of the late Wm. C. Harris of our city, who bears the reputation of being one of the most successful commanders in our steam marine.

We are always proud to hear of the success of the young men who go out from us into the field of enterprise abroad, and we bid God-speed to the Pei-ho and her gallant commander.

THE RAILROAD COMBINATION.—Hon. J. A. Gilmore, Supt. Concord, Manchester & Lawrence Railroad, furnishes a letter to the Boston Journal in relation to the unjust and suicidal Railroad combination for the increase of tariffs by the Boston & Maine and other roads leading into Boston. We make the following extracts from his letter, as showing the material facts:

The Boston and Maine Railroad have entered into a combination with the other line to charge the Concord, Manchester and Lawrence Railroad more for hauling heavy goods between Boston and Lawrence, in the Concord, Manchester and Lawrence Railroad cars, and at their risk, than they charge on their local business, in their own cars, and at their own risk. This is neither right or just, and is what no railroad man who has any regard for his reputation should undertake to carry out. Another thing: The Boston and Maine road at this very time are carrying passengers from Boston to Portland, 110 miles, for one dollar and fifty cts. each, finding their own cars and running their own risk, which is about one cent and a third a mile, while they claim of the Concord, Manchester and Lawrence and upper roads fifty cents a passenger between Boston and Lawrence, conveyed in cars of those roads, and at their risk. Why should the people of Maine be so highly favored above the people of New Hampshire?

By the laws of this State, and by the policy of other States, all roads are obliged to draw freight for connecting roads at a reasonable rate of compensation. If, therefore, a lower road charges an unreasonable rate, the upper roads must either mix such rates, or stop its business. The people, therefore, are interested in this question. The subject has been thoroughly investigated by the citizens on this route, particularly at Manchester, and it is conceded by them that a heavy rise must be made upon their chief articles of freight, if the lower roads succeed in enforcing their rates. This contract is, moreover, to continue five years, unless it should be terminated, as is provided, by the payment of $20,000 by either party.

If, as the result of this combination, and as a defence to its unreasonable extortions, the Candia Branch shall be built, and the Concord & Portsmouth Railroad be extended to the wharves, and become what it was designed for, and certainly ought to be, the grand thoroughfare for heavy freight between the seaboard and centre of the State, even this ill-wind will blow some positive good in this direction.

The Rev. Baron Stowe, D. D., took passage in the *Canada* from Boston, on the 20th inst. for Egypt, Syria, and Greece; returning through Italy, Hungary, Austria, Prussia, Bavaria, Switzerland, France and the British Isles.

PATENTS.—Among the patents issued from the U. S. Patent Office during the week ending April 12, was one to William Johnson of Hampstead, for improvement in machines for chamfering soles of boots and shoes; and one to Winthrop D. Shaw of Tamworth, for improved machine for splitting shoe pegs from the block.

B., C. & M. RAILROAD.—We understand that the suit against the Boston, Concord and Montreal Railroad has been adjusted upon the basis of the award of the referees. The road is to pay Clapp and Gilmore, the real parties in interest, $60,000 in yearly instalments of $10,000, with interest from the present time.—*Boston Journal.*

There was a brilliant display of Northern Lights on Thursday evening—beginning early with a crimson tinge—and at midnight displaying a yellow light of sufficient power to cast a shadow.—They extended from the east to the north-west.

THE GREAT WONDER
Of The Nineteenth Century.
PROFESSOR WOOD'S
HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press.

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & Co.:—

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and beard, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns, and they can vouch make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and now find it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Your's truly, J. K. BRAGG.

The Liver Invigorator!

PREPARED BY DR. SANFORD,
Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public. These Gums remove all morbid or bad matter from the system, supplying healthy blood, a healthy flow of bile, invigorating the stomach, causing good digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and what is better prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents nightmare.

Only one dose taken at night, loosens the bowels gently, and cures constipation.

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Colic.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, 25 CENTS PER BOTTLE.

Dr. SANFORD, Proprietor, 343 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

Cholera Morbus, and a preventive of Cholera.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures Diarrhœa in its worst form, while Summer and Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

DR. J. B. HUGHES,

KNOWING that there are at this moment tens thousands of persons in the surrounding towns, surrendering their lives to the dangerous inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which he has cured improperly treated by empyrics have come under his care, and more than three-fourths of this number are incorrectly upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing inquiries.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 dly

YOU HAD BETTER TRY
MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and world-wide reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" is a BURN OR SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgement may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

[From the Springfield Republican.]
THE TALE OF MANY A HOME.

The neighbors said our little Mary was one
Of those sweet innocents that early die;
She had that face celestial which betrays
A child belonging in the far-off sky.
They knew it by the brooding light which slept
In her sky eyes as in the eyes of birds;
And by the musing of her tinted mouth,
And the wisdom of her lisped words.

So as she was our happy little girl;
To us she was no angel in disguise;
And, as she sat between us by the fire,
Sunbeam, so fair, we said in this glad wise:
The lark that sings at sunrise in our house
Is she, the cherished rosebud of our springs;
And she the snow-drop when the summer's gone;
And she the snow-bird that in winter sings.

But right were they; one morning, songful morn
We woke to find our happy seeming child
An angel was, with homeward yearning wing,
No longer by our cottage fire beguiled.
And in the darkened parlor filled with flowers
Of white and blush, by sad, small fingers given,
We lay in state, all lily-crowned and cold,
This fair young princess of the House of Heaven.

And here is all that we can touch or see
Of those few years and that fair, little girl,—
These shoes in which she ran so daintily;
The locks of flaxen hair golden and a-curl.
The children bring them off—as children will—
And sitting with us in the summer door
In sight of those white stones on yonder hill,
They hear her sinless story o'er and o'er.

ADDITIONAL STANZAS, WRITTEN FOR THE CHRONICLE.

These are the teachings of the human heart,
And they are like the words that Jesus spoke,
When he rebuked disciples, and took part
With parents who their little children brought.
That he might bless them fondly, and impart
Some kinder teaching to the parents' thought.
Suffer the children to come unto me,
The Saviour gently said, Forbid them not.
For such the heavenly kingdom is composed,
And now this kingdom is come nigh to you,
Let it not be by saintly pride opposed,
But by clear gospel light held up to view.
Then in his arms he took them, arms of love,
Emblems of what our Father does for all
Who ask of him for wisdom from above,
Or who, distress'd, on Him for mercy call.

So does the Savi our speak, when life begins,
And so he speaks when earthly life must close,
Close even on the cross, oppres'd with sins
And sorrows well deserv'd and guilty woes.
Remember me, the thief exclaims, O Lord!
When to thy kingdom thou shalt come to reign.
To-day, in Paradise, with me, thou'lt be!
The sinner never sought the Lord in vain.

The London Times, in an article on the Washington tragedy, attributes the savage justice of Sickles to the savage condition of American society! The Times should remember that when a gentleman in England discovers a poacher on his manor, he shoots down the trespasser with impunity. Is not a man's wife a more sacred piece of "private property" than his sheep-pasture?—*Troy Times.*

Suppose, then, that the "English gentleman" is in the habit of poaching on his neighbor's manor, is it becoming in him to shoot his neighbor because he returns the trespass?—*Boston Atlas & Bee.*

IN THE SICKLES CASE, the defence's "right bower" is, that Sickles was the chosen of the Lord to execute upon Key the punishment pronounced in the Bible upon those who commit adultery! What a narrow escape that lawyer had from a theological professorship!—*Springfield Republican.*

ARRIVAL OF COOLIES AT HAVANA.—A letter from Havan, dated April 15th, says:—

"On the 11th instant we received 475 coolies by the French ship Labarador, Dabb, master, 122 days from Macao, 90 having been passed over the side, from ship disease; and since entering this harbor the deaths have been eight per day. This stock account since the initiation of the Benevolent Institution for the Amelioration of the African Servile Condition in Cuba stands to-day—embarked at Chinese ports for Cuba, 44,549, of which arrived at the port of Havana alive, 37,755, leaving for the perished in the course of transportation, 6,794, or over 15 per cent.

The Live Yankee is looked for every day with a cargo. No cargoes for returns to their homes have as yet been found according to contract, and the house which first made contracts for coolies has pocketed several hundred thousand dollars of gains, and retired from the Island and from business."

CHIVALROUS.—The following notes are said to have passed between Gov. Giles and Patrick Henry of Virginia:

Sir:—I understand that you have called me a "bobtail" politician. I wish to know if it be true, and if true, your meaning.
WM. R. GILES.

Sir:—I do not recollect having called you a "bobtail" politician at any time, but think it probable I have. Not recollecting the time or the occasion, I can't say what I did mean; but if you will tell me what you think I meant, I will say whether you are correct or not. Very respectfully,
PATRICK HENRY.

☞ Solomon Sturges, one of the wealthy men of Ohio, and a great landowner, is selling his immense possessions because he believes no man has a right to own more land than is necessary for his use and that of his family. In his advertisement he says, "God has no doubt wisely ordained that *land sharks* should be cursed; and I can truly say that I am exceedingly anxious to sell all my lands, and get clear of the curse."

WEDNESDAY, APRIL 27, 1859.

THE FORNEY CONVENTION.

The Constitution, the new Washington journal, (formerly the Union,) in reviewing the proceedings of the late Forney Convention in Pennsylvania, says that an "important development of this pretended Convention, as shown by the resolutions and speeches, is the bold announcement of the most offensive abolition doctrines. The purpose of forming a close alliance with the Black Republicans is not only clearly foreshadowed, but it is almost avowed in so many words. The constitutional rights of the Southern States are set at defiance, and the solemn judgments of the Supreme Court are treated with disregard or indifference; whilst the purpose of forcing a slave code upon the people against their will, and in violation of the Constitution, is falsely imputed to the Democratic party. They have borrowed for the occasion from the vocabulary of Black Republicanism, the threadbare slang of the abolitionists, and, in their weakness and folly, expect by such means to deceive the intelligent freemen of the country. Upon all these questions the position of the Democratic party is well defined, and none need to doubt it who are willing to live up to the requirements of the Constitution, and yield to every section of the country their just rights."

The Constitution continues: "We call attention to one other feature of this remarkable convention, and shall then dismiss the subject for the present. It is to be found in the following resolution, which we quote from the official record:

Resolved, That this convention entertain the highest admiration for the Hon. Stephen A. Douglas, the heroic statesman and Senator of Illinois; that his great ability, his bold, manly and decided character, his steadfast adherence to the principles and pledges of the party, particularly in reference to the government of the Territories, all demand for him the thanks and continued confidence of the whole Democracy and of all true men.

The object of this resolution is manifest. It is intended to bring to the support of the convention whatever of influence the name of Judge Douglas may afford them. The effort thus to associate his name with a movement having for its object the overthrow of the Democratic party, and the building up and strengthening of the Black Republicans, is a labor of love, for which the Illinois Senator will not probably thank them."

Remarking on this, the Newark Journal says: "The Black Republican papers, in their comments on this convention express the utmost sympathy with its leaders, and the Boston Journal does not hesitate to express the conviction that Forney and his sympathizers will be found acting with the Northern opposition to the Democracy in 1860."

☞ Robert Christy, a member of the Ohio Legislature, has discovered the origin of the prejudice against color, which, he says, will never cease to exist,—in the 1st verse of the 12th chapter of Numbers, where it is recorded that "Miriam and Aaron spoke against Moses because of the Ethiopian woman he had married, for he had married an Ethiopian woman." But an Ohio paper says that the honorable member did not read far enough, or he would have seen that the Lord was on the side of Moses, and came down expressly to inflict a punishment upon his captious relatives for their interference in his domestic arrangements.

THE FASHIONS. — A Paris letter says that the modes are gradually undergoing a decided change—basques are almost entirely abandoned; the round waist, with belt and buckle, are superseding them. The bonnets are small, but are worn on the top of the head, and advance farther over the forehead; nearly all the trimming is placed on the top of the bonnet. The shape and materials of summer wrappings are as yet a mystery.

THE SICKLES JURY.—The jury before which Sickles is being tried, have great freedom. They occupy two large rooms on the ground floor of the National Hotel, (next door beyond the barber's shop) and eat in the small dining-room, receiving an extra allowance of two bottles of whiskey and twenty-five cigars per diem; their pay is $1.25 per day.

☞ The news from the Kansas gold mines are conflicting—some reporting the gold fields rich and extensive, and others saying they will not yield paying wages.

Many a man keeps on drinking till he hasn't a coat to either his back or his stomach.

☞ The latest news from *Utah* is that every thing there is in a bad condition, and the people were on the eve of hostilities.—Differences exist between Gov. Cumming and Gen. Johnston, touching their respective powers, and there is an open rupture between the executive and judiciary. The Federal Courts find it impossible to exercise their functions. The Grand Jury refuse to find bills, and screen parties accused of murder and other crimes.

Judge Cradlebaugh had discharged the jury, and had been compelled to discharge all the prisoners in custody. On the occasion of the discharge of the juries, the Judge charged the Mormons with having obstructed the officers of the Court, suppressed testimony, and refused to make provisions for the confinement and maintenance of the prisoners.

Owing to the excited state of the popular feeling, a detachment of 1000 troops had moved from Camp Floyd and encamped near Provo.

Gov. Cummings had issued a proclamation taking part with Mormon sentiment.—His actions had laid him open to the charge of complicity with the Mormon theocracy.

☞ California news to April 5, and $1,723,000 in gold, are received at New York by steamer St. Louis. From South America we learn, that a fearful earthquake at Ecuador had destroyed the city of Quito, with over 2000 lives. The loss is stated at $3,000,000, and the loss of life is by some authorities stated as high as 4000. A number of small towns to the northward had also been destroyed, and some damage was occasioned to Guayaquil.

The steamer Contra Costa exploded her boiler in San Francisco Bayou, on the 3d inst. Four lives were lost.

The Contra Costa appears to have been racing with another boat, and her engineer has been arrested.

The schooner Anglo American had been lost on the coast, with four lives.

Capt. Pendleton, of the British barque Sarah Park, was on trial for inhumanly beating his crew with a rope an inch and one-eighth in thickness, and knotted. The whole crew were in a shocking state of laceration, and one had been buried at sea.

The San Francisco markets were in a gloomy condition, and it was impossible to place a round lot of almost any goods without submitting to a material reduction upon the already nominal quotations. The market was quite stagnant.

FROM EUROPE.—By the steamer City of Washington, at New York, we have advices from Europe to April 13th, four days later. Up to the day of the sailing of the steamer the news continued warlike, but at the latest moment advices of a more peaceful character were received, a resolution for a general disarming before the meeting of the Peace Congress having been, at the suggestion of Austria, agreed to by the other powers. England is in a state of great excitement on the question of the election of a new Parliament, as the old Parliament would probably be dissolved on the 16th inst. Cotton had slightly declined, but breadstuffs were firm.

Armaments continued up to the latest date. War was generally considered inevitable, and much depression prevailed until the 11th, when re-assuring rumors were current, and announcements were made that concessions by Austria in the preliminary conditions gave renewed hopes for the meeting of Congress, and caused considerable recovery in the funds, both in London and on the Continent.

Austria proposed, and the other Powers are said to have consented to the simultaneous disarming before Congress meets.

The House of Commons rejected a resolution in favor of ballot, by three majority.

☞ The Supreme Court of Massachusetts, at Salem, on Tuesday, have *reversed* the famous decision of the Rockport liquor nuisance case. By this new decision, rum is property, and the women who destroyed it in Rockport are not defended by the nuisance act. Consequently, they or their husbands have to pay for its destruction. And probably they are liable also,, in a criminal action, for breaking and entering the sacred precincts of the groggery.

☞ "The Great Republic Monthly," and "Frank Leslie's Family Magazine and Gazette of Fashion," published in New York; and Arthur's "Ladies' Home Magazine," Philadelphia—tor May, are promptly received—and filled with attractions of various sorts, literary and fanciful, as usual. The issue of American magazines in a year forms quite a large library—and one of no mean value too.

☞ We are indebted to Mr. I. P. Miller, for Melbourne, Australia papers of late dates —great quarto newspapers, published, many and often, where but just now was a wilder-

1858.

NEW ORLEANS THREATENED WITH INUNDATION.—A letter from New Orleans, in the Journal of Commerce, dated April 16th, says that the River threatens every day to break the levee above the city.—Should a crevasse occur at Carrolton, the city will be under water in less than twenty-four hours. A large force of workmen are reparing the levee above the city where the danger of a break was imminent.

SEWING MACHINES.
The Grover & Baker are always preferred, when coming in competition with any other machines.
PORTSMOUTH, April 12, 1859.
We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned, without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher considerations of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.
FRANK W. MILLER.
PORTSMOUTH, April 12, 1859.
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

ONLY A FEW WORDS
Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my
GALLERY, No. 33 Congress Street,
consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.
N. B.—I do not charge any more for good Pictures, than is paid every day for poor things.

TYPHOID FEVER.—Every one who knows anything of this fever, knows that the period of convalescence is extremely long, if indeed the health be ever perfectly re-established.—In such cases, the PERUVIAN SYRUP supplies a want long felt by the profession, and has restored invalids to health in a remarkably rapid manner, when all the usual tonic remedies had failed.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at
SALEN'S DAGUERREAN GALLERY,
in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.
N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

R. R. R.
POISONOUS INOCULATION.—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the R. R. R. Remedies prompt, quick and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or inoculated through indiscretion or accident.—We cure hundreds in this city, toiling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.
For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.
R. R. R. Office, 162 Fulton street, New York.
N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Health and Strength secured by the use of
THE SPRING AND SUMMER MEDICINE,
Dr. Langley's Root & Herb Bitters.
Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and is a rapid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.
More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.
Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.
Orders addressed to J. O. LANGLEY, or GEO. C. GOODWIN & CO., BOSTON.

To the Citizens of New Hampshire.
Charles's London Cordial Gin.
THE ORIGINAL AND ONLY LONDON GIN IMPORTED.
THIS GIN, Distilled in London, rom sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the Pharmacopœia, rendering it in the opinion of the most eminent men, the purest and saiest stimulant or diuretic thing in use.
It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as a Holland Gin or Schnapps so objectionable.
Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.
Dr. Valentine Mott, of New York, the highest medical authority, pronounced Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."
It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.
For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHERS is genuine.
May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. K. Decker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. FREIGHT TO MANCHESTER.

It is a matter of interest to some of our readers, indeed to all of them who do any business here, to know that the freighting of heavy articles from Portsmouth to Manchester, *via* the Concord and Portsmouth Railroad, under the direction of Mr. Gilmore, has already commenced.

The freight cars began to carry loads of coal from this port over that road, on Monday,—and it will be quite an item of business.

An arrangement is about to be made, by which the freight cars for coal, iron, salt, cotton, and anything else that comes here by water, can be placed on the wharf for loading from the vessels which lay alongside.

This is to be done for the present, by using a portion of the Eastern Rail Road track, and by building a short piece from that track to the wharves.

This is a proper beginning of renewed intercourse between this city and the centres of manufacturing and other industry, further back in the State. We hope it may be speedily followed by the opening of the road from Candia to Manchester.

It may not be out of place here to mention that two trains a day, for passengers, will be run on the Concord & Portsmouth Railroad on and after Monday next.

☞ The following officers reported at this Naval Station, 26th inst., for duty on board the U. S. sloop-of-war Portsmouth:

John Calhoun, Commander.
R. B. Riell, 1st Lieutenant.
Geo. A. Stevens, 2d "
Horace N. Crabb, 4th "
Trevett Abbott, 5th "
John A. Bates, Purser.
Samuel Tatem, Sailmaker.
Geo. Dean, Boatswain.
W. H. Hamilton, Gunner.
Wm. D. Joo, Carpenter.
Edw. K. Winship, Carpenter's Clerk.

☞ We don't believe anybody sells better *dates* than the sample we received from Lafayette Laighton, 44 Market street. At any rate, his are good enough—as, in fact, most any article coming from his grocery is sure to be.

☞ It is exceedingly grateful to the friends of Albert Laighton, who for years have been urging him to prepare his book of Poems for publication, to see the almost unprecedented hearty welcome and approval with which his beautiful little volume is met everywhere. The press and his fellow poets, unite in doing him praise—and criticism is almost disarmed by the modesty and merit of the author.

☞ The scene of the Eastern Railroad disaster at Parker river, was visited by a great multitude of people on Sunday and Monday. Some of the parties came from Salem, Lynn, and other towns as distant.

The first train passed on Monday afternoon, over the new bridge, built in place of that which was destroyed.

The jury in the case of Geo. T. Perkins, find,—that the engine was thrown into the river, in consequence of the burning of the piles and stringers of the bridge, which was not discovered in season to prevent the casualty.

And the jury find, upon careful examination of the bridge, that the remaining timbers appear to be sound and strong, and that the accident happened in consequence of burning, and not from any defect or weakness in the materials of which it is constructed.

JAIL DELIVERY,—DISASTERS.—*Norfolk, April* 25.—The crew of the ship Flying Dragon escaped from the Jail to-day, where they were confined on charge of mutiny.

The Sloop Two Brothers capsized in Hampton Roads, and Capt. Jarvis and one man was drowned. A schooner, name unknown, also capsized. A heavy storm prevailed.

The schooner Cumberland, and another schooner name unknown, loaded with coal, sunk at Sewell's Point. Crew saved.

☞ At a special town meeting in Boston on Monday, Otis Clapp, the American Republican candidate for Alderman, was elected by 1268 majority, over Mr. Eastburn, the candidate of the Democratic party and of the Courier. The bill which preserves the Public Garden from encroachment, was accepted by more than 6000 yeas to 99 nays.

STEAMBOAT EXPLOSION.—*Cincinnati, April* 25.—A special dispatch to the Commercial says that the Steamer St. Nicholas, from St. Louis for New Orleans, exploded last night, near Helena, Arkansas, and that seventy-five lives were lost.

NATIONAL MEDICAL CONVENTION.—*Louisville, April* 24.—Arrangements have been made by most of the Railroads, to transport delegates to the National Medical Convention, to be held in Louisville, May 9th, at half the usual fare.

DETENTION AT NEW ORLEANS BAR.—Within the past few months there have been serious difficulties attending the passage of ships over the New Orleans Bar, mainly arising from the combination of the tow-boat companies. Several ships have been detained, both inside and outside, at an expense of many thousand dollars, when, in the opinion of those competent to judge, no good cause of detention existed. The merchants of New Orleans and the Northern shipowners have taken hold of the matter in earnest, and are determined to put on an opposition line. Peter Marcy, one of the wealthiest citizens of New Orleans, and principal owner in ten large ships, has taken the lead, having already purchased three tow-boats, and has engaged the services of Capt. J. J. Nickerson, an eminent ship-master and energetic man, to come North to complete the arrangements.

Capt. Nickerson arrived in Boston on Saturday, and left for New York Monday afternoon, and the Traveller congratulates ship owners that two such gentlemen are engaged in the enterprise. The ship owners at the North are the parties most largely interested in this matter. They have submitted too long to the dictation of the New Orleans Tow Boat monopoly, and an earnest appeal will be made to them to aid in breaking it up, by contributing to the purchase or building of tow boats for the Mississippi river, which will be able, and whose managers will be willing, to do the work for them.

A PERTINENT QUESTION.—The New Orleans Crescent begs leave to ask "Puritan Cavaliers," "If the African slave trade be wrong in itself, is not the slave trade between the States wrong in itself also?"

CARPETS FOR THE PEOPLE.—Purchasers are referred to the scale of prices of the New England Carpet Company published in our paper of to-day.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

THE GROVER & BAKER
SEWING MACHINE CO.,

NO. 18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their

Celebrated Family Machines,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE.

PRICE $50:

Machines from $50 to $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Morning Chronicle.

☞ John and Michael McDonough, brothers, of intemperate habits, occupied a room together in Baxter street, New York, and often quarreled. On Friday morning an outbreak of unusual violence was heard by the other occupants of the building, and the police were called, who were obliged to break open the door to gain entrance to the room, when Michael was found upon the floor in a dying and speechless condition, with John standing over him. He lived but a few minutes, and a post mortem examination was held, revealing marks of violence. John was arrested, charged with murdering his brother.

BRIDGE DESTROYED.—On Saturday afternoon the bridge over the Shetucket river, at Greenville, in Norwich, Ct., was blown down. The bridge had only been built one year, and is a complete wreck. It cost $20,000. The structure was of two spans, each of 182 feet, and was badly engineered, it is said. The tide has been very high, and the Eastern storm of wind and rain heavy.

THE DOCTRINE OF TOTAL DEPRAVITY.—A minister travelling through the West, in a missionary capacity, several years ago, was holding an animated theological conversation with a good old lady on whom he had called, in the course of which he asked her what she thought of total depravity. "Oh," she replied, "I think it a good doctrine, if people would only live up to it."—*Knickerbocker Magazine.*

From the N. H. Gazette.

Sol Distant 'Jefferson Democrats."

Mr. Editor:—Is not a little curious to observe what sort of politicians have recently taken up the celebration of the Birthday of Mr. Jefferson. It is well known that Mr. Jefferson, when he occupied the Chair of State, was opposed to the principle of celebrating the anniversaries of the birthdays of any public men or statesmen. It might do in the case of Gen. Washington, but if so, he was unwilling to extend it any further. It was at best but an aping of royalty, and men were not born to supreme authority, with kingly robes, and crowns of diadems on their heads, in this hemisphere. And in regard to himself, he uniformly discouraged any applications to him or his family with such intentions, to ascertain the particular day of his birth, and I think the day was not generally known until after his decease. In a letter to the Hon. Levi Lincoln, of Massachusetts, in reply to an application of that nature from some of the friends of his administration in that State, he says:

"With respect to the day on which they wish to fix their anniversary, they may be told, that disapproving myself of transferring the honors and veneration for the Great birth day of our Republic to any individual, or of dividing them with individuals, I have declined letting my birth day be known and have engaged my family not to communicate it. This has been the uniform answer to every application of the kind."

* * * * * * *

But what does Hale say in his response at the Boston celebration? Let us hear him.

"He honored him (Mr. Jefferson) as the author of that glorious ordinance of 1787. In 1784 he endeavored to establish the ordinance, but he failed; in 1785 he again tried, and again failed; in 1786 he again failed once more, which only nerved him the stronger for his attempt in 1787, when he succeeded." (Applause.)

Now the question is how far will this comport with the truth of history? Was Hale posted up on this matter, or did he know nothing about it? The entire action on this subject took place in the old Congress, acting under the articles of the Confederation, and in 1784, early in July, Mr. Jefferson sailed for Europe to succeed Dr. Franklin as Minister to the Court of St. Cloud, and never returned to this country until the latter part of the year 1789. So it appears that John P. Hale never looked into the facts as to the subject matter on which he spoke, or if he did must have had a bad memory, or else was not disposed to say the truth.

It is true that Mr. Jefferson on the 1st of March, 1784, with the other Congressional delegates from Virginia, was authorized by the Legislature of that State to tender to the old Congress a deed of cession of the Northwest territory, and at that time a proposition was made which Mr. Jefferson no doubt favored, by which after the year 1800 slavery was to be interdicted, but which, not receiving the support of a majority of the States was rejected. Nor does it appear that Mr. Jefferson, subsequently to the date I have named, ever made any movement in the matter. And so far from following it up from year to year and failing, as Hale says, and that these failures only "nerved him the stronger for his attempt in 1787," I have shown that there could have been nothing in it, for he was out of the country; sailed from Boston on the 5th of July, 1784, arrived in Paris on the 6th of August following where he met Dr. Franklin, and never returned to this country again till he was invited by General Washington to take the office of Secretary of State in the latter part of 1789.

DEMOCRATIC VICTORIES.—Notwithstanding the numerous Republican victories recorded within the past fortnight, many of the recent elections have resulted favorably to the Democratic party. Besides the emphatic victories gained in Brooklyn and Milwaukie, they have been successful in Sandusky, Toledo, Chillicothe and Elyra, Ohio; Freeport and Rock Island, Illinois; Dubuque, Iowa; Richmond, Va.; Grand Rapids, Mich.; Hartford, Conn.; Princeton, Patterson, Trenton, N. J., and many other places less worthy of note.

THE GREAT WONDER
Of The Nineteenth Century.
PROFESSOR WOOD'S
HAIR RESTORATIVE.
Says the St. Louis (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have quite effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:
GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five or thirty years; now sixty years old; my good wife at the age of fifty two, has used it with the same effect.
The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,
A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.
Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.
FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.
Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching, with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same happy effect. Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!
PREPARED BY DR. SANFORD,
Compounded Entirely from GUMS.
IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public. These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.
Bilious Attacks are cured, and when that is, better prevented by the occasional use of the Liver Invigorator.
One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.
Only one dose taken before retiring, prevents **nightmare**.
Only one dose taken at night, loosens the bowels and **Costiveness** cures **costiveness.**
One dose taken after each meal will cure **Dyspepsia.**
One dose of two teaspoonfuls will always relieve **Sick Headache.**
Only one dose immediately relieves **Colic.**
One dose often repeated cures **Chronic Diarrhœa** in its worst form while **Summer and Bowel Complaints** yield almost to the first dose.
A few bottles will cure **Dropsy** by exciting the absorbents.
One dose taken in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.
One dose often repeated **Cholera.**
Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.
One bottle taken for **Jaundice** removes all sallowness or unnatural color from the skin.
One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.
All who use it are giving their unanimous testimony in its favor.
Mix water in the mouth with the Invigorator, and swallow both together.

DR. J. B. HUGHES,
KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.
The medicines can only be obtained at the Office of Dr. HUGHES, 18 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REMOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions that are being practiced by selling a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicine.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—18 Howard street, Boston.

THE PASSING DAYS.

Another day born, another day dead,
Another week gone, another year fled.

Gone like a shadow, past like a dream,
Gone like the billows that die on the stream.

The days of mirth, the days of pain,
The days of youth—will they come again?

Where have they gone? where do they rest?
Where is their home? Can any one guess?

Come back, bright days; come back, past years;
Come back and stay, with your smiles and tears.

A RIDDLE FOR ALL SEASONS.

A firm and faithful friend have I,
On whom I always can rely—
Which, whenso'er I've been in need,
Has always proved a "friend indeed!"
Now let me your attention claim,
And see if you can guess its name.

It acts for good, yet never feels—
Is stationary, though on wheels—
Has legs, but feet it does not need,
Although it runs with wondrous speed!
And though it does not labor shirk,
Without a strap it will not work.

It hath an arm which never tires—
Nor bone nor muscle it requires;
No tongue it boasts, nor any throat,
And yet it sings one constant note;
And lacking prudence—virtue prime—
It always *takes "a stitch in time!"*

Now, pray you, rack your brain and see
What this strange friend of mine can be.
D'ye give it up?—the fact behold,
As I the mystery unfold:
GROVER AND BAKER's famed Machine
For SEWING, is the friend I mean!

THE JUDICIARY.—The N. H. Patriot expresses great surprise that the American should admit that the present Judiciary system is expensive and can be amended so as to be more expeditious and economical.—The Patriot is ignorant of the fact that a Republican journal can afford to speak the truth, and is not compelled to serve the interests of the party rather than those of the public. * * * We do not feel it necessary to utter falsehoods for the benefit of any party. The Republican party need no such aid. It can afford to have the truth uttered freely and boldly.

We say that the present Judiciary system is attended by too much expense and delay. It is an improvement upon its predecessor, but it does not accomplish all that its friends anticipated and what the public welfare demands. There is a general desire among the people for the careful remodeling of the Judiciary. If the Patriot has a regard for the public welfare, let it labor honestly to secure it.—*Manchester American.*

Dr. Emmons's advice to young preachers was not to preach over thirty minutes, saying "there are no conversions after the first half hour."—Wesley held the same opinion, and said in one of his letters, "If any, then, of the preachers exceed their time, (about one hour in the whole service,) I hope you will always put them in mind what is the Methodist rule. People imagine the longer the sermon is, the more good it will do. This is a grand mistake. The help done on earth God doeth it himself.—And he does not need that we should use many words."

MULES.—The Manchester Print Works have bought a pair of mules to do their trucking. They were bought in Philadelphia, are five years old, weigh 2500 lbs., and stand 16 hands and 3-4 inch high.—With most here the working of mules instead of horses is a novelty. It has been a wonder to us for years, ever since we became acquainted with the power of endurance of mules, that they were not generally used by our teamsters. They are more hardy, can do much more work, are cheaper kept and less liable to disease, lameness and ailments than a horse.—*Manchester Mirror.*

CURIOSITY IN A DYING MAN.—It was a bright thought that of Smithson, the founder of the Smithsonian Institution, when he was dying of an unknown complaint. Smithson had had five doctors, and they had been unable to discover what his disease was. At length they told the patient that he must die. Calling them all around him he said—"My friends, after I die, make a post mortem examination and find out what ails me; for, really, I have heard such long and learned discussions on the subject, that I am dying to know what the disease is myself."

A gentleman of England of large fortune—worth £40,000—was indignant with his daughter, an only child, for marrying against his wishes. He quarreled with her, disinherited her, and left his whole property to his attorney and other gentlemen. His attorney, Mr. Warren, author of "Ten thousand a year," went to his co-legatees, got them to sign their claims over to him, and then paid the whole £40,000 to the daughter.

Mrs Jones, Ottokee, Ohio, went with a child to a daguerrean gallery, when the little one called for water, and the lady took up a bowl of fluid, prussic acid, and gave it to the child to drink. The consequences were spasms and death, in a few minutes.

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its wonderful CURATIVE POWERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" is a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. BURRILL & HUNTING, SOLE PROPRIETORS,
No. 6 Tremont Street,

THURSDAY, APRIL 28, 1859.

KILLING NO MURDER.—This used to be the name of a farce; but it has now a reality, in some courts of law. The Sickles case is one in point; and the Traveller, abridging from foreign papers gives another, of great interest, which occurred in Bavaria, quite recently.

An extraordinary sensation was caused in Munich a few weeks ago by the trial before the Court of Assizes of Upper Bavaria, of a gentleman named Ferner, on the charge of having, in October last, shot dead a young lady named Sanguinetti, of which some account has before been given. Ferner, who, though only twenty-two years of age, is a doctor of civil law of the University of Munich, and author of a highly esteemed work on Roman law, and who, besides, is skilled both in painting and music, made the acquaintance at a ball, in September last, of Mdlle. Sanguinetti, sixteen years of age, daughter of an eminent Bavarian sculptor. He at once fell passionately in love with her, and was at his request allowed by her parents to pay his addresses.—The young lady rejected him on the ground that though she entertained a high esteem for his character and talents, she did not think he was rich enough to give her the position in society to which she thought herself entitled. He still persisted, but the young lady remained firm.

At last she was induced, by his threats of committing suicide, to grant him an interview at night in her father's garden, when he shot her dead, a ball passing into her heart. Ferner soon after gave himself up, stating that his intention was to murder the young lady and then commit suicide, in the hope of being united to her after death.—But at the moment of committing the act the idea suggested itself to him that suicide was a crime. An enquiry was made if the man was sound in mind. Medical men said that he was; and he himself declared that he considered himself sane, and had never had any mental malady, neither had he ever heard that any member of his family had ever been afflicted with insanity.—The jury declared that he killed the young lady, but without deliberate premeditation, and the Court condemned him to be imprisoned for twelve years in a fortress.

PRESIDENCY OF 1860.—Senator Douglas is said to have declined the Presidential nomination in 1860, on the ground that the opposition are sure to succeed; and Stephens of Georgia, it is reported, gives a similar reason for his contemplated retirement from public life. He says—"As there is to be an inevitable smash-up, I am for getting off at the first station."

The Springfield Republican thinks that the Opposition candidates for the Presidency in 1860, will be narrowed down to Seward, Banks, and Edward Bates of Missouri, as the representative men of the three sections of the Opposition.

EDWARD BATES has written a letter on politics. He is an old Whig, highly respectable, a great favorite at the West, a capitalist who has emancipated his own negroes, and what is more pertinent to the subject at issue, an inhabitant of a slave State. If the Republican party rally for the battle of 1860 with his name as their war cry, the stigma of sectionalism is at once removed. It is said that his nomination would carry Missouri. If so, the nine electoral votes of that State may constitute the element of success in the next election. His freedom from the politics of the last twenty years tells strongly in his favor.—*Salem Gazette.*

☞ The N. Y. Journal of Commerce admits that "in all our calculations for the next Presidential campaign, we may as well assume that the twenty-seven electoral votes of Pennsylvania are mortgaged to the Republicans."

PEACE OR WAR.—The London Times of April 11th says:—"It would be vain to shut our eyes to the truth that the preservation of the peace of Europe appears to the closest observers to become from day to-day more desperate, and that all probability favors the belief that the struggle is even now upon the eve of its commencement."

THE ACQUITTAL OF SICKLES.—The trial of Daniel E. Sickles, for the murder of Phillip Barton Key, was concluded Tuesday afternoon. A modified form of the instructions asked for by the prosecution was granted by the Court, and the case was submitted without further argument. The jury retired at ten minutes of two o'clock, and returned in about an hour with a verdict of "Not Guilty."

When a man and his wife dispute, you may be sure that there is a fool upon one side or the other; and the man who interferes between the two, is generally a greater fool than either.

For the Chronicle.

THE PEDLAR LAW, &c.

Gents:—As the Legislature of our State will soon assemble, and as it is generally conceded that the Pedlar law of last session needs some alteration, and as the party in power are accused of illiberal legislation, and as at the time of the passage of the law it was intended more particularly for foreign pack pedlers who were neither citizens nor tax payers, with your permission I will offer through your columns the following amendment to the Pedler law, viz:—

That the provisions of the preceding sections shall not apply to any person who has been two years a citizen of the United States, and of this State, and paid the year previous State, County and town taxes in this State, and who travels with one or more horses: Nor shall it prevent any person from selling any fish, fruit, farming utensils, or other articles the lawful growth or manufacture of this State.

I remark, the former law has required the sum of from $10 to $50 annually. To my mind there is no good reason why a person should be taxed twice in the same year for the privilege of doing business, merely because he prefers to travel and sell his goods. And in most intances persons traveling with horses are either wholesale dealers, selling to our stores, and having customers; or, selling the manufactures of our State, as tin and wooden ware, &c.

It has been urged that the Innholders have suffered from the late law, and that the travel has fallen off. I doubt not this is true, and to remedy it propose no restriction upon persons who are citizens and tax-payers. I have thus hastily submitted my own views, and hope those interested in the matter may follow.

Allow me to add, I hope proper notice may be taken of the article in a late number of your paper on "Our Courts." I trust the Governor elect reads your little daily, and has given it due attention. And as he has the reputation of entertaining liberal views on mercantile affairs, I doubt not he will follow his predecessors and recommend, and urge, an Insolvent Law. CIVIS.

☞ By steamship Circassian, at St. John's, in *seven days* from Galway, we have Liverpool dates to the 18th. The news is still of a warlike character. The Austrian Government positively refuses to take part in the proposed Congress, unless the other powers agree to disarm. The propositions of Austria to the Congress are said to be unacceptable to the French Government.

The asked-for Russian loan has reached London, where the papers throw cold water on it.

The American ship Reindeer was lost on the coast of Manilla. She was bound to San Francisco. Her crew were saved.

☞ On Monday, in the Boston Municipal Court, Wm. Roche, who killed ex-purser Hunter, of the Navy, was found guilty of assaulting the deceased with a dangerous weapon. Mr. Benj. F. Butler, the counsel for Roche, had ingenuity enough to get doubt into the minds of the jury,—of which his scoundrel client reaps the benefit. The Atlas says of the verdict:

In the case of Roche, tried for the manslaughter of Hunter, the jury yesterday returned a verdict for assault with a weapon. This is reducing the case to a vulgar fraction with an emphasis. The case turns on a technical quibble, and not on its merits or justice.

FROM HAYTI.—Advices from Hayti to the 9th inst. have been received at New York. A committee had been appointed to wait on the government and protest against the coffee impost of the 9th, and asking as a substitute another, which, while placing the government in a position to pay the indemnity due to France, would not be received with such antipathy by the people. This committee is composed of merchants of Port au Prince. A duty on coffee, payable in cash or approved paper with two signatures, is proposed as the most expedient substitute for the objectionable impost.

NOTES FOR LIQUOR NOT COLLECTABLE. A case was tried before Judge Hoar, in the Supreme Court, at Taunton, Mass., last week, in which they sued to recover the amount of three promissory notes. It was proved that the notes were given for intoxicating liquors, and a verdict was ordered for the defendant.

☞ A steamer is building in New York city, and the boilers are being constructed to test a new fuel, composed of coal tar and saw dust. A manufactory at Manchester, N. H., is heated by this fuel.

NEW YORK, April 26.—The mail bag from Havana, brought by the Quaker City, which arrived here the 20th, was found at a public store in Broad street, where it had been sent as containing sugars. The mail was found under the sugars, uninjured.

Leave your grievances as Bonaparte did his letters, unopened for three weeks, and it is astonishing how few of them, at the end of that time, will require answering.

SEWING MACHINES.

The Grover & Baker are always preferred, when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be disarded or found wanting.

FRANK W. MILLER,
PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

GALLERY, No. 33 Congress Street,

consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.

N. B.—I do not charge any more for **good** Pictures, than is paid every day for **poor** things.

TYPHOID FEVER.——Every one who knows anything of this fever, knows that the period of convalescence is extremely long, if indeed the health be ever perfectly established.—In such cases, the PERUVIAN SYRUP supplies a want long felt by the profession, and has restored invalids to health in a remarkably rapid manner, when all the usual tonic remedies had failed.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

R. R. R.

POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the R. R. R. Remedies prompt, quick and efficient. Persons who have suffered from chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its efficiency within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators, at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Health and Strength secured by the use of
THE SPRING AND SUMMER MEDICINE,
Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, an i n torpid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 10,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from sound A. Barley under the supervision of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally, in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, KIDNEYS, and the BOWELS, NERVOUS DERILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best spirits of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, Preiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 51 Blackstone st.; R. POLICE COURT.

Before Justice Odell.—April 20.—John Kelly and Maria Burbank were accused of keeping a disorderly house in this city,—and plead guilty. They were ordered to find $200 bail each, to appear before the Supreme Court. The woman did so,—but a mittimus issued against the man.

April 26.—John Williams, (a visiter,) was accused of making noise and brawl, when drunk;) plead guily. Sentenced to House of Correction for two days, and pay costs, $3.86.

April 29.—John Jones and Catharine, his wife, were accused by Hannah Sullivan, of assault and battery. Plea not guilty. It appeared in evidence that Mrs. Sullivan went into Jones' rooms, to collect some rent, which was not ready, and that some high words arose. John Jones ordered Mrs. Sullivan down stairs and out of doors, and as she did not go voluntarily he put her out, using so much force as was necessary, and no more. Catharine Jones, some time in the quarrel, threw a stick of wood at Mrs. S. and took off a piece of skin. For this, the court imposed a fine of $1.11 ; cost $4.80. John Jones was discharged.

THE MAY DAY HOLIDAY.—In Newburyport, the School Committee have voted to grant the schools, Monday, May 2d, for the annual May holiday. Our Schools here, might very properly have the same favor. What say the Committees ?

MUNICIPAL.—In the Board of Aldermen last Thursday evening the following report from the City Marshal was read and accepted :

Whole number of arrests from Jan. 18th to date, 128. Drunkenness, 46 ; vagrancy, 25 ; lodgings, 23 ; brawl and tumult, 8 ; assaults, 6 ; larceny, 5 ; disorderly conduct, 6 ; suspicious persons, 3 ; breaking and entering car, 1 ; breaking window glass and stealing, 1 ; bastardy, 2 ; night walking, 1 ; fighting, 1.

Amount of fine and costs, $97.38.

The committee on schools made a report of repairs needed in the several school houses. Adopted.

☞ The San Antonio (Texas) Herald, April 2d, says, Lieut. John P. Sherburne, a native of Portsmouth, had just left San Antonio, to take command of the new post at Camp Stockton, on Comanche Creek, Texas.

AMERICAN PEACE SOCIETY.—By a recent decision of the Supreme Court of Maine, the American Peace Society comes into possession of between eleven and twelve thousand dollars left by will to that Society by Wm. Ladd, many years since.

☞ Rev. Edwin Johnson will assume the pastorate of the Bowdoin Street Church and Society, Boston, by an almost unanimous vote of invitation. There was one negative ballot.

☞ Our compositors were unable to read aright all the names of the officers of ship Portsmouth, furnished us by a friend.—Proper names should be written very plainly. The Commander's name is Colhoun, and Mr. Winship is *his* clerk, not the Carpenter's. The Carpenter is Wm. D. Toy, and the 2d Lieut. Henry K. Stevens.

☞ Mr. J. H. Foster sends us the Fourth Annual Catalogue of Plants, Flowers, &c. cultivated by J. T. Smith of Brentwood, for whom Mr. F. is agent. The catalogue contains 26 pages.

DARLEY ILLUSTRATING LONGFELLOW. Messrs. J. E. Tilton & Co., 161 Washington street, Boston, have just added to their number of beautiful prints a striking picture of the bridal procession which Longfellow has so poetically portrayed in his "Courtship of Miles Standish." The original drawing was from the pencil of the inimitable Darley, and this brilliant *fac simile* was made by Grozelier, whose name is sufficient to stamp the character of the picture. It is a fine thing, and we presume will find its way into many parlors where Longfellow's poem now has a place on the centre table. In delicacy of execution and pleasing effect, this crayon will secure universal admiration. It is sent postpaid on receipt of $1.25. A picture of this size (14 by 17) and style of execution could not be furnished at this price, were it not for the extensive sale in prospect for it.

This scene is a beautiful conceit of Longfellow's, and is exquisitely sketched.—Messrs. Tilton & Co. are doing the public good service, in placing such pictures in so popular, cheap and available a form.

LOUISVILLE, April 27.—The loss of life by the late steamboat explosion, so far as known, amounts to 49, including 9 ladies. The St. Nicholas is partially insured at St. Louis. Loss $25,000.

CHICAGO, April 27.—The steamer Eolian, from St. Louis for St. Paul, Min., sunk in Lake Pekin last Friday. Four persons were drowned.

NEW YORK, April 27.—A special dispatch from Burlington, dated noon, says Bishop Doane is dying.

IMPORTANT FROM MEXICO.—*New Orleans, April* 26.—The steamship Tennesee brings Vera Cruz advices of the 22d, and city of Mexico of the 19th inst.

The news is of great interest, and indicates a decided change in the aspect of affairs in Mexico.

Gen. Miramon had forced the line of the Liberals.

Gen. Ampudia hastened to the capital, which city he reached on the 11th with a dimished army.

The victorious general had already commenced the work of slaughter, and was murdering peaceful foreigners indiscriminately.

The exequator of Mr. Black, the American Consul-General, had been withdrawn, and he banished from the country.

The English were threatening Mazatlan and other Mexican ports, and demanding payment of claims against them.

At Vera Cruz matters were approaching a crisis. The British minister had insisted on the full payment of all the claims of his countrymen, and had instructed the commander of the English fleet at that port to demand $1,500,00 from the Custom House in that city, and in case of refusal to bombard the city.

CAUSTIC—The Providence Journal copies the anecdote we published last week about Governor Sullivan and Chief Justice Parsons, and adds :

"This reminds us of a lady who called on a witty friend who was not at home, and finding the piano dusty, wrote upon it *Slattern.* The next day they met, and the lady said I called on you yesterday. Yes ; I saw your card on the piano.

A German prince, when introduced to an Englishman, by way of appropriately commencing the conversation, observed.—"It is bad weather to-day." The Englishman shrugged up his shoulders, and replied, "but it is bettter than none."

☞ Antioch College, in Ohio, was sold at public auction in Cincinnati last week for $40,000, transferred to its former owners, free from debt, and will be immediately reorganized.

☞ The largest manufacturing state in the Union is New York. Pennsylvania comes next. Massachusetts comes third.

☞ California papers mention the presence of Fillibuster Walker, and pretend that he was about to join Henningsen in a Sonora expedition.

☞ The Savannah Republican says that a vessel is now loading at that port with lumber for Beirut, Syria.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish ;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs ;
3. Ease of management and rapidity and quietness of operation ;
4. Hemming and seaming attachments ;
5. Beauty of stitch, alike on both sides of the fabric sewed ;
6. Strength and firmness of seam that will not rip nor ravel ; and made with
7. Economy of Thread ;
8. Applicability to a variety of purposes and materials.

THE GROVER & BAKER

SEWING MACHINE CO.,

NO. 18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their

Celebrated Family Machines,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE.

PRICE $50:

Machines from $50 to $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Morning Chronicle.

LIBRARY OF THE VATICAN.—Mr. Bigelow, one of the editors of the New York Evening Post, writing from Rome, says:

"When I passed through the famous library of the Vatican the other day, and walked nearly half a mile without seeing a single book or meeting a single reader, I must confess that I felt for a moment, and for the first time, a desire that the present controversy of the European powers over Italy might not end until the secrets of this great storehouse of knowledge were unlocked, and made accessible at least to the historian and the student. At present the Vatican library and manuscripts are of scarcely any more value to the world than the collection at Alexandria, which the famous dilemma of Achmet consigned to the flames.'

GOV. ROSAS of the Argentine Republic thus hit off the snobbery of the English Minister, Mr. Ouseley:

The Minister used to brag of the royal family and nobility of England, and Rosas one day invited Mr. Ousely and all the foreign members to dinner, after partaking of which he invited them to the poultry yard to see a pair of beautiful royal peacocks, and a young brood. On seeing the animals the Ministers expressed their admiration of their beauty, Mr. Ouseley going so far as to compare them with the royal family. Gov. Rosas told a man to bring him one of the country turkeys, which was let loose, whereupon the royal peacocks and family ran in every direction. Mr. Ouseley never again mentioned nobility to the Governor.

HIGH AUTHORITY.—In his charge to the jury in the Stephens case, Judge Roosevelt said "we have the *highest authority* for saying 'all that a man hath will he give for his life.'" A writer in the Rochester Union, commenting upon this statement, says:

"Holy writ informs us that 'Satan answered the Lord and said, Skin for skin—yea, all that a man hath will he give for his life.'—Job 2. 4.

"This doctrine of the Judge may lead to several serious questions. May not an amendment to the constitution give to Satan in the city of New York *higher judicial authority* than the Court of Appeals? The jury in criminal, as well as in civil cases, must receive the law from the Court. Is a juror in the city of New York, competent, who has conscientious scruples against accepting the Devil as the highest authority? These and kindred considerations may produce some embarrassment in the courts of the metropolis. I will only add, that west of Cayuga Bridge, Satan is not regarded by the Bench, nor cited by the Bar, even as respectable authority.—*N. Y. Commercial Advertiser.*

ATTEMPT TO MURDER A ROMAN CATHOLIC BISHOP IN CANADA.—The papers have mentioned that the house of the Rev. Clement Frachon, Roman Catholic priest, at St. Thomas, Canada, was entered on the night of the 13th inst. by two blood-thirsty villains, who sought for the priest and stabbed him, leaving him for dead; but he revived, and it is thought, may recover.

Mr Frachon is represented as a gentleman of unblemished character, of mild and conciliatory deportment, and enjoying the highest respect of the community. The cause of this attack upon his life, and of some previous attempts to destroy his property, is attributed to his having labored with considerable zeal to suppress the liquor traffic.—*Boston Traveller.*

PULPIT NOTICES.—Nothing in the way of a practical joke has amused us so much, for a long time, as a *dog notice* that was given at the Orthodox church in Lancaster last Sunday. It may do well as a burlesque on advertising all things from the pulpit. A notice was sent to the sexton—doubtless with the intention of having it posted on the meeting-house—which by some mistake he was led to pass over to the minister.—The officiating clergyman was a stranger, and when he came to read his notices he hesitated somewhat, but, after a preface to the effect that being a stranger he did not feel at liberty to decline reading what was given him, let on as follows: "All owners of dogs are hereby notified that if the same are not registered by the 1st of May, they will be killed, according to law." The effect on the congregation can be imagined.—*Chester Courant.*

FIRST SERMON IN DERRY.—140 years ago this month, under a large oak at the east shore of a beautiful sheet of water in Derry, Rev. James McGregore delivered, from Isaiah 32: 2, the first sermon ever preached in the western part of Rockingham county. He was a Scotch Presbyterian, already advanced in years and experience. His audience was a company of Scotch-Irish emigrants from the north of Ireland, who, only the day before, had reached the shores of the picturesque little lake, then embosomed in the wilderness. They gave to the settlement the name of Nutfield, and the pond which the Indians called "Shoneto" was named for the industrious animal that used to frequent it, Beaver Pond. The spot is still pointed out where the sermon was delivered.—*Manchester American.*

That must have been a giant anthem in Paris when six thousand voices chanted the Domine Salvum, as the Empress gathered her skirts together, adjusted her flounces, smoothed her hair, and inquired "how do I look" of her nearest friend, and sat down in her place in the Industrial Palace on the Champs Elysees—Louis preferring a "smoke outside" to the bore of voices and brass within the vast edifice of iron arches, at the late great Musical Festival.—*Post.*

THE GREAT WONDER
Of The Nineteenth Century
PROFESSOR WOOD'S
HAIR RESTORATIVE.

Says the St. Louis (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantee of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now confidently tell the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it had before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

I have above notice I deem due to you for your valuable discovery. I am assured that wherever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to propagate the benefits of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 25, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood | Dear Sir: Having had the misfortune to lose the best portion of my hair, from effects of the yellow fever, in New Orleans in 1854. I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. Ww. Dyer.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. Bragg.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!
PREPARED BY DR. SANFORD,
Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public. These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the bowels from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, is a **cure costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediated from the flight, or prevented to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of our health and constitution.

Only one dose taken **Jaundice** removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and in not than three months (this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be misled from the right path, or be persuaded to try

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REGULATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicine.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

THE REASON WHY.

Editors Chronicle:—The neighborhood in which I am a resident is a pleasant and peaceful one, all feeling happy in the comfort and happiness of those about them.—Last week an inquisitive person interrogated me about my neighbors, and as I never like such things my replies were rather tart, as they always will be on such occasions. In looking over a paper sent me I found the enclosed which I cut out, thinking it quite as well calculated for this meridian. *

Do you wish to know the reason
Why your neighbor often calls
On the dashing Widow Wilkins,
And attends her to the balls?
Why his carriage is seen stopping
At some noted clothing store,
And the widow goes a shopping
Where she never went before?
If you wish it, I will tell you—
Let me whisper to you sly—
If they esteem it proper,
It is not your business why.

Do you wish to know why Peter
Has forsaken friends and home,
And left his native country
In a distant land to roam?
Why Polly seems so lonely
Since the day that Peter left,
And of all good friends, she only
Should appear to be bereft?
If you wish it, I will tell you—
Let me whisper to you sly—
If they have reason for it,
It is not your business why.

Would you like to know the secrets
Of your neighbor's house and life?
How he lives, or how he doesn't,
And just how he treats his wife?
How he spends his time of leisure,
Whether sorrowful or gay,
And where he goes for pleasure,
To the concert, or the play?
If you wish it, I will tell you—
Let me whisper to you sly—
If your neighbor is but civil,
It is not your business why.

In short, instead of prying
Into other folks' affairs,
If you do your own but justice
You will have no time for theirs.
Be attentive to such matters
As concern yourself alone,
And whatever fortune flatters,
Let your business be your own.
One word by way of finis—
Let me whisper to you sly—
If you wish to be respected
You must cease to be a pry.

—*Gonzales (Texas) Enquirer.*

☞ On Monday in the Supreme Court of Massachusetts, an important will case was divided; as follows, reported for the Courier.

Henry Lakin, et. al. petitioners for leave to enter an appeal from a decree of the Judge of Probate, vs. Louisa Lakin, executrix. Entry was ordered to be made of the *dismissal* of the petition with *costs* for respondent, thus disposing of the whole matter. The facts of the case were, that Mr. Benjamin Lakin, a pilot in Boston, married about 27 years ago, and that in a few years his wife left him. He afterwards received notice of her death, but instead of dying she married one John Lewis of Dracut, with whom she lived until two years ago.

About eleven years ago, Mr. Lakin married a lady named Louisa Cummings, and at the time of his death in October, 1857, he left to this, his second wife, all his property, amounting to about $12,000. The first wife again made her appearance, and both wives followed the remains to the grave. The petitioners contested the will, on the ground that undue influence was exercised by the second wife, and the first wife joined with them to set it aside.

Miss Mary Russell Mitford—whom Lord Byron called "a dumpy woman," and Miss Landon "Sancho Panza in petticoats,"—had as little taste in dress as most literary women, and going to an evening party she stopped to buy an unbecoming yellow turban for the occasion, which, ridiculous in itself, became the occasion of further mortifiment from the fact that she wore it with the shop-keeper's large ticket conspicuously displayed—"very chaste, only 5s. 6d." Fortunately, Miss Mitford was *sans peur, sans reproche*, or the joke would have been fearful.

Rev. Father Dayman, who has come under the ban of Bishop Hughes, has opened an oratory in Lexington avenue, New York, and is preaching to crowded houses of recusant Catholics and sympathizing Protestants. He takes the position that the bishop and prelates must be obeyed, but within the limits of conscience, reserving the right of private judgment, just as the child obeys the parent, but not to the extent of disobeying God. This is essentially Protestantism.—*Traveller.*

☞ At a dissenting chapel in England, the minister, in his prayer before the sermon, introduced the following ejaculation: "God bless John Bright, Richard Cobden, Edward Mail and all the noble reformers of our land!"

SCIENTIFIC AND MECHANICAL.

COMPRESSED AIR LOCOMOTIVES.

It is proved that, on account of the absence of all necessity for attention to the fires in generating steam power, under all the fluctuation of wind and weather, the working of an engine with compressed air is wonderfully simplified; and as the temperatures of excessive heat, with all the difficulty of ascertaining and calculating them and their effects are removed, and nothing but natural temperatures have to be dealt with, the advantages of compressed air power must be obvious.

The strength of cylinders for holding compressed air at high densities is abundant and safe. To make them perfectly air tight, it is proposed to mostly weld the vessels, and to have as few rivets and pieces as possible; and to tin, electrotype with copper, or coat the inside with some ductile metal or substance, in order to shield the whole surface, and secure any joints or defects on the inner surface. The principle of expansion can be carried out to perfection by compressed air. It being an expansive power, always of the natural temperature in the reservoir, as soon as it moves the piston, its density must be equal to the resistance, and having no disposition to condense, its activity will follow the piston the whole length of the stroke, when, on the return of the piston, it would have to meet the resistance of the contents on the other side, so that, to gain every advantage it would be necessary to work it expansively, to avoid counteracting back pressure.

At whatever density the compressed air may be worked, the conditions are the same; for in the greatest practical velocities, the increased density of this pure element has an increased power of transmission equal to the increased velocity of the piston. Not being clogged with any vapor, nor liable to condense, as steam does, when not in contact with the water and heat of the boiler, but always being dry, and expansive, and pure, the advantages of this principle are very great.

THE IMPROVED SUMMATOR, OR MACHINE FOR THE ADDITION OF NUMBERS.

This curious and useful machine deserves a brief notice. Upon a continued spiral line, on the face of the main disc, are inserted the scale of numbers used to show the sum of the figures required to be added together—the series up to one hundred being placed on the outer spiral line, and continued by the addition of that number to each following spiral line, up to the periphery of the counting disc. Upon the edge of the top side of this counting disc is marked the series of numbers from one to one hundred, which serves as the table of counting figures, which are required to be added together. Attached to the main disc, and beneath the central one, is a thin metallic circular plate, whose exterior edge is pierced with a series of holes equal in number to the series of numbers inscribed upon the counting disc, and which has a spiral tooth upon its face coincident with and forming a continuation of the spiral lines of the main disc, and works in teeth cut upon the lower side of the traversing index, so that a revolution of the main disc moves the index a distance equal to the distance apart of the spiral lines upon its face—the index being restrained from revolving with the disc by suitable stops. The counting disc remains stationary while the main disc is revolved by the crank indicator, which has a pin on the lower side of its outer end that falls into the holes on the metallic plate. This machine appears to hold a happy medium between the expensive and complicated calculating engine invented by Mr. Babbage, and the useless philosophical toys invented by others for a similar purpose.

☞ Cast Steel Bells are a new thing, in this country, but have been in use for several years in Europe. They have a very pure and melodious tone, peculiar to steel, and in many respects are superior to the bells in general use. A steel bell weighing 1500 pounds is equal to one of 3000 pounds of bronze composition. The cost is one-third as much.

A DEAR BITE.—In the Supreme Court of Maine, at Bath, Abby H. Hinkley, by next friend, sued John A. Bennett, for trespass, to recover damages sustained by the plaintiff, who is a child of ten or eleven years, by being bitten by defendant's dog. Defence, that the injuries were not caused by plaintiff's dog. Verdict for plaintiff for $115.

☞ Rev. Lemuel Willis has removed from Haverhill, Mass., to Warner, N. H.

☞ In Boston, on Wednesday evening, as we learn from the Traveller, one of the police officers heard a noise on one of the wharves near Broad street, then a splash and then a cry. He rushed to the rescue, and found a man floundering in the water, with a bloody head and breath nearly spent with hallooing. He rescued the man, and ascertained that he was a fish dealer from the State of Maine, who had come to Boston to buy fish, but had visited a few shops where something besides fish was sold, and who, after becoming intoxicated, had fallen overboard.

The man did not name the town of which he was a resident, but the officer who rescued him was of opinion from his proclivities towards water, that he was brought up in Bath, though from the noise he made he thought he might have lived in Hallowell.

☞ The celebrated John Foster thus describes a bigot: He sees religion, not as a sphere, but a line, and it is the line in which he is moving. He is like an African Buffalo—sees right forward, but nothing on the right or left. He would not perceive a legion of angels or devils at the distance of ten yards, on the one side or the other." No, nor even a pair of spiritual spectacles! A bigot sees with jaundiced eyes under all circumstances, whatever—John Bunyan's "perspective glass" would be of no use to him. Blind as a bat! alas, poor bigot!

☞ Edson C. Eastman of Concord, has just published, "The Homœopathic Domestic Physician, and Traveller's Medical Companion, by Dr. Ferd. Gustav Œhme.—This book contains, in a small space, concise yet plain and simple directions for the Homœopathic treatment of diseases, presented with the hope that the entirely new internal arrangement will render its use easier and more successful, and the size prove more convenient than others. 165 pages, in sheep or morocco, 60 cents; in morocco tuck, 67 cents. Copies sent by mail, postpaid, on receipt of price. Sold in this city by J. H. Foster. A valuable little book.

☞ Right Rev. George Washington Doane, Bishop of New Jersey, died at Burlington, N. J., 27th inst., in the 61st year of his age. Bishop Doane was a native of New Jersey. After being ordained to the ministry, he entered Washington (now Trinity) College as tutor and professor.—About 1824 he removed to Boston, and became Assistant Minister of Trinity Church, of which Rev. Dr. Gardner was then rector, and upon the death of Dr. Gardner he succeeded that gentleman in the rectorate. In 1832 he was elected Bishop of New Jersey, in place of Bishop Croes, an office which he filled to the time of his death.

FROM KANSAS.—*St. Louis, April 27.*—Advices from Kansas City state that a company is being formed in that place for immigration to Arizona. They will go out under the superintendence of Mr. Clarkson, formerly Postmaster at Leavenworth.

Advices from Leavenworth confirm previous statements of a secret movement at Pike's Peak for a descent upon Mexico.—Agents of this movement are at Leavenworth and other points, urging forward the emigration to the gold regions, in order to have at Pike's Peak sufficient material for their purpose. The leaders base their hopes on anticipated developements in the gold country, and the probable dissatisfaction of great numbers with their prospects at the mines. Their plan is not yet fully developed, but it embraces, it is said, first a descent upon Sonora, and afterwards probably upon Durango and Chihuahua. 10,000 emigrants have already left different points on the Missouri for Pike's Peak.

Affairs in Utah.—Accounts from various private sources on the Mormon side, represent the affairs in Utah as materially differ ent from what has been previously reported.

[That is, they conform the account of a difficulty there, but lay the blame on Judge Cardleborough, and defend Gov. Cumming.]

The Deseret News has published a memorial from the people to Gov. Cumming, attempting to prove the illegality of Judge Cardleborough's holding court at Provo. It also severely criticises the Judge's course, and accuses him of setting himself up against the civil authorities of the Territory in employing the troops to execute the orders of the court without a valid reason, thus clearly showing a total disregard of the latest expressed policy of the Administration concerning Utah. It also accuses him with a settled purpose to force a collision between the people and the troops.—The Mormons seem to regard President Buchanan's proclamation as exempting parties from arrest for all past offences.

☞ The Concord N. H. Patriot of April 27, says:

Every where except in New Hampshire, there are abundant signs of decay in the Maine Law fanaticism.

☞ There are in the State of Oregon 135 flour mills with a capacity of producing 2,500,000 barrels per annum.

☞ We have received from Hon. J. Pike a valuable document, viz., the Report on Naval Cantracts, &c.

Sagamore House,

ON FROST'S POINT, RYE, N. H.,

At the entrance of Little Harbor, 3½ miles by land, 2 miles by water, from Portsmouth. The House commands a view of Portsmouth, New Castle, Kittery, the Navy Yard, Forts Constitution and M'Cleary, Portsmouth Harbor and the Isles of Shoals. The House is nearly new, and commodious, and has been occupied as a Summer Hotel. The out-buildings consist of a barn, corn house and bowling alley, all in good repair. The grounds contain **Six Acres,** bordering Little Harbor and the sea, and are well stocked with Fruit Trees. The facilities for sailing, fishing and bathing are unequalled, rendering it a desirable place for a private residence, a private boarding house, or a public house.

FOR SALE.

The balance of the Sagamore Farm, adjoining the above, containing

Forty-three Acres of Land,

of excellent quality, suitably divided into mowing, tillage, and pasturage, with a fine lot of Fruit Trees on the same, and will be sold as a whole or in lots, as purchasers may desire,—all on liberal terms.

CLOTHING AT GREAT SACRIFICE.

E. GREEN & CO.,

For want of a place of business, on account of the recent fire, are compelled to rush off their remaining stock of CLOTHS, CLOTHING & FURNISHING GOODS, for a short time, at a great sacrifice, at

J. B. ADAMS' AUCTION STORE.

We take great pleasure in announcing to our numerous customers, friends, and the public generally, that it will be greatly to the advantage of the purchaser to call soon, as we cannot and shall not stay here but a short time, under such great expense and sacrificing sales. We intend to wind up business for the present, until our former store is rebuilt. We wish for all those having claims against our firm to present them soon; and those indebted to us, will confer a favor by coming forward and settling with us immediately.—We are to be found at J. B. ADAMS' STORE.

SEWING MACHINES.

The Grover & Baker are always preferred when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's elm Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair. We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

TYPHOID FEVER.—Every one who knows anything of this fever, knows that the period of convalescence is extremely long, if indeed the health be ever perfectly re-established.—In such cases, the PERUVIAN SYRUP supplies a want long felt by the profession, and has restored invalids to health in a remarkably rapid manner, when all the usual tonic remedies had failed.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumnos.

POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the **R. R. R.** Remedies prompt, quick and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In using R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Health and Strength secured by the use of

THE SPRING AND SUMMER MEDICINE,

Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, in perfect Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and carrying health and life through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-wheel of so many disease; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headaches, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and a torpid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the estimation of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPESIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of weather and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, hotels and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Decker, 20 Elm st.; Lyman, Clark, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. Smith & Co., 30 Exchange st.; Gilbert, Abbott & Co., 78 Broad st.; Deland & Snow, 34 Elm st. and other. In Portland, Me., of H. H. Hay & Co., C. W. Atwell, and J. C. Mitchell & Son.

EDMUND C. CHARLES, General Agent,

LOCAL.

☞ We have been very frequently advised, and sometimes urged, to reduce the price of the Daily Chronicle to $3 per year in advance. We have tried that rate, and rather prefer the $4—but if a large number of new subscribers will join our list on consideration of the reduction, we will make it, temporarily at least. During the six and a half years of publishing the paper, it has been $4 per annum about half the time—and pays better at that price; so if we come down again, it will be for the still farther and wider benefit of our numerous and liberal advertising patrons, and only indirectly for our own. Let us have a list of all the new names who want the Daily Chronicle at $3, and see if there are so many hundreds as we "hear tell of."

A few of our Weekly Chronicle subscribers, who have usually been prompt, are now a little in arrears. The paper is too cheap to afford much time or trouble of collection or dunning—only $1 a year *in advance*. All who settle their bills before July 1st, will be charged $1.25 per year—after that time, $1.50. We have marked from our list all in arrears, with whom we are unacquainted.

☞ The little Chronicle has all it can do, to carry its load of advertisements. And so are obliged to postpone some favors of our patrons, on account of the non-arrival of our type expected a fortnight since. We will make all shine, presently.

☞ The best marking brush and stencil brush we have ever seen, for economy, neatness and dispatch, is the patent brush advertised by Mr. L. B. Hoit.

The tube once filled, you can mark 50 or 100 bales or boxes without replenishing;—and if you are a month about it, the fluid will not dry up when properly covered. To use it is to be pleased with it.

IMPORTANT TO ALL IN PURSUIT OF BUSINESS.—$200 will buy a patent right of this State, which will be worth $1000 a year, *sure*, to any enterprising man. Look at a rare chance for business in another part of this paper. L. B. HOIT.

☞ The Sickles trial complete, in pamphlet form, with portraits of parties, for sale by John H. Locke. Price 25 cents.

SPIRITUALISM.—Prof. J. L. D. Otis will lecture at Mercantile Hall, next Sunday afternoon and evening. Admittance 5 cents.

☞ Rev. Mr. Patterson will preach at Rye, (Chesley's Hall) on Sunday, May 8, at 5 P. M.

LAIGHTON'S POEMS.—We are gratified to learn that the volume of the Poems by Albert Laighton, published by Brown, Taggard & Chase of Boston, is meeting with a sale highly complimentary and gratifying to the author. The Boston Journal gives the volume the following notice:—

Mr. Laighton here presents to us a really acceptable volume. First of all, we must thank him for the manly and hopeful spirit in which his is written. Instead of the weeping and wailing, the snapping and snarling, the short, quick bark, or the prolonged growl at the follies and faults, the imperfections and vices of mankind, to which we are so liberally treated, and of which—immaculate as we without doubt are—we are just a trifle bored—we find a simple recognition of evil, as the occasion for perpetual and confident reference to an approaching period of right and happiness. The author heartily accepts the poet's mission, and instructs by means of Beauty, sustains by means of Truth. A full voiced "Good Cheer" rings out from the pages, awakening responsive echoes in the bosom of the reader. This is well. When chafed by the exhibitions of taunting vanity, saddened by the results of toiling, worn with toil, crushed by bereavements, we do not really desire to go through these experiences again in verse. If feebly handled, they excite contempt; if powerfully, they harrass. We accept them as correctives sometimes, sometimes we admire the graphic portraiture and probing skill displayed, but what we truly want and seek is the gentle veiling of the temporary and fleeting, by the steady splendor of the unchanging and eternal. In this lies the true charm of these poems. The "few of labor" is the price of all noble effort;

"In the realm of faded youth and joy,
Heaven kindly leaves some bird of hope to sing;"

to the outcast, turned from every human door, God "opens the heavenly portal;" and Death is only the warder who keeps the key of the Father's house. The book is, indeed, a little treasury of sweet thoughts united to harmonious expression. The diction is clear and accurate, and honestly used to embody a definite meaning. It is also finished and glowing, but without conceit, and rich only up to the measure of the sentiment. The imagery is almost unexceptionable. The rythm is good, varied, and carefully maintained. Genial and elevated in feeling, and tasteful in execution, the volume will commend itself to the hearts as well as to the judgments of many readers.

ST. LOUIS, April 26.—Geo. O. Atherton, teller of the Southern Bank of St. Louis, was arrested yesterday on a charge of embezzling the funds of that institution to the amount of $53,000. The bank is amply secured, for in addition to the official bond of the teller, amounting to $20,000, property of his to to the amount of $70,000 has been secured.

Atherton is a man of family, and was formerly bookkeeper in the Bank of Missouri, from which institution he abstracted $20,000.

☞ The Bishop of London preached in a carriage shed to the Omnibus men, on the first Sunday evening in April, from John 6; 14.

☞ Beecher says there are many persons who think Sunday is a sponge with which to wipe out the sins of the week.

T. B. Aldrich will pronounce the poem before the Literary Societies of the University of Vermont, at their anniversary on the first Tuesday of August next.

A fellow, that blames the Devil for all his own misdeeds, shows a deplorable lack of filial regard.

☞ Mrs. Partington calls a meerschaum "a calumny of peace."

Those who go to law for damages are pretty sure to get them.

A man had better need alms than be too mean to bestow them.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

THE GROVER & BAKER
SEWING MACHINE CO.,
NO. 18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their
Celebrated Family Machines,
with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE.
PRICE $50!
Machines from $50 to $125.
HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Morning Chronicle.

EVERYBODY HAS HIS PRICE.

A man who for a series of years was lobby-member of Congress, familiar with party mechanism and party corruption, once said: "'Every man has his price.' Some men can be bought for one dollar, some value themselves at ten dollars, and others think themselves worth one hundred. Some men are led by a glass of grog; others sell themselves only for a thousand pieces of glittering coins. A song or a smile entangle the the feet of many; others can be lured only by the coarse music of fame's brass trumpet. Rank corruption attracts some; while for others this must be covered by a semblance of flowers. Some seize the naked hook, but for others it must be cunningly baited."

The editor of Life Illustrated remarks on the above:—"Every man has his price! Did one ever sit down and deliberately consider what his price was? Yes, many. We have in mind two examples from the past. One of these, on being told the crime he would commit when raised to power, indignantly asked—'Is thy servant a dog, to do this thing?' The other asserted with the utmost assurance—'Though I should die with thee, yet will I *not* deny thee.' They stood proudly on their conscious strength. All others might act basely; they never could. In judging others, how often we condemn ourselves! The weak points of men are found just where they think themselves the strongest. It is because they think themselves impregnable here that these points are unfortified, and no sentinel is placed on guard. The foe enters, unchallenged, and so surprises the citadel that it is an easy prey.

"Every man may have his price; and among mere politicians, that price may be expressed in dollars by round numbers, or by decimals. But there are men whom the accumulated gold of the Rothschilds could not buy. These are the men of integrity, with the stamp of God on their souls. You never doubted them. You can not doubt them. You would as soon expect the pillars of the universe to crumble, as to think they could fail in their trust. They would stand erect through the ages. They stand, because their position is maintained in conscious reliance on Him who is the foundation of stability.

"There is enough of brittleness in man, anybody knows. A large infusion of the satanic ferments the elements of society.—But man is not utterly corrupt; nor society wholly putrid. There are men, yet, walking the earth in the likeness of God, whose feet cannot be turned from righteousness.—The earth cannot pay their price. These are the models for youth. Place them before the eyes of children—picture them to their hearts; after this pattern fashion their life, and your work will be imperishable."

A letter in the N. Y. Times, giving the incidents of the Paraguay expedition, describes Gen. Urquiza as now 56 years old. His profile is much like that of Mr. Webster. He has the same dark meteoric eye, and the forehead, though less massive, does not lessen the resemblance. His *estancia* at St. Jose embraces 270 square miles. He has 300,000 head of cattle, 60,000 horses, 90,000 merino sheep, and 200,000 mixed breeds. He sold last year 66,000 hides of his own produce; as for his clip of wool the writer could form no estimate. He is interested in every useful and profitable enterprise in the confederation, and mentioned that in the town of Rosario alone he had $250,000 engaged in special partnerships. He gives a lift to the industrious and the aspiring, and reaches out his hand to save the honest but unfortunate. Thus there was a company who ran a line of American stages in the Confederation which ramified to its remotest towns, such as Tucuman and Salta. The crisis caught them, as stages should be, extended over the Pampas—"What will carry you through?" "Not less than one hundred thousand dollars." "Call to-morrow." They did so, and got the money.

CRIME IN PARIS.—From 1826 to 1855, crime increased in Paris with frightful rapidity, reaching its culminating point in 1855, when the proportion of crime was one to every 1,704 inhabitants. Since that time it has diminished, the proportion now being one to 2,454 citizens. The causes of this decrease are not, however, of a moral nature, but attributable mainly to the reorganization of the police, and the increase of their numbers, so that on every corner may be found one or more policemen. Another cause is the banishment of convicts whose term has expired, and the adoption of the system of transportation. Large numbers are sent to Cayenne, the French penal colony, from which the majority never return. Those who are not transported for life, soon die under harsh treatment and a terrible climate.

In beginning the world, if you don't wish to get chafed at every turn, fold up your pride carefully, put it under lock and key, and only let it out on grand occasions. Pride is a garment, all stiff brocade outside, all grating sackcloth on the side next to the skin. Even kings do not wear the dalmaticum except at a coronation.—*Bulwer.*

THE GREAT WONDER
Of The Nineteenth Century
PROFESSOR WOOD'S
HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished—I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of my name, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents nightmare.

Only one dose taken at night, loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Colic.

One dose cures Chronic Diarrhœa in its worst form, while Summer and Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by expelling the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Beware that in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS.

There pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 dly

☞ Of the story to be written by Dickens for the New York Ledger, the Express says:—"Bonner will advertise—perhaps—in the London Times, and the circulation of the Ledger will run up to two millions. Who can doubt it? A family journal which is able to give, every week, contributions fresh from the pens of such choice writers as Dickens, Prentice, Morris, Saxe, Mrs. Southworth, Mrs. Sigourney, Mrs. Anna Cora Ritchie, and the illustrious Everett, to say nothing of Bennett the poet, Greeley the philosopher, and Raymond the traveller, ought to have a circulation as unlimited and wide-spread as the fame of its contributors."

☞ In Rochester, N. Y., on Thursday morning, Mr. Chas. Wilson, a well-known music teacher, fell in a fit, while in the Democrat office for the purpose of procuring and mailing papers containing a notice of the death of his mother. He was taken to his home and died the same day. His mother was buried the same afternoon.—One of Mr. Wilson's daughters who has been sick for a long time was so shocked by her father's sudden illness and death, that she fell into a state of insensibility, from which it was feared she would not rally. Altogether it was a sad catalogue of suffering and death for a single day, in one household.

DEATH OF AN INVALID IN SIGHT OF HOME.—William H. Pike, only son of W. H. Pike, Esq., of Calais, Me., died on board the steamer "Queen," on her trip from Eastport to Calais, on Tuesday afternoon last. Mr. Pike was an invalid from consumption, and on his way home from the Sandwich Islands, where he had been for the last year or two to recover his health. His death took place almost within sight of his home, where anxious relatives and friends awaited his arrival.

SNOW ON THE ERIE RAILROAD.—The New York Commercial Advertiser says that the express train on the Erie Railroad from Elmira, on Saturday night, was three hours behind time, owing to heavy snow drifts in the neighborhood of Elmira and Hornellsville; indeed, through Chatauque county, the snow lay upward of two feet deep with very heavy drifts. Near Port Eddy, the engine and baggage car ran off the track, by which a fireman, named Bell, was killed.

☞ Mr. Robert Kennicut left Chicago last week on a journey overland to the North Pole. He is an ardent naturalist, and his object is the pursuit of his favorite science. His route is first to Fort Garey, on the Red river of the North, and thence he will make his journey with the agents of the Hudson's Bay Company. He expects to return in 1861.

☞ Papers all round have published an item about Dr. Chapin's church in New York owing Mr. Astor $90,000, and offering to pay, but he declined. It turns out now, that the property was not purchased of Mr. Astor, but of the Unitarian Society, of which Dr. Bellows is pastor. The debt is only $36,000; and the property will not be sold for $130,000, which has been offered for it.

☞ The Taunton Gazette publishes a letter received from a settler's wife at New Haven, Minnesota, which reports a very discouraging state of affairs out West.—Clothing, food and employment were scarce; the last year's poor crops made a great many destitute; the spring is backward and nearly all are leaving who can get away.

☞ An insane man in New York went into a barber's shop, intent upon putting an end to his life; he sat down in front of a mirror, had his face lathered, and while the barber was stropping the razor, drew a pistol, and exclaimed, "I am not fit to live," and firing at his own image, shattered the glass to atoms.

THE POPULATION OF OREGON.—The census of Oregon, says the Oregon Statesman, in the main pretty fully taken during the past years, the pollists and the vote cast at our elections do not permit the belief that there are to exceed 45,000 or 47,000 white inhabitants in Oregon.

A dispatch from Washington to the New York Courier says that numbers of Douglas politicians are there, arranging, it is believed, a compromise for the Union of the Democracy on the basis of non-intervention.

Indian Physician.
Dr. B. S. GOODWIN
Would respectfully inform the friends of the Indian Practice of Medicine and the public general ly, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fever, Ague, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Contaminations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters! Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence: our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has gained a Materia envisible and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their liberal patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

SCIENTIFIC AND MECHANICAL.

STRAW AS MATERIAL FOR PAPER MAKING.

From long and careful experience, it has been found that white paper cannot profitably be manufactured from straw or analagous material by any of the processes now in use. The process, as ordinarily pursued is a simple one. The heads, grain, and all knots and joints, must be removed by chopping and winnowing—a process involving considerable expense, and much loss in weight. The silica investing the straw, together with much gum and coloring matter, must then be removed by the action of a caustic alkali. The alkali affects the separation of these substances by uniting with them and forming soluble silicate of soda, or potash and soluble soaps. It is claimed that a large part of the alkali so expended may be recovered by evaporating the residuary liquors, and calcining the deposited matters. Theoretically, this can be done; practically, with economy, it cannot. In these operations, and in bleaching, the straw suffers a depreciation in weight of at least sixty per cent., and is then inferior to the rag stock. It is an admitted fact, that mechanical improvements in the manufacture of paper have now arrived nearly at a state of perfection. Improvement, therefore, is not sought in this direction, but in discovering some method of bleaching and working the numerous plants which have proved suitable for the manufacture, but which are too expensive to supersede the use of rags. There are thousands of tons of plants, suitable for the production of paper, but which require expensive processes in bleaching and mashing, for conversion into pulp.

PROPELLING STEAM VESSELS BY SCREW BLADES.

The principle of propelling steam vessels by the instrumentality of screw blades was only fairly brought into commercial notice about twenty years ago, and such has been the earnest attention bestowed on this favorite mode of propulsion by the eminent engineers of America and Europe, that a superiority has been claimed for it over every other known mode, both for economy and efficiency. The screw was first applied as an auxiliary to sails, and chiefly valued for the value it afforded to the powers of the ship in light weather or head winds.—But it was soon discovered to be a specific mode of propulsion, and as such capable of standing upon its own bottom, to the discarding of sail entirely, except a spencer and stay-sail on the foremast as on the lakes, or a light sail of fore-and-aft canvas as on the Atlantic.

A class of steam vessels, technically known as propellers, is now to be found in most of the navigable waters of commercial countries; and for the coasting trade, where intermediate ports are to be touched in the course of the voyage, this class of vessels has no superior among commercial fleets. Various have been the experiments, not only to ascertain the diameter, number, form, pitch, and area of the screw blades, but the question of direct action, or by gearing, regular or irregular, screw, &c., together with the resistant area of the vessel, and numerous other problems, have been made, again and again, at much cost and perseverance; but so far from determining anything tangible,—judging from the conflicting practice of propeller builders in different parts of the country, in some of the finest examples of their mechanism—the science of screw propulsion must be regarded as far from perfect, at present; and it will be found that it is only by a series of patient and well-conducted experiments, extending to every known form of vessel, screw, and mode of application, disruption of engine, depth of water, &c., that the most suitable adjustment of the various elements of screw-propellers can be determined.

CAN'T SMOKE.—The City Council of Salem have by an ordinance forbidden the smoking of cigars in their streets, in the evening. A man was arrested on Saturday evening, and was obliged to remain over Sunday in the lock-up. On Monday he was fined $3 and costs, and his friend, who had attempted to prevent the officer from arresting him, was fined $5 and costs.

CHANGES OF PURSUITS.—Everybody is apt to imagine somebody else's occupation easier than his own—to think his neighbor's "lot" luckier than his—to be tempted to rob him of it, perhaps, by supplantation. The spirit of discontent is very unfortunate. It is worse. It is wicked as well as weak.—Indeed, it might be truthfully predicted that the indulgers of such wishes would fail, utterly, in the new sphere, could they get their wishes.

☞ The New Orleans Crescent suggests that a new harbor will have to be formed on the Gulf of Mexico, that large ships may avoid the difficulties of the Mississippi bars. If the river cannot be deepened, this will be unavoidable, and a new city will have birth on the sea coast; for it will take but a short time with the increase of population in the valley of the Mississippi, and especially with the increased demand for cotton, to have the commerce at New Orleans double what it is to-day. The cotton crop of the country has now reached four million bales, but before long four million bales will be shipped at New Orleans alone. Then no one can foresee how extensive will be the shipments of breadstuffs and provisions abroad and coastwise; but since the Mississippi is the natural outlet of a country whose future productions are beyond present calculation, the commerce of the country cannot be obstructed by bars detaining ships two or three months.

CHARGES AGAINST A NAVAL OFFICER. A letter dated U. S. steamship Merrimac, Panama Bay, published in the N. Y. Evening Post, states that Commander Thornburn, of the sloop-of-war St. Mary's, has been reported by one of his lieutenants for drunkenness and unofficerlike conduct.—Commander Thornburn is one of the *retired* officers who a short time since were restored to the *active list* by the President. There are not senior officers enough in the squadron to constitute a court-martial, and a court of inquiry will be ordered by the Flag Officer, to investigate the report. If the report is sustained by the evidence, Commander Thornburn will be sent to the United States, and await the further action of the Navy Department.

☞ A writer in the Congregational Journal, Concord, N. H., notices Rufus Choate's south side view of the pulpit, in which he rejoices in a minister who never sends the hearer's thoughts back over his week's work, so as to disturb his conscience or ruffle his feathers. The writer in the Journal holds up Mr. Choate's fine speech to deserved ridicule. A flatter piece of theology, or a weaker moral essay, has hardly ever fallen under our observation.

ASSAULT ON A STATE PRISON OFFICIAL.—On Monday forenoon, a negro convict in the State prison at Auburn, N. Y., attacked a contractor in one of the shops, and wounded him and a keeper who joined in, very severely before he was secured. The other prisoners stood passive during the attack, and would not render the least assistance to the prostrated officers.

☞ Perley, of the Boston Journal, in taking leave of Washington, and of the Sickles sham trial, speaks of an "article effectually disproving the ingenious attempts of Mr. Sickle's counsel to show that a 'Derringer pistol' found on the bloody scene was used by Mr. Key. Had the prosecution desired to ascertain the author, I suppose they could have done so, and elicited important testimony, showing that the 'Derringer' pistol was a part of Mr. Sickle's magazine of weapons, and was used by him. But there was no great wish to have any facts produced calculated to injure the prisoner's prospects of acquittal, or to in any way cast a blot on the fair escutcheon of his reputation, as portrayed by his friends. *The end is not yet.*

CONVICTED OF FORGERY.—Ex-Judge Vondasmith, of Lancaster, was convicted in the U. S. District Court, on Thursday, the 18th, on two indictments, for forging fraudulent pension claims. Four other indictments were barred by the Statute of Limitations.

FANATICS OF THE LOWER LAW.—The Baltimore Patriot, referring to the acquittal by a Charleston jury of the Echo sailors, makes a comparison between this case and that of Anthony Burns, where a hateful law was executed. The Patriot says:

"It is mortifying to every right-minded man in the Southern States to note the difference between the conduct of these two cases in Charleston and in Boston. For the sake of our own consistency, let us hear no more abuse of a Northern State for the vagaries of some of its citizens. Let us have no more denunciations of 'higher law fanatics' by those who may hereafter be, not without some show of cause, called fanatics of the lower law."

☞ John Wentworth, the editor of the Chicago Democrat, has had his portrait taken; and having procured a wood cut of it, he has put it in his paper, and it seems to be his intention to keep it standing. Democratic prints think it ill-looking.

☞ Mr. Jacob B. Brown, son of the late Dr. Thomas Brown of Manchester, N. H., was killed by the falling of an embankment, on the 29th of March, at Nevada, Cal.

☞ Two coal boats on the Mississippi were recently swept into a crevesse, and 30 men drowned.

☞ Parisians have been greatly astonished at the recent death of Alexander Dumas's wife. The lady was quite unknown.

N. B.—Mr. BONNER has the pleasure of announcing that CHARLES DICKENS, who is universally conceded to be the most popular author living, has been engaged to write a Tale expressly for the columns of the LEDGER, and that he is now at work upon it. Advance sheets of Mr. Dicken's stories have, at different times, been obtained by American publishers; but this is the first time that a tale has been written expressly and solely for an American periodical by such an eminent European author as Mr. Dickens; and yet Mr. Bonner would not have the public suppose that he thinks there is anything very remarkable about this engagement: it is only part and parcel of his policy.

Terms of the Ledger, by mail, $2 a year; two copies, $3.

Sagamore House,
ON FROST'S POINT, RYE, N. H.,
At the entrance of Little Harbor, 8½ miles by land, 3 miles by water, from Portsmouth. The House commands a view of Portsmouth, New Castle, Kittery, the Navy Yard, Forts Constitution and M'Cleary, Portsmouth Harbor and the Isles of Shoals. The House is nearly new, and commodious, and has been occupied as a Summer Hotel. The out-buildings consist of a barn, corn house and bowling alley, all in good repair. The grounds contain **Six Acres,** bordering Little Harbor and the sea, and are well stocked with Fruit Trees. The facilities for sailing, fishing and bathing are unequalled, rendering it a desirable place for a private residence, a private boarding house, or a public house.
FOR SALE.
The balance of the Sagamore Farm, adjoining the above, containing
Forty-three Acres of Land,
of excellent quality, suitably divided into mowing, tillage, and pasturage, with a fine lot of Fruit Trees on the same, and will be sold as a whole or in lots, as purchasers may desire,—all on liberal terms.

SEWING MACHINES.
The Grover & Baker are always preferred, when coming in competition with any other machines.
PORTSMOUTH, April 12, 1859.
We have seen one of Grover & Baker's $100 Sewing Machines used to do the sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never know a Grover & Baker to be discarded or found wanting.
FRANK W. MILLER.
PORTSMOUTH, April 12, 1859.
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

TYPHOID FEVER.—Every one who knows anything of this fever, knows that the period of convalescence is extremely long, if indeed the health be ever perfectly re-established.—In such cases, the PERUVIAN SYRUP supplies a want long felt by the profession, and has restored invalids to health in a remarkably rapid manner, when all the usual tonic remedies had failed.

R. R. R.
POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the **R. R. R.** Remedies prompt, quick and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.
For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.
R. R. R. Office, 162 Fulton street, New York.
N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Health and Strength secured by the use of
THE SPRING AND SUMMER MEDICINE,
Dr. Langley's Root & Herb Bitters.
Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and a torpid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.
More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.
Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

A Musical Convention
WILL BE HOLDEN IN
MERCANTILE HALL, Portsmouth,
Commencing Tuesday morning, May 10th, and continue during Tuesday, Wednesday, Thursday & Friday, Day and Evening.
The Convention will be conducted by Prof. W. WILLIAMS of Boston, author of the "Gloria," "Singer's Manual," "Song Wreath," and other popular music works.
The Exercises will consist of the practice of Church Music, Anthems, Solos, Glees and Choruses, with instructions for the development and improvement of the voice.
Members of Choirs, and Singers generally, are invited to join these exercises, FREE OF CHARGE. The "Singer's Manual" will be furnished the members of the Convention for use.
Players are invited to bring their Instruments and form an orchestra.

SINGING SCHOOL.
In connection with the above, a class for beginners—Adults—will be formed, to which will be explained the principles of Music, by a system enabling all to become ready readers and singers. Terms **50 cents,** and a scholar.
Also, a class similar to the above, for Juveniles. Terms, including a book, (the Song Wreath) 63 cents.

A PRELIMINARY MEETING
will be held
On MONDAY Evening, May 9th,
AT THE TEMPLE,
free to all, at which full particulars with regard to the Convention Exercises, &c., will be given, and also an explanation of Prof. W.'s system of teaching.
Parents, Teachers, with those desirous of obtaining a knowledge of music, both old and young, and all interested in the subject of music, are invited to be present.

Concerts.
A CONCERT OF SECULAR MUSIC,
Consisting of Songs, Glees, &c., by the Convention, will be given

☞ Burleigh, the New York gossip correspondent of the Boston Journal gives this view of the great gathering of Odd Fellows:—

On Tuesday the Odd Fellows took the city by storm. Literally they filed through the streets by thousands, from the boy of seven to the old man of seventy. The procession was immense and imposing. Nothing like it was ever seen in New York before. Banners, devices, and ensigns, drawn by horses or carried by men, regalia of the most varied, elegant and costly hue, and device and material, with men from all parts of the land. They filled Broadway for a full hour, and drove everything off of it.—They crowd the Battery. Chapin's Church was run over full as soon as the doors were opened, and crowds could not get near.—Thousands could not get near the platform in Madison Park to hear the oration of the day. I did not count the bands of music, but I think they must have exceeed fifty in number. The officers were a noble looking set of men, and were most elegantly arrayed. Among the crowd of distinguished visitors in carriages, I saw the benign and placid countenance of the honorable Mrs. Partington. She seemed quite absorbed in contemplating the elegant and stately church of Rev. Dr. Adams, that faces the Park, and as the carriage seemed to be directed to the main door of the church, I thought a sign of anxiety rested on the old lady's face lest her horses would be driven into the sacred edifice, but the team turned in the right place, and no damage was done. I did not see Ike.

REV. DR. DANA.—The Presbytery, which has been holding a session during the present week in Newburyport, went in a body, seventeen in all, on Wednesday, to pay their respects to the venerable Dr. Dana, now in the eighty-ninth year of his age. Rev. Thomas Savage of Bedford, N. H., in behalf of his brethren, made a few appropriate remarks to him expressing their feelings of love and veneration. He received them with much joy, and told them he could not let them depart without taking each one by the hand. In turn they went to the bedside of their aged brother, grasped his hand, and listened to the few words he addressed to each. One of those present remarked that it was among the most interesting and affecting scenes of his life thus to meet one whose life has been so full of usefulness and honor, and to lis en to his words, perhaps for the last time, ere he goes to that home where his heart has so long been. Though feeble, we are glad to learn that Dr. Dana enjoys as good health as could be expected at his advanced age.—*Herald.*

THE OBERLIN RESCUE CASE.—The application of Bushnell and others, of the Oberlin rescuers, to the Supreme Court of Ohio, for a release from the custody of the United States Marshal, was refused on Thursday last. The Court expressed no opinion as to the constitutionality of the Fugitive Slave Law.

The friends of John B. Gough in England recently paid his lawyer's bill of £348 in the libel suit with Dr. Lees, and presented to him £100 besides, as a mark of continued confidence and esteem. Mr. Gough declined the £100, and announced his intension to pay from his own pocket the expenses of his antagonist, Dr. Lees, so as to save him from jail.

We find the above item in the Boston Journal, among the "personal." The latter part of it sounds like a tough story. It may be that Mr. Gough has *announced* this, but he will never *do* anything like it.

The Wheeler & Wilson

Medal Family Sewing Machine.
A NEW STYLE MACHINE,
PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—
1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

THE GROVER & BAKER
SEWING MACHINE CO.,
NO. 18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their
Celebrated Family Machines,
with all the recent improvements, have reduced their prices, and offer for sale
A NEW STYLE MACHINE,
PRICE $50:
Machines from $50 to $125.
HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Prof. W. Williams, of Boston, is to hold a Musical Convention in Portsmouth, from May 9th to 14th. All interested are invited.

MAY DAY CELEBRATION.—The ladies of Hampton Falls have arranged for a "May Day breakfast" on Monday next, from eight to nine o'clock A. M. and a Fair in the evening,—for the benefit of the First Baptist Society there.

INSTALLATION.—Rev. James M. Palmer, was installed as pastor of the 1st Congregational Church and Society, Rochester, N. H. Tuesday afternoon last. Sermon by Prof. Shepard, of Bangor. There was a good attendance, notwithstanding the rainy weather.

Is it not time for the democracy of Maine to take as much responsibility as the democracy of South Carolina or Mississippi?—While those States *demand* a recognition of their views of right, shall Maine get down upon her knees in the Charleston Convention, and, not daring even to ask for a favor, say, "not my will but thine be done?"—*Bath Times.*

☞ Senator Seward, last Wednesday, entertained the members of the Methodist Episcopal Conference now in session at Auburn, N. Y. The supper was enlivened by the performances of a band of music. Senator Seward is making arrangements for a six months' voyage to Europe.

During his travels Alexander Dumas says he became the guest of a beautiful princess, an oriental pearl, who asked him for a sonnet, and not a word of which did she understand, and in return gave Dumas a valuable necklace, which he understood perfectly well.

☞ At the Boston National Theatre on Tuesday night, three drunken boys of 14 or 15 years, attempted to get in without tickets. The door-keeper ejected them, and one fell down the steps and was for a time insensible. He took up the door-keeper for an assault,—but he was discharged.

A wag in Detroit has been taking liberties with the reputation of the Pontiac Railroad. He was asked whether he knew of any accidents on that road, and he replied, "Never—but once a middle aged gentleman left Pontiac for Detroit, and died of old age at Birmingham, half way.

☞ The bill which restored corporeal punishment in the government of State Prisons in New York, was killed in the Senate. So, cruel inflictions are still forbidden in the prisons of this State.

A Western paper gives as the last "confidence" dodge, an account of the pretended suicide at a hotel of a well dressed man, who after writing to the lanlord that he has taken poison, receives the consolations of a clergyman, the stomach pump of a doctor, $25 from sympathising friends, and then leaves on the first train to *lie* at the point of death somewhere else.

CLOTHING AT GREAT SACRIFICE.
B. GREEN & CO.,
For want of a place of business, on account of the recent fire, are compelled to close off their remaining stock of CLOTHS, CLOTHING & FURNISHING GOODS, for a short time, at a great sacrifice, at
J. B. ADAMS' AUCTION STORE.
We take great pleasure in announcing to our numerous customers, friends, and the public generally, that it will be greatly to the advantage of the purchaser to call soon, as we cannot and shall not stay here but a short time, under such great expense and sacrificing sales. We intend to wind up business for the present, until our former store is rebuilt. We wish for all those having claims against our firm to present them soon; and those indebted to us, will confer a favor by coming forward and settling with us immediately.—We are to be found at J. THE JAIL AT WASHINGDON. — The Flag of our Union says it is a curious fact that the only prison-house owned by the United States, the jail at Washington, is one of the meanest establishments of the kind in the whole country. The exterior condition of the jail-yard, and of the surroundings, is of the most filthy and unwholesome character. There are upwards of an hundred prisoners confined in this prison; and the accumulated refuse, within and around the walls, is shocking to the senses. When Mr. Sickles was first imprisoned there, he found the stench from the accumulated deposits to be insupportable; and for his own comfort, and the welfare of the prisoners, he at once caused laborers to be employed, at his own expense, in clearing away the accumulated piles of garbage from the yard, and purifying the quarters within. The prisoners have reason to bless the day he came amongst them. The condition of this miserable place of confinement has at last attracted the attention of Congress; and at the late session, a report was presented by the House Committee on the District of Columbia, which sets forth in strong language the objections to the establishment, as a place of abode for the prisoners.

☞ Senator Albert G. Brown of Mississippi, has written quite a long letter protesting against the inference drawn by Senator Douglas, from some of his speeches, that he had ever indorsed the principle of popular sovereignty. He had only called upon those who *did* indorse it to follow it to its legitimate conclusions. He does not believe that the people of a Territory have any right to exclude Slavery therefrom, and insists that the Federal Government is bound to protect slave owners in the enjoyment of their property against such attempts. He regards this as the true platform for the South. If any party at the North shall take that ground, he thinks the South should join that party. If not, then the South should hold itself entirely aloof, and let the "spoilsmen of the North" fight out their own battles in their own way.

THE ECHO SLAVE CASE.—A short time ago some papers took much pains to acquit the South of any desire to re-open the African slave trade, and referred in proof to the indictments found in Charleston against the crew of the slaver Echo. Since then the cases have gone to trial, and all the accused have been acquitted. The Charleston Mercury gives the following explanation of the action of the jury:

"It is most probable that they may have been satisfied with thinking that it would be not only inconsistent, but cruel and hypocritical, for them, as members of a community where slaves are bought and sold every day, and are as much and as frequently articles of commerce as the sugar and molasses which they produce, to pass condemnation and a verdict of guilty of death upon men whose only crime was that they were going to a far country to bring in more supplies of these articles of trade, these commodities; and in this case not even to trespass upon our soil, but to carry them to a foreign land, to Cuba, and merely throw them into the market of nations.

It is most probable that this was *the inducing ground of the verdict*, and if so, every other case will be the *Echo* to this.—Further prosecution is idle, expensive and vain."

The men who say this, are those who scouted the idea of any law *higher* than a human statute. But they descend to a *lower* law, with remarkable facility.

POTENT WASH.—In England a curious suit was brought by a farmer against a chemist, to recover the value of 700 sheep. The sheep being clipped, were dipped in a chemical solution bought of the defendant. Immediately after they were put out to grass, they were visited by a fearful rain, which did a great deal of damage, and also washed the solution from the backs of the sheep. The poison was washed into the grass, of which the sheep ate, and they nearly all died, together with a donkey and an ox, which also had been grazing in the field. The shepherds also suffered severely from the effects of the poison which got into their hands. The jury found a verdict for the plaintiff—damages £1400.

☞ A fashionable Paris tailoring firm advertise that "they offer, at all times, to the purchaser, new articles of a late pattern, for the reason that all those remaining at the end of the year are exported to America." It would thus appear that Paris tailors send their old clothes to the United States.

☞ Isaac B. Maxwell of Springfield, expressman, while hurrying to the depot in in Chicopee, to take the cars for home, on Friday, suddenly ruptured a blood vessel, and fell in the street and died in a few minutes.

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantee of truth, the Dr. needs no encomiums, nor useless puffery from the press.

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood [Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to try a bottle of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place and a healthy flow of bile, invigorating the stomach, and good to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 ly

One dose often repeated is a sure cure for **Cholera Morbus,** and a preventive of **Cholera.**

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for **Jaundice** removes all yellowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express, or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been imperfectly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with the worthless and fictitious at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS.

These pills are unrivalled in efficacy and superior virtues in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under various and fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

A FAMILY NEWSPAPER,

Containing the news of the week, with carefully selected miscellaneous, &c., to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been imperfectly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with the worthless and fictitious at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS.

These pills are unrivalled in efficacy and superior virtues in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under various and fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

WASHINGTON GOSSIP.

Perley, the well informed Washington correspondent of the Boston Journal, gives the following Washington items, beginning with the Sickles trial:

There is much speculation as to the *sub rosa* testimony, and Attorney General Black enjoys the reputation of having ordered District Attorney Ould not to demand its reception. The book-keeper of Barnum's Hotel at Baltimore would have testified, *on oath*, that during the past winter Sickles has not a lady there,—not his wife,—and remained over night; and others would have shown that Mrs. Sickles really presided over an establishment kept up by a New York companship company, frequented by the lobby and by many disreputable characters.—All this testimony, however,—whatever it may have been,—is ruled out. The "Republican Court" breathes easier.

The friends of Mr. Key are naturally indignant. The evidence which has covered his memory with shame, shows the sensual character of Mrs. Sickles, and if their frailties could be exposed, why shield the husband who should have watched over his wife's honor?

Mr. Sickles has suffered in public estimation here by the attempts of his officious friends to aid him, by defaming Mr. Key and degrading Mrs. Sickles. Ninety-nine gentlemen out of one hundred would have inflicted the same terrible punishment on a man who had abused the confidence of hospitable friendship for base purposes. Divine and human law had been cruelly outraged, and the *lex non scripta* justifies the deadly punishment inflicted. Yet it will be thought that the *concealed testimony* may have shown that Mr. Key was not, perhaps, blamable for anything beyond the weakness of humanity, and that the erring woman, from her antecedents and her surroundings, had not proper ideas of virtue and of vice, and that she sought elsewhere the love which she found given to others by her husband.

——"Even-handed justice
Commends the ingredients of our own poisoned chalice
To our own lips."

The President will of course be delighted to congratulate Mr. Sickles on his acquittal, as he has a strong liking for "Dan," as he familiarly calls him. Mrs. Sickles was "the lady" of his legation at London, and he protested her and her mother to Queen Victoria, who is doubtless virtuously indignant. Mrs. Gen. Thomas, who was to have gone to court on the same day, refused to be presented with Madame Bagioli, and it was for *this* that the General had to *vacate* the position of Assistant Secretary of State when Mr. Buchanan became President. Mrs. Thomas was one of the Lorillards of New York, and was *up to snuff*.

The President's right hand man just now is Robert Tyler, who is aiding in the all important work of *redeeming* Pennsylvania, and is initiating Mr. Buchanan in the secrets of his father's executive policy. If he goes on, there will be the same array of office-holders at Charleston to advocate the re-nomination of James Buchanan, as there was at Baltimore in 1844 to advocate the re-nomination of John Tyler.

The Constitution newspaper of those times was eclipsed soon after the inauguration of President Polk, by the Union, started by Father Ritchie and Major Heiss; and there is every reason to believe, from present appearances, that the Constitution over which Brigadier General Bowman now presides, will be supplanted by the States of Pryor and Heiss. Major Heiss intends to enlarge and improve his paper in a few weeks, and it will doubtless become the organ of the Democratic party.

Were I to send a tithe of the Presidential rumors here, it would be necessary to issue a "supplement" for every letter. The Democrats are terribly divided, but have hopes that some new man can be found who can lead them to victory. Meanwhile they are diminishing patronage and incurring debt in order to cripple the opposition administration, should they be defeated. Gov. Seward, just now, is decidedly foremost in the field, and the most adroit management is being displayed by his working friends.—If all the wires work, and no wheels are trigged, Seward and Blair of Missouri will be nominated, and if they are nominated they will be elected. Of course, many cherished principles must be put *en cachette* to effect this triumph of *Northern sentiment*, but judging from what I see and hear at this political focus, I am inclined—very reluctantly—to arrive at this conclusion.

WASHINGTON LAW.—The Boston Journal says, speaking of the Sickles Trial,—the verdict establishes one point of law, or rather of fact, which is of grave importance, viz: that a man may shoot down and kill the seducer of his wife with impunity. We suspect that this principle of marital law should be received with a little reservation, however. If the murderer should happen to be a *poor man*, or a man who does not move in the *first circles*, a jury might not concede to him such sensitive feelings as would cause temporary insanity on the discovery of his wife's frailty. Husbands will therefore do well to exercise their jury-given power with some caution.

MONDAY, MAY 2, 1859.

GOLD AS AFFECTING PRICES.—M. Michel Chevalier, member of the Institute of France, in his recently published work "On the Probable Fall of Gold," labors to prove that (within a period not very remote, too,) the value of gold, as compared with silver, will depreciate *one-half*, which will manifest itself in the general enhancement of prices throughout the world. This production is in consonance with the principles of political economy as promulgated by Adam Smith, *et id genus omne*, who declare that "a sudden increase in the quantity of money enhances prices."

On this subject, thus stated, the Boston Transcript remarks:—Within the last decade, the annual product of gold has increased four-fold, having risen from forty-six millions of dollars in 1848, to two hundred and fifty millions in 1858. Since the discovery of the California mines, flour has been below five dollars per barrel, coffee below six *cents* per pound, sugar below four, tea below forty, and cotton below eight cents per pound. In fact, within the last forty years, tendency of prices has been gradually downwards. The comparative state of peace throughout the world during the past forty years, the improved state of agriculture, the application of steam to machinery, and the rapid intercommunication between the different countries of the earth, have caused the supply of the products of the earth to outstrip consumption. Hence the gradual downward tendency of prices. A table published in Hunt's Merchants Magazine for January, 1858, abundantly confirms this fact. Coffee and tea have been sold, within a few years, at about the same price as the duty levied upon those articles at the custom house prior to 1833. What would Young America say at paying to Ar Showe & Co. one dollar per pound for Young Hyson, thirty cents for St. Domingo coffee, and twenty cents per lb. for muscovado? He would consider them dear at one third of those rates. Waltham shirtings, which were deemed cheap, forty years ago, at thirty cents per yard, are now considered dear at one-third of the price.

In the fifth century pepper was sold at Rome at two and a half dollars per pound. It is now considered dear at a twentieth of that price. It is only in the matter of house-rents in cities, and the luxuries of the table, such as butter, poultry and articles of limited production and immediate consumption, that an enhancement has taken place. The prices of most articles of food, which are produced in large quantities, such as flour, coffee, tea, sugar, cotton and woolen manufactures, have materially declined within the last forty years, whilst the wages for labor have nearly doubled. Macaulay, in his celebrated third chapter, states that wheat was worth seventy shillings per quarter in Charles the Second's time, while wages were seven shillings per week. Wheat is now worth forty-five shillings per quarter, while wages have risen to fourteen shillings a week. Two centuries ago, the farmers and shopkeepers of England breakfasted upon loaves, the very sight of which would create a riot in a modern workhouse. Neither are prices affected by paper money. The bank note circulation of the United States in 1849 was one hundred and nineteen millions of dollars; it gradually increased until 1852, when it reached the sum of one hundred and seventy-three millions, at which point it remained stationary for five years, when, in September, 1857, it gradually contracted, and reached its lowest point in March, 1858, when it had descended to about one hundred and twenty millions of dollars. It is now at about its former limit of one hundred and seventy millions.

M. Chevalier advises the abandonment of gold as a standard of value in those countries where it has hitherto been conjoined with silver for that purpose. This course will undoubtedly be adopted when the fact of the depreciation of gold is established beyond a question. Upon that occurrence, gold will probably become an article of commerce in the markets of the world, as it now is in Holland and Belgium, where its coinage as money ceased in 1850. Supposing its depreciation to take place to-morrow, we should have, instead of 116 grains of gold for five dollars, 130, 140, 150, &c., &c., according as the depreciation proceeds; and if the prediction should be fully verified, we should ultimately exchange two hundred and thirty-two grains of gold for five dollars, thus converting the present gold eagle into a half eagle. Instead of, as before, one grain of gold being equivalent to fifteen and a half grains of silver, it would require two grains of gold to command that quantity of the other metal. The average price of a barrel of flour, for the last forty years, has been $6.56, equal to one hundred and sixty-four grains of gold. If the depreciation predicted should occur, it would command three hundred and twenty-eight grains of gold. The fallacy of M. Chevalier's reasoning, it appears to us, consists in considering gold as the standard by which to measure the *value of all other articles*. In case of the depreciation of gold, the price of a barrel of flour will remain as before, compared with silver or any other legally recognized standard of value.

Two years have elapsed since M. Chevalier's production was announced. Yet the price of gold is the same as it was one hundred and fifty years ago. As the United States of America is the largest gold producing country upon the globe, we propose to present to our readers, from time to time, some facts and statistics relative to that resplendent metal, which are scattered in various directions, and which the business man would wish to have exhibited in a concentrated manner.

☞ The Collinsville (Conn.) Star gives an account of a case of brutal treatment which has lately occurred in that vicinity. A little girl not quite seven years of age, a daughter of Mr. P. Ryan, of that village, was taken by a family named Whalen, residing some four or five miles from Winsted, to do such light work as she was capable around the house. Without any ostensible reason, the child has undergone a course of such severe treatment as would almost surpass belief. The woman with whom she has lived, has beaten her in such a shocking manner, that it will be a long time—if ever—before she recovers wholly from the effects.

Many recorded cases similar to this, and many more which are unrecorded, show that cruelty is not confined on board ships, or to slave plantations. It cannot be too carefully guarded against.

W. C. BRYANT.—*Messrs. Editors*:—I see in the N. H. Gazette of April 30 the following statement, viz:

"A writer in the Chronicle, commenting upon Bryant's poetical abuse of Thomas Jefferson, excuses it by saying that when Bryant wrote the verses, he was only nine years old."

Messrs. Editors, it is not true that I made this as an *excuse*. I did not say anything about its being excusable or inexcusable. I merely stated the facts, that in 1803 Bryant was 9 years old, and that, as he published poems before he was 10, it was quite likely that he wrote the little pasquinade against Jefferson at that time.

And I then added the following remark, which is surely nothing in the shape of *excuse*, but only an accounting for such a change as comes over thousands of men, in the lapse of 40 or 50 years:

"Is it, however, not a very strange thing that Wm. C. Bryant, the boy of 9 years, should take *one* view of Jefferson—and that Wm. C. Bryant, the man of 65 years, should take *another* view. He took his first view, doubtless, from the federal newspapers—the last, no doubt, from Jefferson's own works."

A. B.

THE DROUTH IN THE TROPICS.—The dry season in the tropics during the present year has been one of unusual severity.—Never before have the rivers been known to be so low, and the effect upon the crops, coming as it does after unusually heavy rains in the wet season, has been in many places disastrous. And it is curious that the drouth has been more severe as you approach the southermost line. In the Island of Porto Rico the tobacco and coffee crops will be very light, while in the Southern States of the neighboring republic of Mexico, the same complaint are made. It remains now to be seen what effect this irregularity of the seasons will have upon the health of these countries.

☞ According to the Washington correspondent of the New York Courier & Enquirer, the "arrangement" in Pennsylvania is understood to be that Gov. Packer is to have the place now so inadequately filled by Mr. Bigler, that Mr. Forney is to have the printing of the next House of Representatives, and that all the Free Soil Democrats are to support the Republican candidate for President.

☞ Douglas stock is not high at the South, if we may judge from the following resolutions passed at a Democratic meeting held at Cahawba, Dallas County, Ala., on the 16th inst.:

Resolved, That we utterly repudiate Stephen A. Douglas and his abolition heresy that a Territorial Legislature may prohibit slavery by native legislation.

Resolved, That under no circumstances will we support Stephen A. Douglas for the Presidency, if nominated by the Charleston Convention.

☞ Statistics show that within the last twenty years thirteen steamships with three thousand persons have been lost.

☞ In Massachusetts all dogs must be registered, licensed and collared, or killed, before the first of May. The Penalty for failing to procure a license is ten dollars.—That's right.

☞ The price of gas in Chicago has been reduced to $2.50 per thousand feet.—Well, "gas" *is* cheap out West.

☞ One of the German papers in New York city heads an article upon the trial of Mr. Sickles with "Barrabas Acquitted."

☞ The city government of Providence have contracted for two steam fire engines.

MARRIED.

In Dover, 24th inst., Mr. John Buzzell of Barrington, to Miss Hannah F. Leighton of D.

In Great Falls, 27th inst., Rev. Darwin Mott, pastor of the F. W. Baptist church in Great Falls, to Mrs. Mary Ann Gerrish, daughter of Wm. Hanson, Esq., of the same place.

DIED.

At Salisbury Point, 25th inst., Azor O. Webster, Esq., aged 64. Mr. W. filled the office of town clerk of Salisbury for a period of 25 years in succession, and a few weeks since was obliged to decline this office on account of ill health. He has also filled the office of President of the Seaving's Institution in Salisbury for eight years past. He was highly esteemed for those sterling qualities of character which make a man respected at home and abroad.

SPECIAL NOTICES.

SEWING MACHINES.

The Grover & Baker are always preferred when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

We have seen one of GROVER & Baker's $100 Sewing Machines used to do the Sewing of our families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair. We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

ALLEN & PAINE.

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

GALLERY, No. 33 Congress Street,

consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.

A. GREGORY.

N. B.—I do not charge any more for good Pictures, than is paid every day for **poor** things.

WEAKNESS OF THE KIDNEYS.—In the affection of the kidneys, called "Bright's Disease," the general prostration and lumbar weakness generally resist all medical treatment, and the patient sinks slowly, but surely into the grave. If disorganization has not proceeded too far, the PERUVIAN SYRUP will arrest the granular disease, and restore the patient to comfortable if not to perfect health.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumnos.

R. R. R.

POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become inoculated with any malignant disorder, will find the **R. R. R.** Remedies prompt, quick and efficacious. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that R.R.R. PERUVIAN RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every morning before breakfast take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, No. 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Chronic Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Health and Strength secured by the use of

THE SPRING AND SUMMER MEDICINE,

Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as not to offend the nicest, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, eliminating them into healthy action, renovating the foul blood, purifying the blood, cleansing it from all humors, and causing it to course on now through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and a torpid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 3,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from other Gins, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER is IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. K. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. MR. BREWSTER'S "RAMBLES ABOUT PORTSMOUTH, in the form of a well printed volume of 376 octavo pages, is now before the public. Mr. Adams brought out his Annals in 1825, containing many important and interesting facts, but arranged only in the order of their dates. This tended to fix many facts, where the knowledge of them could not be lost—and their publication brought out many more.

Of all this Mr. Brewster has availed himself, and has besides, corrected many errors. Moreover, by publishing his Rambles in the Journal, he has invited corrections on his own work, and by conversations with old people, by the recovery of numerous old documents, and other means, he has accumulated a great mass of facts, which he now gives to the Portsmouth public, and to her sons abroad, in a very readable and attractive form, with appropriate table of contents and index of names.

The book is a noble contribution to our domestic history, and that of the State.—The writing, printing and publishing of a book like this, are a great work to be accomplished in one household, and wearily by one man.

☞ The South Berwick Cornet Band, 16 pieces, have recently procured new and splendid German silver instruments, similar to those of the Portsmouth Band; and we notice by a card in the Great Falls Advertiser, that the ladies of South Berwick have contributed $100, raised by Fair means, to help them. Good.

But who is going to raise a purse of $200 to pay for a series of out-door concerts from "our" Band, this season? The Band is ready and willing to give them, and the money is ready we doubt not—now who will take the trouble to bring the two things together, and let us have the music—say once a week, beginning June 1st, in different parts of the town? If nobody else offers, we will take charge of all subscriptions for this object, from $1 to $10: and shall see that papers for names (and the cash) are circulated in due season.

☞ This morning is the commencement of the spring arrangement on the Concord and Portsmouth Railroad. Trains leave this city at 10.50 A. M. and 4.20 P. M.—Leave Concord at 7 A. M. and 3.30 P. M.

SALE OF BANK STOCK.—The following shares of bank stock were recently sold at an administrator's auction sale in this vicinity, viz:

6 " Somersworth " $103.

FROM CANADA.—*Quebec, April 20.*—The barque Emigrant arrived at this port, to-day, being the first vessel from Europe since the resumption of navigation, this season. The ship Pride of Canada, from Liverpool passed River du Loupe, yesterday. The Canadian steamship Co. have decided to run their steamers from Liverpool every Wednesday; the Father Point telegraph station promises to be one of the most important depots for European news, the steamers of that line generally bringing four and frequently five days later news.—The new line is expected to be completed within a month, a special steamer with men and materials having left this city for the scene of action.

SENTENCE FOR ROASTING A MAN TO DEATH.—At the Liverpool Assizes, on the first of April, Mitchell, the second engineer of the Bogota steamer, was tried for the murder of Landor, a fireman of that vessel. The deceased had, as will be recollected, been tied by the prisoner to a ladder in the stokehole, opposite the furnace, and the heat produced such an effect upon him as to render him insensible, from which state he never recovered. Buchanan, the chief engineer, who ordered Mitchell to tie the deceased in that position, has fled from justice. The prisoner was found guilty of manslaughter, and sentenced to fifteen years penal servitude.—*Traveller.*

FROM LIBERIA.—The Liberian brig E. N. Roge, Capt. Alexander, from Monrovia March 15, has arrived at New York.—She is the first vessel belonging to Liberian merchants that has arrived at that port.—Everything was going on favorably at Monrovia. The Liberian Herald which had been suspended for many months, had been resumed. The corner stone of Trinity Church was laid in the city of Monrovia on the 26th of February. Among the public acts passed by the Legislature is one prohibiting the enlistment of native African emigrants. Dr. John Z. Forney, American commercial agent for Liberia, died at Monrovia on the 9th of February. Chief Justice Day died at Mourovir on the 15th of February, in the 62d year of his age.

☞ Some idea of the extent of the flood in the Mississippi River may be obtained from the fact, as stated in the Vicksburg (Miss.) Whig, that the distance from the levee at that place to the opposite shore of the overflowed banks is *fifty miles.* The valley of the Mississippi is now a great inland sea.

Coal has been found in Ione and Buckeye valleys, ElDorado county, California, the bed being from twelve to fifteen feet in thickness.

☞ At a banquet given recently at Vienna, Count Buol gave a toast that "God might preserve the army." Baron Bruck, the Finance Minister, replied that he fervently hoped this prayer would be heard, as the Austrian exchequer could not do it much longer.

☞ The bar-keeper of the California ferry boat Contra Costa was literally blow to pieces at the late explosion. His hand, with a ring on the finger, and his satin vest, are the only traces of him that have been discovered. He was a Pennsylvanian, named Smith.

☞ The London Police includes a force of 6139 men, and the total expense of the department, last year, was nearly two million and a half of dollars—about a dollar for each inhabitant.

☞ The Order of Odd Fellows now numbers about 200,000 members in the United States, and paid out, last year, $350,000 for the relief of the sick, and $12,000 for the education of orphans.

☞ Mr. Harvey Clement, of Rollinsford, while at work in his field a few days since, discovered a large white-headed eagle, and shot him on the wing.

☞ Two rogues—names unknown—were arrested in Dover last week, for stealing from the store of D. Lothrop & Sons.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL out, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

THE GROVER & BAKER
SEWING MACHINE CO.,
NO. 18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their
Celebrated Family Machines,
with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE.
PRICE $50:
Machines from $50 to $125.
HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Brontecloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

From the N. H. Gazette.

The Ordeal of Office.

Under this head, The Democratic Age, a monthly political magazine, edited by C. Edwards Lester, has an article, a portion of which is evidently applicable to somebody, and will undoubtedly give certain individuals much pleasure to read, and from which they may, if they choose, profit considerably. A question comes up, says the Age, and it is an unpleasant one, to ask why it is that because a man is clothed in a little brief authority, he should play such fantastic tricks before high heaven as make his friends weep, and his enemies pity him!

* * * * * * * * * *

To have a man placed in authority where he tells one man one thing, and another man another about the same thing—who does not dare to do any thing for fear he will do it right, or that he will do it wrong—who does not do any thing for fear it will not be right—a man who has not made up his mind, who cannot exactly tell, who does not wish to commit himself, who wishes to be safe and prudent—a man who goes on writing his letters without showing a gleam of satisfaction when a friend comes in, but who has the same cold, bloodless, nerveless, imbecile face to friend and foe—who has no aspiration to be considered a friend to those that have loved him, and no heroism to dare the enmity of a man he despises—a man who trembles—a man who trembles in his shoes for fear he shall be called to an account for doing what he was put there to do—a man, in a single word, who disappoints every friend, and before he has been in power long is left with none so poor as to do him reverence, becoming a mortification to those who once had pride in him, and an object of pity to those who despised him from the beginning—such a man, to be pointed at from all quarters as an object of commiseration, hatred, and contempt, offers one of the most humiliating spectacles that human nature is ever called upon to contemplate!

It is the duty of the Democratic Party to come forward, and relieve itself from the odium of these vipers that have crawled around the seats of power in this country, merely to warm themselves up under the shadow of executive and administrative favor. There is one test which, when applied to a man that gets into power, is the surest test in the world: has he forgotten his old friends on the ground that it was easier to trust their loyalty by doing nothing for them, than it was to go without the favor of new men whose services could be bought with money? The Democratic Party professes still to hold to the highest principles of loyalty between man and man, as it has always held in its history until we fell upon these evil times:—and the Democratic Party, with what experience they have had lately, should learn that they must go back and lift up once more the fallen standards of honor and truth and heroism, which have been trailed now for some time in the dust.

We are not writing for men but for principles. We are not writing against individuals, for the Democratic Age was set up for something better than that. We do not want Presidents about whose public course there will be alarm or solicitude. We want men who mark out a clear course for themselves and their administration; and we want, above all things, hereafter to put a man into power who has proved himself beforehand to be a true man that will not lie, that will not deceive his friends, that will not give any comfort to his enemies. We want plain, straightforward, honest dealing, and this, heaven knows, we have had little enough of for some time.

Without this radical change, without we come to the rescue, and do it in the next moment of trial, the Democratic Party will be dissolved, and the first demagogue who rises may be borne by the waves of sectionalism into supreme power. We want backbone, honesty, fearlessness, consistency, loyalty, truth, and we have had neither any where. The time has come when it is believed that executive interference with all the appliances of office and money, can sway an election. It is supposed that if there happened to be five hundred or a thousand offices in a State in the gift of the Administration, that those men can be wheeled into line and melted into columns to break down the power of a bold, brave, and upright man. It has been supposed that imbeciles could be kept in high places of authority without casting infamy and contempt upon the power that placed them there.

But the recent elections have made it quite evident that this thing cannot be done. It will not do in a republic so full of light as this, a republic in which there are so many millions of true men, to play that game. The men that we place in power are responsible to us, and we will bring them to trial. The day has gone by when it is in the power of any President to hope either to keep his office, or maintain the respect of the people, unless he displays all those high qualities the lack of which we have so recently to lament. A man must not think because he goes into power in the United States that he can break any pledges he made to get there. He will be called to an account for his doings, and it is out of his power to defer the day of trial. One man is not mighty enough to control this government. Our Presidents must go back to the time of Washington, who never scorned advice, who always sought it, who recognized himself under all circumstances as only the expression of the voice of his countrymen—who never attempted to defy public opinion—who, when he was clothed almost with the powers of a dictator, was sending letters, messages, and messengers every hour, and every day to the highest sources of information, to gather wisdom and concentrate light, and to feel that in coming forward he carried the whole moral force of his countrymen with him. But now, and in our times, we witness the spectacle of men who can defy public opinion and attempt to ride over the people, until the refluent wave of justly excited indignation sweeps by, and takes them on its side to oblivion.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; in it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty has preferred it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to question the best portion of my hair. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

EDGAR JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman, of great influence and universally beloved.

WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching, with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 25 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

HEAD'S, 1½ Market Street.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public. These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, relieves the bowels gently, and cures **costiveness.**

One dose in the morning, each meal will cure **dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose cures **Cholera Morbus,** and a preventive of **Cholera.**

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for **Jaundice** removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all **Fevers of a Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix a teaspoonfull with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year or the practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from his place by the cunning ones, to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

The medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REGULATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under various or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the effect of genuine medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 d1y

☞ A Kansas correspondent of the New York Evening Post gives a graphic description of John Pettit of Indiana, the newly appointed Judge for that Territory:

"Judge Pettit's appearance is singularly judicial. His height is medium, but his proportions are immense; so large, in fact, that he is obliged to pull off his chair whenever he rises from his seat. His smoothly shaven countenance wears a smile of gracious deference. A well defined river of baldness flows from the crown, between two accurate shores of hair, and discharges itself into the broad bay of his face. Gold spectacles, raiment of the glossiest and most elegant black, and linen of the exactest outline, complete a *tout ensemble* well calculated to excite awe in the ignorant and admiration in the intelligent.

I wondered why Old Bullion called him on the floor of Congress 'D. D.,' or 'Dirty Dog?' There must have been a most marvelous change, for now, surely, if dog at all, he is a most smug, smooth and cleanly dog. Apparently, his only objectionable habit is the eating of immense quantities of tobacco, which is an epidemic among Kansas officials. 'John Pettit, Dirty Dog?—but my wonder was of short duration. His private conversation is a pudding of oaths and obscenity. No matter how slight or recent the acquaintance, of what sentiment or calling, he belches out an unbroken torrent of blasphemy and filth, never yielding the customary tribute of reserve to the conceded rights or presumed prejudices of total strangers."

NOMINAL FRIENDS.—The Bath Times gives this first rate notice of passing events.

We may greatly err in the estimation of many of our friends, but we do say, and we can maintain the assertion, that never since the days of Jefferson has democracy been so severely wounded in the house of its nominal friends, as since the advent of the present administration. We do not attempt to decide upon whom the blame should rest; to charge the responsibility upon any particular man or set of men, but we insist upon it that fearful advances have been made in the direction of subverting the will of the people, in attempts to *centralize* the government and to convert our common democracy into a mere specious form of *federalism*.

ANTIOCH COLLEGE, with the land and buildings, cost about $139,000. The institution was greatly embarrassed by the financial errors of its early managers, and the recent auction sale will settle all the troubles from that source. Its friends were prepared to give $80,000 for the property, but they obtained it for one-half that amount. The College will be a liberal Christian institution, and it is proposed, we learn, to place it in the hands of twenty trustees, twelve to be selected from the "Christian" denomination and eight from the Unitarians. Mr. Francis A. Palmer has taken a noble and disinterested part in the settlement of the finances of the institution, having paid about $20,000 to that end. Massachusetts subscribed $24,000 for Antioch, of which amount nearly $20,000 was obtained in and near Boston. Three of our citizens subscribed one thousand dollars each, viz.: Josiah Quincy, senior, Jonathan Phillips and Albert Fearing. Under its new auspices, and with the experience of Horace Mann, its President, it is confidently predicted this institution will now enjoy a season of prosperity, and be of great service to learning and liberal thought in the West—*Boston Transcript.*

INDIA—THE BOMBAY PRESIDENCY.—Letters from Bombay state that the war is almost a dead letter. For nearly a month there had not been a single engagement and the rebels were reduced to small bands of robbers, who were gradually being exterminated. The effects of this had been to stimulate trade. Roads had been opened, accumulated stocks of produce released, bullocks and carts which had been monopolized by government for transport of stores, &c., set free, and an impetus given to the business of Bombay really wonderful.

It is estimated that the linseed crop of Bombay, will fully equal this year that of Calcutta. Other oil seeds, such as rape, mustard, poppy, gingelly and teel are in great supply, and the cotton crop is roughly calculated at from seven hundred thousand to one million bales—more than double that of any former year.

It is really astonishing to see the vast amount of Produce daily pouring in.—Bombay will have, ere ten years have passed, the largest trade of any port east of Cape Good Hope.—*Traveller.*

LUXURIES.—An excess of importation, especially if long continued, is not a good thing, however acceptable the duties accruing from it may be to the coffers of a needy government. But a disproportion of luxuries to necessaries in the list of imports is still worse. We fear that this is the case just at the present time. In last week's list of importations at New York we find the following commodities: Jewelry, $49,699; fancy goods, $40,328; cigars, 25,154; brandy, $117,708; gin, $26,684; wines, $37,519; champagne, $14,566; silks, $483,421. Three-quarters of a million a week for mere luxuries is rather a fast rate, considering the yet entirely uncertain state of our means of payment during the year to come.

Indian Physician.
Dr. B. S. GOODWIN
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsy, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.

TOO HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and world-wide celebrity for its curative properties, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

THE MANUFACTURE OF WINES.—Every day adds to the accumulating evidence that pure wines are very rare indeed, and that those who use such beverages have no guaranty, as they sip their champagne, claret, burgundy or port, that they are not imbibing a cunning compound of logwood, sugar, chemicals and cider, or distilled liquors, or under the most favorable circumstances, a very poor wine "cooked" to suit the palate. On this subject the London correspondent of the National Intelligencer sheds some light. He says:

"At the northwestern corner of the Mediterranean, on the Gulf of Lyons, stands the prosperous little town of Cette. Its harbor is usually crowded with vessels bearing the flags of many nations. The warehouses are numerous, the stores commodious, and there is little or no appearance of either indigence or idleness in the place; yet a stranger is at first puzzled to determine what is the particular business or trade of the town. After a little time he begins to observe among the workingmen a preponderance of coopers, and a great consumption of staves and hoops. Then he observes that logwood and cider are used largely, sugar not a little.

Cheap and consequently inferior Spanish wines, called Cheropiga and Benicarlo, are imported into Cette in large quantities, but never leaves that place under those names. In brief, from these and other as unsuitable articles are made in this seaport vast quantities of wines, of every known vintage manufactured; Claret, Hockheimer, Johannisberg, Burgundy, Champagne, Moselle, (sparkling or still,) Madeira, Constantia, Humble Port or Imperial Tokay.

So nice is the skill of this little colony of ingenious wine merchants, so accurate is their palate, that they can, with Chinese precision, imitate the flavor and copy the color of the required fluid, however rare or choice the original sample may be; and place it in the very form of bottle in which the genuine wine is ordinarily met with.—Even the most experienced judges are not unfrequently imposed upon. From long practice the taste and requirement of each different market is known, and the manufacturer, as he displays his varied stores, knows at once the precise flavor that will suit his customer's palate. Little of these factitious wines find their way into the interior of France; they are mostly dispatched to distant markets."

DROLL ERROR.—The following item has been published in the papers of Massachusetts, and almost everywhere else:

Liquor Law Decision.—Judge Hoar, of the Supreme Court, with the concurrence of his associates, has decided that imprisonment for the non-payment of fine and costs, imposed for a violation of the liquor law, is no part of the sentence of imprisonment provided for in the statute, and has ordered a woman so held in the House of Correction in New Bedford, to be discharged.

But a Salem correspondent of the Traveller upsets the whole, thus:

Now, I am informed by Judge Bigelow that the Court did not so order, but ordered the petitition to be dismissed. The prisoner was remanded back to prison.

In Essex county, when persons are convicted of being common sellers and sentenced for a term of months to the House of Correction and to pay a fine of $50 and costs, and in stand committed until said fine and costs are paid, they are first committed for the term of months named in the mittimus; at the expiration of that term, if the fine and costs are not paid they are committed to jail for non-payment of fine and costs.

Such imprisonment Judge Hoar decided to be according to law.

THE LIQUOR LAW DECISION BY JUDGE HOAR.—The Taunton Gazette says that we were in error in relation to the decision of Judge Hoar, in the case of Ann Noble, petitioner for *habeas corpus*. The decision was to the effect that "the *additional* imprisonment occasioned by a failure to pay fine and cost was no part of the sentence of imprisonment within the meaning of the statutes," and the petition was therefore dismissed. The prisoner, under this decision, cannot be discharged without payment of fine and cost, before the expiration of the whole sentence.—*Boston Journal.*

FROM CENTRAL AMERICA—RIOT AT PANAMA.—The telegraph on Saturday announced the arrival at New York of the steamship Northern Light. The Northern Light brought 675 California passengers via the Panama Railroad. She left Aspinwall on the evening of the 21st ult.

On the evening of the 17th, during the customary procession of Palm Sunday, there was a riot at Panama, between the natives who resided within the city and the blacks who lived without the walls, in which two or three were killed and several severely wounded. The military were called out, and were under orders all night. The U. S. Consul signalized the men-of-war in the harbor, and Commodore Long sent several armed boats, with three hundred men, to protect the American residents, but their services were not required, and they returned on board at daylight.

For the Chronicle.

LORD TIMOTHY DEXTER was perhaps the most eccentric man that ever lived in America. He claimed the title of a "live lord and the most superfluous philosopher in the known world." His sending warming pans to the West Indies is as proverbial as "coals to Newcastle." Having heard that ship's stays were in great demand, he bought up all the whalebone in the market and thus created a monopoly, that in the end ensured him immense profit. His sham funeral, and the crowning of Jonathan Plummer his poet-laureate, were other beautiful eccentricities of his character.

What Dexter was is a problem hard to solve. He was a man so full of strange and contradictory traits that biographical criticism stands aghast at thought of truthful analysis. The Spiritual age once said:

Dexter himself died in 1806, aged over three-score. From his "Pickle," and from the character of his associates, we are convinced that he was no mere lucky blunderer, but a man whose temperament, if not his qualities, fitted him for the reception of spiritual impressions, which are not always, as we know, vouchsafed in amplest measure to those who make wise and virtuous use of their powers.

☞ We freely call attention to the advertisement of J. E. Tilton & Co., which appears in our columns to-day. They publish a list of pictures which, in their classic character and beauty of execution, have obtained a wide celebrity. Among them are "Evangeline," two beautiful crayons; these are already well known to picture-lovers. Within a short time they have published a charming copy of Correggio's *Madonna Della Scala*, made by Grozelier, which has attracted much attention among artists, and now they have added a splendid Lithograph, and also a delicate photograph from Darley's celebrated original (which they own) of the Marriage of John Aldney in the Courtship of Miles Standish. Any of these pictures they send postpaid on receipt of price. See their advertisement, for we speak from personal knowledge.

☞ The Newburyport Herald says, the last day has come and gone, not the last day looked for by so many in 1843 and at various periods since, when the world should burn up—but the last day for free rum and free dogs, in Newburyport; the authorities have duely notified that on and after the first day of May, Anno Domini 1859, the statutes, made and provided to regulate the sale of spirituous liquors and to restrain dogs from running at large, shall be enforced.

☞ The Detroit Daily Advertiser publishes a table, nearly complete, of the returns of the recent election in Michigan for Chief Justice, showing a Republican majority of over 11,000. The counties yet to be heard from will probably increase the majority to 12,000. The recent town elections in Michigan, as far as heard from, show the choice of 364 Republican and 210 Democratic supervisors.

☞ The ladies of the Unitarian Church (Rev. Mr. Cole's) Exeter, will hold their annual May Fair, at the Town Hall, on Wednesday, 4th inst. A correspondent speaks highly of these social gatherings, and says the society is quite limited in numbers, and the well earned proceeds of these Fairs are peculiarly acceptable.

☞ Miss Matilda Sawyer, a young lady boarding at 183 Sixth street, New York, was burned to death about midnight on Wednesday by her clothes taking fire from the explosion of a fluid lamp. She was about twenty-two years of age, and possessed a high moral character that had endeared her to many friends. She had been for some time engaged to be married.

☞ We learn from the Congregational Journal, there are fifty feeble Congregational Churches in this State which have been receiving aid from the New Hampshire Missionary society; that the society has borrowed $1000 to keep the churches in the field, and still the treasury is empty with this $1000 behind.

☞ Rev. Mr. Harden, the young Methodist minister arrested in New Jersey for the murder of his wife, asked just before marriage to be released from his engagement, but neither the young lady or her friends would consent. He married; he murdered; and he'll probably be hung.

☞ Capt. Hurd, of ship Charger, from Calcutta to Boston, discovered a shoal of clear sand NW by W and SE by E about half a mile long, and one-third mile wide, from 10 to 12 feet water on it. It lies directly in the track of vessels passing the Cape homeward bound, in lat. 34 56 S, lon. 17 40 E., and is very dangerous.

☞ John Letcher, the Democratic candidate for Governor of Virginia, has given up the canvass on account of ill health, and has gone home.

Sagamore House,

ON FROST'S POINT, RYE, N. H.

At the entrance of Little Harbor, 3½ miles by land, 2 miles by water, from Portsmouth. The House commands a view of Portsmouth, New Castle, Kittery, the Navy Yard, Forts Constitution and M'Cleary, Portsmouth Harbor and the Isles of Shoals. The House is nearly new, and commodious, and has been occupied as a Summer Hotel. The out-buildings consist of a barn, corn house and bowling alley, all in good repair. The grounds contain SIX Acres, bordering Little Harbor and the sea, and are well stocked with Fruit Trees. The facilities for sailing, fishing and bathing are unequalled, rendering it a desirable place for a private residence, a private boarding house, or a public house.

FOR SALE.

The balance of the Sagamore Farm, adjoining the above, containing

Forty-three Acres of Land,

of excellent quality, suitably divided into mowing, tillage, and pasturage, with a fine lot of Fruit Trees on the same, and will be sold as a whole or in lots, as purchasers may desire,—all on liberal terms.

SPECIAL NOTICES.

SEWING MACHINES.

The Grover & Baker are always preferred, when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

WEAKNESS OF THE KIDNEYS.—In the affection of the kidneys, called "Bright's Disease," the general prostration and lumbar weakness generally resist all medical treatment, and the patient sinks slowly, but surely into the grave. If disorganization has not proceeded too far, the PERUVIAN SYRUP will arrest the granular disease, and restore the patient to comfortable if not to perfect health.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the R. R. R. Remedies prompt, quick and efficient. Persons who have suffered from the Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Health and Strength secured by the use of THE SPRING AND SUMMER MEDICINE,

Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, and invigorating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course new through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Wind, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and a torpid or diseased Liver, a disordered Stomach, or and Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the berries of Juniper Berry, and combines the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of the harsh properties of fusile, which render the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as to travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

POLICE COURT.

MONDAY, May 2.

Before Justice Odell.—Henry Van Scape and Daniel Monhan, U. S. Marines, plead guilty to the charge of being unlawfully drunk in Market street on Saturday evening, and were fined 3, and costs, $3.86, each.

☞ The New Hampshire Conference of the Methodist Episcopal Church, will commence its session in this city at the Methodist church, on Wednesday morning at half-past 8 o'clock, and continue about a week. Conference business will occupy the morning of each day, and religious services the afternoon and evening; all of which will be open for all persons desiring to attend.

☞ We spoke (in manuscript) of the writing, printing and publishing of Mr. Browster's Rambles about Portsmouth, as a great work, accomplished *mainly* by one man; but the type made us say (in print) that it was done *wearily*.

Solomon said once, of making many books there is no end; and much study is a *weariness* of the flesh; but we did not think of weariness when we wrote the item.

☞ On Monday, as the Concord and Portsmouth Railroad resumed its two trains per day, Mr. S. B. Marden resumed his former express route on that and the Boston & Maine Railroad, from this city to Exeter, and other places. His wagon and sleigh express line, the past winter, has been convenient for the public, and we believe profitable to himself.

☞ The Historical Diorama of the Battle of Lexington, was exhibited on Monday evening, at the Temple, and is to be continued this evening and Wednesday afternoon and evening. It comprises 5000 moving figures, of men, women, children and horses.

LATER FROM MEXICO.—Gen. Miramon managed to make his escape from the Constitutionalists, by forcing the lines of Gen. Trains, and arrived on the 11th with aids-de-camp, just in time to congratulate Gen. Marquez on his victory over Gen. Degollado. His army came in the next day or two after, most of the troops in good condition.

Miramon's passage of the Cambres was effected only after hard fighting. Three times did this reckless commander assault the enemy's almost impregnable position, and was driven back. On the night of the 7th he succeeded in turning Llave's wing, took the more difficult mountain that General commanded, and from that time the way was clear.

Gen. Degollado arrived before the City of Mexico on the 22d of March, and might have then easily entered the city, but he suffered himself to be deceived by the millionaire Escuador, at whose place in Tacubaya he was living, who with others of the Robles party, made him believe there was a large party within the walls of the city who would be endangered by violent measures.

On Sunday night, the 10th, preparations were made for an attack upon Degallado's head quarters by a force of 5000 men, under Marquez. During that night they were allowed to flank the enemy's position, and on Monday morning and the following day the force of Degollado though fighting like tigers, were made to feel the superiority in number and the efficiency of that very artillery, and those very men whom their stupid chief had allowed to come unmolested to the aid of the city. It is said that the traitors and cowards of the chief fled early in the fight and left their brave soldiers to make what feeble resistance they could.

The result was of course a total route.—After the action upon the field, deeds of horror were committed, such as can hardly be believed, but which can nevertheless be true. The cavalry of Marquez, urged on by several priests, amused themselves by lancing the wounded, with whom the field was covered; none of them were spared. It appears that such deeds of blood and murder were not approved by all the members of Miramon's government.

Mr. Black, our Consul, has had his passports tendered him. He applied to Mr. Otway, the English Minister, to take the American citizens and property under his protection, in the absence of any representative of our government, in the capital, and his request was denied.

During the stay of the federalists in Tacubaya, not the slightest disorder was permitted, everything went on well, and the rights of everybody were respected; but as soon as the centralists entered, the scene changed,—private houses without number were sacked by the drunken soldiery, citizens were outraged and murdered, and those who have escaped the tempest of religious fury still shudder at the atrocities which they have been compelled to witness.

☞ Daniel Donnelly, 12 years of age, was killed instantly Thursday evening, in Brooklyn, N. Y., by the cross beam of a swing he was playing with giving way and falling upon his head.

☞ Richard Cobden arrived at Washington on Thursday, and became the guest of the President.

FROM KANSAS AND THE MINING COUNTRY.—*St. Louis, April* 29.—The accounts from the new mining region continue encouraging. There is no diminution of confidence among the miners, and the flattering reports continue to come in from the mountains.

Three men were hung at Denver City, on the 9th, by a Vigilance Committee, for murder, causing great excitement.

A gentleman just arrived reports that the emigrants at the Pike's Peak mines, and those along the route, are enrolling themselves into companies for Arizona and Sonora.

CALIFORNIA AND THE SANDWICH ISLANDS.—*St. Louis, April* 30.—The California overland mail arrived in this city last evening, bringing San Francisco dates of the 8th inst.

The markets of San Francisco were glutted with goods, owing to the large number of ships which had arrived within the week, and prices continued to decline.

Advices from the Sandwich Islands state that the volcano of Manu Loa continued very active. Several rich guano islands had been discovered to the northwest of the Sandwich Islands, and possession taken of them by the commander of the government steamer Fennimore Cooper.

UTAH AFFAIRS.—*Washington, April* 30. The War department this morning received a heavy mail from Col. Johnston, commanding the forces in Utah. The complication and difficulties between the federal and judicial officers is fully explained, and his course in responding to the requisition made upon him by the judiciary, which are a co-ordinate branch of the government, is sustained and justified. It appears that Gov. Cumming was acting under special instructions from the State department, and directly opposite to the instructions of Col. Johnston and the judicial officers. The Cabinet had the matter under consideration to-day. Gen. Johnston's dispatch changes the aspect of affairs there.

The dispatches from Gen. Johnston were immediately communicated to President Buchanan, who seems greatly embarrassed at the turn affairs have taken. Secretary Floyd heartily approves the action of Gen. Johnston in the premises.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.
This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.
The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.
They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.
Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercise and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.
Among their undoubted advantages are—
1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

THE GROVER & BAKER
SEWING MACHINE CO.,
NO. 18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their
Celebrated Family Machines,
with all the recent improvements, have reduced their prices, and offer for sale
A NEW STYLE MACHINE.
PRICE $50:
Machines from $50 to $125.
HEMMERS, $5 EXTRA.
It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!
Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?
TESTIMONIALS.
Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."
Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."
Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."
Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Morning Chronicle.

NUISANCE LAW.

The late decision of the Supreme Court of Massachusetts does not nullify the nuisance law, as applied to the rum trade—but it does decide that such nuisances must be abated by the proper officers only, and not by any individual or company acting without legal authority.

As it is not easy to give an abstract of a legal decision, that will give a clear idea of all the points decided, we copy the greater part of the decision:

The court are of opinion after argument that the ruling and instructions to the jury were not correct in the matter of law.

1. The court are of opinion that spirituous liquors of themselves are not a common nuisance, but the act of keeping them for sale, by statute creates them a nuisance, and the only mode in which they can be lawfully destroyed is, the one directed by statute for seizure by warrant, bringing them before a magistrate, and giving the owner of the property an opportunity to defend his right to it. Therefore, it is not lawful for any person to destroy them by way of abatement of a common nuisance, and to use force for that purpose.

2. That it is not lawful by the common law for any and all persons to abate a common nuisance, though it may have been sometimes stated in terms so general as to give countenance to this supposition. That this right and power is not entrusted to individuals in general, without proof of law, by way of vindicating the public right, but solely for the relief of a party whose right is obstructed by such nuisance.

3. If such were intended to be made the law by force of the statute, it would be contrary to the provisions of the Constitution, which directs that no man's property can be taken from him without compensation, except by judgment of his peers or the law of the land; and no person can be twice punished for the same offence. And it is clear that under the statutes spirituous liquors are property, and entitled to protection as such. The power of abatement of a public or common nuisance does not place the penal law of the Commonwealth in private hands.

4. The true theory of abatement of nuisance is, that an individual may abate a *private* nuisance injurious to him, when he could also bring an action; and also when a common nuisance obstructs his individual right, he may remove it to enable him to enjoy that right; and he cannot be called in question for so doing. As in the case of the obstruction across a highway, and an unauthorized bridge over a navigable water course, and he has occasion to use it, he may remove it by way of abatement. But this would not justify strangers, being inhabitants of other parts of the Commonwealth, having no such occasion to use it, to do the same.

5. That as it is the use of a building, or of keeping spirituous liquors in it, which in general constitutes the nuisance; the abatement consists in putting a stop to such use.

6. That the keeping of a building for the sale of intoxicating liquors, *if* a nuisance at all, is exclusively a *common* nuisance, and the fact that the husbands, wives, children or servants of any person do frequent such a place and get intoxicating liquor there, does *not* make it a special nuisance or injury to their private rights so as to authorize and justify such person in breaking the shop or building where it is thus sold, and destroying the liquor there found, and the vessels in which it may be kept; but it can only be presented as a public or common nuisance in the mode prescribed by law.

Upon these grounds, without reference to others, which may be reported in detail hereafter, the court are of opinion that the verdict for the defendants must be put aside and a new trial had.

☞ During school hours Monday, a "schoolmarm" at Winsted, Conn., who takes to setting up late o'Sunday nights, fell asleep in her chair, whereupon the reckless youngsters, regardless of birch and blisters, gathered around and tied the dreamy maiden to her seat.

The Maine Denmocratic State Committee have made the first move in connection with the Presidential Election of November, 1860. They have called a State Convention to meet in Bangor, on Thursday, June 30, which, in addition to the selection of a candidate for Governor, will select four delegates at large to attend the Democratic National Convention at Charleston in June, 1860.

☞ The Government is seriously prosecuting the enterprise of introducing into the United States the culture of the tea plant. A ship is now on her voyage from Canton to New York with 60,000 plants, selected with great care by a special agent of the Patent Office.

WHAT WHISKEY CAN ACCOMPLISH.—The Cincinnati Gazette says that an old man was brought to the Ninth street station at a late hour one night last week, by a couple of policemen, who found him drunk in the street—thoroughly saturated inside with whiskey, and outside by the rain-storm. Four or five years ago he was worth some $25,000, and within that period has squandered nearly every dollar of it for liquor! He is now without a home, friends or a place to lay his head.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantee of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that thousands will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE:

Professor Wood! Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1853, I was induced to try a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

W. H. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to Itching, with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public. These Gums remove all morbid or bad matter from the system, supply in their place good blood, a healthy flow of bile, invigorating the stomach and giving tone to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and corrects **costiveness.**

One dose taken after each meal will cure **dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

All who use it are giving their unanimous testimony to its

MERIT.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, unacquainted with their lives the insidious inroads of certain dangerous maladies who suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by regular practitioners, under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path; or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all menstrual irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising spurious article under some spurious or fictitious name. Females are entirely safe in using the genuine article, as many have got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in the pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

P. S.—The best of accommodations furnished with kind and attentive nurses if they wish, at reasonable rate. jy2 1ly

REFLECTIONS

UPON RECEIVING A COPY OF MY FIRST POEM PUBLISHED IN A VILLAGE PAPER.

Ah! here it is! I'm famous now—
An author and a poet!
It really is in print! Ye Gods!
How proud I'll be to show it!
And gentle Anna! what a thrill
Will animate her breast,
To read those ardent lines and know
To whom they are addressed.

Why bless my soul! here's something strange,
What can the paper mean,
By talking of the "graceful brooks,
That *gander* o'er the green?"
And here's a T instead of R,
Which makes it "uppling rill;"
Will seek the *shad*" instead of shade,
And "*hell*" instead of "hill."

"They look so"—what? I recollect
'Twas "sweet" and then 'twas "kind,"
And now to think the stupid fool
For "*bland*," has printed "blind,"
Was ever such provoking work—
'Tis curious, by the by,
How anything is rendered blind
By giving it an eye.

"Hast thou no tears"—the T's left out—
"Hast thou no ears" instead;
"I hope that thou art dear" is put
"I hope that thou art dead."
Who ever saw in such a space
So many blunders crammed?
"Whose gentle eyes bedimmed" is spelt
"Those gentle eyes be d—d."

"The color of the rose" is "nose,"
"Affection" is "affliction;"
I wonder if the likeness holds
In fact as well as diction?
"Thou art a friend," the R is gone;—
Who ever would have deemed
That such a trifling thing could change
A "friend" into a "fiend!"

"Thou art the same" is rendered "lame;"
It really is too bad.
And here because an "I" is out,
My "lovely *maid*" is "mad;"
They drove her blind by poking in
An eye—a process new;
And now they've gouged it out again,
And made her crazy too.

"Where are the muses fled, that thou
Should'st live so long unsung,"
Thus read my version—here it is—
"Shouldst live so long *unhung*."
"The fate of woman's love is thine,"
An H commences "fate;"
How small a circumstance will change
A woman's love to hate!

I'll read no more! what shall I do!
I'll never dare to send it;—
The paper's scattered far and wide;
'Tis now too late to mend it.
Oh fame! thou cheat of human bliss—
Why did I ever write!
I wish my poem had been burnt
Before it saw the light.

Let's stop and recapitulate:—
I've damned her eyes, that's plain—
I've told her she's a lunatic,
And blind and deaf and lame;
Was ever such a horrid hash
In poetry or prose?
I've said she was a fiend, and praised
The color of her nose.
I wish I had that editor
About a half a minute,
I'd bang him to his heart's content,
And with an "H" begin it.

"Shall we bury the Negro?" is the title of an article that is going the rounds of the democratic journals. Just now, the negro seems to be busily engaged in digging the grave of democracy. He's a famous hand at sexton-craft. A disconsolate democrat might say, with the poet, while contemplating the negro at work:

"I saw great *Sambo* like a sexton stand,
With his intolerable spade in hand."

ROCKPORT.—At the quarry of Messrs. Eames & Stimpson, at Rockport, recently, an immense block of granite, of excellent quality, was thrown out at one blast, which, it is estimated, will weigh three thousand tons. Messrs. Preston & Co., at their quarry, are preparing for a heavy blast, which it is expected will produce one of like dimensions. We fear a few more of such movements will loosen the underpinning of our Cape.—*Telegraph.*

Those persons who think it treason to the democracy for a person to refuse to pledge himself to the support of measures before he knows what those measures may be, should have lived in the days of England's Charles, when Kings reigned by "divine right." That theory, however, was denied in 1776, by a little convocation of "rebels" in Philadelphia, who declared the doctrine, now somewhat absolete, that the people have an inalienable right to liberty.—*Bath Times.*

Lord Lyons put his feet under the President's mahogany, for the first time, on Tuesday. It was a state dinner, and the gentlemen present had a good time. The "good time" that we hear so much of is offener to be found at the table than anywhere else.—*Trav.*

WEDNESDAY, MAY 4, 1859.

THE METHODIST CONFERENCE.

Messrs. Editors:—The New Hampshire Annual Conference of the Methodist Episcopal Church will commence its thirtieth session in the Methodist church in this city, on Wednesday morning, 4th inst., and continue in session about six days. As a Methodist Conference is somewhat peculiarly constituted, and consequently its mode of doing business differs from most deliberative bodies, perhaps a portion of the readers of your Daily may be interested in some account of these matters.

The Annual Conferences, of which there are forty-seven in the United States, (not embracing the M. E. Church South) are created and bounded by the General Conference—a delegated body—the congress of the church — which meets once in four years. The Annual Conference has no *legislative* functions, whatever, being purely executive in its character. One of the bishops (of whom there are now six, having joint jurisdiction over the whole church) presides by constitutional prerogative in the Annual Conference.

The members consist of "travelling preachers," both deacons and elders, in full connection, and are classed as effective, supernumerary, and superannuated. Two years probation is required for full membership, and probationers are required to pursue a certain course of theological study, in which they must pass an annual examination.—They are entitled to "deacons' orders" when they are received into "full connection." They must then "travel," that is labor as appointed preachers two years more, continuing the course of study, when, if they pass a satisfactory examination, they graduate to "elders' orders." Elder, or presbyter, is the highest order in the church, our bishops being but elders elevated to the superintendency of the work, and not prelates in the high church sense.

Those who attend the Conference as spectators, will notice that a large part of the business consists in action on the reports of the various examining committees, on the different classes of candidates for "full connection," "deacons' orders" and "elders' orders;" also the presiding elder's representations of candidates for admission "on trial," and action on the same. This is one great object of an Annual Conference—to receive *preachers made by the laity*, and to *make of them ministers and pastors*. It will be noticed too that the superannuated ministers' relations and characters constitute a prominent topic of business. These are the "worn out," aged and invalid men, who though still members of the body have no pastoral work assigned them. Theoretically, we provide for the support of this class of men, as well as the widows and orphans of deceased members, but unfortunately, the meagreness of our "Preachers' Aid Fund" allows us to do but little for this noble purpose. The supernumerary men are those whose health does not allow them to do full pastoral work; they receive appointments, but are expected to regulate the amount of their labor by their ability.

The working body of the Conference consists of the "effective elders." The law of the church requires that these shall pass a regular examination as to ministerial and christian character at each annual session, which is done by the bishop calling over their names, when the presiding elders or others represent the case according to their knowledge of it. This also is an important part of the business of the body. The various relations of the members above named are fixed by vote of the Conference. The "local preachers" are not members of the Conference, but are amenable to the particular churches to which they may belong.—They may be appointed temporarily to the pastorship of a church by a bishop or a presiding elder. The Conference can *locate* one of its members when he wishes to withdraw from the body of associated pastors. The Conference consists of 108 members, 24 of whom are superannuated.

The presiding elders have an important part in the conference business. Each one of these officers has charge of a particular district, (of which there are three in this conference) to which he is appointed by the bishop. They have no superiority over the other elders of the body, only during the time of their service as *presiding* elders, which is limited to four years on one district. They are required to give, in open conference, an account of the state of the work within their several districts, over which they must travel, holding four Quarterly Meetings in each church in the year. They represent the character of the ministers as men, christians, preachers, pastors, and administrators of discipline; and if any fault is discovered, they are to see that the law of the church is enforced against the offender. They are, like their brethren, amenable to the Annual Conference, and their characters are passed in review and represented by any of the preachers within their districts.

The statistics of the various churches (or rather charges, for the Methodist Church is *one* all over the country) are presented;—the charitable and educational institutions of the conference, and the prominent moral questions of the day are considered and acted upon, through appropriate committees and otherwise, on the occasion of these annual gatherings.

The business sessions are holden in the forenoon of each day, and the afternoons and evenings are devoted to public religious services, and the anniversaries of the different Conference Societies, such as missionary, tract, Sunday school, &c. Sunday is the great day of the Conference. The "Conference Love Feast," sermons by the bishop and other distinguished men, and the ordination services, combine with the peculiar associations of the hour, to make it an occasion of great interest to all.

But *the* great object of the annual session is the appointment of the pastors to their several fields of labor. This is done every year, for though we often remain two years in the same church, yet the second year's stay is by re-appointment. Every minister is subject to an annual removal.

These appointments are made by the bishop, assisted by the presiding elders, who constitute his council, or as it is usually called, the Cabinet. This will account for the absence of the bishop and presiding elders from all the meetings except the business sessions and the Sunday services. The afternoons and evenings are devoted to the cabinet sessions by these officers. Here all the preachers' qualifications are discussed—their peculiar circumstances, their fitness or unfitness for particular places, are taken into the account. Also the peculiar wants and circumstances of the churches, and the *wishes* of both churches and preachers so far as known, are considered and met, so far as it can be done consistently with the general good. The highest good of the *great whole* is the ruling idea of the appointing power.

The discussions and arrangements of the Cabinet are supposed not to transpire till the appointments are "read out," which is the last act of the session except the benediction. The responsibility of this part of our work is very great, and may well make any good man tremble. This is the great and marked feature of Methodism as a system of church polity. Here, in the Bishop's room, rolls the "great iron wheel" of which so much has been said. We, however, fear not its results, as we know that it revolves in the solid frame-work of a constitution well fitted to give both support and balance to so mighty a motive power. Not to advocate the claims of the system here,—I may be permitted to add, that a sufficient apology for our enthusiastic adhesion to it may be found in what seems to be its results, for by results must every system of polity in church and state be judged. With all our changes, we have really the most permanent ministry in Protestantism. No church, or fragment of a church, however obscure, is *ever* left without a direct pastoral oversight. The pastorship is never vacant, never dies—though the men who fill it are often relieved by an exchange of posts of duty. The ease and regularity with which the great machine moves, is perfectly astonishing, when we consider the sacrifices it involves. Bishop Ames recently informed me that out of six thousand appointments annually made, less than twelve cases occur where there is disaffection approximating rebellion, that is, where the preacher refused to go, or the people refuse to receive this preacher!

Rev. Bishop E. R. Ames, D. D., of Indianapolis, Ia., will preside at this Conference. The session will be opened on Wednesday morning, May 4th, at half past 8 o'clock, by appropriate religious services—including the sacrament of the Lord's Supper. Our christian friends in the city are invited to unite with us in this solemnity, and our citizens generally to attend the meetings, both for conference proceedings and for worship.

TO MARRIED LADIES.

The "*Indian Emmenagogue*" is a new and elegant medicine, designed *expressly for females*. It is prepared from an Indian plant, which from time immemorial has rendered *parturition* among the females so easy, and is now for the first time offered to the public. The name and virtues of this wondrous plant was recently obtained from *Sheanda-ko-ah*, an Oneida Chief, now residing at Syracuse, N. Y. It is neatly put up in two ounce bottles, with full directions for using, and is warranted to cure any case of female obstruction in *twenty-four hours*. This may seem incredible, but if it fails in any case, the price will be refunded.—Purely vegetable and perfectly safe at all times. ☞ *Remember! This is the only medicine of the kind that is warranted in all cases; none other is worthy of confidence.* Sent by express to all parts of the country. Sold only at the *Remedial Institute*, No. 12 Suffolk Place, Boston.

Circulars and references with pamphlet on diseases of women and private maladies generally.—Sent free on receipt of name, addressed to Remedial Institute, No. 12 Suffolk Place, Boston, Mass.

Sagamore House,

ON FROST'S POINT, RYE, N. H.,

At the entrance of Little Harbor, 3½ miles by land, 2 miles by water, from Portsmouth. The House commands a view of Portsmouth, New Castle, Kittery, the Navy Yard, Forts Constitution and M'Cleary, Portsmouth Harbor and the Isles of Shoals. The House is nearly new, and commodious, and has been occupied as a Summer Hotel. The out-buildings consist of a barn, corn house and bowling alley, all in good repair. The grounds contain Six Acres, bordering Little Harbor and the sea, and are well stocked with Fruit Trees. The facilities for sailing, fishing and bathing are unequalled, rendering it a desirable place for a private residence, a private boarding house, or a public house.

FOR SALE.

The balance of the Sagamore Farm, adjoining the above, containing

Forty-three Acres of Land,

of excellent quality, suitably divided into mowing, tillage, and pasturage, with a fine lot of Fruit Trees on the same, and will be sold as a whole or in lots, as purchasers may desire,—all on liberal terms.

SPECIAL NOTICES.

SEWING MACHINES.

The Grover & Baker are always preferred when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's Elastic Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair. We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividends in actual cash savings—to say nothing of the highest consideration of comfort and convenience, any, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

ALLEN & PAINE.

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

GALLERY, No. 33 Congress Street,

consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.

N. B.—I do not charge any more for good Pictures, than is paid every day for poor things.

WEAKNESS OF THE KIDNEYS.—In the affection of the kidneys, called "Bright's Disease," the general prostration and lumbar weakness generally resist all medical treatment, and the patient sinks slowly, but surely into the grave. If disorganization has not proceeded too far; the PERUVIAN SYRUP will arrest the gradular disease, and restore the patient to comfortable if not to perfect health.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per cent) by the celebrated Parisian artist—Monsieur Beavtontitorum-nos.

POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become innoculated with any malignant disease, will find R. R. R. Remedies prompt, quick and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system or innoculated or first-breathing innoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For chronic Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Health and Strength secured by the use of
THE SPRING AND SUMMER MEDICINE,
Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to be a most concert and gentle nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and Blood, purifying the foul secretions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the Blood, and cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, the main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and a torpid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the supervisiance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable aromatics of the very whole kingdom, rendering it in the quality a most delicious cordial men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, KIDNEYS and the BOWELS, NERVOUS DERILITY, &c., whilst the weaker sex will find by its adoption a sure relief from these distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocery, fruiteries and country merchants. Beware of imitations. Buy only CHARLES'—NONE OTHER is IMPORTED.

May be bought in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. K. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. LOCAL.

☞ The freighting of coal over the Concord and Portsmouth Railroad, to Concord, Manchester, &c., which we mentioned the other day as begun, is already carried on to a considerable extent, and arrangements are now making by which it will be largely increased, and by which a similar business may be done in other heavy articles. Even under the present disadvantage of having to cart the coal some hundred feet, quite a saving is made by freighting it from this port rather than from Boston. A cargo which arrived on Saturday, began to go forward on Monday, and will be followed by others.

Messrs. Editors:—I perceive by a late Chronicle that a citizen generously offers rare trees, that "any body may have for the digging." Last year, in visiting the garden of one of our wealthy and industrious citizens, he seemed to have an abundance of trees, shrubbery, plants, herbs, &c., more than could well seem to grow on the land or space allotted to them. Now may it not be the case of many others, (I know it is with some,) who have more than will well grow on their land, while others are scant or have none? I noticed one very wealthy individual had a bushel of dahlia bulbs poured down and covered in a space not more than four feet square. Probably had he known of any who wanted them, he would gladly have distributed them.

A plan I would propose would be, when an individual has trees, shrubbery, &c., more than he wishes, or has space for, that he would give public notice of it, or deposit them in some public place, for gratuitous distribution. FRANKLIN.

The best place for this deposit is on the north side of the Brick Market, convenient for all parties.

ALMOST A CONFLAGRATION.—One night last week, Mr. Nathaniel Balch, residing on Lafayette Road, was aroused from sleep about midnight by an unusual noise by his cattle in the barn. Being an invalid himself, he spoke to his family, who, on looking out, saw a light in the barn. They immediately took a couple of pails of water, and ran for the barn, where they discovered a barrel full of combustible stuff on fire, which had burnt to the floor and was fast spreading. Had it not been for the timely exertions, the barn would have been in flames in a few minutes. They discovered a man in the barn around the fire, piling on hay and other combustible matter, saying that he wanted to warm himself, but while they were extinguishing the fire the rascal escaped.

☞ The United States sloop-of-war Vandalia arrived at Panama on the 17th. The Roanoke, Jamestown and Relief were at Aspinwall. The Roanoke was to sail for San Juan del Norte on the 22d. The steamship Washington, from New York for San Francisco, had not arrived at Valparaiso on the 1st ult., and fears were entertained for her safety.

MURDER AT WELLFLEET.—*Wellfleet, May 2.*—Last night, between 12 and 1 o'clock, Mr. Eben S. Ward of South Wellfleet was murdered by his son-in-law, Samuel Fish. The murderer has been captured, and confessed the crime. The first intimation of the presence of any person being around the house was at 12 1-4 o'clock, when two bricks were thrown through the window of the bedroom in which they were sleeping.

Mr. and Mrs. Ward got up, lighted a lamp and went into a back room, and he being terribly frightened, dare not go out of doors to see who was there and give an alarm. All was still for half an hour, when two more bricks were thrown into the kitchen window, where they were sitting.—They then went into the front room, Mrs. Ward leaning against the door and Mr. Ward walking the room. Mrs. Ward, turning round, saw the muzzle of a gun pointing towards them through the kitchen window. She stepped aside and at that instant the gun was fired and Mr. Ward fell, exclaiming, "Oh, my God!"

One hundred and eight shot holes were counted on his rig t breast. His arm and two ribs were broken. Nothing was known of the murder until this morning, the woman in the house being too frightened to go out and give an alarm.

Fish is not of sound mind, and is at times crazy. He attempted to shoot himself after committing the murder, but the cap did not explode.

TROY, May 2.—A murder occurred in the town of Sand Lake, about 14 miles from this city, on Sunday. An old man named John Belding beat out his daughter's (Christiana) brains with a hammer. He was laboring under a fit of insanity, and imagined that his daughter was possessed of a devil. The murdered girl was about 19 years of age. Belding was brought to this city, and is now in jail. The Grand Jury is in session, and has already taken action in the case.

MEXICAN AFFAIRS.—*Washington, May 2.*—Capt. Javis, commanding the sloop-of-war Savannah, in a letter to the Navy Department, dated off Sacrificios, April 2, while speaking of Mexican affairs, says:—"From all I learn the crisis is at hand, and a month or less will about determine the fate of one or the other of the parties."

☞ The Phrenological and Water Cure Journals for May, are just received from Fowler & Wells, publishers, New York.

FIRE AT THE WHITE MOUNTAINS.—*Littleton, May 2.*—The Crawford House was burnt down on Saturday afternoon.—The fire caught on the roof of the western wing. The stables, ice house and out buildings, saved. The furniture was mostly lost. The insurance on the house, $10,000; furniture, $4000

The house was owned by Eastman, Hall & Co. It will be rebuilt double the size of the old house, and will be ready for the reception of the traveling public in sixty days from this date.—*Traveller.*

THE PARKER RIVER BRIDGE.—We have already published the verdict of the coroner's jury, on the death of engineer Perkins, which was caused by the giving way of the Eastern Railroad Bridge near Newburyport. They stated that "the remaining timbers appear to be sound and strong, and that the accident happened in consequence of burning, and not from any defect or weakness in the materials of which it is constructed."

On this the Newburyport Herald says, (and we copy their remarks by request of a subscriber) that the "cause of this accident is most singular—not singular that a railroad bridge should take fire, for any of them are liable to that on any day—but singular that after exposure for twenty years, it should happen to take fire only on a stormy night, when the wood was soaking with rain. It appeared also singular, that the timber should have burned off almost as square as it could be chopped by an axe, and more on the under than the upper side; and it was a little singular, too, that it should have burned in a straight line across the track, when one would have thought, with sufficient fire to burn off timber a foot and a half square, it would have spread over the whole surface of the wood. If somebody had lighted the flames purposely under the stringers, and tended the fire till the work was done, they would not have burned squarer than they appear to have burned now."

RELEASE OF A U. S. SAILOR.—The Navy Department is in receipt of despatches from Capt. Lavallette, dated Gulf of Spezzia, April 8, in which he says that Contono Ottario, a musician on board the Wabash, was seized by the Sardinian authorities, on the ground that he was a native of that country and was absent from the recruiting of 1839, has been released, as on examination it did not appear that he owed, as was claimed, military service to that government. The correspondence shows that Capt. L. took proper action.

The Wheeler & Wilson

Medal Family Sewing Machine.
A NEW STYLE MACHINE,
PRICE $50.
This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.
The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.
They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.
Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.
Among their undoubted advantages are—
1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

THE GROVER & BAKER
SEWING MACHINE CO.,
NO. 18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their
Celebrated Family Machines,
with all the recent improvements, have reduced their prices, and offer for sale
A NEW STYLE MACHINE.
PRICE $50:
Machines from $50 to $125.
HEMMERS, $5 EXTRA.
It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!
Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?
TESTIMONIALS.
Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."
Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."
Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."
Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

TAUGHT BY HIS WIFE.—The Litchfield (Conn.) Enquirer of April 21, says:—

"We know a man in Western New York who could not write when married, but who was instructed by his wife so thoroughly that within five years after his marriage he was elected High Sheriff of his County, and within ten years served four years in Congress, and is one of the most prominent financiers in the Empire State, President of a Bank, and worth probably half a million of dollars."

EXPORTS OF BREADSTUFFS.—The export of breadstuffs from the United States to Great Britain and Ireland from the 1st September to the latest mail dates from the shipping ports, 85,758 bbls. flour, 415,800 bushels wheat, and 319,452 bushels corn, against 784,378 bbls. flour, 3,468,970 bushels wheat, and 2,510,223 bushels corn in the same time last year.

To the continent of Europe the shipments since 1st September last have been 44,256 bbls. flour, 57,278 bushels wheat, and 25,456 bushels corn.

NOT QUITE EQUAL.—The Bath Times says:

The doctrine is unmistakably enunciated that the Maine democracy have no right to believe in doctrines which will not be endorsed, or to contend for principles which will not be adopted, by the Charleston Convention—that while the Davises and Browns of Mississippi, as conceded democrats, proclaim in advance that they will not be governed by the action at Charleston unless their peculiar views are endorsed; while they openly declare that they will head the column for disunion under circumstances brought about in strict obedience to law, the people of Maine have no right to ask for anything at the hands of that convention; have no right to an independent opinion, but must go in there ready to swallow, without a "why or a wherefore," whatever may be crowded upon them.

☞ The Manchester Union Democrat makes the following reliable statements:

There has been no time within the last ten years when it has been possible to plant slavery as a permanent institution, upon a single rod of our public domain; and not the late or the present administration ever took *one step* for the accomplishment of such a purpose. Men have been cheated in regard to both these questions, and *thousands* of Democrats have been alienated from their party. Who are they?—Most of them are *good men—honest, conscientious*, and even *well-informed*, it may be, upon topics to which their attention is habitually directed; but credulous, timid, confiding, and not throughly posted in the ways of politics and politicians. Such men fall an easy prey to dishonest demagogues.

REMARKABLE LUNACY.—We learn that a prominent merchant of this city has gone crazy, within a day or two, and his insanity has become such that his most intimate friends have become very much alarmed lest reason has forsaken its throne, never more to return. It is said that among his strange fancies he indulges in the belief that he owns a large railroad out West, bought all the principal railroads in this State, and that he owns stock in the principal banks in the Union. He is a married man, and has an interesting family, but has become impressed with the idea that he must get married again, and has given out that he is to have one of the most magnificent weddings ever recorded, and ordering thousands of dollars' worth of jewelry from New York, and extending invitations to his friends to be present. He has telegraphed to different parts of the States relating to stocks of companies, and in each wishing to invest from one to five millions of dollars. His lunacy is said to be very distressing, and the hallucination has caused great pain to his acquaintances. An unfortunate endorsement to a large amount, prior to the panic of 1857, induced an aberration which has at last culminated in unmistakable insanity.—He will be taken to the Asylum at Utica, to-day.—*Troy Times, 20th.*

It is stated in the French journals that the city of Paris, in consideration of M. Lamartine's great services to the country in 1848, has made him a present of a handsome house and extensive grounds in the Bois de Boulogne. M. Lamartine has lately refused to accept a residuary bequest made by an old maiden lady to whom he was a stranger. His friends say that he will not take advantage of the ill-considered bequest of an imaginative woman to deprive her relatives of an inheritance upon which they had justly reckoned.

DEATH FROM BURNS.—A man about 60 years old, named James Burns, was found on Tuesday lying in the corner of a blacksmith shop at East Cambridge, with his clothes on fire and nearly burnt off—his body being also very badly burnt. He was conveyed to the Massachusetts General Hospital, where he died during Tuesday night. Coroner Sanborn was called to view the body, and made inquiries at East Cambridge about the deceased, but could obtain no satisfactory information respecting him. It is supposed that the clothing was set on fire from a lighted pipe in his vest pocket. —*Boston Journal.*

Walker, the modern Pizarro, only that Pizarro succeeded and Walker fails, has gone to California, where the hen-roosts will be in danger from his presence. Some of his oldest followers have left him. They have lost faith in his star, which is not a star that never sets, and is given to late rising.

THE GREAT WONDER
Of The Nineteenth Century.
PROFESSOR WOOD'S
HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guaranteed truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1856.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

WM. DYER.

Brookfield, Jan. 19, 1856.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!
PREPARED BY DR. SANFORD,
Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public. These Gums remove the morbid or bad matter from the system, supplying in its place a healthy flow of bile, invigorating the stomach, causing to fall the great well, **purifying the blood**, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and cures **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 545 Broadway, N. Y.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter addressed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing observers.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. BUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 dly

☞ Rev. Samuel A. Worcester, for a third of a century a missionary of the American Board, died at Park Hill, Cherokee Nation, April 20. He was imprisoned in the Georgia penitentiary, because he would not take an oath to support the constitution and laws of that State, in violation of the rights of the Cherokees. A decision of the Supreme Court of the United States sustained him in his course; and yet the authorities of Georgia treated it as a nullity.

☞ The many friends of the Rev. Rufus W. Clarkin New England will be glad to learn of the success of the religious enterprise, to build up which he went to Brooklyn, N. Y. He recently preached his second anniversary sermon, in which it was stated that there had been added to the church during the two years 197 members —109 of which were by profession. The Sabbath School had increased from 65 to 380 members—and the receipts from pews, collections, donations for charitable objects, &c., had increased from $1210.87 in 1856, to $4,815.42 in 1858.

CAPTURE OF A GREAT CITY IN CHINA. The China correspondent of the Journal of Commerce states that the rebels have taken the great city of Hankow, 800 miles up the Yang-tse-Kiang, which Lord Elgin recently visited, and which the Abbe Huc estimated to contain a population of three millions.—The rebels still hold the Nankin and an immense territory above it. Still it is not believed they will ultimately be successful in their great object—independence.

MARBLEHEAD. — A little daughter of Thomas Sweet died on Saturday. She was knocked down and struck in the head by a coasting sled during the winter, and never recovered from the effects.

As Mrs. Paine was filling a fluid lamp, the fluid ignited, and, paralyzed with sudden fright, *she instantly dropped dead* upon the floor. She had been unwell for a day or two, and was about forty years of age and leaves children.

Orestes A. Brownson has made another political somersault. In his quarterly Review, he says:

Whatever party succeeds in 1860, we trust it will not be called "Democratic," and any party in the country, not called by that name, will prove a gain. We do not sympathize with the republican party, so called—it is not purely Republican in contradistinction from democratic, has too many Democratic principles and tendencies, is tinctured with Abolitionism, and is even yet a little "woolly-headed;" but it is has a good name, and if it succeeds to power under that name, will be forced to eliminate its Democratic elements, and develop in a constitutional sense.

PROBABILITY OF MARRYING.—A table inserted in a paper in the Assurance Magazine exhibits results of a rather startling character. In the first two quinquennial periods 20–25 and 25–30, the probability of a widower marrying in a year, is three times as great as that of a bachelor; at 30 it is nearly four times as great; from 30 to 45, it is five times as great; and it increases, until at 60 the chance of a widower marrying in a year is eleven times as great as that of the bachelor. It is curious to remark, from this table, how confirmed either class becomes in its condition of life—how little likely after a few years, is a bachelor to break through his settled habits and solitary condition; and, on the other hand, how readily in proportion does a husband contract a second marriage, who has been deprived prematurely, of his first partner. After the age of thirty the probability of a bachelor marrying in a year diminishes in a most rapid ratio. The probability at thirty-five is not much more than half that at thirty, and nearly the same proportion exists between each quinquennial period afterwards.

SCHOOL HOUSES.—The Chief Justice of the Supreme court in Connecticut has recently decided that religious meetings may be held in a public school-house only with the *unanimous* consent of the district; accordingly a *single tax-payer* may defeat the united voice of all other voters. This decision, it is feared, will interfere considerably with the establishment of mission Sunday Schools. Already one has been broken up by the efforts of a single evil-doer.—*Mirror.*

The Chief Justice has donkeyized himself.

☞ A gentleman just arrived at St. Louis from Pike's Peak, met a party at the crossing of the Platte with a printing press. They were to establish a paper at Denver City.

☞ Mr. James Porter, reported the tallest man in the world, died in Louisville on Monday. He was *seven feet nine inches* in height, and when in perfect health, weighed near 300 pounds.

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its great curative properties, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, MAY 5, 1859.

CONCORD CORRESPONDENCE.

CONCORD, N. H., May 3.

Messrs. Editors:—In four weeks from to-morrow our Legislature will again be in session, when several matters will be agitated, whose final fate will have influence, for good or for evil, upon the coming days of political parties in this State; and prominent among these matters will be a plea for remodeling the Judiciary of the State.

The present system is not the one which the friends of reform favored four years ago, but was brought into existence by the intrigues of many members of the legal profession, then congregated about the Legislature. It has proved to be painfully tardy in all its operations, expensive beyond further endurance, and must soon give place to a system like the one promised in 1855, which was to have been a Supreme Judicial Court of three Judges, and a County Court of one Judge, who should pass into districts in his county, once in three months, to try cases near where the parties, jurors and witnesses reside, having final jurisdiction in all civil actions where the amount claimed shall not exceed $100.

I will not, however, trouble you with an outline of the proposed plan of the courts that are to be, as my object now is merely *to hint* at the reform that must soon be made.

Another matter that will make quite a stir will be the attempt to create a powerful railroad monopoly in the state. Corporation legislation in this state has become unpopular with the masses, and it is said the party in the minority, in the Legislature, will oppose everything that looks like monopoly; and still office-holders in corporations, who belong to the Democratic party, will be found intriguing with members of their party to aid corporations in their plans to gain more power. The party in power must be exceedingly cautious in these matters. All the railroad legislation needed at the coming session, is enough to provide for a branch to the Concord and Portsmouth Road, opening a connection between that and the Concord and Nashua Road from Rowe's Corner to Martin's Ferry, or from Manchester to Candia, and providing a way at the east end of the road, in Portsmouth, to reach the wharf, so as to receive freight direct from vessels into the cars, or deliver it from cars to vessels. A year or two hence we shall need a little more legislation to secure a road from Littleton to the Atlantic and St. Lawrence Road, via Lancaster, a distance of about 30 miles.

We have had enough of costly uniting and ununiting of railroads, and we need no more of it, at least not for the present, and no more tearing up railroad tracks, merely for private speculation at the expense of the public good.

We need but little legislation and, of course, but a short session; still we do need reform in certain public abuses, and retrenchment in public expenses, and these may easily be made, and thereby the party in power may be greatly strengthened.

During the last four years but little has been done in the State to suppress the terrible evils that result from the use of intoxicating liquors, by the enforcing of the law enacted for the suppression of the sales thereof, and the cause of temperance now stands badly in the whole State. We are commencing a movement here, at this time, to suppress the unlawful sales of intoxicating liquors, and we are hoping to see better "signs of the times" in all portions of the State ere midsummer. We need a State movement, county movements, city and town movements, school district and neighborhood movements, and fireside and individual movements, and every other movement that can possibly aid the cause.

The rising generation is a very different one from its immediate predecessor, and hundreds of thousands of parents now live, who will weep bitter tears over the loss of ruined sons whom they now love, but over whose habits they have little or no control. We are to see but a few more *aged* drunkards, as the adulterations of liquors, now in common use, will free society from the painful sight of old men *staggering about our streets.* Future drunkards will not live half way to the common age of men, and most will die mere boys in years, yet old in loathsomeness.

The weather here is delightful, although April has been rainy, cloudy, windy, cold; and the farmers are exceedingly busy in preparing their grounds for planting, and in sowing their grains of all kinds.

More and better prepared land will be planted in this State the passing spring, than was ever before planted in it in a single year. There seems not only a better inclination among farmers to brush up New England, but many residents in the hearts of cities and villages, are giving attention to agricultural matters, and every where about villages they are planting fruit trees in enclosures and ornamental trees about the streets and public highways. We have wisely dispensed with all kinds of military trainings and displays, and now we intend to have better exercises in tree-planting, spring and autumn, than we used to obtain under military captains.

There will be far more visiting the Shoals, and the beautiful beaches at Hampton and Rye, the coming summer, from this part of the country, than has been the case in past years. I hope the controllers of the railroads will invite more moving about in midsummer, than heretofore, by reasonable fares on accommodating trains between the country and the sea shore.

☞ Quite a sensation was produced in the Universalist Church, at Bangor, on Sunday last, by a female rising at the close of the sermon and giving an account, in a tremulous voice, of a visit to the murderer in his cell—to the causes of his downward career; she hoped he might be saved by Divine grace, and closed with an affecting prayer.

A certain editor down east, like the fox in the fable which lost his tail in a trap and wished to have all other foxes *curtailed* so that he might not be out of fashion, not knowing what democracy is or what popular sovereignty implies, wishes the *party* to agree to submit the whole decision of the question to the Judicial Courts! *Judicial democracy!* What a brilliant idea.—*Bath Times.*

☞ An insurrection against Geffrard, the new President of Hayti, is reported by letters of April 6. An insurgent attempt had just before been suppressed at Cape Haytien. The rebels are blacks, instigated by jealousy of the domination of mulattoes.

FRUIT TREES.—A very large number of fruit trees have been set out in southern New Hampshire within ten years. Many of these have been destroyed by the borers, and some by mice, poor soil and other causes. The number sold and transplanted this spring equals and perhaps exceeds that of any previous year.—*Man. Amer.*

☞ Col. F. J. Coffin, of the 8th Massachusetts Regiment, has been honorably discharged by the Governor of that State, having been in the militia service upwards of thirty years.

PHILADELPHIA, May 3.—The election here to-day, for various municipal officers, passed off quietly. It is generally conceded that Dr. James McClintock, democrat, is elected City Treasurer, and that the Democrats will probably have a majority in the Council.

☞ Commander J. S. Paine, U. S. Navy, died at his residence in Portland Monday morning, aged 60 years. He has been an efficient, brave and valuable officer.

The snow banks still gleam on the Temple and Peterborough mountains, but a few more sunny days will turn them into rivulets.—*Man. Amer.*

☞ The flour mills in Rochester and Oswego, N. Y., have nearly all stopped running, on account of the high price of wheat.

LOUISVILLE, May 3.—The Democrats of the Ashland District have nominated Capt. W. E. Sims for Congress, vice J. B. Clay, who declines a re-nomination.

☞ The ice has all disappeared from Lake Winnipisseoge. The steamer Dover has commenced her trips from Alton Bay to Centre Harbor.

NEW ORLEANS, May 3.—Col. Stockbridge's agent at Pike's Peak, reports that numerous disappointed miners are joining his expedition.

A letter from San Francisco states that silver dollars are to be coined at the branch mint in that city at an early period.

A week filled with selfishness, and the Sabbath stuffed full of religious exercises, will make a good Pharisee but a poor Christian.

☞ The Philadelphia papers are unanimous in their praise of Madame Biscaccianti, and her concerts in that city have been successful.

The story that Mr. Sickles is to be canonized, and to become the titular Saint of the domestic altar, needs confirmation.—*Bath Times.*

☞ The Charleston (S. C.) Mercury says of the next Democratic Presidential Convention, "unless it is limited exclusively to delegates from the South, it will be no Convention of the Democratic party."

Mrs. Frances B. Smith of Middletown, N. Y., late of Egremont, upon rising the other morning in usual health, found that she had lost the entire sight of one of her eyes.

☞ A friend suggests that it will not be an exaggerated estimate to say that half a million acres of land will be turned over today by the plow within the Northern and Western States.

The worst fault is a false heart, and the least comely covering that can be imagined is a false hood.

☞ The Judson girl at Pontiac, Mich., who married a negro some time ago, and was afterwards divorced through the efforts of her parents, has run away and married the negro the second time.

The report that Rev. Isaac S. Kalloch of Boston has been invited to Rockland, is denied by the Gazette of that city. The invitation is to Rev. *Joseph* Kalloch of Waldoboro'—uncle of Isaac—an older and it is hoped a better man.—*Bath Times.*

☞ Moses Huntington of Amesbury had fifty dollars' worth of sheep killed on Saturday night last, by dogs. The police officers of Amesbury are making a business of killing dogs. That's right—kill all you find "laying round."

The sunshine of life is made up of very few beams that are bright all the time.

Sagamore House,

ON FROST'S POINT, RYE, N. H.,

At the entrance of Little Harbor, 3½ miles by land, 2 miles by water, from Portsmouth. The House commands a view of Portsmouth, New Castle, Kittery, the Navy Yard, Forts Constitution and McClearry, Portsmouth Harbor and the Isles of Shoals. The House is nearly new, and commodious, and has been occupied as a Summer Hotel. The out-buildings consist of a barn, corn house and bowling alley, all in good repair. The grounds contain Six Acres, bordering Little Harbor and the sea, and are well stocked with Fruit Trees. The facilities for sailing, fishing and bathing are unequalled, rendering it a desirable place for a private residence, a private boarding house, or a public house.

FOR SALE.

The balance of the Sagamore Farm, adjoining the above, containing

Forty-three Acres of Land,

of excellent quality, suitably divided into mowing, tillage, and pasturage, with a fine lot of Fruit Trees on the same, and will be sold as a whole or in lots, as purchasers may desire,—all on liberal terms.

For further particulars inquire of the subscriber, 116 STATE STREET, PORTSMOUTH.

SPECIAL NOTICES.

SEWING MACHINES.

The Grover & Baker are always preferred, when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

We have seen Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair. We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never know a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

GALLERY, No. 33 Congress Street,

consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.

A. GREGORY.

N. B.—I do not charge any more for good Pictures, than is paid every day for poor things.

WEAKNESS OF THE KIDNEYS.—In the affection of the kidneys, called "Bright's Disease," the general prostration and lumbar weakness generally resist all medical treatment, and the patient sinks slowly, but surely into the grave. If disorganization has not proceeded too far, the PERUVIAN SYRUP will arrest the granular disease, and restore the patient to comfortable if not to perfect health.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontirumenos.

R. R. R.

POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the R. R. R. Remedies prompt, quick and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Chronic Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Fevers, Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Health and Strength secured by the use of
THE SPRING AND SUMMER MEDICINE,
Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to combine the greatest amount of Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to pass with a new strength every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and is torpid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine, it is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, CHALIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to cold water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, hoteliers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER is IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Peaker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. Smith & Co., 20 Exchange st.; Gilbert, Abbott & Co., 78 Broad st.; Deland & Snow, 34 Elm st. and other. In Portland, Me., of H. H. Hay & Co., C. W. Atwell, and C. C. Mitchell & Son.

☞ Preaching at the Methodist Conference (State Street Church) this afternoon at half-past 2. Also this evening at half-past 7, the Annual Conference Sermon, by Rev. Eleazer Smith, former pastor in this city.

☞ The City Council of Newburyport have voted to appropriate five hundred dollars for the purpose of celebrating the coming Fourth of July, provided the citizens will add, by private subscription, three hundred dollars more. Where's Portsmouth?

There have been large operations in Eastern Railroad stock, the past week, capitalists taking up the floating stock as it is offered for sale. Those who have looked into the condition of the company, express the belief that the road will soon be able to make a return of interest to its stockholders, and this fact gives a decided buoyancy to the shares.—*Lynn Reporter.*

MUSICAL CONVENTION.—As will be seen by advertisement in another column, Professor W. Williams of Boston (everybody who thinks he knows how to play and give lessons on the piano is dubbed *professor* now-a-days) is to hold a musical convention in this city next week. He has conducted similar bodies in other places, and the papers generally speak favorably of his ability.

REAL ESTATE SALE.—As will be seen by an advertisement in our paper today the estate at the Creek, opposite the Woodbury mansion, recently occupied by Joseph Bunning, consisting of a dwelling house, greenhouse, and several acres of land, is to be sold at auction on Saturday next. The lot is a pretty one, and will cut up to advantage for building lots. A lot of greenhouse plants will be sold at the same time.

☞ "John Halifax" writes to the Boston Journal, but does not give the source of his information, that an accurate count of the votes of Senatorial District No. 1 shows that Bennett, the Democratic candidate, was chosen Senator at the late election by twenty-three votes over Dow, Republican.

NAVAL.—The U. S. sloop-of-war Dale is daily looked for at this port.

The sloop-of-war Portsmouth, now at this station, is nearly ready for sea, and will leave next week to join the African squadron.

☞ There are a good many ministers and mariners about town at present—the Methodist Conference and the fitting out of the U. S. ship Portsmouth having drawn them hither. The sailors appear to receive most attention—perhaps because they have the most money to spend.

☞ The next lecture of the course before the Young Men's Christian Association, will be delivered by Rev. Mr. Patterson on Sunday evening, May 15th, at the Universalist Church.

☞ It is stated on what is deemed most reliable authority, that the Pike's Peak gold stories have been circulated by fillibuster leaders, for the purpose of attracting adventurers to that region, with a view then of taking advantage of their disappointment, and forcing them into a crusade against Mexico.

NEW YORK, May 4.—[Washington correspondence.]—Dispatches are being prepared at the State Department which will go out by special bearer to our Minister at Mexico. The administration have determined to lend its power and influence in aiding and sustaining the Juarez government, and thereby insure if possible its permanency. The course pursued by Miramon, taken in connection with the action of the British and French ministers, necessitates this prompt and decided action of our government.

Orders have been given for the steamers Water Witch and Fulton to be put in readiness, and they are to be despatched to the Gulf. Our squadron in the Gulf is to be largely augmented.

The Cabinet has now under advisement an important question as to the boundary line between the United States and the British North American possessions as fixed by the treaty of 1846. The matter in dispute is concerning the possession of certain islands in the Gulf of Georgia, which islands are claimed by both governments. The Commissioners who were appointed to settle the boundary line had disagreed on this point, and the matter is now the subject of direct negotiations between the English and American Cabinets. The President is of the opinion that these islands belong to us. One of them, San Juan, is the Key to the Gulf of Georgia.

The War Department insists that the removal of Judge Cradlebaugh is not to be construed as casting a reflection upon Gen. Johnston, who obeyed his original instructions in responding to the requisition of the Judge upon him for troops. It is believed that the misunderstanding between him and Gov. Dunning can be reconciled. The proof is unquestionable that the Mormons combined with the Indians to kill the Arkansas emigrants.

Dispatches from Mexico represent the position of our government there as more complicated than has been supposed.

A woman in Bangor, Me., has rejected the whole spiritual doctrine, and pronounced the dogma a humbug and imposition. She was formerly a stern believer, but the spirits on a certain occasion accused both her husband and herself of infidelity, and the woman of the house indignantly rejected the entire creed and violently denounces it.

THE MASSACRE OF FOREIGNERS IN MEXICO.—The Reactionary, or party of the Romish Church, having gained a momentary ascendancy in the city of Mexico and vicinity, have been committing a series of dreadful atrocities. The city of Mexico correspondent of the N. O. Picayune says:

"Three doctors, a Mexican, an Englishman, and an American, with two young students and a lad of 12 years, who were found by Marquez in the hospital, dressing or helping to dress the wounded of both parties, were by the orders of this bloodthirsty villain dragged out and shot.

It appears that such deeds of blood and murder were not approved of by all the members of Miramon's Government; for the Minister of War, Castillo; and the Minister of Justice, Sagusita, have resigned, and Corona has been appointed to the former post. Gabriac, the French Minister, a Jesuit, is believed by all to be the instigator to these acts of cruelty which can only be called assassination."

In a later letter the same correspondent gives the names of the murdered men, in all 26, several of them being private citizens, and some were boys.

Several of these citizens were dragged from their houses, and were not allowed to communicate with any one before their death. As for trial of any kind that was not pretended. They were, in truth, shot like dogs, amid the jeers of the drunken soldiery and the curses of the priests who were urging them on. This may appear incredible, but I am assured that priests were seen in their robes stimulating the soldiery to destroy all the *malditos* (accursed.)

The two American citizens had come to Tacubaya with the Federalists, and would have retired with them had it not been for the prayers of some women who reproached them for thinking of leaving poor creatures suffering while they could render them aid. It was said to them that the Government people could not be such savages as to even molest medical men, especially when they were attending to their own wounded. But, nevertheless, they were dragged from their suffering patients and hurried on to be murdered with others equally as innocent as themselves. Since that bloody night persons have been assassinated by the bloodhounds of the clergy, in all parts of the valley. Every day bodies are found, in out of the way places, showing that they have been the victims of the times in which we live, in the capital of Mexico."

PITTSFIELD, May 3.—A melancholy event transpired at North Adams on Sunday. Miss Martha Butler, a young lady, died in the morning, under circumstances leading to the belief that her death was caused by an attempt to conceal her shame. Charles R. Littlefield, cashier of the Adams Bank, was suspected of being implicated, Miss Buttler having confessed on her death bed that she had been ruined by him. Littlefield, resigned his place in the bank and fled on Sunday night, and has not yet been taken. His accounts with the bank are all right. He is a married man, with a fine family. He is a native of Dover, N. H.—Miss Buttler was reputed the most beautiful and accomplished young lady in Adams.

A FUGITIVE SLAVE EXCITEMENT.—*Zanesville, O., May 3.*—A fugitive slave named Jackson, of Clarksburg, Va., was arrested here last night and taken before Judge Marsh, who this morning decided that the prisoner was illegally held, and discharged him. He was re-arrested, put in irons and driven to the depot for the purpose of taking him to Wheeling. A desperate effort was made by the negroes to rescue him, and during the excitement clubs and pistols were freely used, and several persons were badly injured. The attempt to rescue proved unsuccessful. Meanwhile a writ was served on the Marshal, commanding him to bring the prisoner before the Court. This point has not yet been settled. The excitement in regard to the matter still continues very great.

WASHINGTON, May 3.—The official statement, just prepared for publication, shows that Congress at the last session appropriated for legislative, executive, civil and miscellaneous purposes, nearly $11,000,000; for the diplomatic and consular service $1,048,000; for the Indian department, revolutionary and other pensions, upwards of $3,250,000; for army, fortifications, and military academy $15,249,000; for the naval service $10,527,000; and for the ocean mail steam service $341,229; making a total of $41,367,699. In addition to the above about $7,000,000 should be added for the indefinite appropriations, and to carry out the provisions of pre-existing laws, including the collection of revenue from the Customs.

☞ The Boston Atlas and Bee announces the accession to its editorial corps, of Gen. Joseph C. Abbott of Manchester, N. H. Gen. Abbott was for six years editor of the American, is well known in the State as a clear, forcible and elegant writer, and has a thorough knowledge of the political history of the State and country. His connection with the Atlas will give to it a largely increased value among the people of this State, and add to its circulation.

AN ACCIDENT, ALMOST.—When the late train of the Boston and Maine Railroad on Saturday evening last was a mile or two south of Haverhill, it crossed a small bridge which was *on fire.* The train was imediately stopped, and backed over the bridge, and with water from the tender the fire was extinguished. Many of the passengers were alarmed, but none were hurt.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercise and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

SPURGEON ON TEMPERANCE. — The temperance papers are justly animadverting on the position which this distinguished divine holds in relation to the temperance reform. In a late discourse, he said:

Oh, if the souls of departed drunkards could be seen at this hour by the Christians of Britain, they would tremble, lift up their hands in sorrow, and begin to weep; my soul might be an everlasting Niobe, perpetually dropping showers of tears, if it might know the doom and destruction brought on them by that one demon, and by that one demon only! I am no enthusiast; I am no abstainer; I do not believe the cure of England's drunkenness will come from that quarter. I respect those who thus deny themselves with a view to the good of others, and should be glad to believe that they accomplish their object. But though I am no total abstainer, I hate drunkenness as much as any man breathing, and have been the means of bringing many poor creatures to relinquish this brutal indulgence.

The editor of Life Illustrated remarks:

We can not understand such logic. If intoxicating drink is the demon the Rev. gentleman alleges, and the sole cause of drunkenness, why not abstain wholly?—Would Mr. Spurgeon apply such reasoning to any moral or theological demon?

What does he mean by "respecting those who *deny* themselves"—foregoing the pleasures of embracing the "demon" for the benefit of others? How can a man be a consistent reformer, a preacher of righteousness, while he approves moderation in sin of any kind? We fear this eminent clergyman has been misled by the false teachings of the chemico-physiologists.

LONGEVITY AMONG ENGLISH QUAKERS. For some time past the pages of the London Lancet have been enlivened by a controversy on tobacco, its uses, abuses, etc.—Among the items which have been developed in the course of this discussion, a correspondent, "D," furnishes the following to the N. J. Medical Reporter:

Mr. Niel having asserted "that Quakers who never smoke, reach a good old age," I was determined to make inquiries on the subject, and find that here and there a smoking Quaker is to be met with, but that the habit is not common with members of the Society of Friends. Of course, there are exceptions to every rule. The following statistics can not fail to prove interesting to general readers. Smoking not only leads to drinking, "but it diminishes the *saccharine* constituents of the blood."

"In the year 1855-56 there died 287 members of the Society of Friends in Great Britain, of whom there died from birth to five years old, 37; from 5 to 10, 8; 10 to 15, 5; 15 to 20, 12; 20 to 30, 18; 30 to 40, 17; 40 to 50, 19; 50 to 60, 23; 60 to 70, 46; 70 to 80, 50; 80 to 90, 43; 90 to 100, 3."

From this it will be seen that the *greatest* mortality among Quakers is between the ages of 70 and 80; the next greatest between 60 and 70, and the third greatest between the ages of 80 and 90.

This shows in the clearest light, the benefits of Quaker temperance, regularity and order in all things.

A RAFT.—The Bath Times says, "We take up a professed organ of democracy, fully in the confidence of an administration placed in power by democratic votes, and filled to repletion with the tokens of executive regard in the shape of Departmental patronage; and in such a paper, in New England, in the State of Maine even, we find the doctrine distinctly laid down that the democrats of a State have no right to dissent from the doctines laid down by a federal convention; that they have no right to interpret principles for themselves; that they have no right to provide against sinking to irretrievable ruin with a national administration; that they have no right to construct a raft even, on which to maintain their existence, should the national ship under bad management or through the treachery of its officers, drift upon the breakers or founder in the open sea."

☞ Rev. Dr. Bellows, of New York, presided at the inaugural services of the new Unitarian Church of the Redeemer in Cincinnati, on Sunday, the 24th. The services were held in the Universalist Church on Plum street, the use of which was given for the occasion, and Dr. Bellows preached both morning, and evening to overflowing houses. Dr. Bellows thus defined his theological position:

He feared one of two things—either that the old orthodoxy would be revived, or that there would be a sudden rush into rationalism. The duty of the Unitarians was to maintain a definite and demonstrable theology, to show that "Jesus Christ was not God," in any honest sense; that He never said He was, but that he was "God manifest in the flesh," "God's truth, and love, and character in man."

WIT-LINGS.—Madame Goldschmidt is announced as going to *"find* the loan" of her voice to the good people of Manchester, England. Jenny-rous, very!

A neglected author may be said to *be*, as well as to have, "nary read."

THE GREAT WONDER
Of The Nineteenth Century.
PROFESSOR WOOD'S
HAIR RESTORATIVE.
Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:
BATH, ME., Jan. 20, 1856.
PROFESSOR O. J. WOOD & CO.:
GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.
The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of this letter, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,
A. C. RAYMOND.
BALTIMORE, Jan. 23, 1858.
WOOD'S HAIR RESTORATIVE.
Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.
FINLEY JOHNSON.
The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.
Brookfield, Jan 12, 1858.
Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.
Yours truly, J. K. BRAGG.
The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retailing at $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

DR. J. B. HUGHES,
KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than two-thirds of this number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.
P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 1ly

SUICIDE. — Tuesday forenoon a well dressed man named Horace Keith was taken to the 4th Police Station, Boston, suffering from the effects of dissipation, and placed in one of the cells for safe keeping, while an officer was in search of his relatives for the purpose of seeing what disposition should be made of him. Upon the return of the officer, and on going to the cell, Keith was found weltering in his blood, having cut his throat, severing the jugular vein. He gasped once or twice and expired. The deceased was very respectably connected, and was about 35 years old.

A YANKEE WOMAN'S PERSEVERANCE. The Cleveland Herald says that Delia Webster, the Yankee school ma'am, who has been driven out of Kentucky two or three times, put in prison once, and robbed of her property there because suspected of abolition sentiments, has lately arrived in Madison, Indiana, with thirty families from Massachusetts, and intends to start a shoe factory on her farm in Milton, Kentucky.—Whether she will be allowed to stay there remains to be seen.

☞ Austrian finances are in a deplorable condition. A Paris letter in the Journal of Commerce says it is reported that the government has seized upon the metallic reserve of the Bank of Vienna. A forced loan is also supposed to be in contemplation, to the great alarm of the wealthier portion of the community. Even the army is reported to be showing dangerous symptoms of dissatisfaction, arising from long arrears of pay.

☞ Sir James Graham, in a recent speech in Parliament, argued that the bulk of taxation was paid by the working classes, and that the duties on six articles, sugar, tea, coffee, malt, tobacco and spirits, nearly covered the interest on the national debt.—This is a remarkable fact, and the more so as none of the articles named are positively necessaries, and half of them are injurious luxuries.

☞ Prof. N. C. Morse, of Louisville, recently took as payment of a debt of long standing, fifty acres of land in the western part of Tennessee, at the rate of $40 per acre. Prof. M. made a visit to his newly purchased farm, and upon examination of the soil found that it contained immense quantities of lead ore. He has been offered $1000 per acre for the land, but he will erect furnaces and get out the ore himself.

HONOR TO WHOM HONOR IS DUE.—In 1827 a large Boston dealer in boots and shoes failed for $60,000. He compromised with his creditors for 50 cts. on a dollar. But it took two years of severe labor and careful management to get even that. He came from that trouble a poor man, but he resolved that he would master his misfortunes. Starting again with the hope of redeeming the pledge made to himself, he still met with reverses, until, as we learn, some five or six years ago the prospect of doing what he had so long cherished, seemed hopeless. But at last fortune smiled propitiously. On Thursday morning one of of our largest and oldest manufacturers received a check from his old customer for the balance of the amount due when he broke down in business, 22 years ago. Such an instance must be necessarily rare, because so many years of business life, after such a general bankruptcy as that of 1837, is the lot of but very few.—*Milford Jour.*

WOOD SAWING.—We saw an ingenious Yankee—of course he could be nothing shorter—on our streets yesterday with the model of a machine for sawing wood. The stick is held firmly by a clamp, and by simply turning a crank a saw, framed something upon the principle of a common wood saw, is made to perform its work with wonderful rapidity. The model would cut wood about the size of a hoe handle, and judging from the way it worked, the machine will soon become a necessity in every "well regulated family." It will make a good accompaniment for the piano forte and sewing machine. The price is about $10. The inventor is from New Hampshire—of course.—*Bath Times.*

PATRIOTIC.—At the time of the Mount Vernon subscription in Newburyport last winter, a little girl—a sick child, and the daughter of a poor widow—who had no money to contribute, but who had much taste and skill in working wax into artificial flowers and fruit, made a beautiful cluster of grapes with leaves attached, which she sent from her sick bed to one of the ladies collecting funds. The spirit that animated this girl would not alone perpetuate the memory of Washington, but give new Washingtons in every quarter to perpetuate liberty.—*Newburyport Herald.*

N. H. METHODIST CONFERENCE.

The meeting of this body of preachers in our city, on Wednesday, the 4th inst., is the leading event of the week. The unusual loveliness of the day of their assembling contributed to swell the audience who met with them to participate in their opening exercises, whose interest was greatly augmented by the presence for the first time of Bishop E. R. Ames as their presiding officer. The devotional exercises consisted of reading the scriptures, singing, prayer, and the administration of the sacrament of the Lord's Supper. In the last named service, the Superintendent was assisted by Rev. Messrs. J. Hall, E. Adams, E. Smith, and the presiding elders of the Conference, Rev. Messrs. J. Thurston, A. C. Manson, and L. Howard.

These services ended, the roll of the Conference was called by the Assistant Secretary of last year, Rev. J. W. Guernsey,—Rev. R. S. Rust, the Secretary, being absent. Nearly all the effective and some of the superannuated preachers answered to their names.

The next item of business was choosing by ballot Rev. J. W. Guernsey to the office of Secretary of the Conference, for which he is eminently fitted.

Other business matters, such as fixing the bar of the Conference, and appointing the various standing committees, were next disposed of, after which the Rev. Mr. Floy, D. D., of New York, addressed the Conference in some very happy remarks upon the Tract Cause, urging its imperative claims to the hearty support of the entire connexion. The origin, merits and condition of various Tract organizations were adverted to, and some interesting facts presented.—"The first Tract organization," said the speaker, "ever formed in England was started by J. Wesley and Dr. Coke, seventeen years prior to the formation of 'The London Tract Society.' And in this country, Francis Asbury formed a similar organization twelve years before the American Tract Society was started." Of these facts few out of the M. E. Church are aware.

At 12 M. the Conference adjourned.

The afternoon services, according to custom were public.

Dr. Floy gave a very impressive discourse upon Matthew 14:31:—"O, thou of little faith, wherefore didst thou doubt?" His exordium consisted in a thrilling description of the scene on the sea of Galilee. His first point was the simple proposition "that whatever Christ bids his followers do, he will give them ability to perform." He next presented the means of appropriating that ability—simple faith in Christ—a faith that is unquestioning, and looks to Christ alone. It was a sermon worthy of the man and the occasion.

The evening services were also highly entertaining.

Rev. D. Wise, Corresponding Secretary of the Sunday School Union, presented the claims of that cause in his usually felicitous style. The seemingly invidious comparisons he found himself required to make between the Methodist and similar institutions, he justified on the same ground the carpenter does the use of his rule—to measure his work. The address was well spiced with anecdotes and listened to with unflagging interest to its very close.

THURSDAY, May 5.

The usual devotional exercises of the Conference were performed by Rev. J. Currier.

Rev. Dr. Larmen, delegate from the N. H. Baptist Association, was introduced to the Conference, and thrilled the hearts of its members with earnest words of fraternal greeting. The spirit he evinced, even more than the words he uttered, rendered his communication from the sister church he represents highly gratifying.

Other matters of minor interest next engaged the attention of the Conference, after which the case of Rev. Mr. Lewis came up for reconsideration, and he was restored to his former rank, much to the gratification of all who know him.

The next item of interest related to the financial embarrassments of one of the churches, and elicited some very stirring remarks from Rev. Messrs. L. D. Barrows, C. Holman, and S. Holman. The practice of building new church edifices, without ability to pay expenses, was deprecated as injurious to the cause, of which the church in question affords a sad illustration.

The question of fixing a place for holding the next session of the Conference then came up, and Manchester was appointed.

At 12 M. the Conference adjourned.

SIMPLEX.

SAGAMORE HOTEL, LYNN.—We are gratified to learn (form the Lynn Reporter) that this excellent house is receiving a large share of the patronage it so well deserves. The accommodating hosts, Messrs. Thomas Rand & Sons, spare no pains to make their visitor comfortable and happy, and the facilities at their command, in this well arranged hotel, are rarely surpassed by those of any suburban house in the country.—The rooms are fast becoming engaged for the coming season, and owing to the closing of the Nahant House, the applications for accommodations promise to be greater than the house will afford.

ANOTHER WILL GONE.—The Supreme Court have set aside the will of the late William Stubbs of Suffolk county, on the ground of his having been unduly influenced by his wife. So they go; let them go; the more the merrier. Let all those who have wills take notice and govern themselves accordingly. Give your money while you live; or you do not know where it will go. There is an open rebellion of the live men against the government of the dead, and it cannot fail of success. We wish some of those old wills that entail property in this city, to the public injury—some of them keeping cow pastures in the centre of the city—might be sent where Mr. Stubbs' document has gone.—*Newburyport Herald.*

DARTMOUTH COLLEGE.—Exercises for Commencement, Thursday, July 28. Twenty-six of the graduating class, who were drawn by lot, have subjects assigned.—"Frederick the Great—as a Hero of History," is the subject assigned to W. G. Veasey of Exeter. The annual examination of the students will commence on Monday, July 18, and continue through the week.—Tuesday afternoon, July 26, is Class Day, and Benj. F. Hayes of South Berwick, Me., is to be the orator. On Wednesday, July 27, Hon. Caleb Cushing of Newburyport, Mass., will deliver an address before the Phi Beta Kappa Society. On the same day, Hon. Henry C. Deming of Hartford, Conn., will deliver an oration before the United Literary Society, and Park Benjamin, Esq., of New York city, a poem. The Boston Brigade Band (18 pieces) will give a concert on Wednesday evening. The whole number of the graduating class is 76.

PREMIUM FIRE WORKS.—Messrs. James G. Hovey & Co., were the first to erect a Pyrotechnical Laboratory in New England, and are the most experienced in this line. For the accommodation of their extensive trade, they have, during the past season, among other improvements, introduced *New Portable Pieces in fire works, particularly adapted to convenience in packing, distant trasportation, and economy in freight.* See Advertisement.

On Saturday evening Mrs. Mary Ann Nason, wife of Luther J. Nason, of Lowell, committed suicide by jumping into the Merrimack canal. She was a very attractive young woman only 18 years old, and was married last August at Salem where she had been concerned in the famous strike of last year. She has recently worked in the Hamilton Mills and her husband in the Machine shop. She was led to the act by some domestic trouble, but nothing casting any blame upon her husband. She came originally from Belfast, Me.

☞ The old meeting house on Nottingham Square has been sold by the town, and is about being taken down. The town have also sold the bell. Thus will pass away one of the old and well remembered objects of that beautiful landscape,—the church having been easily seen for many miles distance, in every direction.

THE SICKLE'S TRIAL is finally ended.—Whether justice has been done, is a question that will admit of some argument, but which it is vain to discuss now. The dead have gone to render up their account—the living have yet to answer to their God, who seeth not as man sees, and judgeth a righteous judgment. To Him we leave the living and the dead.—*Lynn Reporter.*

☞ The freshet in the lower Mississippi still continued at last accounts, the water being several inches higher than last year, and the accounts from the upper rivers leave no room to hope for any immediate cessation of the flood at present. The damage caused has been very great.

☞ It is said that Sir E. Bulwer Lytton will make about £15,000 out of his last novel, "What will he do with it?" Another 5000 edition of his two guinea four volume has been issued. Say the profit to him is only a clear half, (says the Court Journal,) and there goes into his pocket a sum equal to his year's salary as Secretary of State.

☞ The total expenditure on the works of the Grand Trunk Railway, up to the present time, is £8,426,200. By the time £10,000,000 is expended, the road will be opened from Sarnia to River du Loupe and Portland, a distance, including the Victoria Bridge, of 1057 miles.

☞ A large number of colored people in Chicago are making preparations to emigrate to Hayti, having accepted an invitation from President Geffrard to settle in the island.

MARRIED.

In this city, on Thursday morning, May 5th, by Rev. Dr. Burroughs, Mr. George A. Gerrish of Boston, to Caroline Parker Kimball, daughter of David Kimball, of this city.

In Great Falls, Charles Tebbetts of Farmington, to Mrs. Emily Varney of Berwick.

DIED.

COOPER'S NOVELS,

ILLUSTRATED ON STEEL AND WOOD,

FROM ORIGINAL DRAWINGS BY R. O. C. DARLEY.

The Publishers commenced February 1st, 1859, the publication of an entirely new edition of COOPER'S NOVELS, issued with great elegance, and illustrated on steel and wood, from drawings by F. O. C. Darley. The size is royal octavo; the type clear and elegant; it is printed on a beautiful cream-tinted and calendered paper, of superior stock and finish, manufactured expressly for this edition; and bound in embossed cloth, with beveled edges, and stamped in gilt upon the side and back, from new and appropriate designs.

Each volume contains two steel plates, and twelve designs on wood, all from the pencil of Darley, making a total in the series of FIVE HUNDRED ILLUSTRATIONS, at a cost exceeding *Twenty Thousand Dollars.* The steel plates are the most costly works of art of their kind yet produced in this country. The spirited and admirable drawings by Mr. Darley, whose genius was never so much at home as upon the picturesque pages of Cooper, have been engraved with bank note delicacy and finish, in the best Etching, by the most eminent engravers, at a cost far exceeding the usual expenditure upon publications of the kind.

Published in Monthly Volumes, $1.25 per volume, each volume containing a novel complete.—The publication commenced February 1st, 1859, and a volume will be issued on the first day of each month. The entire series will be completed in 22 volumes, uniform, embracing all the author's tales and romances, and containing his latest revised and corrected edition.

SPECIAL NOTICES.

SEWING MACHINES.

The Grover & Baker are always preferred, when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

ALLEN & PAINE.

WEAKNESS OF THE KIDNEYS.—In the affection of the kidneys, called "Bright's Disease," the general prostration and lumbar weakness generally resist all medical treatment, and the patient sinks slowly, but surely into the grave. If disorganization has not proceeded too far, the PERUVIAN SYRUP will arrest the granular disease, and restore the patient to comfortable if not to perfect health.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the R. R. R. Resolvent invaluable. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable herb carminatives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic yet offered.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that peculiarly acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing nervous tenuces which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounced the Imperial Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-five cents, by Druggists, Grocers, fruiterers and country merchants. Beware of imnitations. Buy only CHARLES'.—NONE OTHER is genuine.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. Tucker, 20 Elm st; Jim st; Blakistone st; M. Davis & Co., 57 Blackstone st; J. For the Chronicle.

SURPRISE AND PRESENTATION.

On Monday evening, as the members of Atlantic Engine Company, No. 6, were holding their regular monthly meeting at their Engine House, they were surprised by the entrance of about seventy of their lady friends, who after taking possession of their hall, presented the Company with a splendid silk American Flag.

Miss Lizzie Hoit presented the gift with the following addresss.

Mr. Foreman, and Gentlemen of the Atlantic Engine Company No. 6:

At the solicitation of the ladies present, I would say to you, that as the warm sun's rays penetrate the earth, bringing forth fair flowers to life and beauty, so does the brave, daring and noble self-forgetfulness of the firemen penetrate our hearts, waking therein fair flowers of love and gratitude; and as all that we behold is but the outward manifestations of a hidden power, so this Flag is but a slight manifestation of the friendly feelings existing in our hearts for you. Will you accept our offering.

"Deeds, not words," they tell the story
Of a noble, gallant band,
Who have made it their chief glory
To assist their brother man.
We with grateful hearts would bless you,
God-crowned heroes of the land.

"Deeds, not words," aye, look around you,
'Tis by deeds that God is known,
And we thank him that he crowned you
With a language like his own—
Crowned and blest with hearts too God-like
To waste life for self alone.

"Deeds, not words," will read the token,
Unity is strength and might;
Brothers, keep your band unbroken,
And like the eagle in its flight,
Onward press in strength and beauty,
Up to liberty and light.

To this, Captain Foye responded as follows:

Miss Hoit, and Ladies:

In behalf of the Atlantic Engine Company, I would return you our heartfelt thanks, for the beautiful Banner which you have this evening presented to us. It is such occasions as these, added to the interest which you have evinced in our welfare, that nerve the hearts of firemen to the performance of their duty faithfully and fearlessly. The life of a fireman is at best a life of hardship, and although here, in our quiet city, there is not so much occasion for the exposure of life and limb that there is in cities of a larger growth, yet even here the raging element has sometimes gained a partial victory, and required the most strenuous exertions from the hands of those who are united together for the purpose of saving your homes from that element which knows no master except the fireman. Allow me to express the hope that as long as the stars and stripes wave over us, we shall ever remember this happy occasion, and treasure it up in our memories as an event which can be looked upon in after years with pleasure.

On the conclusion of the above ceremony, the Company, finding the house too small for their comfort, adjourned to Jefferson Hall, where under the excellent music of Mr. Lamprey and the Portsmouth Cornet Band, (who gave the Company another agreeable surprise by their appearance at the Hall,) the evening passed away most pleasantly. After they had enjoyed the merry dance to the satisfaction of all, they adjourned to the Engine House, where a supper was prepared, to which ample justice was done; and the Company and guests retired to their homes, well pleased with their evening's entertainment. Q.

☞ So much have our advertising columns been crowded for several weeks past, that we are obliged to adopt a more condensed style of setting them up. We shall hereafter dispense with all large or black staring types, as much as possible—and setting all advertisements alike, in a plain, neat form, thus give all our patrons as good and equal a chance as ever before. Of course, however, no one will expect so much room or so great display, for $25 per year, as we give for a couple of hundred. We have had numerous applications for double-column advertisements, to put advertisements sideways, &c., but we uniformly decline—having as much as we can do to accommodate the favors of our patrons in the legitimate straight-a-head way—without indulging in monstrosities, which we abominate in advertising as well as elsewhere.

On the first of June we shall probably enlarge the Daily Chronicle by lengthening the columns, so as to give us about a couple of columns more room. This will make the paper as large as can well be printed on our present press—and by condensing all notices not stipulated for as to length, and confining yearly advertisers strictly to their due limits, we may be able to properly and promptly accommodate all our patrons, which we cannot do at present.

☞ The Rockingham Weekly Chronicle containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents, $1 per year, in advance.

Among the contents this week, is a full report of the Methodist Conference up to Thursday.

☞ The manufacture of shoes is an important and interesting branch of business in Dover, where several large buildings are entirely devoted to it.

☞ Subscribers to the Weekly Chronicle will please remember that our terms are $1.50 per year—and $1 will hereafter be received *only* when paid in advance. When paid within six months from the commencement, $1.25 per year will be charged—and at this rate we will settle *all* bills now due, which may be paid before June 1st,—after which time $1.50 will be charged. We are determined to make our Weekly list an advance-paying one, as our Daily list has always been. A Barrington subscriber writes us as follows:

Enclosed is $1, &c. Procrastination is a common fault of humanity, and is the only apology I have for not sending the subscription for the paper before. I like your paper,—its tone, its spirit and politics meet my approbation. I wish you every success.

Now if all those who owe like him, will go and do likewise, (without waiting so long) they will *help* us to the success they no doubt all "wish" us. There are a few who owe us for nearly a year—if they will send us $2, we will forward them receipts for two years, the past and coming year.

☞ We devote considerable space to a report of the jollification of Atlantic Engine Company, the other night—which was handed us by a friend, with request of publication. We should have mentioned this agreeable compliment paid the Sixes, next morning, but for the fact that a committee of that enterprising Company, on a certain public occasion last winter, conducted themselves toward the Chronicle, in a manner from which we might fairly infer that any notice of ours would not be duly regarded. It might be the fault of the committee alone, however, and not the whole Company.

A SWINDLER AT CHARLESTOWN NAVY YARD.—Simultaneously with the retirement of Commodore Stringham from the command of the Charlestown Navy Yard, certain developments are made, which implicates a man named J. A. Bartlett,—who for three years has filled the post of confidential Secretary to the Commodore—in a series of swindling operations, in which not only the Government but numerous private individuals and firms have been victimized. Bartlett, who was formerly a lawyer in New York, was accepted by Commodore Stringham upon the recommendation of Rev. Henry Ward Beecher, at a salary of $800 a year. At the time of entering upon his duties he was accompanied by his wife, and their entire personal effects were contained in a single trunk and carpet bag; but so shrewdly has he financiered, that upon returning to New York, last week, under peculiar circumstances, his goods and chattels amounted to six truck loads, most of which appear to have been obtained under false pretences.

Among the losers by his operations is a firm of jewelers, of whom he obtained $100 in goods and money; a music dealer, who holds one of two notes for $125 each given in payment for a piano, and a gentleman on State street, of whom he borrowed $250, and upon whose claim Bartlett was arrested. In order to escape, he gave a bill of sale of the piano, on which he owed $125.

The evidence of his rascality accumulating too rapidly for his safety, Bartlett fled the city on Thursday last, and the wife, who seems to partake largely of the peculiarities of her husband, followed him soon after.

Since his departure it has been discovered that Bartlett has obtained several hundred dollars' worth of postage stamps, which he has applied to his own use.

The Boston Journal states that Bartlett enjoyed the unqualified esteem and confidence of the Commodore; was foremost in the religious education of the sailors and marines in the Navy Yard; was an efficient member of the Young Men's Christian Association, and took an active part in the prayer meetings held in the hospital at Chelsea. His transactions have created considerable scandal where he is known.

☞ A house in Haverhill, Mass., was somewhat damaged recently, and the proprietor burned in effigy, for turning a tenant, a poor old woman, into the street just at night fall.

☞ The Newburyport Herald says, by report of the doings of the Mayor and Aldermen, there is little prospect of the execution of the liquor law in Newburyport.

☞ We see it stated that Rev. George D. Henderson, a young Baptist minister in Kansas, has become an Episcopalian. Mr. H. is a native of this city.

☞ The Second Congregational Society of Lynn have added $250 to the salary of their pastor, Rev. C. C. Shackford.

☞ Mrs. Anna Harris, the oldest person in Newburyport, celebrated her 98th birthday on Monday.

Insults are like counterfeit money; we can't help their being offered, but we need not take them.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The question is sometimes asked, wherein this Machine differs from some others claiming to be Family Machines. The reply is, that between them and this there is no point of similarity. Instead of making a chain-stitch, which leaves a ridge on one side of the cloth, and which will RAVEL OUT, this makes a lock-stitch, uniform and perfect on both sides, impossible to ravel, and consuming less than half the quantity of thread. Instead of using two needles, this employs but one. Instead of a shuttle, this uses a metal spool, which insures greater certainty of stitch. Instead of turning a crank with the hand, this is moved by the foot with the utmost ease, leaving both hands free for the management of work. Instead of work moving FROM the operator, it passes before him, from left to right, as in reading and writing. In short, both in principle and operation, it stands beyond comparison with any other instrument.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

Celebrated Family Machines,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE.

PRICE $50:

Machines from $50 to $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Morning Chronicle.

☞ The editor of some paper (we think the New York Evening Post) lately wrote a nice piece, in which he said something about "the mutterings" of discontent, or some such utterance. When he saw the proof, it was transmogrified into "them utterings." He marked the error for correction, but somehow it did not get through the head of the corrector; and the editor found "them *utterings*" in the paper, greatly to his disgust, and he made the *mutterings* quite audibly, when he found the blunder would not be corrected.

In a forty years' apprenticeship at preparing copy, an editor should learn patience: and some do so. Not many days ago, we copied a few sentences from the Manchester Union Democrat, with a little introduction, saying that that paper "makes the following *remark*-able statements," by which we merely designed to call attention to them. The proof of that item we did not happen to see,—but the compositor made us say, in type, that they were *reliable statements*," which certainly was not our intention, nor was it in accordance with our opinion.

☞ An interesting movement is now going on in Scotland. The liquor dealers have been laboring hard to have the law closing all liquor houses in Scotland on Sunday repealed, and the main argument they have used is that vastly more liquor has been sold and (secretly) drunk under this law, than ever was openly under the former license system, and that Scotland is in a far worse condition now than it ever was before. The friends of temperance and the Sabbath boldly denied the allegation, and went up to Parliament challenging investigation, and petitioning that a Commission might be appointed by the Queen to go through all the cities and villages of Scotland, and make report of the effect upon the peace of the Sabbath, the morals, the pauperism and crime of the country, of closing up the drinking houses on Sunday. This the liquor-dealers warmly contested.—The whole subject was ably discussed, and resulted in the Queen's appointing a Commission to thoroughly investigate the matter. The friends of temperance and of religion have nothing to fear for their cause under such an investigation.

We remember that similar people have used the same argument here at least half a dozen times, as different measures, moral and legal, have been adopted.

☞ Speaking of the Key tragedy, and Sickles farce, a writer in the Bath Times, says:

Vindicating the honor of our homes and our families is good in itself, when our families require it; but what if we vindicate honor and virtues that do not exist?

We have no personal feelings of respect for Key. We do not forget, that he took the arm of the murderer, Herbert, and led him out of the court house, when it was his duty as a public officer to do all in his power to bring him under the control of justice. We do not forget that he has been an agent in desolating the home of Sickles, casting a cloud of gloom around his future, and that of his innocent daughter; but we cannot forget that Key was cruelly murdered in a moment wittihout warning, or a chance to defend himsef, and his children left orphans without a father's or a mother's care; these are sad reflections. Sadder still the precedent established in Washington, that shooting a servant in the hotel, or the District Attorner in the public street of the Capital, is no crime.

☞ As the "midnight train" from New York for Boston was running at full speed between Needham and Newton, a man named Augustus F. Gieling leaped from the platform of one of the cars. Gieling was in the custody of a New York officer, to answer to the charge of robbing the house of Dr. Keep six weeks since of silver ware.—The prisoner feigned illness, and at his request the officer went out upon the platform, when he suddenly sprang from the train.—The train was stopped, when Gieling was found lying on the track, taken on board and conveyed to the hospital, but he survived only about two or three hours after the accident.

☞ Among the passengers who arrived at Southampton in the India mail packet Eipon, on the 4th inst., was a Major Harriot, whom no one on board seemed to know. He was taken ill at Malta, and died at Southampton, two days after he landed there. There was no clue as to who he was, and his relatives were advertised for in the London newspapers. His nephew saw the advertisement, and went to Southampton. The Major turned out to be one of the judges who presided at the trial of the King of Delhi, and among his baggage was property to the amount of £30,000. He was about 48 years of age, and has died worth £100,000.

THE GREAT WONDER
Of The Nineteenth Century.
PROFESSOR WOOD'S
HAIR RESTORATIVE.
Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:
BATH, ME., Jan. 20, 1856.
PROFESSOR O. J. WOOD & CO.,
GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy t an it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.
The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.
BALTIMORE, Jan. 23, 1858.
WOOD'S HAIR RESTORATIVE.
Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure. FINLEY JOHNSON.
The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.
Brookfield, Jan. 12, 1858.
Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit. Yours truly, J. K. BRAGG.
The Restorative is put up in bottles of 3 sizes, vis: large, medium, and small; the small holds ½ a pint, and retails for $1; the medium holds a pint, and retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!
PREPARED BY DR. SANFORD,
Compounded Entirely from GUMS.
IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public. These Gums remove a disease often repeated in a sure cure for **Cholera Morbus**, and a preventive of **Cholera**. Only one bottle is needed to throw out of sight the **purifying blood**, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure. **Bilious Attacks** are cured, and, what is better, prevented by the occasional use of the Liver Invigorator. One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring. Only one dose taken before retiring, prevents **nightmare.** Only one dose taken at night, loosens the bowels gently, and cures **costiveness.** One dose taken after each meal will cure **dyspepsia.** One dose of two teaspoonfuls will always relieve **Sick Headache.** Only one dose immediately relieves **Colic.** One dose often repeated is a sure cure for **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose. A few bottles will cure **Dropsy** by exciting the absorbents. We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all fevers of a **Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.
All who use it are giving their unanimous testimony in its favor.
Mix one in the mouth with the Invigorator, and swallow both together.
PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,
KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who dare suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter addressed as above.
Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.
F. S.—The best of accommodations furnished, with skill and attentive nurses if they wish, at a reasonable rate. jy2 dly

☞ For the benefit of Prof. Williams' Musical Convention, to be held in this city next week, we copy the following notice of his Dover Convention, from the Ballot. It shows something of the character of the affair.

From the Ballot.

MUSICAL.—The Dover correspondent of the Boston Journal, in a notice of the recent musical convention under the direction of Prof. L. P. Whitney, and the concerts connected therewith, commends some of the musical celebrities hereabouts as follows:—

On Thursday evening a concert was held at City Hall, which passed off finely. Several solos were beautifully rendered, and the songs were hearty and refreshing. Mrs. Horne of this city, in that charming favorite, "Non piu mesta," was quite successful. Miss Horne possesses a rich *soprano* voice of rare compass and volume, touching the high notes easily, and at once wins the ear. It lacks, however, one important feature, that of recitative *con anima* quality, so indispensable in good music. A little more feeling would make it one of the best. Miss Murray of Newmarket in the beautiful song "Ever of Thee," did finely, and Miss Durgin of Exeter also charmingly in the "Gipsey Countess."

On Friday evening, at the Sacred Concert, the music was of the highest order and excellently done. Miss Mary Miller of Portsmouth, though young, coming among us with a high reputation, more than sustained it on this occasion in that spiritual and touching gem of Handel, "Angels ever bright and fair." Miss Miller is gifted with a voice of rare beauty and power, with an extensive compass, and throughout all her singing gives it that delicate expression and flexibility so invaluable in the divine art. We expect soon to note the continued success of this young lady as a vocalist. Mrs. Durgin of Exeter, in "Ask me not again," from "La Fille de Regiment," gave us one of the finest pieces of singing we have ever listened to—the gem of the evening, so full of vigour and soul, at the same time perfectly natural and spontaneous, which is a characteristic beauty in her singing. Like Miss Horne, her voice is rich and powerful, yet vivacious and expressive. In answer to a most enthusiastic *encore* we were favored with its repetition. We did not suppose that away up in New Hampshire we had so many fine vocalists. Much credit is due to Prof. L. P. Whitney of this city for the *feast*, which after so long a *fast* was certainly refreshing. We missed one favorite, however, in the solos, though we detected her rich voice in the choruses—Miss Julia Wyatt, who has a small legion of friends in our city.

GOOD RULES FOR ALL.—Profane language is abominable. Loud laughing is impolite. Inquisitiveness is offensive. Tattling is mean. Telling lies is contemptible. Slandering is devilish. Ignorance is disgraceful, and laziness shameful. Avoid all the above vices, and aim at usefulness. Never be ashamed of honest labor. Pride is a curse—a hateful vice. Never act the hypocrite. Keep good company. Speak the truth at all times. Never be discouraged.

☞ Workmen have been earnestly employed since the late accident upon the Eastern Railroad, in attempting to raise the sunken locomotive. A track has been laid from the shore to low water mark, and they have succeeded in raising the engine and tender.

A convention of Cricketers in New York resolved upon a match between eleven foreigners and eighteen Americans, to take place July 4th.

Much more time and attention is given to amusements, exercise and physical development, by foreigners, than by Americans—this may be about the proportion.

☞ The city authorities of Charlestown have taken the preliminary steps towards having a celebration of the Battle of Bunker Hill. $1500 is to be appropriated for the purpose.

Why are college students like thermometers? They are graduated by degrees—Yes, and many of them run below zero (0) too.

☞ On the Pennsylvania Railroad, in the vincinity of Greensburg, a locomotive exploded, killed three men, and tore the engine to peices.

The man who "took a walk" the other day, brought it back again; but the next day he took a ride, and went off with it.

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its extraordinary curative properties, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" is a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism, and other pains, rub the part smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, MAY 7, 1859.

ERRONEOUS IMPRESSIONS.

Very erroneous ideas prevail in some quarters, of the *two* American Tract Societies. For example the Manchester Mirror of May 4, says :—

The Tract Society trouble will be revived at New York next week at the anniversary meetings. It will be recollected that last year there was a partial disruption, and the Boston Branch was formed. This little New England Branch has not materially affected the great American Tract Society, as its receipts this year are stated to be $383,378, $300 more than the previous year, and that in the face of all the efforts employed in this section by the Branch.—An agent of the Boston Branch preached in this city, last Sabbath, introduced at some churches as such, but he talked of the *American* Tract Society as if he was part and parcel of it, and most who gave had an idea that their money was going into the usual channel. Others better posted withheld. We submit that the operation would have looked better upon any day of the week than Sunday. He carried the idea that the receipts would go for the same benevolent purposes as heretofore, when in reality they were going another way, for aught we know, to do more good. The hypocrisy of the thing is what startles us.—The merits of the two we are not discussing.

We are glad to be able to correct a few of the errors into which the Mirror has been led.

The "Boston Branch,—the little New England Branch," as the Mirror terms it, was *not* formed *last year*, but was formed ten or eleven years before the "great American Tract Society" at New York.

We have now before us, the "Proceedings of the first ten years of the American Tract Society," published in Boston in 1824. In the list of depositaries of this Society, is the name of T. H. Miller, Portsmouth, and names of similar agents in 19 States and 2 Territories and Districts. This was in 1824. The Society was formed in 1814, and was then called the New England Tract Society; in June, 1823, the *name* of the Society was changed to *American*, by the Massachusetts Legislature. But it had *operations* all over the country, years before that.

There was a Religious Tract Society in New York, in 1812;—and the New York State Tract Society was formed at Albany Feb. 26, 1824.

The great American Tract Society in New York, was founded in 1825.

The American Tract Society at Boston soon relinquished its auxiliaries in all the States out of New England, and as many in it as chose to go to New York; passed over its stereotype plates,—and from that time to this has purchased its tracts from the New York Society, of which it has ever been perfectly independent. It has also often made donations to that society.

This society in Boston, (which some wag recommends should be called the *North* American,) is somewhat anti-slavery; and so are vast numbers of the friends of the *South* American Society at New York;—but the numerous old school clerical and other life members, round about New York city, by their votes, put a padlock on certain subjects.

This produced a warm debate, and the end is not yet.

But the agent at Manchester is an agent of the *American* Tract Society,—and the people's money *has* gone in the usual channel, viz. to print "evangelical," or trinitarian tracts.

The agency may be based on folly—but we don't see the "hypocrisy," or novelty, of doing just as the same thing has been done ever since 1814.

The American Tract Society, in Boston, will of course pay their money for tracts, this year, as before to the New York Society, and so not greatly diminish the New York receipts from this quarter.

They have the same right now, as ever, to print tracts of their own, though they probably will not print many, except of kinds they cannot buy.

☞ The news from Europe by the Niagara, from Liverpool April 23, is decidedly warlike. It may be summed up thus:—Austria calls upon Sardinia to disarm, and gives three days for decision, a refusal being war. The propositions of England are rejected by Austria, and French troops are on the march to Italy. There is panic on the Paris Bourse, and a decline in cotton and consols.

☞ A correspondent of an English paper affirms that he learned whilst in France among the best poultry breeders, that the long narrow eggs were set aside as male eggs, or those that would produce male chickens, if hatched out, and that the round, dumpy ones, would produce hen chickens.

Reported for the Chronicle.

N. H. METHODIST CONFERENCE.

THURSDAY P. M., May 5.

The Rev. C. R. Harding gave a sermon founded upon Proverbs 11:30, in which he set forth the agents upon whom the work of winning souls devolves—not upon the minister alone. He, to be sure, is to lead the van, but how little can he do in so great a work, unsustained by the hearty cooperation of the laity. The parent to whose charge immortal spirits are intrusted, has a large share in this work. And so of the teacher; and so of the private christian.—All whose own souls have been won to Christ are to seek in turn to win others.—The second point discussed was the wisdom required and displayed in winning souls. Some allusions to his family connections, illustrating the wonderful potency of a mother's influence, in winning first her children and then her infidel husband to Christ, were deeply interesting.

The services of Thursday evening were of great interest. A large audience assembled to listen to the Conference sermon by Rev. Eleazer Smith. The text was taken from 2 Corinthians 4:1 and 2. The points of the sermon were, first, the work of the ministry; secondly, the apostolic method of prosecuting that work; and thirdly, the encouragements to imitate their fidelity. The speaker gave a practical demonstration of one thought he so ably defended—namely, that the old preachers need not and ought not to be superannuated in mind or body till very far advanced in years. Then they should cheerfully submit to a process similar to that employed in regard to old ships of war, that of razeeing, or being reduced from three deckers to two. His own time for razeeing appears not to have arrived.

FRIDAY, May 6.

Rev. E. Scott led the devotional exercises.

The case of Rev. W. F. Evans, whose health has broken down the past year, was brought before the Conference, and a superannuated relation was granted him.

Rev. F. A. Hewes gave an affecting rehearsal of his sickness the past year.

The great event of the morning was the address by Bishop Ames to the candidates for ordination. It is to be regretted that so few were present to hear so rich a treat.

A few minor matters, including some directions in regard to publishing the minutes, were next disposed of, when the Conference adjourned at 11 1-2 A. M.

FRIDAY AFTERNOON.

Despite of the oppressive warmth of the weather, a large congregation gathered to listen to Rev. L. R. Thayer, of the N. E. Conference.

The text he selected was from Luke 24: 32. In treating upon his subject, he fully justified the report which had reached us of his pulpit ability.

Two propositions were very ably discussed.

First, the gradual development of truth affords the highest joy to the soul.

Secondly, the Gospel of Christ is in the highest degree, calculated to meet this want of our nature.

Just at the close of the sermon, an interruption of a distressing nature occurred.—The Rev. J. C. Ingalls, of the N. E. Conference, was attacked with a fainting fit, and fell heavily to the floor. He was soon partially restored.

But the agent at Manchester is an agent of the *American* Tract Society,—and the people's money *has* gone in the usual channel, viz. to print "evangelical," or trinitarian tracts.

The agency may be based on folly—but we don't see the "hypocrisy," or novelty, of doing just as the same thing has been done ever since 1814.

The American Tract Society, in Boston, will of course pay their money for tracts, this year, as before to the New York Society, and so not greatly diminish the New York receipts from this quarter.

They have the same right now, as ever, to print tracts of their own, though they probably will not print many, except of kinds they cannot buy.

☞ The news from Europe by the Niagara, from Liverpool April 23, is decidedly warlike. It may be summed up thus:—Austria calls upon Sardinia to disarm, and gives three days for decision, a refusal being war. The propositions of England are rejected by Austria, and French troops are on the march to Italy. There is panic on the Paris Bourse, and a decline in cotton and consols.

☞ A correspondent of an English paper affirms that he learned whilst in France among the best poultry breeders, that the long narrow eggs were set aside as male eggs, or those that would produce male chickens, if hatched out, and that the round, dumpy ones, would produce hen chickens.

☞ A Philadelphia Alderman named Allen has been convicted in the Criminal Sessions of conspiracy to defraud a countryman named Karsteter. Two ward constables had previously been convicted of larceny in robbing the same man of $250. He was a stranger, on his way to Pike's Peak, and while in Philadelphia got drunk; and these three worthies, under the pretence of punishing him for some imaginary misdemeanors, fleeced him.

☞ The case of David Brown vs. the South Kennebec Agricultural Society, being an action to recover damages sustained by the plaintiff's wife on account of the breaking of a floor at the Society's Fair in 1857, was tried at the late term of the Supreme Court at Bath, and resulted in a verdict for plaintiff for $1000.

☞ Some candidate for hanging lately knocked off and carried away from a child's tomb-stone recently erected in Winsted, a beautiful marble figure of a lamb which was carved on stone.

☞ The Utica Telegraph chronicles the elopement of two young men, aged, respectively, 15 and 16, with two young women aged 14 years. Rather young and tender!

☞ The emigration to Aroostook, Me., is ly to be very large this season.

"Kind friends we're with you once again."

COOPER'S NOVELS,
ILLUSTRATED ON STEEL AND WOOD,

FROM ORIGINAL DRAWINGS BY F. O. C. DARLEY.

The Publishers commenced February 1st, 1859, the publication of an entirely new edition of COOPER'S NOVELS, issued with great elegance, and illustrated on steel and wood, from drawings by F. O. C. Darley. The size is crown octavo; the type clear and elegant; it is printed on a beautiful cream-tinted and calendered paper, of superior stock and finish, manufactured expressly for this edition; and bound in embossed cloth, with beveled edges, and stamped in gilt upon the side and back, from new and appropriate designs.

Each volume contains two steel plates, and twelve designs on wood, all from the pencil of Darley, making a total in the series of FIVE HUNDRED ENGRAVINGS, at a cost exceeding *Twenty Thousand Dollars.* The steel plates are the most mostly works of art of their kind yet produced in this country. The spirited and admirable drawings by Mr. Darley, whose genius was never so much at home as upon the picturesque pages of Cooper, have been engraved with rare delicacy and finish, in Line and Etching, by the most eminent engravers, at a cost far exceeding the usual expenditure upon publications of the kind.

Published by subscription.—Price $1.50 per volume, each volume containing a novel complete.—The publication commenced February 1st, 1859, and a volume will be issued on the 1st day of each month. The entire series will be completed in 32 volumes, uniform, embracing all the author's tales and romances, and containing his latest revisions and corrections.

SPECIAL NOTICES.

SEWING MACHINES.

The Grover & Baker are always preferred, when coming in competition with any other machines.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair. We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of its higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whoever may be the experience with other Machines, we never know a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.
PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

WEAKNESS OF THE KIDNEYS.—In the affection of the kidneys, called "Bright's Disease," the general prostration and lumbar weakness generally resist all medical treatment, and the patient sinks slowly, but surely into the grave. If disorganization has not proceeded too far, the PERUVIAN SYRUP will arrest the granular disease, and restore the patient to comfortable if not to perfect health.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the **R. R. R.** Remedies prompt, quick and efficient. Persons who have suffered from Erysipelas, Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTER.

THIS GIN, Distilled in London, rom sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and is one of the most valuable restoratives of the vey-able kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, LOW FEVER, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from these distressing annoyances which frequently attend their delicate organization.

Dr. Dunglison, of New York, a highest medical authority, pronounces Charles' London Cordial Gin, "most only superior to any other, but the best article of the kind he has ever met with."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts and pints—five dollars, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER is IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Dorr, 7 Faneuil Hall; S. N. Foster, 20 Elm st.; J. Morse, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. BUST OF DR. BURROUGHS.—We saw at Williams & Everett's Boston, this morning, a most excellent bust of a most excellent man—a likeness, admirable in every point, and a work of art worthy of high praise.—Mr. D. M. French, the sculptor, is a new name to us, but his skill commends him at once to all who stand before his productions.

Rev. Charles Burroughs, D. D., was born in Boston, but has been the Rector of St. John's Church in Portsmouth, N. H., for half a century. A Christian gentleman, a scholar liberal and learned, a citizen beloved and honored, his bust, thus rendered in enduring marble, will be looked upon always with the warmest feelings of respect. The artist has achieved a triumphant success.—*Transcript.*

Mr. French is well known in this vicinity. He is a native of New Market, and early shew great taste for Sculpture, which has been well cultivated and with good success. His first marble work presented to the public here was a small Psyche; which was soon followed by his taking a studio here—where he has created and copied quite a gallery of busts. A beautiful ideal bust of Truth, feminine, of course, he has twice produced in marble for orders; with a bust of the late Samuel Badger, Esq., the well known ship-builder here—and the bust above named.

Beside these, he has cut many busts and heads from shells, for cameo pins; and has now an excellent cast of Rev. Dr. Peabody, which will without doubt be ordered in marble ere long.

We take great pleasure in placing before our readers the above item from the Transcript—a just tribute to both of our fellow citizens named.

☞ The Rockingham Weekly Chronicle containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents, $1 per year, in advance.

Among the contents this week, is a full report of the Methodist Conference up to Thursday.

☞ It is reported in the papers, that the author of the able and valuable article in the May Atlantic Monthly, on the Gymnasium, is Dr. David W. Cheever.

GOVERNMENT TROUBLES.—The Washington correspondent of the Journal of Commerce says, "despatches from Mexico embarrass the Executive. The United States are likely to be involved in a quarrel with Miramon. Our government has issued orders to augment the naval force in the Gulf. Special instructions have been sent to Mr. McLane, for the protection of American interests."

The same writer says—"the new Utah complication arises not only from a discrepancy betwen the instructions and powers of the commanding General, Johnston, and those of the civil Governor, Cumming, but from a radical and original difference of opinion between those officers, as to the mode of treating the Mormons. The government has neglected to modify the instructions of Col. Johnston, as commander of the Utah expedition, after other instructions connected therewith had been given to Gov. Cumming. Their powers are now conflicting, and neither will yield to the other. It is also necessary that the President should explain the meaning and intention of the amnesty proclamation, inasmuch as Gen. Johnston and the U. S. Judges have considered it as waste paper."
